INDEPENDENT AUDITOR'S REPORT

To the Trustee, Participants and Administrator of the
Chiro, Inc. Employee Stock Ownership Plan:

Opinion

We have audited the financial statements of Chiro, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of January 31, 2023 and 2022, the related statement of changes in net assets available for benefits for the year ended January 31, 2023, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of January 31, 2023 and 2022, and the changes in net assets available for benefits for the year ended January 31, 2023, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for twelve months from the date these financial statements were issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

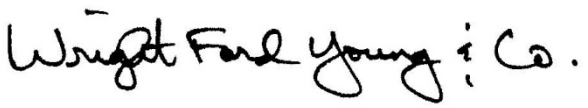

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, Schedule H, Line 4i - Schedule of Assets (Held at End of Year), as of January 31, 2023, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

CHIRO, INC. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO THE FINANCIAL STATEMENTS

JANUARY 31, 2023 AND 2022

1. PLAN DESCRIPTION AND BASIS OF PRESENTATION

The following description of the Chiro, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

Chiro, Inc. (the Company or Sponsor) established the Plan in 2016. The Plan is intended to operate as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Sections 401(a) and 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC) and is subject to the applicable provision of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

On January 28, 2016 (Plan inception), the Plan purchased 100% of the Company common stock using the proceeds of a borrowing from the Company (see Note 5) and holds the stock in a trust fund established under the Plan. The borrowing is to be repaid over 24 years from fully deductible Company contributions. As the Plan makes each scheduled payment of principal and interest, an appropriate percentage of stock is allocated to eligible participants' accounts in accordance with applicable regulations under the IRC.

The borrowing is collateralized by the unallocated shares of Company common stock. The lender has no rights against shares of Company common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements present separately the assets and liabilities and changes therein pertaining to: (a) the accounts of employees with rights in allocated Company common stock (allocated), and (b) Company common stock not yet allocated to employees (unallocated).

Eligibility

The Plan covers all employees of the Company, with the exception of leased employees, employees who are members of a collective bargaining unit, and non-resident aliens. Employees who have completed at least one year of eligible service in which at least 1,000 hours of service was completed are eligible to participate in the Plan. Eligible employees become a participant as of the first day of the plan year following the date the employee met eligibility requirements.

Company Contributions

The Company is obligated to make contributions in cash or dividends to the Plan in the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. The Company may also make additional discretionary cash contributions to the Plan in an amount determined by the Company's Board of Directors.

1. PLAN DESCRIPTION AND BASIS OF PRESENTATION - (Continued)

Plan Administration

The Plan's assets, which consists primarily of Company common stock, are held by the trustee of the Plan. Company contributions are held and managed by the trustee, which invests cash received, interest, and dividend income and makes distributions to participants and scheduled loan repayments. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the trustee's fees are paid directly by the Company.

Participant Accounts

Each participant's account is credited with allocations of (a) the Company's contributions, (b) forfeitures, (c) net depreciation of Company common stock, and (d) investment earnings net of plan expenses, if any.

The Company's contributions may consist of acquisition indebtedness contributions and cash or common stock contributions and are allocated to active participants based on the percentage that their eligible compensation is representative to total eligible compensation. In order to be eligible for the Company's contributions, a participant must be employed by the Company on the last day of each plan year.

Forfeitures of terminated participant's non-vested account balances are allocated to active participants based on the percentage that their eligible compensation is representative to total eligible compensation. For the year ended January 31, 2023, $6,617 of forfeitures were allocated to eligible participants.

Net depreciation of Company common stock, as determined by an independent appraiser, is allocated based on the number of shares held by the participants at year-end multiplied by the change in the per share value.

Investment earnings, including interest income, net of plan expenses, are allocated to participants based on the percentage that their other investment account balance as of the first day of the plan year adjusted for distributions made, is representative to the total other investment account balance.

1. PLAN DESCRIPTION AND BASIS OF PRESENTATION - (Continued)

Payment of Benefits

Distribution of Plan benefits due to termination, retirement, disability, death, or other reasons will be made in shares of Company stock (see Put Option below), a lump sum payment, or periodic installments. Participants may also elect to rollover their account to another tax deferred account. The Plan provides for in-service distributions once a participant attains age 70 ½. All vested account balances exceeding $1,000, but not exceeding $5,000, may be directly rolled over to an individual retirement plan designated by the Company, unless the participant has otherwise elected to receive the distribution as a lump-sum payment or to have the benefit distributed in a direct rollover distribution to an eligible retirement plan. All vested account balances not exceeding $1,000 may be immediately distributed in a lump-sum payment. Distributions in excess of $5,000 will commence in the sixth plan year following the plan year which the participant's separation from service occurs and are generally paid in five annual installments, unless the participants vested account balance exceeds the amount as defined under the IRC and Plan document, in which case installments could exceed five years.

Vesting

The Company's contributions plus actual earnings thereon become 20% vested following two full years of service, as defined, and continue to vest at the rate of 20% for each successive year of service until 100% vested after six (6) years of service, attaining normal retirement age, death or disability. A year of service for vesting purposes under the Plan means a calendar year for which the employee is credited with at least 1,000 hours of service.

Diversification

Diversification will be offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least 55 years of age with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six year period. In each of the first five years, a participant may diversify up to 25% of his or her account balance, less any amounts previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution. As of January 31, 2023, no shares of Company common stock were eligible for diversification.

