Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Saint Mary's College Defined Contribution Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021 and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(Continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

(Continued)

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4a – Schedule of Delinquent Participant Contributions and Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of and for the year ended December 31, 2022 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTE 1 - PLAN DESCRIPTION

The following description of Saint Mary's College Defined Contribution Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of the Saint Mary's College ("College"). Excluded from participation are adjunct professors/instructors, students performing services exempt from FICA, and non-resident aliens. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility: Faculty Employees are eligible to contribute employee deferrals and receive an employer contribution upon their date of hire. Hourly Employees are eligible to contribute employee deferrals upon their date of hire and are eligible to receive employer contributions after turning age twenty-one and completion of one year of service.

Contributions: Faculty Employees and Hourly Employees (collectively "Participants") may defer a percentage of or a specified dollar amount from the eligible earnings on a pre-tax basis, provided such contribution do not exceed annual limitations as set forth by the Internal Revenue Service ("IRS"). The College is required to match 100% up to 6% of contributions deferred for Faculty Employees during their first two years of service. Faculty Employees that do not make a pre-tax basis contribution receive an employer contribution equal to 3% of eligible compensation during their first two years of service. For those Faculty Employees with greater than two years of service, the College is required to make a contribution of 10% of the Faculty Employees total eligible compensation for the Plan year. The College is required to make a non-elective contribution on behalf of Hourly Employees in an amount equal to a percentage of compensation. The percentage of compensation is determined based on years of service.

Rollover Contributions: A participant may contribute amounts distributed or transferred from another qualified plan, as defined in the Plan.

Investment Options: The assets of the Plan are held by Teachers Insurance and Annuity Association ("TIAA") and College Retirement Equities Fund ("CREF") (collectively TIAA and CREF) and TIAA, FSB. Participants direct the investment of the contributions into various investment options offered by the Plan. The Plan currently offers fixed and variable annuity accounts and mutual funds as investment options for participants.

Vesting: Participants are immediately 100% vested in any allocable contributions.

Participant Accounts: Individual account balances are maintained for each participant. Each participant's account is credited with the participant's contribution and allocations of the College's contribution and Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. Participants have a fully vested interest in all contributions made by them and in the Plan's earnings/losses on those contributions at all times.

Payment of Benefits: Payments of benefits are made to participants or their beneficiaries upon death, retirement, disability, or termination of employment. Benefits are payable in a qualified joint and survivor annuity, annuities allowed under the funding vehicle contracts, installments, and lump-sum payments. Benefits owed to terminated participants are included in net assets available for benefits. A participant may withdraw all or a portion of the value of his or her vested interest prior to termination of employment upon meeting certain requirements as set forth in the Plan document.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment Valuation and Income Recognition: The Plan's investments other than fully benefit-responsive investment contracts are reported at fair value. Contract value is the relevant measure for the Plan's fully benefit-responsive investment contracts, because contract value is the amount Plan participants generally receive when executing transactions under the terms of the contract and Plan provisions. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following are descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of its investments.

Mutual Funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

TIAA Traditional Annuity Contracts (not fully benefit-responsive): The TIAA Traditional Contracts are individual guaranteed fixed annuity investment contracts issued by TIAA. Due to certain liquidity restriction provisions, some of the contracts within the TIAA Traditional Annuity contract held by the Plan are not fully benefit-responsive and, accordingly, are measured at fair value.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued)

TIAA and Plan management have determined contract value to be the most reasonable estimate of fair value for these contracts. Contract value equals the contributions deposited into the contracts, plus interest credited to the contracts, less contract withdrawals, and it reflects the value at which participant transactions are executed under the contracts. The contract value reflects the theoretical transfer (exit) value available to the Plan and Plan participants. The fair values of the Plan's investment contracts have been estimated by TIAA by discounting the projected cash flows using risk-adjusted market discount rates which correlate closely with TIAA Traditional Annuity's historical interest crediting rates (generally 3% for current premiums on accumulating annuities, but in some recent contracts between 3% and 5% and provide the potential for additional interest as declared by TIAA's discretion).

