NOTES TO FINANCIAL STATEMENTS

(1) Description of Plan

The following description of the Trilogy Federal, LLC 401(k) P/S Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan for the exclusive benefit of eligible employees and their beneficiaries. Employees become eligible after attainment of age 21 and completion of one year of service, equal to 1,000 hours. All accounts are participant-directed. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan administrator is responsible for oversight of the Plan. The Plan administrator determine the appropriateness of the Plan's investment offerings and monitor the investment performance. Trilogy Federal, LLC (the Company) absorbs certain administrative costs of the Plan.

Contributions

Under provisions of the Plan, each participant may contribute a portion of qualified compensation up to the maximum amount determined by the federal government. Participant contributions may be traditional elective deferrals (pre-tax) or Roth elective deferrals (after-tax). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified retirement plans (rollover). Participants direct the investment of their contributions in various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all participants, except those who have a salary reduction agreement in effect, are automatically enrolled. Automatically enrolled participants have their deferral rate set at 5 percent of eligible compensation. The Plan adopted safe harbor provisions in which the Company will make a safe harbor nonelective contribution equal to 3 percent of eligible compensation. The Company may also make additional discretionary matching contributions each plan year. In addition to the safe harbor nonelective contribution and additional discretionary matching contributions, the Company may make an additional discretionary nonelective contribution to the Plan. To be eligible for the discretionary nonelective contribution, a participant must be employed on the last day of the Plan year and complete at least 1,000 hours of service. No additional discretionary matching contributions were made during the year. Contributions are subject to Internal Revenue Service (IRS) limitations.

Participant Accounts

Individual accounts are maintained for each participant. Each participant's account is credited with the participant's contribution, the Company's contributions, and qualified rollover contributions, and adjusted for gains and losses based on the investment performance of a participant's account, less any withdrawals and distributions. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(1) Description of Plan (Continued)

Vesting

Participants are immediately vested in all voluntary and Company safe-harbor contributions plus actual earnings thereon.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. Loan terms generally may not exceed 5 years. However, if the loan is used for the purchase of a the principal residence of the participant, the Plan administrator may permit a longer repayment term. The maximum loan term for a principal residence is 15 years. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest. The loan interest rate is set at 1 percent above the Prime Rate. Principal and interest payments are made through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant or his/her beneficiary may elect to receive a single sum amount equal to the value of the participant's vested interest in his/her account as of the valuation date. On termination of service due to other reasons, a participant may elect to have all, or any part of his/her vested account distributed at any time. If a participant's vested interest in his/her account does not exceed \$5,000, a distribution shall be made in a single-sum payment or through direct rollover as soon as administratively possible following the termination of service date.

Hardship Withdrawals

In the event funds are needed because of extreme financial hardship, as defined by law, the participant may be allowed to make a withdrawal of his/her vested account balance from eligible accounts, as defined by the Plan. In accordance with the Internal Revenue Code (IRC), benefits withdrawn prior to age 59½ may be subject to additional taxes.

Investment Options and Investments

Participants direct the investment of all contributions into various investment options offered by the Plan. Participants may change their investment options at any time. As of December 31, 2022, the Plan offered diversified investments in mutual funds, collective trust funds, and a fixed annuity fund. Employees who do not make an investment selection from the available options are automatically enrolled in a collective investment trust option.

(2) Summary of Significant Accounting Policies

The accounting policies of the Plan are maintained in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). The Financial Accounting Standards Board (FASB) provides authoritative guidance regarding U.S. GAAP through the *Accounting Standards Codification (ASC)* and related Accounting Standards Updates (ASUs).

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of Plan assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisors, custodian, and recordkeeper. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 and 2021. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net depreciation in fair value of investments.

(3) Information Prepared and Certified by the Trustee (Unaudited)

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to the following information certified by Empower Retirement, the trustee, as complete and accurate as of December 31, 2022 and 2021, and for the year ended December 31, 2022, except for comparing such information to information included in the Plan's financial statements and supplemental schedule of assets (held at end of year).

Investments and notes receivable from participants as of December 31, as certified by the custodian, are as follows:

	<u>2022</u>	<u>2021</u>
Fixed Annuity Fund	\$ 187,247	\$ 198,356
Mutual Funds	5,186,660	5,088,666
Collective Investment Trusts	<u>5,355,038</u>	<u>5,118,435</u>
	<u>\$ 10,728,945</u>	<u>\$ 10,405,457</u>
Notes Receivable from Participants	<u>\$ 100,947</u>	<u>\$ 32,801</u>

Investment income (loss) and interest income on notes receivable from participants for the year ended December 31, 2022, as certified by the custodian, are as follows:

Net Depreciation in Fair Value of Investments	\$ (1,992,184)
Interest and Dividends	<u>238,666</u>
Total Net Investment Loss	<u>\$ (1,753,518)</u>
Interest Income on Notes Receivable from Participants	<u>\$ 2,554</u>

