INDEPENDENT AUDITOR'S REPORT

To the Trustee, Participants and Administrator of the
Peterson Brothers Construction, Inc. Employee Stock Ownership Plan:

Opinion

We have audited the financial statements of Peterson Brothers Construction, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of January 31, 2023 and 2022, the related statement of changes in net assets available for benefits for the year ended January 31, 2023, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of January 31, 2023 and 2022, and the changes in net assets available for benefits for the year ended January 31, 2023, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for twelve months from the date these financial statements were issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

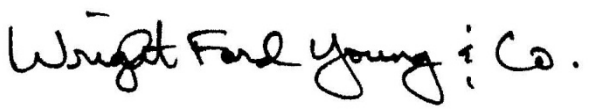

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of January 31, 2023, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTES TO THE FINANCIAL STATEMENTS

JANUARY 31, 2023 AND 2022

1. PLAN DESCRIPTION AND BASIS OF PRESENTATION

The following description of the Peterson Brothers Construction, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provision.

General

Peterson Brothers Construction, Inc. (the Company) established the Peterson Brothers Construction, Inc. Employee Stock Ownership Plan (the Plan), effective February 1, 2005. The Plan is intended to operate as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan had purchased shares of Company common stock using borrowed proceeds secured by the purchased shares, and holds the common stock in a trust established under the Plan. The Plan paid off the debt during the year ended January 31, 2017 and all Company common stock is fully allocated to participants as of January 31, 2023 and 2022.

Eligibility

Employees of the Company who are not covered under a collective bargaining agreement and who have attained at least 18 years of age are eligible to participate in the Plan on the first day of the plan year following the completion of 1 year of service and a minimum of 1,000 hours.

Company Contributions

The Company may make discretionary cash contributions to the Plan in an amount determined by the Company's Board of Directors. For the year ended January 31, 2023, the Company made discretionary contributions to the Plan totaling $1,233,266. Employee contributions to the Plan are not permitted.

Plan Administration

The Plan is administered by an Administrative Committee comprised of one or more persons appointed by the Board of Directors of the Company. Currently, the Administrative Committee consists of three employees of the Company.

1. PLAN DESCRIPTION AND BASIS OF PRESENTATION – (Continued)

Vesting

Participants become 100% vested in their accounts upon the completion of three years of service, as defined.

Participant Accounts

Each participant's individual account is credited with the allocations of (a) the Company's contributions, (b) forfeitures, and (c) investment earnings, net of plan expenses.

Participants who are active employees of the Company as of the last day of the Plan year will receive an allocation of Company contributions. Allocations are based on the percentage that their eligible compensation is representative to total eligible compensation.

Forfeitures of terminated participant's nonvested account balances are allocated to active participants based on the percentage that their eligible compensation is representative to total eligible compensation.

Investment earnings or losses on Company common stock consists of the change in value from year to year on the Company's common stock as determined by an independent appraisal and is allocated based on the number of shares held by the participants at year-end multiplied by the change in the per share value.

Other Plan investment earnings and plan expenses are allocated to each participant's account based on the ratio of the participant's beginning of the year other investment account balance less any distributions from such accounts since the preceding allocation date to all participants' beginning of the year other investment account balances less any distributions from such accounts since the preceding allocation date.

Voting Rights

Participants may direct the voting of shares of the Company common stock allocated to their accounts on any matter on which shareholders are allowed to vote. Such matters are limited to the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business, or other similar transactions. Each participant will be provided with notification of the shareholders meeting and the proxy voting instruction form, which will need to be returned to the trustee prior to said meeting. The trustee will vote all shares according to those instructions. The trustee will vote all shares for which no instruction was received as the trustee determines is appropriate and in the best interest of Plan participants.

1. PLAN DESCRIPTION AND BASIS OF PRESENTATION – (Continued)

Payment of Benefits

Distribution of Plan benefits due to termination, retirement, disability or death will be made in lump sum payments of cash or equal annual installments over a period not exceeding five years after a waiting period that ranges from 1 to 6 years. Participants may also elect to rollover their account to another tax deferred account or remain in the Plan until they are legally required to begin taking distributions. As of January 31, 2023, 210 participants who terminated employment have 29,022 vested shares valued at $5,227,734. These amounts are scheduled to be paid commencing January 31, 2024 through January 31, 2033.

Put Option

Under Federal income tax regulations, the Company common stock held by the Plan and its participants, and that are not readily tradable on an established market, or that are subject to trading limitations, include a put option (liquidity put). The liquidity put is a right to demand that the Company or the Plan buy shares of its common stock held by the participant for which there is no market. The put price is representative of the fair market value of the common stock as of the most recent preceding valuation date. The Company or the Plan may pay for the purchase with interest not exceeding a period of five years. The purpose of the liquidity put is to ensure that the participant has the ability to ultimately obtain cash. In addition, if the Company or the Plan elects to pay the purchase price of the common stock option under the installment method then the Company or the Plan shall give the participant who is exercising the put option the Company's or the Plan's promissory note for the full unpaid balance of the purchase price.

Right of First Refusal

The right of first refusal shall provide that prior to any subsequent transfer, the shares must first be offered for purchase in writing to the Company, then to the trustee, on behalf of the Plan, at the fair market value. The fair market value for these shares of Company common stock shall be the greater of the price offered to the participant by the prospective purchaser or the most recent preceding valuation date of the Plan. The Company and the trustee have 14 days to exercise this right of first refusal.

Diversification

Diversification will be offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least 55 years of age with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six year period. In each of the first five years, a participant may diversify up to 25% of his or her account balance, less any amounts previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution. As of January 31, 2023, 2,185 shares of Company common stock were eligible for diversification.

1. PLAN DESCRIPTION AND BASIS OF PRESENTATION – (Continued)

Plan Termination

The Company has the right to terminate or amend the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Net appreciation includes the change in value of the Company's common stock.

Payment of Benefits

Benefits are recorded when paid.

Plan Fees and Administrative Expenses

Plan fees and administrative expenses are generally paid by the Company, unless paid by the Plan. Plan expenses paid by the Company are not included in these financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates. The valuation of Company common stock is a significant estimate.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Risks and Uncertainties

The Plan invests in Company common stock that is generally exposed to various risks, such as interest rate risk, credit risk and market risks, as well as valuation assumptions based on earnings, cash flows or other techniques. Due to the level of risk associated with the Company common stock, it is reasonably possible that changes in the value of the Company common stock will occur in the near future and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Subsequent Events

The Company has evaluated subsequent events through the date of the independent auditor's report, which is the date the accompanying financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under this framework are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

3. FAIR VALUE MEASUREMENTS – (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at January 31, 2023 and 2022.

Company common stock: The fair value of the Company's common stock was determined by an independent appraisal. This appraisal was based upon a combination of the income and market valuation techniques. The asset-based approach was not used as it provides no consideration of earnings. The appraiser took into account historical and projected cash flow and market comparables. Plan management has concluded that a market participant would also recognize a discount for lack of marketability. This investment is classified within level 3 of the valuation hierarchy because the asset value is not based on an active market with quoted prices and was determined using observable and unobservable inputs.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodology or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's asset at fair value as of:

Description	Total	Level 1	Level 2	Level 3
January 31, 2023				
Company common stock	$ 17,112,000	$ -	$ -	$ 17,112,000
January 31, 2022				
Company common stock	$ 15,455,000	$ -	$ -	$ 15,455,000

In regards to the classification of common stock, there were no reclassifications between levels 1, 2 and 3 during the year ended January 31, 2023.

3. FAIR VALUE MEASUREMENTS – (Continued)

The following table discloses the summary of changes in the fair value of the Plan's Level 3 investment asset:

Balance, beginning of year	$ 15,455,000
Net appreciation	1,657,000
Balance, end of year	$ 17,112,000

4. INVESTMENT IN COMPANY COMMON STOCK

The following summarizes investments of the Plan at January 31, 2023 and 2022:

	2023	2022
Company common stock:		
Number of shares	95,000	95,000
Cost	$ 7,614,000	$ 7,614,000
Fair Value	$ 17,112,000	$ 15,455,000

5. PARTY-IN-INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Such parties are parties-in-interest under ERISA. The Plan invests in Company common stock. Company paid certain administrative expenses of the Plan. These transactions qualify as party in interest transactions for which a statutory exemption exists.

6. TAX STATUS

The Company received a favorable determination letter from the Internal Revenue Service (IRS), on August 27, 2014, which stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has since been amended. The plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of January 31, 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
