INDEPENDENT AUDITORS' REPORT

To the Plan Administration Committee
Lone Rock Resources §401(k) and Profit Sharing Plan
Roseburg, Oregon

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Lone Rock Resources §401(k) and Profit Sharing Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Lone Rock Resources §401(k) and Profit Sharing Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Lone Rock Resources §401(k) and Profit Sharing Plan and to meet our other ethical responsibilities in accordance with

the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Lone Rock Resources §401(k) and Profit Sharing Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Lone Rock Resources §401(k) and Profit Sharing Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Lone Rock Resources §401(k) and Profit Sharing Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental schedule as listed in the accompanying table of contents is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including the form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTES TO FINANCIAL STATEMENTS

LONE ROCK RESOURCES §401(K) AND PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

NOTE 1 – PLAN DESCRIPTION

The following description of the Lone Rock Resources §401(k) and Profit Sharing Plan (the Plan), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Lone Rock Timber Management Company and Lone Rock Logging Company (the Company). Upon completion of 90 days of service, all employees except those classified as temporary, become eligible participants of the Plan and an automatic deferral of compensation begins (unless a participant opts out) on the first day of the next pay period following or coinciding with the date eligibility requirements are met, as defined by the provisions of the Plan agreement. Any temporary employee who completes 1,000 hours of service during the first employment year or any following Plan year is eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective January 1, 2016, the plan sponsors adopted a restated plan document to comply with the Pension Protection Act. At the time of restatement, the plan was also amended to increase the automatic enrollment deferral percentage to be 6% with an automatic annual increase of 1% to a maximum automatic deferral amount of 10%. All current participants who were contributing less than 6% were increased to 6% unless they opted out.

Effective January 1, 2023, the Plan was amended to merge with Abby's LLC §401(k) Profit Sharing Plan. See Note 10.

Employee Voluntary Contributions

Employee contributions consist of the amount of salary deferral elected by each participant and may range from 1% to 100% of the participant's earnings as pre-tax 401(k) or after-tax Roth contributions up to the maximum amounts allowed by law. Participants may also contribute amounts representing distributions from other qualified retirement plans. The Plan allows for participant-directed investments in a variety of investment options. Participant contributions are maintained in separate accounts.

Employer Contributions

The Company's matching and profit sharing contributions to the Plan are determined annually at the discretion of the Board of Directors. The employer match is based upon employee deferrals with matching percentages determined each year. Employer profit sharing contributions are allocated to eligible participants on a per capita basis, with each eligible participant receiving an equal amount of the total contribution.

Participant Accounts

Each participant's account is credited with the participant's contribution and the Company's matching and profit sharing contribution, and allocations of (a) the Company's additional contribution and, (b) Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings and account balances, as defined. The benefit to which a participant is entitled is the benefit provided from the participant's vested account.

NOTE 1 – PLAN DESCRIPTION (CONTINUED)

Vesting

Employee voluntary contributions are 100% vested at all times. Vested interest in the employer matching contribution and profit sharing contribution is calculated at 20% per year of service, beginning with the participant's second full year of service and reaching 100% at the end of six years of credited service or attainment of age 62.

Forfeited Accounts

Forfeitures of unvested employer contributions can be used to reduce future employer contribution requirements as well as pay for plan expenses. Unallocated forfeitures totaled \$9 at December 31, 2022 and \$1,783 at December 31, 2021.

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that range from 3.25% to 6.50%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator.

Payment of Benefits

The Plan provides for retirement and disability benefits.

Distributions of a participant's nonforfeitable accrued benefits are restricted by certain federal regulations to the following events: (i) participant's retirement, (ii) death or disability, or (iii) separation from service. The Plan also allows for in-service distributions after attaining age 59 ½, for financial hardship, or for deemed severance distribution, as defined by the regulations. Generally, required minimum distributions must commence when the participant reaches the applicable age per IRS guidelines (age 72 for 2022 and 2021).

