INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of
Peck's Market, Inc. Employee Stock Ownership Plan

Opinion

We have audited the accompanying financial statements of Peck's Market, Inc. Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of March 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Peck's Market, Inc. Employee Stock Ownership Plan as of March 31, 2023 and 2022, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Peck's Market, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Peck's Market, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Peck's Market, Inc. Employee Stock Ownership Plan 's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Peck's Market, Inc. Employee Stock Ownership Plan 's ability to continue as a going concern for a reasonable period of time.

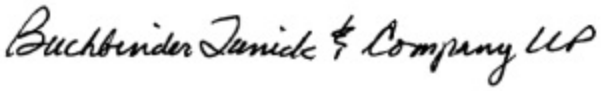

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets (Held at End of Year) as of March 31, 2023 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Plan Description

The following brief description of Peck's Market, Inc. Employee Stock Ownership Plan (the "Plan") is provided for general information purposes only and participants should refer to the Plan document for more complete information. Peck's Market Inc. (the "Company") established the Peck's Market, Inc. Employee Stock Ownership Plan effective April 1, 1983. Arthur Peck, founder of Peck's Market, sold twenty percent of the Company's stock to the newly formed Employee Stock Ownership Plan. In 1987, Mr. Peck sold the remaining eighty percent of Peck's Market stock to the Employee Stock Ownership Plan, making it a 100 percent employee owned company.

As of April 1, 1997, the Plan was amended and operates as a stock bonus plan under Section 401(a) of the Internal Revenue Code of 1986, as amended (the "Code") and is intended to be an employee stock ownership plan under Section 4975(e)(7) of the Code and regulations thereunder. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Plan is administered by Peck's Market, Inc.'s Administrative Committee.

Eligibility

All employees of the Company may become eligible to participate in the Plan after (1) being employed by the Company for six months in which they have 500 hours of service, and (2) achieving the age of 18.

Participants who do not have at least 1,000 hours of service during such plan year or are not employed on the last day of the plan year are generally not eligible for an allocation of company contributions for such year.

An employee may, subject to the approval of the Company, elect voluntarily not to participate in the Plan. The election not to participate must be communicated to the employer in writing at least thirty (30) days before the beginning of the plan year.

Employer Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make required distributions to plan participants.

Note 1 - Plan Description (Continued)

Payment of Benefits

Unless the participant elects otherwise in writing, distribution of benefits to a participant (or his or her beneficiary) under the Plan shall commence no later than by the end of the following plan year in which the latest of the following events occur:

(1) A participant who has terminated his or her employment reaches his or her normal retirement date; or

(2) A participant who has reached his or her normal retirement date terminates his or her employment with the Company.

All benefits accrued on behalf of a participant who dies or becomes permanently disabled shall be distributed within five years of the date of death or disability, or if sooner, on the date that the participant would have achieved age 70 1/2. If a participant dies after distribution of his or her benefits has commenced, such participant's remaining interest in the Plan shall be distributed at least as rapidly as under the method of distribution being used as of the date of the participant's death.

A participant who terminates his or her employment with the Company prior to his or her normal retirement date may elect to receive an initial payment of his or her benefits based upon the portion of his or her account that is company stock up to a total payment amount of $10,000 upon the close of the plan year after the plan year in which such participant terminates his or her employment with the Company. Such participant may elect to receive the remainder of his or her benefits attributable to company stock upon the close of the fifth plan year after the plan year in which such participant terminates his or her employment. Notwithstanding the foregoing, a participant who terminates his or her employment and who has been a participant in the Plan for at least 25 years may elect to receive his or her benefits in a lump sum upon the close of the plan year following the plan year in which such participant terminates his or her employment.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations. For the years ended March 31, 2023 and 2022, the Company repurchased from participants 123,447 and 53,545 shares, respectively at prices determined from the independent appraisal.

Note 1 - Plan Description (Continued)

Termination

The Board of Directors of the Company reserves the right to amend or terminate this Plan (in whole or in part) and the trust agreement at any time, by action of its Board of Directors. Neither amendment nor termination of the Plan shall retroactively reduce the accrued benefits or vested rights of participants nor permit any part of the trust assets to be diverted to or used for any purpose other than for the exclusive benefit of the participants (and their beneficiaries).

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify 25% of their account. Participants who are at least 60 years or older with at least 15 years of service may elect to diversify 50% of their account.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest 20% after two years of service and vest an additional 20% per year thereafter through year six.

Note 1 - Plan Description (Continued)

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of plan participants and their beneficiaries.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Participant Accounts and Forfeitures

Employer contributions and plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total eligible compensation for the plan year. Forfeitures of terminated non-vested account balances allocated to remaining participants at March 31, 2023 and 2022 totaled $34,646 and $41,359, respectively. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's shares in company common stock are valued at estimated fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payments of Benefits

Benefits are recorded when paid.

