Independent Auditors' Report

To Plan Participants and Administrator
CPM 401(k) Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying financial statements of CPM 401(k) Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statement of net assets available for benefits as of December 31, 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of CPM 401(k) Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2022 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2022 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of CPM 401(k) Retirement Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about CPM 401(k) Retirement Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of CPM 401(k) Retirement Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about CPM 401(k) Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental schedule of Assets (Held at End of Year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Other Matter – Auditors' Report on the 2021 Financial statements

Predecessor auditors performed an audit of the 2021 financial statements of CPM 401(k) Retirement Plan. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the plan that were certified by a qualified institution. Their report dated October 11, 2022 indicated that (a) the amounts and disclosures in the 2021 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America, and (b) the information in the 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C). Their report also indicated that the form and content of the 2021 supplemental schedules, other than the information in the 2021 supplemental schedules that agreed to or is derived from the certified investment information, were presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA; and the information in the 2021 supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determines meets the requirements of ERISA Section 103(a)(3)(C).

1. Summary of Significant Accounting Policies

Use of Estimates in the Preparation of Financial Statements – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Effective Year – The effective date of the CPM 401(k) Retirement Plan ("Plan") is July 1, 1994, and the Plan is accounted for on a calendar year basis. The Plan was established by the Board of Directors of Campbell Property Management & Real Estate, Inc. (the "Company"). The Plan was restated during the year, with an effective date of December 14, 2022.

Plan name change – The name of the plan is CPM 401(k) Retirement Plan. The former name of the plan was CPM & Rosemurgy Properties 401(k) Retirement Plan.

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Investment Valuation and Income Recognition – Investments are reported at fair value. Units of the common collective trusts and guaranteed investment contracts are valued at the NAV value as determined by the trustee. If available, quoted market prices are used to value investments. Mutual funds are stated at fair value, which is the quoted market price in an active market of the shares owned on the last day of the Plan year. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Voya Fixed Account is a guaranteed investment contract and is reported at contract value. Contract value is equal to participant deposits minus participant withdrawals plus credited interest. Interest credited is net of expenses. Contract value may be subject to adjustments in connection with contract holder directed withdrawals that are subject to a market value adjustment or under limited circumstances for certain in-service participant withdrawals. The fair value of the Voya Fixed Account is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The carrying value of accounts receivable and accounts payable approximates fair value due to their short-term nature.

Payment of Benefits – Benefits paid to participants are recorded when paid.

Deemed Loan Distributions – Deemed loan distributions are recorded when the participant defaults on the loan.

Administrative Expenses – The Company has agreed and is responsible for part of the investment and audit expenses of the Plan. Expenses totaling $27,355 and $22,445 for the years ended December 31, 2022 and 2021, respectively, were charged to participants' accounts. These expenses are part of the investment fees, fees for withdrawals of a participant or fees on loans to participants.

2. Plan Description

The following brief description of the Plan is provided for general information purposes only. More complete information regarding the Plan's provisions may be found in the Plan agreement, which is available to all participants upon request.

General – The Plan is a defined contribution plan with discretionary contributions made by participating employees. The Plan was formed for all employees who have met the eligibility requirements, generally attainment of age twenty-one and one year of continuous service. Effective December 14, 2022, eligibility requirements were changed to attainment of age twenty-one and 60 days of service The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Each year, participants may elect to defer from 1% to 20% of their pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers numerous mutual funds and an insurance investment contract as investment options for participants. The Company may contribute at the option of the Company's board of directors. Contributions are subject to certain limitations.

Participants Accounts – Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contributions and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Participants become vested in Employer Contributions and their related investment earnings according to the following schedule:

Years of Service	Vested Percent
0-1 year	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Employer contributions automatically become fully vested upon reaching the Plan's normal retirement age, death, or disability.

Funding Policy – The Plan provides for discretionary profit-sharing or matching contributions to be made by the Company to all employees.

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 7.25% percent, which are commensurate with commercial lending institutions. Interest rates for outstanding loans are determined at the time of the

loan. Principal and interest is paid ratably through monthly payroll deductions.

Hardship Withdrawals – Upon meeting certain hardship qualifications, a participant may be approved to draw upon his/her vested contributions.

Payment of Benefits – A member may retire on a normal retirement benefit on the first day of any month coinciding with or following attainment of age 65. Generally, distributions must begin no later than April 1, following the close of the calendar year in which the participant becomes age 70½, even if the participant is still working. The participant elects the form of benefit payment based on the account balance and certain guidelines within the Plan description. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts – Forfeitures are created when participants terminate employment before becoming fully vested in discretionary contributions. At December 31, 2022, there were no forfeitures under the Plan. For the year ended December 31, 2022, forfeited non-vested accounts totaled $552.

3. Information Prepared and Certified by Custodians

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, United of Omaha Life Insurance Company ("Mutual of Omaha") and Voya Retirement Insurance and Annuity Company ("Voya"), the custodians, have certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, at fair value, as shown in the statements of net assets available for benefits, as of December 31, 2022 and 2021;
- Total investment income, excluding interest income on notes receivable from participants, and related investment activity as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2022;
- The Schedule of Assets (Held at End of Year), excluding participant loans, as shown in the supplemental schedule, as of December 31, 2022.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Inputs to the valuation methodology include:

- Quoted prices for identical assets or liabilities in active markets;

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Registered Investment Companies: These investments represent designated mutual funds and are valued daily at their accumulation unit value. If underlying mutual funds are actively traded, Level 1 classification is considered appropriate for the registered investment company.