The Plan allows for mandatory distributions of a participant's vested account balance following severance from employment up to a maximum of \$5,000 and prior to attaining age 62.

Termination

Although it has not expressed any intention to do so, the Company may suspend or discontinue its contributions under the Plan, and may terminate the Plan at any time, subject to the provisions of ERISA. Upon termination, the Plan agreement provides that the rights of all participants to the benefits accrued to the date of termination, to the extent then funded, shall become fully vested and non-forfeitable. Distribution of accrued benefits shall be in accordance with the provisions of the Plan and federal regulations.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Investment Valuation and Income Recognition

Plan investments are reported at fair value with the exception of the fully benefit-responsive investment contract as disclosed in Note 9. Fair value is the price that would be received to sell an asset. See Note 8 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a settlement-date basis. Interest and dividend income are recorded on the accrual basis of accounting. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2022 AND 2021

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Notes Receivable from Participants

The Plan permits notes receivable from participants, which are administered pursuant to a separate Loan Policy. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable which have been deemed distributed are considered uncollectable, and are net against the loan balance. They are recorded as distributions in the year deemed distributed.

Payment of Benefits

Benefits are recorded when paid. There were no distributions that had been requested but were unpaid at December 31, 2022 and 2021.

Administrative Expenses

Some third party administrative expenses are offset against plan income, while others are paid directly by the Company.

Risk and Uncertainties

The Plan provides for various options that have different investment strategies. These investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE 3 – INFORMATION CERTIFIED BY TRUSTEES

The plan administrator has elected the method of compliance as permitted by Section 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA of 1974. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Empower Annuity Insurance Company of America, the trustee of the Plan, as complete and accurate, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule.

NOTE 5 – RELATED-PARTY TRANSACTIONS

Certain Plan investments are managed by the Plan trustee, Empower Annuity Insurance Company of America. Therefore, these transactions qualify as party-in-interest transactions. Direct fees paid by the Plan to the trustee totaled \$0 and \$6,749 for the years ended 2022 and 2021, respectively, in addition to indirect fees. Direct compensation paid by the Plan to the Plan's investment advisor, Wells Fargo Advisors LLC, totaled \$49,949 and \$47,626 for the years ended 2022 and 2021, respectively.

NOTE 6 – TAX STATUS

The Plan utilizes a prototype plan document and relies on the opinion letter issued to the prototype document sponsor. The prototype document sponsor received an opinion letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code.

Although the Plan has been amended since receiving the opinion letter, the Company believes that the Plan is currently being operated in compliance with the applicable requirements of the Internal Revenue Code and that the Plan qualifies under Section 401(a) and the related trust is tax-exempt as of December 31, 2022 and 2021. Therefore, no provision for income taxes has been included in the Plan's financial statements. As of December 31, 2022, the Plan's federal returns for the years 2019 through 2022 remain open to examination.

NOTE 8 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

LONE ROCK RESOURCES §401(K) AND PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2022 AND 2021

NOTE 8 – FAIR VALUE MEASUREMENTS (CONTINUED)

The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

- Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2 inputs to the valuation methodology include the following:
 - Quoted prices for similar assets or liabilities in active markets
 - Quoted prices for identical or similar assets or liabilities in inactive markets
 - Inputs other than quoted prices that are observable for the asset or liability
 - Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

- *Mutual funds* - Valued at the net asset value of shares held by the plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level within the fair value hierarchy the Plan's assets at fair value as of December 31, 2022 and 2021.

Assets at Fair Value at December 31, 2022

NOTE 9 – FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

Nature of Investment Contracts – The Putnam Stable Value Fund (the Fund) invests in high-quality guaranteed investment contracts (“GICs”) and similar contracts issued by insurance companies, banks and other financial institutions. The fund also invests up to 75% of its assets in security-backed investment contracts (“SBICs”), including separate account products of insurance companies. The fund invests at least 5% of its assets in high-quality money market instruments, cash, cash equivalents and stable value funds with investment policies and other provisions similar to those of the Fund, and may invest without limit in these investments.