Administrative Expenses

All expenses of maintaining the Plan are paid by the Company.

Subsequent Events

The Plan has evaluated subsequent events and transactions through November 9, 2023, the date that the financial statements were available to be issued.

Note 3 - Fair Value Measurements

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") *820, Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. It defines fair value as an exit price, which is the price that would be received for an asset or paid to transfer a liability in the Plan's principal or most advantageous market for the asset or liability, in an orderly transaction between market participants on the measurement date.

The fair value hierarchy generally requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability and are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the entity's own assumptions based on market data and the entity's judgments about the assumptions that market participants would use in pricing the asset or liability, and are to be developed based on the best information available in the circumstances.

The Plan determines the fair market value of its investment in securities based on the established fair value definition and hierarchy levels. The three levels within the hierarchy that may be used to measure fair value are:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs, including Level 1 prices that have been adjusted; quoted prices for similar assets or liabilities; quoted prices in markets that are less active than traded exchanges; and other inputs that are observable or can be substantially corroborated by observable market data.

Level 3: Unobservable inputs that are supported by little or no market activity and that are a significant component of the fair value of the assets or liabilities.

The lowest level of input that is a significant component of the fair value measurements determines the placement of the entire fair value measurement in the hierarchy. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the classification of fair value assets and liabilities within the fair value hierarchy levels.

Note 3 - Fair Value Measurements (Continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 31, 2023 and 2022.

Peck's Market, Inc. common stock:

The fair value of the company common stock held by the Plan is valued at fair value based upon an annual independent appraisal. This appraisal was based on a combination of the asset and income valuation approaches consistently applied. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, and estimated fair value of company assets and liabilities.

The valuation process involves plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the reviewed financial statements of the Company. The appraiser prepares a preliminary report which plan management, along with the ESOP trustee, review in detail, discuss and approve. The results of this process are documented in the minutes of the plan fiduciary.

The preceding valuation method may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level, the Plan's assets that were accounted for at fair value on a recurring basis as of March 31, 2023:

Investments in securities:

	Total Fair Value	Quoted Prices (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Other Unobservable Inputs (Level 3)
Investments at fair value:				
Investment in sponsor company common stock	$ 8,732,958	$ -	$ -	$ 8,732,958
Total investments	$ 8,732,958	$ -	$ -	$ 8,732,958

Note 3 - Fair Value Measurements (Continued)

The following table sets forth, by level, the Plan's assets that were accounted for at fair value on a recurring basis as of March 31, 2022:

Investments in securities:

	Total Fair Value	Quoted Prices (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Other Unobservable Inputs (Level 3)
Investments at fair value:				
Investment in sponsor company common stock	$ 8,637,556	$ -	$ -	$ 8,637,556
Total investments	$ 8,637,556	$ -	$ -	$ 8,637,556

The following table sets forth a summary of certain changes in the fair value of the Plan's Level 3 assets for the years ended March 31, 2023 and 2022:

	March 31, 2023	March 31, 2022
Investment in sponsor company common stock:		
Balance, beginning of year	$ 8,637,556	$ 8,190,800
Unrealized gains relating to assets still held at the reporting date	95,402	447,656
Balance, end of year	$ 8,732,958	$ 8,637,556

The amount of total gains or losses for the period, including changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date.

Gains and losses (realized and unrealized) included in net increase for the periods above are reported in net appreciation in fair value of investments in the statements of changes in net assets available for benefits.

Note 3 - Fair Value Measurements (Continued)

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments as of March 31, 2023 and 2022, respectively, and the significant unobservable inputs and the ranges of those inputs:

The sponsor company common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the income and asset valuation techniques consistent with prior years as illustrated in the following table:

Instrument	*Fair Value March 31, 2023*	*Fair Value March 31, 2022*	*Principal Valuation Technique*	*Significant Unobservable Inputs*
Sponsor company common stock	$8,732,958	$8,637,556	Income – discounted cash flow method	- Cash flow projections - Weighted average cost of capital - Terminal value
			Asset – adjusted net tangible asset method	- Net tangible asset value - Fair value of real estate

In estimating fair value of the investments in Level 3, the Plan uses a third-party valuation company.

Note 4 - Tax Status

The IRS has determined and informed the Company by a letter dated September 25, 2013 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. The Company and the plan administrator believe that the Plan, as amended, is currently designed and operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of March 31, 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2020.

Note 5 - Administration of Plan Assets

The Plan's assets, which consist principally of Peck's Market, Inc. common stock, are held by the Trustees of the Plan.

Company contributions are held and managed by the Trustees, who invest cash received and dividend income, and make distributions to participants.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan

Note 6 - Risks and Uncertainties

The Plan invests in company common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.
