INDEPENDENT AUDITORS' REPORT

August 15, 2023

Plan Trustee
Williams Company Employee Stock Ownership Plan and Trust
Maitland, Florida

Opinion on the 2022 Financial Statements

We have audited the financial statements of the ***Williams Company Employee Stock Ownership Plan and Trust*** (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statement of net assets available for benefits as of December 31, 2022, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (the "2022 financial statements").

In our opinion, the accompanying 2022 financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2022, and the changes in net assets available for benefits for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis of Opinion on the 2022 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Independent Auditors' Responsibilities for the Audit of the 2022 Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the 2022 Financial Statements

Management is responsible for the preparation and fair presentation of the 2022 financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the 2022 financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

HLB WE ARE AN INDEPENDENT MEMBER OF THE GLOBAL ADVISORY AND ACCOUNTING NETWORK

201 E Pine St #801, Orlando, FL, 32801 407.843.4433

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the 2022 financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Independent Auditors' Responsibilities for the Audit of the 2022 Financial Statements

Our objectives are to obtain reasonable assurance about whether the 2022 financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the 2022 financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the 2022 financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the 2022 financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the 2022 financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2022 Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the 2022 financial statements as a whole. The December 31, 2022 supplemental schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the 2022 financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the 2022 financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the 2022 financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Independent Auditors' Report on the 2021 Financial Statements

The 2021 financial statements of the Plan were audited by Vestal & Wiler, CPAs, P.A. (V&W), who combined with Rehmann Robson LLC effective November 1, 2022. V&W's report thereon dated July 14, 2022, expressed an unmodified opinion on the 2021 financial statements.

WILLIAMS COMPANY EMPLOYEE STOCK OWNERSHIP PLAN AND TRUST

Notes to Financial Statements

1. DESCRIPTION OF THE PLAN AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of the Plan

General

The following description of the ***Williams Company Employee Stock Ownership Plan and Trust*** (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Williams Construction Group, Inc. (the "Company") established the Plan effective January 1, 2007. The Plan operates as a leveraged employee stock ownership plan ("ESOP"), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (the "Code") of 1986, as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Company retained the services of an independent third party as the Plan's trustee (the "Trustee").

On July 19, 2016, the Plan purchased the remaining 2,525,000 shares of outstanding Company common stock ("Company Stock") using the proceeds of a loan from the Company (see Note 4), and holds the stock in a trust established under the Plan. The Plan purchased 2,475,000 shares in previous years. The borrowing is to be repaid over a period of 12 years by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal and interest, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

The borrowing is collateralized by the unallocated shares of Company Stock and is guaranteed by the Company. The Company has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to:

(a) the accounts of employees with vested rights in allocated stock ("allocated") and
(b) stock not yet allocated to employees ("unallocated")

Risks and Economic Uncertainties

The Plan has investments in Common Stock. Investment securities are exposed to various risks, such as interest rate, market and credit risks as well as valuation assumptions based on earnings, cash flows, and other such techniques. Market risks include global events which could impact the value of investment securities, such as international conflict. Due to the level of interest rate, market, and credit risks inherent with certain of the Plan's investment securities, including the valuation assumptions, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statements of net assets available for benefits and changes in net assets available for benefits.

Notes to Financial Statements

Eligibility

Employees of the Company aged 21 or older are generally eligible to participate in the Plan after three months of service, providing they worked at least 250 hours during such period. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year.

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's earnings from dividends and interest, equals the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Participant contributions are not permitted.

Participant Accounts and Forfeitures

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's Common Stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation of all participants for the Plan year. Forfeitures allocated to participants during 2022 totaled 8,434 shares and $86. There were no forfeited nonvested accounts as of December 31, 2022 and 2021.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balance in his or her account based on total years of service with the Company. A participant becomes 20% vested after two years of credited service and increases ratably until fully vested after six years of credited service.

Payment of Benefits

No distributions from the Plan will be made until a participant retires, becomes disabled, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the Company. Distributions are made in cash or, if a participant elects, in the form of Company Stock plus cash for any fractional share.

Notes to Financial Statements

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. Notwithstanding the foregoing, no distribution of Company Stock that was acquired with the proceeds of an "exempt" loan will be made until the close of the Plan year in which the loan is fully repaid unless the value of a terminated participant's vested aggregate account does not exceed $10,000, in which the participant may request a distribution on or after the close of the Plan year after the Plan year of termination of employment.

Voting Rights

Generally, the Trustee will vote all the shares. Under certain circumstances each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interests of Plan participants and beneficiaries.

Put Option

Under Federal income tax regulations, the Company Stock, which is held by the Plan and is not readily tradable on an established market or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company Stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. The election to diversify is made subsequent to year end based upon the shares of employer stock in the participant's account at year end.

Administration of Plan Assets

The Plan's assets, which consist principally of the Company's common shares, are held by the Trustee of the Plan. Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loans, which are reimbursed to the Trustee through contributions as determined by the Company.

Notes to Financial Statements

Certain administrative functions are performed by officers or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan. Certain administrative expenses including Trustee fees are paid directly by the Company.

Administrative Expenses

The Plan's administrative expenses, including an allocation of salaries related to Plan administration, audit and legal costs are paid by the Company and qualify as party-in-interest transactions which are exempt from prohibited transaction rules. Expenses that are paid directly by the Company are excluded from these financial statements. Interest expense was paid by the Plan.

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP")requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Cash

Cash consists of bank deposit account in a financial institution, which at times may exceed federally insured limits. Management does not believe the Plan is exposed to a significant financial risk as a result of this deposit.

