Part I Asset and Liability Statement			
1 Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. Round off amounts to the nearest dollar. MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 1b(1), 1b(2), 1c(8), 1g, 1h, and 1i. CCTs, PSAs, and 103-12 IEs also do not complete lines 1d and 1e. See instructions.

To the Plan Administrator
The Chemours Company Retirement Savings Plan
Wilmington, DE

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of The Chemours Company Retirement Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained a certification from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- the certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

BDO USA, P.C., a Virginia professional corporation, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2022 is presented for purposes of additional analysis and not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the certified investment information in the supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

The Chemours Company Retirement Savings Plan

Notes to Financial Statements

1. Plan Description

General

The Chemours Company Retirement Savings Plan (the Plan) is a defined contribution plan established for the benefit of certain eligible employees of The Chemours Company and affiliates (Chemours or the Company) who elect to participate in the Plan (the Participants) with an effective date of July 1, 2015. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of Plan provisions.

The Plan covers substantially all employees of the Company and its participating subsidiaries. Eligible employees may participate in the Plan on the date they are hired (or rehired) by the Company.

Bank of America, N.A. is the Plan Trustee, and also serves as record keeper.

On July 1, 2015, the E.I. DuPont de Nemours and Company (DuPont) completed its plan to separate its Performance Chemicals segment, which began independent operations as The Chemours Company. In conjunction with the separation, the Company established the Plan as a new defined contribution plan for the benefit of certain eligible employees of the Company and certain former employees of DuPont.

Contributions and Vesting

Participants are eligible to contribute from 1 to 90 percent of their eligible compensation to the Plan, in increments of whole percentages, up to the Internal Revenue Service (IRS) maximum. Unless Participants' elect otherwise, they are automatically enrolled to defer 6% of their eligible compensation (automatically increasing 1% per year to a maximum of 15%). The Plan allows participants who will attain age 50 in the current Plan year to make catch-up contributions into the Plan up to the IRS maximum. Participants may also contribute amounts into the Plan from other qualified employer plans in which they had previously participated (rollovers). Former DuPont employees who participated in the DuPont Retirement Savings Plan had the option to, rollover their custodial account balance to the newly formed Plan but were not required to do so. The Company makes a safe harbor matching contribution on behalf of each Participant after the Participant has commenced their employment. This matching contribution is 100 percent on the first six percent of a Participant's contributions. Employee deferrals and matching contributions and related earnings vest immediately. The Plan allows the Company to make a non-elective contribution (retirement savings contribution) to the Trust for each Plan Year such amount as it shall determine in its discretion. The plan was amended and restated effective January 1, 2021 to include a provision that requires the Company to contribute retirement savings contributions to all covered employees at the last day of each plan year who received compensation, a percentage of their compensation (for retirement savings contributions only, both required and discretionary, compensation is limited to \$100,000) between 1 and 3%. The annual contribution percent is based on the sum of each participant's age and years of service and the last day of the Plan year, such that a total sum of 90 or more is allocated 3%, a sum between 75-89 is allocated 2% and a sum below 75, allocated 1%. The required annual retirement savings contribution for the year ended December 31, 2022 was \$5,346,793 and was recorded as employer contributions in the accompanying statement of changes in net assets available for benefits to be paid in the spring of 2023 and no additional discretionary amounts were contributed.

The Chemours Company Retirement Savings Plan

Notes to Financial Statements

Participants will have a 100% vested interest in their accounts related to retirement savings contributions after being credited with three years of service. Participants that are still employed by the Company at age 65, become totally disabled, die or have their employment terminated, will have their contributions 100% vested in the Plan, regardless of service length. On December 31, 2022 and 2021, the unused, unallocated forfeitures totaled \$32,304 and \$27,581, respectively. During the year ended December 31, 2022, \$133,348 of forfeitures were used to cover Plan administrative expenses.

Investment Elections

The Plan offers a variety of investment options selected by the Retirement Plan Committee. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants make investment elections in increments of 1% and you may change these elections at any times. If a Participant does not make an investment election, contributions will be made to the default investment chosen by the Retirement Plan Committee.

