FINANCIAL STATEMENTS

March 31, 2023 and December 31, 2022
And the Period Ended March 31, 2023

INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of the

LONG TERM CARE GROUP, INC. 401(K) PLAN

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed the audit of the financial statements of Long Term Care Group, Inc. 401(k) Plan ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of March 31, 2023 and December 31, 2022, the related statement of changes in net assets available for benefits for the period ended March 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained a certification from a qualified institution as of March 31, 2023 and December 31, 2022 for the period ended March 31, 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (“GAAS”). Our responsibilities under those standards are further described in the Auditors’ Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management’s election of the ERISA Section 103(a)(3)(C) audit does not affect management’s responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan’s ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan’s transactions that are presented and disclosed in the financial statements are in conformity with the Plan’s provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors’ Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors’ report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

LONG TERM CARE GROUP, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

(1) Description of plan

The following description of the Long Term Care Group, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan was a defined contribution plan covering substantially all employees of Long Term Care Group, Inc. (the Company and Plan Administrator) and its wholly owned subsidiaries, Nations CareLink LLC, and LifePlans, LLC. Newport Trust Company was the Plan's Custodian (Custodian). The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and the Internal Revenue Code ("IRC").

The Plan was administered by the Company's Investment Committee ("Committee"), which has overall responsibility for the operation and administration of the Plan. The Committee determined the appropriateness of the Plan's investment offerings and monitored investment performance.

Plan transfer – Effective January 4, 2023, all assets of the Plan merged into the illumifin Corporation 401(k) Plan as discussed in Note 8.

Participant accounts - Employees were eligible to participate in the Plan after attaining the minimum age of 21 years.

The Plan included an auto-enrollment provision whereby all newly eligible employees were automatically enrolled in the Plan unless they affirmatively elected not to participate in the Plan. Automatically enrolled participants had their deferral rate set at 3% of eligible compensation and their contributions invested in a designated target retirement fund until changed by the participant. The automatic deferral percentage was increased by 1% per year up to a maximum of 15% of eligible compensation. Individual accounts were maintained for each Plan participant. Each participant's account was credited with the participant's contribution, the Company's matching contribution, if any, Plan earnings, and charged with an allocation of administrative fees. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled was the benefit that can be provided from the participant's vested account.

Contributions - The Plan was funded by participating employee and employer contributions. Participants could have contributed their compensation to the Plan on a pre tax basis, and after-tax basis, or a combination thereof, as defined by the Plan, subject to the annual limits of the Internal Revenue Code ("IRC"). The annual limit on elective deferral contributions was \$22,500 in 2022. Participants age 50 or older (and those who will turn 50 by the end of the calendar year) could make additional pre-tax contributions to the Plan if their contributions are otherwise limited by the tax laws or the Plan limit. Additional participant contributions could not exceed the maximum amount allowed under the federal tax laws for that calendar year. The annual limit on these additional "catch up" contributions was \$6,500 in 2022.

LONG TERM CARE GROUP, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

(1) Description of plan (continued)

Contributions (continued) - Employer matching contributions were determined by the Company to be allocated in proportion to participant salary deferrals. For the year ended December 31, 2022, the Company contributed an amount equal to 50% of the participant's elected deferral amount on up to 6% of the participant's eligible compensation.

Employer discretionary contributions were determined each year by the Company. There were no discretionary contributions for the period ended March 31, 2023 or the year ended December 31, 2022.

Participant investment account options – Participants directed the investment of all contributions and their account balances into various investment options offered by the Plan. Participants could have changed investment options at any time.

Vesting - Participants were immediately vested in their contributions plus actual earnings thereon.

Vesting provisions for employer matching and discretionary contributions for participants were as follows:

| Years of Service | Vesting Percentage |
|------------------|--------------------|
| 1 | 25% |
| 2 | 50% |
| 3 | 75% |
| 4 | 100% |

Forfeitures of matching and discretionary contributions could be used to pay expenses of the Plan or to offset future employer contributions. Forfeitures used to pay Plan expenditures were \$0 during the period ended March 31, 2023. Forfeitures used to offset employer contributions were \$0 during the period ended March 31, 2023. The Plan net assets available for benefits include \$0 and \$36,913 that were forfeitures as of March 31, 2023 and December 31, 2022, respectively.

Notes receivable from participants - Plan participants could borrow against vested funds in their account. Plan loans were limited to the lesser of \$50,000 or 50% of the participant's vested account balance, subject to a minimum amount of \$1,000. Participant loans were reported at their unpaid principal balance. Principal and interest was paid ratably through payroll deductions.

LONG TERM CARE GROUP, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

(1) Description of plan (continued)

Payment of benefits - On termination of employment, death, disability, retirement, or other reasons, a participant could elect to receive the value of the vested interest in his or her account as a lump-sum distribution, roll the balance to another qualified product (individual retirement account (IRA) or another plan), or leave the balance in the account to share in investment gains and losses. If the participant's account balance was less than \$5,000 the benefit was paid in a lump sum. If the participant's account balance exceeded \$5,000 the participant could choose how to receive the distribution. Distributions were made at the participant's election prior to termination upon age of 59 ½ or hardship as defined in the plan document.