The contract values are guaranteed by TIAA. Based upon recent credit ratings for TIAA, management believes no adjustment to contract value is required related to credit quality. Since investment contracts are not transferable, there is no market from which to obtain observable market prices for the contracts held by the Plan or comparable contracts (Level 3 inputs).

Variable Annuity Accounts: The fair values of the Plan's investments held in the TIAA Real Estate Account and the CREF variable annuity accounts are determined by obtaining quoted prices on the NASDAQ Stock Market (Level 1 inputs).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

		Fair Value Measurements at December 31, 2022, Using

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued)

The significant unobservable inputs used in the fair value measurement of the Plan's investment in TIAA Traditional Annuity are the discount rates and the projected interest crediting rates. Based upon historical TIAA Traditional Annuity's crediting rates, the discounted cash flows analysis assumes that the risk-adjusted market discount rates approximate the future interest crediting rates under the contracts. Accordingly, changes in these rates have directly offsetting impacts upon the fair value estimate of these contracts.

Payments to Insurance Carrier for Purchase of Annuities: Participants are able to use their asset balance in the Plan to purchase immediate annuities from an insurance carrier. When participants utilize their asset balance to purchase an immediate annuity from an insurance carrier, the assets leave the Plan and are no longer considered Plan assets. During the Plan year ended December 31, 2022, there was \$486,928 in payments to an insurance carrier for purchase of annuities.

Risks and Uncertainties: The Plan holds various investments. The investments are exposed to various risks, such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.

Assets Pledged as Collateral: Participants are permitted to obtain loans directly from TIAA and CREF. Adequate security is required and a portion of the participant's account serves as collateral, to cover 110% of the outstanding loan in case of default. The loans bear a rate of interest as determined in the controlling contract. The amount of Plan assets that were pledged as collateral for loans issued to participants by TIAA and CREF at December 31, 2022 and 2021 was \$20,030 and \$43,762, respectively.

Payment of Benefits: Benefits are recorded when paid.

Administrative Expenses: Certain fees and administrative expenses are paid by the College.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

**NOTE 3 - TIAA TRADITIONAL INDIVIDUAL FIXED ANNUITY CONTRACTS AND TIAA STABLE VALUE
FIXED RATE GROUP ANNUITY CONTRACT**

The Plan holds fully benefit-responsive investment contracts through its investment holdings in the TIAA Traditional Account and TIAA Stable Value SA (TIAA; Issuer). The TIAA Traditional Individual Fixed Annuity Contracts are individual guaranteed fixed annuity investment contracts issued by TIAA. Within the TIAA Traditional Individual Fixed Annuity Contracts are six types of contracts available to participants: the Retirement Annuity (RA), the Group Retirement Annuity (GRA), the Retirement Choice (RC), the Supplemental Retirement Annuity (SRA), the Group Supplement Retirement Annuity (GSRA), and the Retirement Choice Plus (RCP). Each of these contracts have unique provisions and qualities. There are certain liquidity restrictions on the RA, GRA, and RC contracts. Participants with RA, GRA, and RC contracts have certain restrictions over the availability of lump-sum withdrawals from the contracts as well as over the number of installments in which participant-initiated transfers and participant-initiated withdrawals are made. Based on these provisions, the RA, GRA, and RC contracts are considered to be non-fully benefit-responsive. As there are no comparable restrictions over the SRA, GSRA, and RCP contracts, those contracts are considered fully benefit-responsive. Participants in the Plan hold investments in both non-fully benefit-responsive and fully benefit-responsive contracts through the TIAA Traditional Account. As of December 31, 2022 and 2021, the contract value of the Plan's investments in fully benefit-responsive TIAA Traditional Annuity contracts are \$8,638,533 and \$8,864,667, respectively.