1. PLAN DESCRIPTION AND BASIS OF PRESENTATION - (Continued)

Put Option

Under federal income tax regulations, the Company common stock held by the Plan and its participants, and that are not readily tradable on an established market, or that are subject to trading limitations, include a put option (liquidity put). The liquidity put is a right to demand that the Company buy shares of its common stock held by the participant for which there is no market. The put price is representative of the fair market value of the common stock. The Company may pay for the purchase with interest not exceeding a period of five years. The purpose of the liquidity put is to ensure that the participant has the ability to ultimately obtain cash. In addition, if the Company elects to pay the purchase price of the common stock option under the installment method then the Company shall give the participant who is exercising the put option the Company's promissory note for the full unpaid balance of the purchase price.

Right of First Refusal

The right of first refusal shall provide that prior to any subsequent transfer, the shares must first be offered for purchase in writing to the Company, then to the trustee, on behalf of the Plan, at the fair market value. The fair market value for these shares of Company common stock shall be the greater of the price offered to the participant by the prospective purchaser or the most recent preceding valuation date of the Plan. The Company and the trustee have 14 days to exercise this right of first refusal. The Plan cannot repurchase the shares if the price offered is greater than the most recent preceding valuation amount.

Voting Rights

Participants may direct the voting of shares of the Company common stock allocated to their accounts on any matter on which shareholders are allowed to vote. Such matters are limited to the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business, or other similar transactions. Each participant will be provided with notification of the shareholders meeting and the proxy voting instruction form, which will need to be returned to the trustee prior to said meeting. The trustee will vote all shares according to those instructions. The trustee will vote all shares for which no instruction was received, as well as any unallocated shares, as it determines proper in its sole and absolute discretion.

Plan Termination

The Company intends to continue the Plan indefinitely for the benefit of its participants; however, it reserves the right to terminate and/or modify the Plan at any time, subject to the provisions of ERISA. In the event the Plan is terminated in the future, participants would become fully vested in their accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Net depreciation includes the change in value of the Company's common stock.

Payment of Benefits

Benefits are recorded when paid.

Plan Fees and Administrative Expenses

Plan fees and administrative expenses are generally paid by the Company, unless paid by the Plan. Plan expenses paid by the Company are not included in these financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates. Significant estimates include the valuation of Company common stock.

Risks and Uncertainties

The Plan invests in the common stock of the Company, which is exposed to various risks, such as interest rate risk, credit risk and market risks, as well as valuation assumptions based on earnings, cash flows or other techniques. Due to the level of risk associated with this investment and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of this investment will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Subsequent Events

The Company has evaluated subsequent events through the date of the independent auditor's report, which is the date the accompanying financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under this framework are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at January 31, 2023 and 2022.

3. FAIR VALUE MEASUREMENTS - (Continued)

Company common stock: The fair value of the Company's common stock was determined by an independent appraisal. This appraisal was based upon a combination of the income and market valuation techniques. The asset-based approach was not used as it provides no consideration of earnings. The appraiser took into account historical and projected cash flows and market comparables. Plan management has concluded that a market participant would also recognize a discount for lack of marketability. This investment is classified within level 3 of the valuation hierarchy because the asset value is not based on an active market with quoted prices and was determined using observable and unobservable inputs.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodology or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investment at fair value as of January 31, 2023 and 2022:

Description	Total	Level 1	Level 2	Level 3
January 31, 2023				
Investment in Company common stock	$ 716,400	$ -	$ -	$ 716,400
January 31, 2022				
Investment in Company common stock	$ 875,600	$ -	$ -	$ 875,600

In regards to the classifications of investments, there were no reclassifications in or out of levels 1, 2 or 3 during the year ended January 31, 2023.

The following table presents a summary of changes in the fair value of the Plan's level 3 assets for the year ended January 31, 2023:

Balance, at January 31, 2022	$ 875,600
Unrealized depreciation	(159,200)
Balance, at January 31, 2023	$ 716,400

4. PARTY-IN-INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Such parties are parties-in-interest under ERISA. Plan invests in Company common stock and has indebtedness to the Company. The Company paid certain administrative expenses of the Plan. These transactions qualify as party in interest transactions for which a statutory exemption exists.

5. LOAN PAYABLE

In January 2016, the Plan entered into a $7,032,013 term loan agreement with Chiro, Inc. The proceeds of the loan were used to purchase Company common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments.

The annual loan payment for fiscal 2023 resulted in 83,101 shares being released and allocated for the plan year ended January 31, 2023. The agreement provides for the loan to be repaid over 24 years with a final payment due in 2039. The scheduled principal and interest payment is approximately $388,000 through 2038, and the final payment is approximately $277,000 in 2039. Interest is charged at a fixed rate of 2.65%.

6. INVESTMENT IN CHIRO, INC. COMMON STOCK

The following table summarizes the Plan's investment in the Company's common stock at common January 31, 2023 and 2022:

	2023		2022	
	Allocated	Unallocated	Allocated	Unallocated
Common stock shares:				
Number of shares	684,207	1,305,793	601,106	1,388,894
Cost	$ 2,417,765	$ 4,614,248	$ 2,124,113	$ 4,907,900
Market	$ 246,315	$ 470,085	$ 264,487	$ 611,113

7. TAX STATUS

The Company received a favorable determination letter from the Internal Revenue Service (IRS) on August 2, 2017, which stated that the Plan, as then designed, was in accordance with applicable sections of the IRC. The Plan has since been amended. The plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

7. TAX STATUS – (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of January 31, 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