(4) Group Annuity Contract with Great-West Life & Annuity Insurance Company

The Plan's investments include a fully benefit-responsive investment contract with Great-West Life & Annuity Insurance Company (GWL&A), totaling \$187,247 and \$198,356 as of December 31, 2022 and 2021, respectively. The fixed annuity contract fund (the Fund) is a general account product in which participant principal and interest are backed by the general account assets of GWL&A, which primarily consist of high-quality fixed-income bonds. The bonds invested in the general account have an average maturity between three and seven years and are diversified across a range of fixed-income asset classes such as asset-backed securities, mortgage-backed securities, commercial mortgage-backed securities, commercial mortgages, and private equity. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The group annuity contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than zero. The crediting interest rate is reset quarterly. The average yield earned by the Plan is 0.93 percent and 0.90 percent for 2022 and 2021, respectively.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by GWL&A, represents contributions made by or on behalf of participants to the Fund, plus interest credited to the Fund on an annual effective basis, less any amounts transferred or distributed from the Fund, including any applicable charges and fees. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include premature termination of the contract by the Plan and Plan termination or merger with another Plan. If the contract is terminated, GWL&A reserves the right to defer payment of the contract value of the Fund for up to 12 months. The surrender value of the contract would be determined on the date of termination. If the contract is terminated prior to the issuer's recovery of start-up costs incurred, such amounts, as well as any other outstanding charges and fees, will be recouped as a contract termination charge. Start-up costs may include, but are not limited to, restoring back-end load charges, market value adjustments, or other fees incurred by participants in transferring from an investment option previously offered by the Plan, broker commissions, or other costs. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events and circumstances include (1) a breach of material obligation under the contract, (2) a material misrepresentation, and (3) a material amendment to the agreement without the consent of the issuer.

(5) Fair Value Measurements

The FASB issued a statement that defines fair value and establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Mutual Funds: Valued at the daily closing price as reported by the funds. The funds held by the Plan are open-end funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Collective Investment Trusts: Valued at the NAV of the units of the collective trust funds as reported by the fund house or other investment provider. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the funds will sell the investment for an amount different from the reported NAV. Underlying investments consist of assets allocated funds based on the fund's target retirement date. Participant transactions (purchases and sales) may occur daily. Because the collective trust funds are measured using NAV as a practical expedient, they are not required to be classified within a level on the fair value hierarchy

(5) Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

2022	Level 1	Level 2	Level 3	Total
Mutual Funds	<u>\$ 5,186,660</u>	<u>\$ -</u>	<u>\$ -</u>	\$ 5,186,660
Investments Measured at NAV Practical Expedient *				<u>5,355,038</u>
Total Investments at Fair Value				<u>\$ 10,541,698</u>
2021	Level 1	Level 2	Level 3	Total
Mutual Funds	<u>\$ 5,088,666</u>	<u>\$ -</u>	<u>\$ -</u>	\$ 5,088,666
Investments Measured at NAV Practical Expedient *				<u>5,118,435</u>
Total Investments at Fair Value				<u>\$ 10,207,101</u>

* In accordance with *Topic 820*, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. These funds calculate NAV per share (or its equivalent) in a manner consistent with measurement principals of *Topic 946*. The fair value amounts in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements on net assets available for benefits.

The following table summarized investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2022 and 2021. Certain withdrawals for other than normal benefit payments and participant directed transfers may require up to 12 months' notice.

	2022 Fair Value	2021 Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective Investment Trusts:	<u>\$ 5,355,038</u>	<u>\$ 5,118,435</u>	None	Daily	1 Day

(6) Income Tax Status

The Company adopted the Empower Retirement LLC Non-Standardized Pre-Approved Profit Sharing/Money Purchase/CODA plan. The prototype sponsor has received a favorable opinion letter from the IRS, dated November 14, 2022, which states that its prototype plan, in form, meets the requirements of Section 401(a) of the IRC and, therefore, is tax-exempt under the provisions of 401(a). The Plan document has been amended since receiving the determination letter. The Plan has not received a determination letter specific to itself; however, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The Plan administrator also maintains that the Plan is administered in accordance with all applicable laws and, accordingly, no provision has been made for income taxes in the accompanying financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(7) Related-Party and Party-in-Interest Transactions

Certain Plan assets are investment options offered through the Plan trustee or affiliates and, therefore, these transactions qualify as party-in-interest transactions.

Fees paid to the trustee, recordkeeper, and investment advisor by the Plan for administrative services, including participant fees and withdrawal charges, totaled \$31,203 during the year ended December 31, 2022.

Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

(8) Plan Termination

Although it has not expressed an intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will remain 100 percent vested in their employer contributions.

(9) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate risk, market volatility, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

(10) Prohibited Transactions

During the 2022 Plan year, the Plan sponsor failed to deposit \$288,853 of the participant deferrals and loan repayments within the required time frame as stated by the United States Department of Labor (DOL). The DOL considers late deposits to be prohibited transactions. The Plan sponsor is in the process of correcting the delinquent participant contributions.

(11) Subsequent Events

Changes in investment returns can have a significant effect on the Plan. Management is monitoring investment market conditions and the impact such fluctuations are having on the Plan's investment portfolio. Due to the volatility of the financial markets as of the date of this report, there is uncertainty regarding the impact which continued volatility may have on the Plan's investment portfolio.

On December 29, 2022, the President signed into law the Consolidated Appropriations Act of 2023, which included the SECURE 2.0 Act of 2022. Management is monitoring to determine the overall impact on the Plan.

Management has evaluated events subsequent to December 31, 2022 through November 30, 2023, the date these financial statements were available to be issued.
