## Report of Independent Auditors

The Trustees of  
Boyd Coffee Company Pension Plan

### Report on the Audit of the Financial Statements

#### *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit*

We have performed audits of the financial statements of Boyd Coffee Company Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C)). The financial statements comprise the statements of net assets available for benefits as of March 20, 2023 and December 31, 2022, and the related statement of changes in net assets available for benefits for the period ended March 20, 2023 and the year ended December 31, 2022. then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2022 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the benefits for the period ended March 20, 2023 and the year ended December 31, 2022, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

#### **Opinion**

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section.

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### ***Basis for Opinion***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### ***Emphasis of Matter – Basis of Accounting***

As discussed in Note 10 to the financial statements, the Plan entered into an agreement with Pension Benefit Guarantee Corporation (PBGC) to terminate the Plan as of April 30, 2022. As a result, the Plan has changed its basis of accounting from the going concern basis used in presenting the 2021 financial statements to the liquidation basis used in presenting the 2022 and 2023 financial statements. Our opinion is not modified with respect to that matter.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2023 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Other Matters***

#### *Supplemental Schedules Required by ERISA*

The supplemental schedules of The Schedule H, line 4(i) – schedule of assets (held at end of year) – as of March 20, 2023 and the Schedule H, line 4(j) – schedule of reportable transactions – for the period ended March 20, 2023 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

# Boyd Coffee Company Pension Plan

## Notes to Financial Statements

---

### Note 1 – Description of Plan

The following brief description of the Boyd Coffee Company Pension Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

**General** – The Plan was established effective December 22, 1949, and is a noncontributory defined benefit pension plan providing benefits to substantially all eligible employees of the Plan Sponsor, Boyd Coffee Company (the Company), and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2007, the Plan was frozen to current benefits and participation. No years of benefit service shall be credited and no eligible employee shall commence or resume participation in the Plan after December 31, 2006. Although participants will no longer accrue benefits, the Plan remained in existence as long as necessary to pay the benefits already accrued. The Company continued contributions to the Plan to meet ERISA minimum funding requirements.

On October 2, 2017, the Company and its shareholders signed an Asset Purchase Agreement with a third party.

On March 20, 2023, the Plan entered into an agreement with Pension Benefit Guaranty Corporation (PBGC) to terminate as of April 30, 2022, and appoint PBGC as trustee of the Plan. Therefore, the Plan is presented on a liquidation basis of accounting as of and for the period ended March 20, 2023.

### Payment of benefits

*Pension benefits and vesting* – Employees with three or more years of service are entitled to annual pension benefits beginning at normal retirement age 65 equal to 1.75% of their average monthly compensation for each year of service before November 1, 1981, and 1.25% of their average monthly compensation for each year of service between November 1, 1981 and December 31, 2006. The Plan permits early retirement at age 55 with ten years of service. Vesting of retirement benefits was based on years of services with increases in increments of 20% per year after the first three years of service, until fully vested after seven years. If employees terminate before rendering three years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to the Company's contributions. Employees may elect to receive the value of their accumulated plan benefits as a lump-sum distribution upon retirement or termination, or they may elect to receive their benefits as a life annuity payable monthly from retirement.

### **Notes to Financial Statements**

---

*Disability benefits* – If a participant became totally and permanently disabled prior to April 1, 2004 while an employee prior to normal retirement age, he shall be treated under the Plan during the continuance of the total and permanent disability as though he were still employed at the same regular rate of compensation he was earning and with the same regular number of hours of service as an eligible employee per plan year, as at the time of the occurrence of his total and permanent disability until the earlier of his attainment of normal retirement age, the date a distribution is made, or the participant's death. Should the participant cease to be totally and permanently disabled before attaining the earlier of the events described in the preceding sentence and not immediately thereafter resume service, he shall be treated as if he had terminated service as an employee on the date he ceased to be totally and permanently disabled. Upon subsequent attainment of normal retirement age, he shall be entitled to a retirement benefit under the same conditions as in the case of any other participant. If a participant incurs a total and permanent disability on or after April 1, 2004, this provision shall no longer apply.

*Death benefits* – If a participant dies prior to the participant's retirement date, the participant's beneficiary shall receive a death benefit equal to the actuarial equivalent of the participant's accrued benefit.

#### **Note 2 – Summary of Accounting Policies**

**Basis of accounting** – The accompanying financial statements have been prepared in accordance with generally accepted accounting principles. As discussed in Note 10 to the financial statements, the Plan was terminated the Plan effective April 30, 2022. As a result, the Plan changed its basis of accounting for the year ended March 20, 2023 from the going concern basis to the liquidation basis.

Under the liquidation basis of accounting, assets are measured to reflect the estimated amount of cash expected to be collected in settling or disposing of the assets during the liquidation process and liabilities are measured using the accrual basis of accounting and would include any expected costs of the disposal of assets and other costs expected to be incurred during the liquidation process.

**Use of estimates** – The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

**Investment valuation** – The investments are stated at fair value. The Plan's trustee, First State Trust Company, certifies the fair market value of all investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the "exit price") in an orderly transaction between market participants at the measurement date.

**Income recognition** – Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. The net appreciation and depreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

**Payment of benefits** – Benefit payments to participants are recorded upon distribution.

### Notes to Financial Statements

---

**Expenses** – The Plan’s expenses are paid by the Plan, as specified in the plan document. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are deducted from investment earnings, as disclosed in the investment prospectus, and thus are not separately disclosed in the accompanying financial statements.