Notes to Financial Statements

Investment Valuation and Income Recognition

The shares of Company Stock are valued at estimated fair value. Fair value is the price that would be received to sell and asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the trustee and appraiser. See Note 3 for discussion of fair value measurements. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions

Employer contributions are recorded in the period in which they become obligations of the Company.

Benefits Paid to Participants

Benefit payments to participants are recorded when paid.

Subsequent Events

In preparing these financial statements, Plan management has evaluated, for potential recognition or disclosure, significant events or transactions that occurred during the period subsequent to December 31, 2022, the most recent statement of net assets available for benefits presented herein, through August 15, 2023, the date these financial statements were available to be issued. No significant such events or transactions were identified.

2. INVESTMENTS

The following table presents the Plan's investment in the Company's Common Stock at December 31:

	2022		2021

Estimated fair value	$34,760,654	$ 8,589,346	$30,845,334	$ 9,754,666

Notes to Financial Statements

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. For financial assets recorded at fair value, the description includes an indication of the level of the fair value hierarchy in which the assets are classified. There have been no changes in the methodology used at December 31, 2022 and 2021.

Investment in the Company's Common Stock: The fair value of the Common Stock held by the Plan is valued at estimated fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flows and net income, return on assets, return on equity, market comparables, and estimated fair value of company assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

Notes to Financial Statements

The valuation process involves Plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the audited consolidated financial statements of the Company. The appraiser prepares a preliminary report which Plan management, along with the ESOP trustee, reviews in detail, discusses and approves. The results of this process are documented in minutes of the Plan fiduciary. The estimated fair value of common stock of the Company as of December 31, 2022 and 2021, was $8.67 and $8.12 per share, respectively, and is classified as Level 3.

Cash: The fair value of money market account is equal to the cost of these funds, which are considered to be cash equivalents. Therefore, the Plan classifies money market accounts as Level 2 investments in the fair value hierarchy.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value at December 31:

2022	Level 1	Level 2	Level 3	Total
Investment in Common Stock	$ -	$ -	$ 43,350,000	$ 43,350,000
Money Market Account	-	227,399	-	227,399
Total investments at fair value	**$ -**	**$ 227,399**	**$ 43,350,000**	**$ 43,577,399**

2021	Level 1	Level 2	Level 3	Total
Investment in Common Stock	$ -	$ -	$ 40,600,000	$ 40,600,000
Money Market Account	-	226,106	-	226,106
Total investments at fair value	**$ -**	**$ 226,106**	**$ 40,600,000**	**$ 40,826,106**

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. Plan management evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. There were no transfers of assets into or out of Level 3 in 2022 and 2021.

Notes to Financial Statements

Changes in Fair Value of Level 3 Assets

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the years ended December 31:

	Investment in Common Stock	
	2022	**2021**
Balance, beginning of year	$ 40,600,000	$ 36,900,000
Unrealized gains relating to stock hold at the reporting date	2,750,000	3,700,000
Balance, end of year	**$ 43,350,000**	**$ 40,600,000**

The following is a description of the valuation methodologies used to measure fair value of the Level 3 assets. There have been no changes in the methodologies used at December 31, 2022 and 2021.

The Company's Common Stock held by the Plan is reported at fair value based upon an appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years as illustrated in the following table:

Instrument	Fair Value 2022	Fair Value 2021	Principle Valuation Technique	Unobservable Inputs
Common Stock	$ 43,350,000	$ 40,600,000	Income	EBITDA
				Net income
				Weighted average cost of capital
				Discount rate
				Discount for lack of marketability
			Market	Public comparables
				Revenue multiple
				EBITDA multiple
				Discount for lack of marketability

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements

4. LOAN PAYABLE

The Plan entered into a $3,989,500 term loan agreement with the Company. The proceeds of the loan were used to purchase 2,525,000 shares of the Company's Common Stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made.

The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future year's principal and interest payments. This resulted in 210,616 shares being released and allocated for the Plan year ended December 31, 2022.

The loan bears interest at 2.24% per annum. The agreement provides for the loan to be repaid over a period of 12 years.

The scheduled amortization of the loan at December 31, 2022 is as follows:

Year	Amount
2023	$ 332,458
2024	332,458
2025	332,458
2026	332,458
2027	332,460

5. COMPANY ADVANCES

During the Plan year ended December 31, 2022, the Company advanced $896,965 in cash to the Trust to cover the Plan's distribution obligations. This advance was an interest-free loan to the Plan. No collateral has been taken for this loan. Plan management believes that the loan complies with the requirements of Department of Labor Prohibited Transaction Class Exemption 80-26. The proceeds of the loan were used to fund cash distributions to participants. The advance was converted to a contribution as of December 31, 2022.

6. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in Company Stock and has indebtedness guaranteed by the Company. These are related party and party-in-interest transactions. As described in Note 1, the Company pays all Plan expenses. The Plan has a number of service providers. Such providers are parties-in-interest under ERISA.

Notes to Financial Statements

7. TAX STATUS

The Plan and related Trust received a determination letter dated October 23, 2014, in which the Internal Revenue Service stated that the Plan and Trust, as then designed, were in compliance with the applicable requirements of the Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan's legal counsel believe that the Plan is designed and currently being operated in compliance with the applicable requirements of the Code and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan may be subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to fiscal 2019.

8. PLAN TERMINATION

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan agreement and the IRC. Upon termination of the Plan, the Plan's Administrative Committee shall direct the Trustees to pay all liabilities and expenses of the trust fund.
