Independent Auditor's Report

To the Plan Administrator of the WOU Employee Stock Ownership 401(k) Plan:

Opinion

We have audited the financial statements of the WOU Employee Stock Ownership 401(k) Plan ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statement of net assets available for benefits as of December 31, 2022, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2022, and the changes in its net assets available for benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

A. DESCRIPTION OF PLAN:

The following description of WOU Employee Stock Ownership 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document for a complete description of the Plan's provisions.

General

The Plan sponsor, WOU Holdings, Inc. (the "Company") established the WOU Employee Stock Ownership 401(k) Plan ("ESOP") effective January 1, 2022. The Plan operates, in relevant part, as an employee stock ownership plan and as a defined contribution plan covering substantially all employees of the Company. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code ("IRC") and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Contributions

Eligible employees can share in the ESOP contributions and profit sharing contributions upon attainment of age 18 and completion of one year of service in which they have to complete 1,000 hours of service. These employees become eligible to enter the Plan on the 1st day of the first month or seventh month of the plan year. The Company may make a discretionary ESOP and profit sharing contribution. For the plan year ended December 31, 2022, the Company did not make an ESOP contribution. For the plan year ended December 31, 2022, the Company made a profit sharing contribution of $14,756. Profit sharing contributions are allocated to participants at the discretion of the Company. Participants may also contribute funds from another qualified plan ("rollover contributions"), subject to certain requirements.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited or charged with profit sharing contributions, investment income, administrative expenses, and an allocation of ESOP contributions. Investment income, including realized and unrealized gains and losses, and expenses are allocated to participants' accounts based on each participants' account balance within each fund for participant directed investments. In addition, each participant's account is credited with the participant's proportional allocation of the Plan's earnings, including unrealized gains and losses, and expenses for nonparticipant directed investments associated with the Company's common stock. For participant directed investments, participants shall determine the percentage in which contributions are to be invested in each fund and may change their investment options as set forth in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately fully vested in the portion of their account which represents their profit sharing contributions remitted after December 1, 2022, and the income thereon. Participants become 100% vested in the Company's profit sharing and ESOP contributions upon death, total and permanent disability, or attainment of normal retirement age. Otherwise, a participant's interest in the Company's profit sharing contributions remitted before December 1, 2022, and earnings thereon vests according to the following schedule:

Completed Years of Service	Percent Vested
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

A participant's interest in their ESOP contributions and earnings thereon vests according to the following schedule:

Completed Years of Service	Percent Vested
Less than 3	0%
3	100%

Forfeitures

Forfeitures attributable to Company stock may be allocated to the account of each participant. Forfeitures of Company Stock are allocated by the plan administrator to participants ESOP accounts in the same manner as ESOP contributions from the Company. Non-ESOP forfeitures may be used to pay plan expenses or be reallocated to participants non-ESOP accounts. During the year ended December 31, 2022, no forfeitures were used. There were no unallocated forfeitures as of December 31, 2022.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loans are only permitted from their non-ESOP accounts. The loans are secured by the balance in the participant's account. Loans must bear a reasonable rate of interest. All loans must be repaid within five years. No more than two loans may be outstanding at any time. Principal and interest is generally paid ratably through payroll deductions each pay period.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily traded on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company may choose to pay for the purchase over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Distribution of Benefits

The benefit to which a participant is entitled is the vested balance of their account. Distributions from ESOP accounts on account of severance of employment, death, disability, or retirement are made by the end of the Plan year following the event and from non-ESOP accounts may be made in a lump sum as soon as practicable following the event. If the Company determines it has sufficient liquidity and there is a timely valuation, it may permit a distribution to commence as soon as administratively feasible if a participant elects an earlier distribution. A participant who has reached the later of his or her normal retirement date and who also has reached the 10th anniversary of the year in which such participant commenced participation in the Plan or his or her termination will begin to receive a distribution of his or her account by the 60th day of the following plan year.

Distributions are made in cash or, if the participant elects, in the form of Company common stock plus cash for any fractional share of common stock. Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations. The amount to be distributed from the ESOP accounts is based upon the valuation date coincident with or immediately preceding the distribution. Distributions under the Plan may be made in lump sums or annual installments.

A participant may also request a withdrawal upon attainment of age 59 1/2 or upon demonstration by the participant to the plan administrator that the participant is suffering from "hardship", as defined in the plan document. A participant may also request a withdrawal upon birth or adoption of a child of the Participant. These in-service withdrawals are only permitted from vested non-ESOP accounts and are paid in cash as a lump sum. Participants may take a distribution of their rollover funds at any time.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is permitted to vote any allocated share for which timely instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of plan participants and beneficiaries.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of Company shares allocated to their account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. If a participant elects diversification. Diversification shall not apply to participants with an ESOP account balance of less than $500. No participants are eligible for diversification until 2032.

Permissive Diversification

Permissive diversifications are allowed at the discretion of the Company at such times when the Company has a current appraisal and there is sufficient liquidity to do so. The Company may cause the diversification of all or some portion of the ESOP accounts of participants whose benefits are to be distributed or are eligible for distribution or may diversify any portion of participants' ESOP accounts provided such diversification is not discriminatory. Diversified shares are purchased by the Company. During the year ended December 31, 2022, there were no permissive diversification payments.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Cash

Cash includes cash on hand and demand deposit accounts.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2022. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Expenses of the Plan

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The expenses for the Plan were paid by the Company for the plan year. Expenses that are paid by the Company are excluded from these financial statements.

Payment of Benefits

Benefits are recorded when paid.

C. RELATED PARTY AND PARTIES-IN-INTEREST:

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan or an employer whose employees are covered by the Plan.

D. TAX STATUS:

The Plan has applied for but has not received a determination letter from the Internal Revenue Service ("IRS") stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code ("the Code"). However, the Plan administrator believes that the Plan is qualified and, therefore, the related trust is exempt from taxation.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

E. PLAN TERMINATION:

Although the Plan was established with the intention that it will continue indefinitely, the Company retains the right to discontinue its contributions at any time or to terminate the Plan, subject to the provisions of ERISA. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. In the event of plan termination, all participants will become 100% vested in their accounts.

F. SUBSEQUENT EVENTS:

The Company has evaluated subsequent events through December 6, 2023, the date these financial statements were available for issuance.

On January 1, 2023, the Plan entered into a Stock Purchase Agreement with the Company to purchase 100,000 shares of Company common stock for an aggregate price of $10,000, which includes a cash payment of $4,800 and a note between the Plan and the Company for $5,200. This note has a 40-year term and is payable annually.

Effective March 28, 2023, the Work Opportunities Unlimited, Inc. 401(k) Plan merged with and into this Plan and ceased to exist as a separate plan as of that date. As of the plan merger, the provisions related to a 401(k) Plan became effective for the Plan.
