Independent Auditor's Report

Plan Trustee
Federal Resources Supply Company 401(k) Plan
Stevensville, Maryland

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Federal Resources Supply Company 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of April 8, 2022 and December 31, 2021, and the related statement of changes in net assets available for benefits for the period from January 1, 2022 to April 8, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of April 8, 2022 and December 31, 2021, and for the period from January 1, 2022 through April 8, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report.

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- the certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Plan Merger

Effective April 8, 2022, the Plan was merged into the Noble Sales Co., Inc. 401(k) Profit Sharing Plan and Trust as described in Note 1 to the financial statements.

Federal Resources Supply Company 401(k) Plan

Notes to the Financial Statements

1. Description of the Plan

The following description of the Federal Resources Supply Company 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document and any amendments thereto for a more complete description of the Plan's provisions.

General

The Plan was established effective January 1, 2014 and was a defined contribution plan covering all employees of Federal Resources Supply Company (the Company) who are 21 years of age or older and had completed three consecutive months of service. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Effective September 30, 2021, the plan was amended to cease participation of Wright Tool Company, LLC (subsidiary of the Company) employees in the Plan. On March 15, 2022, net assets totaling \$387,924 were transferred to Vensure Employer Services, Inc. 401(k) Profit Sharing Plan, which included \$14,699 of outstanding participant loans.

Effective April 1, 2022, the Plan was merged into the Noble Sales Co., Inc. 401(k) Profit Sharing Plan and Trust (Noble Plan). As of April 8, 2022, net assets of the Plan totaling \$12,628,006 were merged into the Noble Plan, which included \$163,919 of outstanding participant loans.

Trustee and administration of the Plan

The trustee and recordkeeper of the Plan was Capital Bank and Trust Company (Capital or Trustee). The administrator of the Plan was the Company. The trustee held all assets of the Plan in accordance with the service provider contract with the Company. The Plan Administrator was responsible for oversight of the Plan. The Plan's management determined the appropriateness of the Plan's investment offerings, monitored investment performance and reports to the Plan's Trustee.

Contributions

Participants may have made pretax deferrals up to the maximum amount permitted by law. Participants may have made after-tax contributions (Roth). Participants who attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants may also have contributed amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover contributions). The Company made safe harbor matching contributions of 100% of the first 3% of eligible compensation plus 50% of elective deferrals that exceed 3% but did not exceed 5% of eligible compensation. For the period from January 1, 2022 through April 8, 2022, the Company made safe harbor contributions of \$225,977. The Company may have made discretionary matching contributions and nonelective profit sharing contributions; however, no such contributions were made for the period from January 1, 2022 through April 8, 2022. Contributions were subject to certain Internal Revenue Service (IRS) limitations.

Investment options

Upon enrollment in the Plan, a participant may direct all contributions to selected investments as made available and determined by the Plan Administrator in 1% increments. Participants may change their investment options daily.

Notes to the Financial Statements

Participant accounts

Each participant's account was credited with the participant's contributions, the Company's safe harbor matching contributions, and the Company's discretionary matching contributions and allocations of any Company discretionary profit-sharing contributions and Plan earnings/losses and charged with an allocation of administrative expenses. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled was the benefit that can be provided from the participant's vested account.

Vesting

Participants were vested immediately in their contributions and safe harbor matching contributions, plus actual earnings thereon. Participants were not vested in the Company's discretionary matching and nonelective profit sharing contributions, plus actual earnings thereon, until completion of three years of service, at which time the participant became 100% vested.

Payment of benefits

Upon termination of service, death, or disability, a participant or his or her designated beneficiary may have elected to receive either a lump-sum amount equal to the value of the participant's account or an annuity. However, distributions of accounts with vested balances less than \$5,000 must be in the form of a lump-sum distribution. In certain hardship situations, as defined in the Plan, participants may have withdrawn all or part of their account balances while actively employed.

Forfeitures

At April 8, 2022 and December 31, 2021, there were no forfeited non-vested accounts. These accounts may be used to pay administrative expenses and reduce future employer contributions. No forfeitures were used to pay administrative expenses and/or fund employer contributions in 2022.

Notes receivable from participants

Participants may have borrowed from their accounts a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance except for amounts borrowed under the CARES Act. The notes were secured by the balance in the participant's account. In general, loan repayment terms ranged from one to 5 years, or longer for the purchase of a principal residence, but did not to exceed 15 years. The interest rate on each note, determined quarterly, was set at 2% above the prime rate, as defined. Interest rates on loans outstanding ranged from 5.25% to 7.50% for the period from January 1, 2022 through April 8, 2022. Principal and interest were paid ratably through payroll deductions.

2. Summary of Significant Accounting Policies

Basis of accounting

The Plan's financial statements were prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Federal Resources Supply Company 401(k) Plan

Notes to the Financial Statements

Use of estimates

The preparation of financial statements in accordance with GAAP required the Plan's management to make estimates and assumptions that affected the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may have differed from estimated amounts.