Common/collective trusts: Investments are measured at net asset value provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is not a publicly traded quoted price in an active market but is used as a practical expedient to estimate fair value. In accordance with the Fair Value Measurements topic 820-10, certain investments that are measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy.

Mutual funds in pooled separate accounts (as of December 31, 2021): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. While the underlying asset values may be based on quoted market prices, the net asset value of the portfolios is not publicly quoted. Accordingly, these investments have been reported as level 2.

Guaranteed Investment Contract (as of December 31, 2021): Guaranteed investment contract with an insurance company: As there is no observable market price for these types of contracts, the fair value is calculated by projecting contract balances, at the valuation date, forward to maturity dates using the contract guaranteed interest rate net of management fees and then discounting this value back using the current new money declared interest rates for each appropriate maturity term. In cases where the remaining maturity term does not fall on a declared rate term, the rate from the nearest two maturity term rates is linearly interpolated.

Guaranteed Investment Contract (as of December 31, 2022): The Voya Fixed Account held by the Plan as of December 31, 2022 is fully benefit-responsive and reported at contract value. As such, the Voya Fixed Account is excluded from the fair value hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or

assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022 and 2021:

	Investment Assets at Fair Value December 31, 2022			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$3,758,152	–	–	$3,758,152
Investments in the fair value hierarchy	$3,758,152	–	–	3,758,152
Common/collective trusts, measured at NAV (a)				457,080
Total investments at fair value				$4,215,232

(a) In accordance with the Fair Value Measurements topic, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of Net Assets Available for Benefits.

	Investment Assets at Fair Value December 31, 2021			
	Level 1	Level 2	Level 3	Total
Mutual funds in pooled separate accounts	–	$4,718,046	$ –	$4,718,046
Guaranteed investment contract	–	–	359,613	359,613
Total assets at fair value	–	$4,718,046	$359,613	$5,077,659

The following table represents the Plan's Level 3 financial instruments as of December 31, 2021. The valuation techniques used to measure the fair value of those financial instruments and the significant unobservable inputs and the ranges of values for those inputs as of December 31, 2021:

Asset	Fair Value	Principal Valuation Technique	Unobservable Inputs	Weighted Average
Guaranteed Account	$ 354,279	Discounted cash flow	Discounted rate	1.0469%
Lifetime Guaranteed Income Account	5,334	Discounted cash flow	Discounted rate	1.1301%

The fair value is estimated by discounting the cash flows of the guaranteed interest account to December 31, 2021 using a discount rate that represents the December 31, 2021 interest rate that would be credited on accounts of similar duration.

Fair Value Discount Rates (Current Declared Interest Rates) Term (in years)

Net Rate as of	0.25	0.5	1	2	3	4	5	6	7	8	9
12/31/2021	-0.37	-0.23	-0.02	0.38	0.99	1.30	1.56	1.62	1.67	1.70	1.72

5. Guaranteed Investment Contract ("GIC")

As of December 31, 2022, the Plan offered an investment option in a guaranteed investment contract, the Voya Fixed Account. The contract underlying this option is considered fully benefit responsive and is reported on the Statement of Net Assets Available for Benefits at contract value. As of December 31, 2022, the contract value of the investment in insurance contracts was $362,080.

The crediting interest rates to participants for the Voya Fixed Accounts as of December 31, 2022 was 3.00%. The guaranteed minimum crediting interest rates for the contract for the years ended December 31, 2022 was 3.00%.

Voya's determination of credited interest rates reflects a number of factors, including mortality and expense risks, interest rate guarantees, the investment income earned on invested assets and the amortization of any capital gains and/or losses realized on the sale of invested assets. A market value adjustment may apply to amounts withdrawn at the request of the contract holder.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan) (ii) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions; or (iii) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such event which would limit the Plan's ability to transact at contract value with participants is probable.

6. Parties-in-Interest

The Plan changed recordkeepers and investment custodians from Mutual of Omaha to Voya in December 2022. Certain Plan investments are shares of mutual funds administered by Mutual of Omaha and Voya, the custodians of the Plan

during 2022; therefore, these transactions qualify as party-in-interest transactions. Fees paid for the investment management services are paid by the Company.

7. Plan Termination

While the Company has not expressed any intent to terminate the Plan, it reserves the right at any time to amend, modify or terminate the Plan without the consent of any participant or beneficiary. In the event of such termination, the Plan provides that the participants shall immediately become 100% vested in their accounts, including all employer contributions.

8. Tax Status

Company's Plan has been adopted using Plan options offered under The Guardian Insurance & Annuity Company, Inc., Inc. Prototype "Flexinvest" Profit-Sharing 401(k) Plan (the "Prototype"). This Prototype has been determined to be acceptable under Section 401 of the Internal Revenue Code by the U.S. Treasury Department. The Company has received a determination letter from the U.S. Treasury Department regarding qualification of its Plan specifically. The Plan type is a trustee profit sharing 401(k) salary deferred thrift Plan. The Prototype plan was not changed when Mutual of Omaha or Voya became custodians of the Plan.

The Plan has been amended since receiving its determination letter dated August 17, 1995. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed, and currently being operated, in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believe that the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2019.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near

term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

10. Date of Management's Review

In preparing the financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through October 24, 2023, the date that the financial statements were available to be issued.

11. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2022, to the Form 5500:
