INDEPENDENT AUDITORS' REPORT

To the Plan Administrative Committee of
Murdock Webbing Company, Inc. Employee Savings & Security Plan
Central Falls, Rhode Island

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Murdock Webbing Company, Inc. Employee Savings & Security Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Murdock Webbing Company, Inc. Employee Savings & Security Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of and for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Murdock Webbing Company, Inc. Employee Savings & Security Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Murdock Webbing Company, Inc. Employee Savings & Security Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material

misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Murdock Webbing Company, Inc. Employee Savings & Security Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Murdock Webbing Company, Inc. Employee Savings & Security Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and is derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records

used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

1. Description of Plan

The following description of the Murdock Webbing Company, Inc. (the "Company") Employee Savings & Security Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established on September 1, 1990. The Plan is a defined contribution plan of the Company that covers substantially all eligible employees who have reached the age of 18 and completed 30 days of service. The Plan entry date is the first day of the month coincident with or following the remaining eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Board of Directors is responsible for the oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Directors.

Effective February 18, 2022, the Plan was restated and amended in its entirety in order to remain a qualified plan in compliance with the applicable sections of the Internal Revenue Code ("IRC").

On March 27, 2020, in response to the economic impact caused by the coronavirus (COVID-19) pandemic, the Coronavirus Aid, Relief, and Economic Security ("CARES") Act was signed into law. As part of the CARES Act, certain universal changes were implemented related to retirement plans, including waiving required minimum distributions for the 2020 calendar year and waiving the 10% early distribution penalty tax for participants affected by the pandemic. The CARES Act also contained provisions which allowed for Plan administrators to make amendments and elections to the Plan to provide greater access to retirement funds for participants impacted by the pandemic. Some of the allowable elections contained within the CARES Act included allowing expanded in-service distributions, increasing Plan limits on loans to $100,000 or 100% of the participant's vested balance, and offering suspensions of loan repayments, without default, until December 31, 2020. The Plan administrator had the ability to choose which elections the Plan would make; there was no requirement for Plans to adopt any of these provisions. The Plan administrator made the election to adopt the above provisions during the Plan year ending December 31, 2020. While these provision were, operationally, enacted immediately upon the Plan administrator's election, the Plan will not have to be formally amended to incorporate these changes until December 31, 2025. The Plan administrator has indicated that it is their intention to amend the Plan by that date.

Contributions

Participants may elect to defer between 1% and 100% of their compensation, as defined in the Plan, through a salary reduction agreement. For the years ended December 31, 2022 and 2021, the total deferrals may not exceed $20,500 and $19,500, respectively. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions, up to the Internal Revenue Service ("IRS") limit of $6,500 for the years ended

1. Description of Plan (continued)

Contributions (continued)

December 31, 2022 and 2021. Participants may also contribute amounts representing distributions from other qualified plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect otherwise. Automatically enrolled participants have their deferral rate set at 2% of eligible compensation, with annual escalations of 1% up to a maximum of 5%, and their contributions are invested in a designated fund until changed by the participant. The Company may also make a discretionary matching contribution. The Company made no matching contributions for the years ended December 31, 2022 and 2021. In addition, the Company may make additional profit-sharing contributions at the discretion of the Board of Directors. The Company made no profit-sharing contributions for the years ended December 31, 2022 and 2021. For the years ended December 31, 2022 and 2021, the Company made corrective qualified nonelective contributions ("QNEC") of $162 and $1,788, respectively, to participant accounts.

Participant accounts

Each participant's account is credited with the participant's contributions as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary and rollover contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of credited service. Participants are 100% vested after six years of service. Participants are also fully vested upon reaching normal retirement age, death, or total disability.

Investment options

Participants may direct their contributions, in one percent multiples, into any of the funds offered by the Plan, which are held at Principal Trust Company. These funds included a variety of investment options with various objectives and degrees of financial risk.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from one to five years, except for loans to purchase a primary residence, which may be offered

1. Description of Plan (continued)

Notes receivable from participants (continued)

over a term of up to ten years. Participants may have only one loan outstanding at any given time. The loans are secured by the balance in the participants' accounts and bear interest at a rate commensurate with local prevailing rates, as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of benefits

Upon retirement, disability, death, or termination of employment, the participant shall become entitled to the total value of his or her vested account. Distributions will be paid in a lump sum or in installments over a number of years, based upon the election of the participant or as defined in the Plan or the IRC. If a participant terminates employment for any reason and his or her vested account balance does not exceed $1,000, the Plan administrator may distribute such amount in a lump-sum payment to the participant without consent of the participant. If the participant's balance is between $1,000 and $5,000, the Plan administrator may roll the amount into an individual retirement account on behalf of the participant without the consent of the participant.

Participants may make in-service withdrawals from their accounts. Participants who have attained age 59 ½ or have a serious financial hardship may make a discretionary withdrawal from their eligible account balance, as defined in the Plan agreement.

Forfeited accounts

For the Plan years ended December 31, 2022 and 2021, forfeited non-vested accounts totaled $1. Forfeitures that have not been used to pay administrative expenses or used to reduce employer contributions shall be allocated as of the last day of the Plan year to Plan participants, as defined in the Plan agreement.

Forfeitures of $0 were allocated to Plan participants in 2022 and 2021.

2. Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amount of changes in net assets available for benefits during the reporting period, and disclosure of contingent assets and liabilities. Estimates are principally used in the determination of the fair value of investments. Actual results could differ from those estimates.

2. Summary of significant accounting policies (continued)

Investment valuation and income recognition

Investments are reported at fair value, except for the fully benefit-responsive investment contract, which is reported at contract value, and the common collective trust, which is reported at net asset value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodian, trustee, and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 and 2021. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, that participant loan balance is reduced and a benefit payment is recorded.

Payments of benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and distributions from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net (depreciation) appreciation of fair value of investments.

Subsequent events

The Plan did not have subsequent events, except as disclosed in Note 11, through October 10, 2023, which is the date the financial statements were available to be issued, for events requiring recording or disclosure in the financial statements for the year ended December 31, 2022.

3. Information prepared and certified by custodian and trustee

Information presented in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2022 and 2021, net (depreciation) appreciation in fair value of investments, interest and dividends for the years ended December 31, 2022 and 2021, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Principal Trust Company, the custodian of the Plan, and Principal Life Insurance Company, the trustee for certain Plan assets. The contract value of the guaranteed investment contract was certified by the custodian.

These certifications also include schedules of investments and inter-fund transfers.

4. Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures* are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

4. Fair value measurements (continued)

Following is a description of the valuation methodologies used for Plan investments. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the common collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. See Note 5.

Guaranteed investment contract: Investment in a group annuity contract, valued at contract value. The Principal Fixed Income Guaranteed Option is a single group annuity with a fixed rate of interest. This option is an insurance contract. A rate of interest contractually guaranteed by Principal Trust Company is credited to participant account balances. See Note 6.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments as of December 31, 2022 and 2021:

Plan Investments as of December 31, 2022

	Level 1	Level 2	Level 3	Total Investments
Investments at fair value:				
Registered investment companies	$2,848,358	$ -	$ -	$2,848,358

4. Fair value measurements (continued)

Investments at contract value**:				
Guaranteed investment contract	-	-	-	859,496
Total Plan investments	$3,564,497	$ -	$ -	$5,610,380

** In accordance with ASC subtopic 820-10, certain investments that were measured at NAV or contract value per share (or its equivalent) have not been classified in the fair value hierarchy. The values presented in these tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

5. Investment contract with common collective trust

The Plan invests in the Principal LifeTime Hybrid Funds as of December 31, 2022 and 2021 through a common collective trust ("CCT") in the Plan. The underlying investments held by the CCT are mutual funds valued at their net asset value per share as of the close of business on the valuation date and are considered to be level 1 investments. In calculating unit value per share for each class, investment income, realized and unrealized gains and losses and expenses other than class-specific expenses, are allocated daily to each class of shares based upon the proportion of net assets of each class at the beginning of each day.

6. Guaranteed investment contract

The Plan has entered into a fully benefit-responsive group annuity contract, Principal Fixed Income Guaranteed Option, issued by Principal Trust Company. The investment is a single group annuity contract with a fixed rate of interest. Principal Trust Company maintains the contributions in a general account and due to the nature of these contracts, they do not have specific underlying assets assigned. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Principal Trust Company is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for the guaranteed investment contract and thus the investment is presented on the face of the Statements of Net Assets Available for Benefits at contract value. Contract value, as reported to the Plan by Principal Trust Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

One of the primary risks involved with investment contracts is credit risk of the contract issuer; there are no reserves against contract value for credit risk of the contract issuer or otherwise if termination of the contracts were to occur. The average yield earned by the Plan is calculated by dividing the annualized earnings credited to participants of all fully benefit-responsive investment contracts by the fair value of all fully benefit-responsive investment contracts. Under the terms of the existing contract, the composite crediting rate is currently reset on a semi-annual basis and will never be less than the guaranteed minimum interest rate.

Certain events may limit the ability of the Plan to transact at contract value. Such events include but may not be limited to the following: 1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), 2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, 3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or 4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with participants are probable of occurring.

6. Guaranteed investment contract (continued)

The guaranteed investment contract does not permit Principal Trust Company to terminate the agreement prior to the scheduled maturity date.

7. Related party and party-in-interest transactions

Principal Trust Company is the custodian and Principal Life Insurance Company is the trustee for certain Plan assets, and, therefore, these transactions qualify as party-in-interest transactions. Investment and administrative expenses paid by the Plan to Principal Trust Company and Principal Life Insurance Company totaled $5,322 and $5,015 for the years ended December 31, 2022 and 2021, respectively.

The Plan is administered by trustees appointed by the Board of Directors of Murdock Webbing Company, Inc. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

8. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in all amounts allocated to their accounts.

9. Tax status

Through February 17, 2022, the Company had adopted a prototype non-standardized profit-sharing plan document and was relying on the prototype non-standardized profit-sharing plan sponsor's opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2014. The letter stated that the prototype non-standardized profit-sharing plan and related trust were designed in accordance with applicable sections of the IRC. Effective February 18, 2022, the Plan was amended and restated in its entirety under a non-standardized pre-approved profit-sharing plan document, and is relying on the non-standardized pre-approved profit-sharing plan sponsor's opinion letter from the IRS dated June 30, 2020. The letter states that the non-standardized pre-approved profit-sharing plan and related trust are designed in accordance with the applicable sections of the IRC. Although the non-standardized pre-approved profit-sharing plan has been amended since receiving the opinion letter, the Plan's administrator and the Plan's tax counsel believe that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

On March 11, 2020, the World Health Organization declared the COVID-19 outbreak a pandemic. In response, most domestic and international governments have imposed various forms of work, social and travel restrictions. In addition, international conflict, rising interest rates, and inflation have also presented themselves and have impacted the macro-economic environment. These events have caused market volatility. The impact of these events on the Plan's operations and financial position remains uncertain. The uncertainty surrounding the length and severity of the economic impact caused by these events could impact the Plan's investment performance. It is also possible that changes in Plan contributions, distributions, and participant loans could also occur as Plan management and Plan participants respond to this uncertainty.

11. Subsequent event

Effective May 1, 2023, the Plan changed its custodian from Principal Trust Company to ADP Retirement Services ("ADP"). In congruence with this change, the Plan was restated. As a result of the Plan's restatement, participants may elect to defer between 1% and 90% of their compensation, as defined in the Plan, through a salary reduction agreement.