Investment valuation and income recognition

Investments were reported at fair value. Fair value was the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determined the Plan's valuation policies utilizing information provided by the Plan's investment advisors and investment custodians. See Note 4 for further information related to fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net depreciation included the Plan's gains and losses on investments bought and sold, as well as held during the period from January 1, 2022 through April 8, 2022.

Notes receivable from participants

Notes receivable from participants were measured at the unpaid principal balances plus any accrued but unpaid interest. Interest income was recorded on the accrual basis. Related fees were recorded as administrative expenses and are expensed when they were incurred. If a participant ceased to make loan repayments and the Plan Administrator deemed the participant loan to be in default, the participant loan balance was reduced and a benefit payment was recorded.

Contributions

Contributions from Plan participants and the Company's safe harbor matching contributions were recorded in the year in which the participant contributions were withheld from amounts paid. The Company's discretionary matching contributions and nonelective profit sharing contributions were recognized upon authorization in the year that the underlying compensation was recognized. All participant and employer contributions were participant-directed. Participant contributions in excess of amounts allowed by regulation were recorded as a liability with a corresponding reduction in contributions. As of April 8, 2022 and December 31, 2021, the Plan did not have any contributions in excess of amounts allowed by regulation.

Payment of benefits

Benefits were recorded when paid.

Administrative expenses

Certain expenses of maintaining the Plan were paid by the Plan, unless otherwise paid by the Company. Expenses that were paid by the Company were excluded from these financial statements. Fees related to the administration of notes receivable from participants were charged directly to the participant's account and were included in administrative expenses. Investment-related expenses were included in net depreciation of fair value of investments.

3. Certified Investment Information

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements, including investments and notes receivable from participants held at April 8, 2022 and December 31, 2021, and net depreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the period from January 1, 2022 through April 8, 2022, was obtained by management and agreed to or derived from information certified was complete and accurate by Capital Bank and Trust Company, a qualified institution.

At the request of the Plan Administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information in the financial statements, including reading the disclosures related to the investment information to assess whether they were in accordance with the presentation and disclosure requirements of GAAP.

4. Fair Value Measurements

Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides for a fair value hierarchy that prioritized the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy was based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at April 8, 2022 and December 31, 2021.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission.

Federal Resources Supply Company 401(k) Plan

Notes to the Financial Statements

These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Collective Trust (CCT) Fund: Represents investments with various investment managers. Units held in the CCT are valued at the NAV. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. The CCT invests in the MetLife Group Annuity Contracts 25157, which consist of investments in fixed income securities, and also enters into wrapper contracts, which are issued by third-parties and are designed to allow the Fund to maintain a constant NAV. There are no unfunded commitments. The CCT provides for daily redemptions by the Plan at reported NAV. There are no advance notice requirements for participants. If the Plan initiates a full redemption of the stable value collective trust fund, the issuer reserves the right to require 12-months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner. The CCT is a direct filing entity.

The preceding methods described above may have produced a fair value calculation that may not have been indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believed its valuation methods were appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There were no assets held at fair value at April 8, 2022 as a result of the merger with the Noble Plan.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2021.

	Assets at Fair Value as of December 31, 2021			
	Total	Fair Value Hierarchy Level		
		Level 1	Level 2	Level 3
Investments measured at fair value level:				
Mutual funds	\$ 14,394,755	\$ 14,394,755	\$ -	\$ -
Total investments measured at net asset value (NAV)*	19,568			
Total investments at fair value	\$ 14,414,323			

* In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items present in the statements of net assets available for benefits.

There are no transfers between levels during the period from January 1, 2022 through April 8, 2022.

5. Related Party Transactions and Party-In-Interest Transactions

Certain Plan investments were in funds and accounts that were managed by Capital Bank or their subsidiaries and affiliates. Participant loan and distribution processing fees were paid to Capital Bank by participants. The Plan paid for third party administrator fees, investment advisory, and plan audit fees which qualify as party-in-interest transactions. The Plan also issued loans to participants which were secured by the vested balance of the participants' accounts. Certain management fees in the form of an expense ratio charged to each investment option were paid by the Plan and deducted from earnings on investments. These transactions were party-in-interest transactions, which were exempt from prohibited transaction rules.

6. Income Tax Status

The Plan operated under a prototype plan sponsored by Verisight, Inc. The prototype plan had received an opinion letter dated June 30, 2020 from the IRS as to the prototype plan's qualified status. The prototype plan opinion letter had been relied upon by this Plan. The Plan Administrator believed that the Plan was designed and was being operated in compliance with the applicable provisions of the Internal Revenue Code (IRC).

GAAP requires the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan was subject to routine audits by taxing jurisdictions; however, there were currently no audits for any tax periods in progress.

7. Risks and Uncertainties

The Plan held various investment securities. Investment securities, in general, were exposed to various risks, such as interest rate risk, credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it was reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements and participant account balances.

8. Subsequent Events

The Plan Administrator has evaluated subsequent events through October 27, 2023 the date the financial statements were available to be issued. The Plan Administrator is not aware of any subsequent events which would require recognition or disclosure in the financial statements.