Benefits under the Plan began when a participant retired, died, or ceased to be an employee, whichever applied. Normal retirement age was 65. In no event could a participant's normal retirement age be earlier than the fifth anniversary of the first day of the Plan year in which they became a participant in the Plan.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan were prepared under the accrual method of accounting.

Use of estimates - The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States required the plan administrator to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment valuation and income recognition - Investments were reported at fair value. Fair value was the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Committee determined the Plan's valuation policies utilizing information provided by the investment custodian. See Note 4 for discussions of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded as earned on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation (depreciation) included the Plan's gains and losses on investments bought and sold as well as held during the year and at year end.

LONG TERM CARE GROUP, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

(2) Summary of significant accounting policies (continued)

Notes receivable from participants - Notes receivable from participants were measured at their unpaid principal balance plus accrued but unpaid interest. Related fees were recorded as administrative expenses and were expensed when they were incurred. No allowance for credit losses had been recorded as of March 31, 2023 or December 31, 2022. If a participant ceased to make loan repayments and the plan administrator deemed the participant loan to be in default, the participant loan balance was reduced and a benefit payment was recorded.

Payment of benefits - Benefits were recorded when paid.

Administrative expenses - Certain expenses of the Plan are paid by the Company and were not included in the statements of changes in net assets available for benefits. Fees related to the administration of notes receivable from participants were charged directly to the participant's account and were included in administrative expenses. Investment related expenses were included in net appreciation (depreciation) of fair value of investments.

(3) Information prepared and certified by the custodian

The Plan Administrator elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Newport Trust Company, the custodian of the Plan, certified that the following data included in the accompanying financial statements was complete and accurate with respect to investments.

- Investments at fair value
- Notes receivable from participants
- Net appreciation in fair value of investments
- Interest income on notes receivable from participants

The Plan's independent public accountant did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

LONG TERM CARE GROUP, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

(4) Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy was based on the lowest level of any input that was significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There were no changes in the methodologies used in 2023 and 2022. There were no investments at March 31, 2023, therefore none are presented in the fair value hierarchy.

Mutual Funds: Mutual funds were valued at their quoted net asset value ("NAV"). The Plan received prices daily at the close of trading from a nationally recognized pricing service that are based on observable market transactions and includes these estimates in the amount disclosed in Level 1.

Collective Investment Trust: Consists of the Stable Value Fund valued at NAV. The NAV, as provided by the Custodian, was used as a practical expedient to estimate fair value. Participant transactions (purchases and sales) occurred daily. The fund was derived from the exchange where the underlying securities were primarily traded and were redeemable daily. The fund did not have any redemption restrictions and there were no unfunded commitments.

The methods described above may have produced a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believed its valuations methods were appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could have resulted in a different fair value measurement.

(4) Fair value measurements (continued)

The following table set forth by level, within the fair value hierarchy, the Plan's investments at fair values as of December 31, 2022:

| | <u>Investments at Fair Value as of December 31, 2022</u> | | | |
|---|--|----------------|----------------|----------------------|
| | <u>Level 1</u> | <u>Level 2</u> | <u>Level 3</u> | <u>Total</u> |
| Mutual funds | \$ 71,969,661 | \$ - | \$ - | \$ 71,969,661 |
| Total assets in the fair value hierarchy | <u>\$ 71,969,661</u> | <u>\$ -</u> | <u>\$ -</u> | 71,969,661 |
| Investments measured at NAV ^(a) | | | | <u>3,643,449</u> |
| Total investments, at fair value | | | | <u>\$ 75,613,110</u> |

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) were not classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

(5) Plan termination

Although the Company had not expressed any intent to do so, the Company could have terminated the Plan to permanently discontinue its contributions to the Plan or to terminate its participation in the Plan. In the event the Company terminated the Plan, participants would have become 100% vested in their accounts. The Plan was not terminated in connection with the merger and participant and Company contributions continue under the illumifin Corporation 401(k) Plan.

(6) Tax status

The Internal Revenue Service ("IRS") had determined that the prototype 401(k) profit sharing plan was designed in accordance with applicable sections of the IRC and informed the custodian of such in a letter dated March 31, 2014. The plan administrator had adopted the prototype plan, and although the Plan was amended since receiving the opinion letter, believed that the Plan was being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that is more likely than not would not be sustained upon examination by the IRS. The Plan was subject to routine audits by taxing jurisdictions: however, there were no audits for any tax periods in progress.

(7) **Risks, uncertainties and concentrations**

The Plan invested in various investment securities. Investment securities were exposed to various risks such as interest rate, market risks and credit risks. Market risks included global events which could have impacted the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in value of investment securities, it was at least reasonably possible that changes in the values of investment securities could occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

At December 31, 2022, approximately 47% of the Plan's investments were invested in the Vanguard Target Retirement 2025 fund, Vanguard Target Retirement 2030 fund, Vanguard Target Retirement 2035 fund, and the Vanguard Target Retirement 2040 fund.

(8) **Transfer of assets from the Plan**

Effective January 4, 2023, the Plan merged into the illumifin Corporation 401(k) Plan. As a result of the plan merger, assets of \$78,306,599 were transferred out of the Plan.

(9) **Subsequent events**

The Plan had evaluated subsequent events through November 27, 2023, which is the date the financial statements were available to be issued and noted no items for disclosure.