Interest Crediting Rate - Wrap contracts’ interest crediting rates are typically reset on a quarterly (and sometimes monthly) basis. While there may be slight variations from one contract to another, most wrap contracts use a formula that is based on the characteristics of the underlying portfolio of bonds:

$$CR = [(1+YTM) \times (MV/CV)^{1/DUR} - 1] - F$$

Where:	CR	= Crediting rate
	YTM	= Yield to maturity of underlying bonds/index
	MV	= Market value of underlying bonds
	CV	= Contract value (principal plus accrued ceiling rate interest)
	DUR	= Duration of the portfolio/index
	F	= Wrap contract fees

Because changes in market interest rates affect the yield to maturity and the market value of the underlying bonds, they can have a material impact on the contract’s crediting rate. To the extent that the Fund has unrealized and realized losses (that are accounted for, under contract value accounting, through a positive value of the wrap agreements), the future interest crediting rates will be lower over time than the current yield of the portfolio to account for this loss. Similarly, if the portfolio generated realized and unrealized gains (reflected in a negative economic value adjustment of the wrap under contract value accounting), future interest crediting rates will be higher over time than the current yield of the portfolio (to account for this gain) and an investor currently redeeming the Fund’s units may forego any benefit related to a future crediting rate higher than the current yield of the portfolio. Additionally, the level and timing of contributions allocated to, and withdrawals from the Fund affect the crediting rate and can result in a different crediting rate than would be the case if the level and timing of contributions and withdrawals were different.

All wrap contracts provide for a minimum interest crediting rate of zero percent. In the event that the interest crediting rate should fall to zero, and participant withdrawals from the contract occur that exhaust the market value of the underlying portfolio that is being wrapped, the wrap issuers will pay to the Fund the shortfall needed to maintain the interest crediting rate at zero. This is intended to protect the participants’ principal and accrued interest (up to the point where the crediting rate was set at zero percent).

NOTES TO FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2022 AND 2021

NOTE 9 – FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS (CONTINUED)

Events Affecting Contracts- All of the contracts that the Fund purchases are benefit-responsive at contract value for all plan permitted, participant directed transactions. There are no exceptions to this stipulation. Additionally, the Fund negotiates contracts with certain employer-initiated transaction provisions including percentage allowances for targeted layoffs, bankruptcy resulting in employee loss, reorganizations, spin-offs, and Plan terminations. Due to the size of the Fund and the specific percentage allowances negotiated by the Fund, it is highly unlikely (not probable) that any event would occur that would limit the Fund's ability to transact at contract value with each issuer under these events.

The only event or circumstance that would allow issuers to immediately terminate a fully benefit-responsive wrap contract with the Fund at an amount different from contract value would be if they were provided with willingly fraudulent information about the Fund by the Trustee. This would constitute a breach of contract and would allow for termination at a value that could be different from contract value. Additionally, most wrap contracts have provisions that allow the issuer to terminate at book value over a specified period of time, normally the duration of the portfolio being wrapped. At no point may an issuer of a wrap contract immediately terminate at market value (other than as specified above) if the market value of the underlying portfolio is less than the book value.

Average Yield- The average yield earned by the entire Fund for all benefit-responsive investment contracts, which is calculated by dividing the annualized earnings of all investments in the Fund by the fair value of all investments in the Fund, for the year ended December 31, 2022 and 2021 was 2.61% and 2.16%, respectively.

NOTE 10 – SUBSEQUENT EVENTS

Subsequent to year end, the Plan was merged with the Abby's LLC §401(k) Profit Sharing Plan on January 1, 2023. Several plan provisions were amended as a result of the merger.

In preparing these financial statements, the plan administrator has evaluated subsequent events and transactions for potential recognition or disclosure through August 22, 2023, which represents the date that the financial statements were available for issuance.