Participants who chose to allocate a portion of their retirement savings to the TIAA Traditional Annuity make contributions that purchase a specific amount of lifetime income based on the contractual rate of interest guaranteed by TIAA's claims paying ability. The TIAA Traditional Annuity also provides an opportunity for participants to receive additional amounts, which the TIAA Board of Trustees may declare on a year by year basis. These additional amounts, when declared, remain in effect for the 12 month "declaration year" that begins each March 1 for accumulating annuities and January 1 for lifetime payout annuities; they are not guaranteed for future years. Together the guaranteed minimum and additional amounts make up the crediting interest rate. The guaranteed interest rate for TIAA Traditional Annuity contracts, RA, GRA, SRA, and GSRA is 3% and is between 1% and 3% for the RC and RCP contracts.

When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the statement of change in net assets available for benefits.

There are no conditions specified in any of the contracts under which participant withdrawals and transfers would be restricted or made at a value other than contract value or the annuity or lump-sum benefit, as defined in the contracts. The contracts do not provide any provisions that would allow the Issuer to terminate the contracts between the Issuer and the participants.

The TIAA Stable Value Account is a fixed-rate group annuity contract offered by TIAA. Contributions are maintained in a non-unitized separate account of TIAA and buy a contractual or guaranteed amount of future benefits for the participant. Allocations to the TIAA Stable Value annuity are backed by the value of the assets in the separate account and, if insufficient, by TIAA's claims-paying ability.

NOTE 3 - TIAA TRADITIONAL INDIVIDUAL FIXED ANNUITY CONTRACTS AND TIAA STABLE VALUE FIXED RATE GROUP ANNUITY CONTRACT (Continued)

The contract provides a guaranteed minimum rate of interest of between 1% and 3% before deductions for contract fees with the potential for crediting of additional interest above the guaranteed minimum. With respect to TIAA Stable Value, additional interest, called additional amounts, when declared by the TIAA Board of Trustees, remain in effect from January 1 through June 30 and from July 1 through December 31 and are not guaranteed for future periods.

The TIAA Stable Value is immediately liquid to participants and does not have participant-level withdrawal restriction. There are, however, equity wash provisions that prevent the immediate transfer of amounts to any competing funds available in the Plan. As such TIAA Stable Value is a benefit-responsive contract. As of December 31, 2022 and 2021, the contract value of the Plan's investment in TIAA Stable Value Account are \$1,490,549 and \$1,606,819, respectively.

The average yield earned by the Plan for all benefit-responsive contracts can be calculated by dividing the annualized earnings of all benefit responsive contracts by the fair value of all benefit-responsive contracts. As of December 31, 2022 and 2021, the average yield earned was 0.35% and 0.04%, respectively.

NOTE 4 - PLAN TERMINATION

Although it has not expressed any intent to do so, the College has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA and its related regulations.

NOTE 5 - CERTIFIED INVESTMENTS

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments held at December 31, 2022 and 2021, and net depreciation in fair value of investments and interest and dividends for the year ended December 31, 2022, was obtained by management and agreed to or derived from information certified as complete and accurate by TIAA and CREF.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor ("DOL") regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Plan holds mutual funds, variable annuity accounts and individual fixed annuity investment contracts managed by TIAA and CREF; therefore, these transactions qualify as party-in-interest transactions. Certain administrative functions are performed by officers or employees of the Plan sponsor. No such officer or employee receives compensation from the Plan. Investment management fees and operating expenses charged to the Plan for investments in registered investment companies and variable annuity accounts are deducted from income earned on a daily basis and are not separately reflected. Consequently, investment management fees and operating expenses are reflected as a reduction of investment return for such investments.

NOTE 7 - TAX STATUS

Since the Plan is maintained under Internal Revenue Code ("IRC") Section 403(b), rather than Section 401(a), there is no IRS program pursuant to which an individual determination letter may be obtained for the Plan. Although the Plan has not received a favorable determination letter, Plan management believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and was tax-exempt as of the financial statement date. The Plan administrator has received a favorable opinion on their volume submitter program.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022 and 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the Department of Labor or Internal Revenue Service, however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2019.

NOTE 8 - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through October 24, 2023, which is the date the financial statements were available to be issued.