**Subsequent events** – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan’s financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through December 15, 2023, which is the date the financial statements were available to be issued.

#### **Note 3 – Actuarial Present Value of Accumulated Plan Benefits**

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan’s provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) beneficiaries of employees who have died. Benefits under the Plan are based on the normal retirement benefit sum of:

- a. 1.75% of the greater of basic monthly earnings or the compensation as of November 1, 1981 multiplied by Benefit Service prior to November 1, 1981. Basic monthly earnings are the employees’ average compensation during their last 36-consecutive-month period prior to termination of employment, provided that the Participant is credited with at least 1 hour as a Participant in each of the 36 months. Compensation after December 31, 2006, is excluded for purposes of this calculation.
- b. 1.25% of basic monthly earnings multiplied by benefit service after November 1, 1981 (maximum 38 years), reduced by the profit sharing account attributable to the participant.

Benefits due under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service, rendered to December 31, 2006.

## Boyd Coffee Company Pension Plan

### Notes to Financial Statements

---

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of December 31, 2021 were (a) life expectancy of participants (RP-2014 Total Dataset, Adjusted with Scale MP-2021), (b) retirement age assumptions (the assumed average retirement age was 65), and (c) discount rate of 6%.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2022. Had the valuations been performed as of March 20, 2023, there would be no material differences as the Plan was terminated on April 30, 2022.

The following table summarizes the actuarial present value of accumulated plan benefits as of December 31, 2021:

	December 31, 2021
Actuarial present value of accumulated plan benefits	
Vested benefits	
Participants currently receiving benefits	\$ 8,492,956
Participants entitled to deferred benefits	<u>3,489,932</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 11,982,888</u>

The following table summarizes the changes in the actuarial present value of the Plan's accumulated plan benefits for the year ended December 31, 2021:

	Years Ended December 31, 2021
Actuarial present value of accumulated plan benefits at beginning of year	\$ 12,197,351
Decrease (increase) during the year attributable to:	
Benefits accumulated and decrease in the discount period	694,500
Benefits paid	(1,148,963)
Assumption changes	(24,443)
Additional benefits earned, including experience gains and losses	264,443
Net change	(214,463)
Actuarial present value of accumulated plan benefits at end of year	\$ 11,982,888

#### Note 4 – Funding Policy

**Employee contributions** – Contributions by participants are not required or permitted by the Plan.

**Employer contributions** – The Company is required to make contributions to fund the Plan on an actuarially sound basis as determined by the Plan's actuary.

**Funding policy** – The funding policy defines the employer contribution to be the minimum contributions required by ERISA, including the provisions of the Internal Revenue Code ("IRC") and the Pension Protection Act of 2006 as amended. Boyd Coffee Company may consider contributing additional amounts from time to time in order to achieve certain funding targets. Contributions will not exceed the maximum amount deductible for tax purposes. Boyd Coffee Company's contributions for 2022 equaled or exceeded the minimum funding targets of ERISA. The minimum funding requirements for 2022 was \$177,976. Employer cash contributions for the period ended March 20, 2023 and the year ended December 31, 2022, were \$0 and \$193,000, respectively. As outlined in Note 10, the Plan was terminated in 2022 and Boyd Coffee Company was not required to satisfy the remaining minimum requirement in 2023.

#### Note 5 – Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

## Boyd Coffee Company Pension Plan Notes to Financial Statements

---

The three levels of the fair value hierarchy are described as follows:

**Level 1** – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

**Level 2** – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

**Level 3** – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used as of March 20, 2023 and December 31, 2022.

*Interest-bearing cash:* Valued at fair value based on face value or cost-plus accrued interest, which approximates fair value because of the short maturity of these investments.

*Common stock and exchange traded funds* – Valued at the closing price reported on the active market on which the individual securities are traded.

*Registered investment companies (mutual funds)* – Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange.

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

### Note 6 – Information Certified by the Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. First State Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of:

- Investments reflected on the accompanying statements of net assets available for benefits as of March 20, 2023 and December 31, 2022.
- Net appreciation and depreciation in fair value of investments, interest, and dividends reflected on the accompanying statements of changes in net assets available for benefits for the period ended March 20, 2023 and year ended December 31, 2022.
- Investments reflected on the Schedule of Assets (held at end of year) as of March 20, 2023.
- Transactions reflected on the Schedule of Reportable Transactions for the period ended March 20, 2023.

### **Notes to Financial Statements**

---

#### **Note 7 – Tax Status**

The Internal Revenue Service has determined and informed the Company by a letter dated July 6, 2012, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, the plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

#### **Note 8 – Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible, that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

#### **Note 9 – Party-in-Interest Transactions**

The Plan paid administrative fees to the investment manager, asset trustee, plan auditor and plan attorney totaling \$2,274 and \$221,347 for the period ended March 20, 2023 and the year ended December 31, 2022, respectively.

#### **Note 10 – Plan Termination**

On March 20, 2023, the Plan entered into an agreement with Pension Benefit Guaranty Corporation (PBGC) to terminate as of April 30, 2022, and appoint PBGC as trustee of the Plan.

## **Boyd Coffee Company Pension Plan**

### **Notes to Financial Statements**

---

The net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed below).
- c. All other vested benefits (that is, vested benefits not insured by the PBGC).
- d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2022, that ceiling is \$6,205 per month. That ceiling applies to those annuitants who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

#### **Note 11 – Reconciliation to Form 5500**

The Form 5500 has certain items that differ from amounts shown on the accompanying financial statements. These differences relate to classification only and have no effect upon net assets available for benefits for either period.