Participant Accounts

Each Participant's account is credited with the Participant's and the Company's contributions and their portion of the Plan's earnings (losses). Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings (losses), account balances, or specific participant transactions, as defined. The benefit to which a Participant is entitled is the benefit that can be provided from the Participant's vested account.

Notes Receivable from Participants

Participants may generally borrow a minimum of \$1,000 from their account balance and up to 50 percent of their vested benefit to a maximum of \$50,000. Participants may have no more than two loans outstanding at any time. The term of a loan will be one to five years, at the election of the Participant, except for a loan to purchase the Participant's principal residence, which can be repaid over 10 years. Loans are secured by the Participant's account balance, bearing interest at the rate that is commensurate with rates charged by those in the business of lending money for loans that would be made under similar circumstances, and are repaid through automatic payroll deductions.

Payment of Benefits

Participants may withdraw funds from their account upon retirement, disability, separation from employment, attainment of age 65, and certain other times as specified in the Plan document. Distributions shall be made in any of the following manners: a lump sum in cash, in variable periodic payments, lifetime periodic payments or fixed payments. Once per year, a participant may change their election and select another periodic payment option.

Plan Administration

The Chemours Corporation administers the Plan and has appointed a Retirement Plan Committee responsible for development of Plan investment policies and guidelines; currently comprised of Company management. The Plan did not pay the Company or the Retirement Plan Committee members for their services.

Notes to Financial Statements

Administrative Expenses

Participants pay fees relating to loans and withdrawals. Additionally, Participants may pay for commissions associated with investment purchases and sales and short term transaction fees in certain funds when Participants trade in and out of the funds within the time restriction specified for such funds. Participant costs, including investment management fees charged by the respective funds, are charged directly to the Participant's account and are reflected in the statement of changes in net assets available for benefits. The Company bears the remaining cost of Plan administration, which are excluded from these financial statements.

Plan Transfer

In 2021, the Chemours Corporation agreed to sell a business unit located in Memphis, TN. In connection therewith, in the summer of 2022, an in-kind transfer of assets of certain former Company employees was completed from the Plan to the Covoro Mining Solutions 401(k) Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan maintains its accounting records on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. If a Participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ significantly from those estimates.

Investment Valuation and Income Recognition

The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investments are reported at fair value and are primarily comprised of common collective trusts (CCTs). Shares of CCTs are valued at net asset value (NAV) per unit as determined by the trustees at year end. CCTs NAV is used as the practical expedient to estimate fair value.

The preceding methods may produce a fair value that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies

The Chemours Company Retirement Savings Plan

Notes to Financial Statements

or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains (losses) on investments bought and sold, as well as held during the year.

Benefit Payments

Benefits are recorded as distributions when paid.

Subsequent Events

Subsequent events have been evaluated through January 4, 2024, the date these financial statements were available to be issued.

3. Certified Investments

Certain information related to investments and notes receivable disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at December 31, 2022 and 2021, and net depreciation in fair value of investments, interest and dividends for the year ended December 31, 2022, was obtained by management and agreed to or derived from information certified as complete and accurate by Bank of America N.A., the trustee of the Plan.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and ERISA-required supplemental schedule.

4. Investments and Fair Value Measurement

The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Valuations based on unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Valuations based on quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Valuations based on inputs that are unobservable and significant to the fair value measurement.

The Chemours Company Retirement Savings Plan

Notes to Financial Statements

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. For a description of the valuation methodologies used for assets measured at fair value, see Note 2. There have been no changes in the methodologies used at December 31, 2022 and 2021.

At December 31, 2022 and 2021, Plan investments consisted of CCTs measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy.

During 2021, the Plan offered participants new investments options, including target retirement funds which using an asset allocation strategy designed for investors planning to retire or leave the workforce in or within a few years of the target year. The CCT equity fund options consist substantially of large-capitalization U.S. stocks and, to a lesser extent, mid- and small-cap U.S. stocks and international stocks. The CCT Bond funds consists primarily of underlying holdings designed to mirror the Bloomberg Barclays U.S. Aggregate Bond Index.

Plan participants can also invest in the Invesco Stable Value Retirement Fund (Invesco Fund), a CCT that consists primarily of synthetic guaranteed investment contracts, with an objective to seek the preservation of principal and provide interest income. Participant transactions are executed at contract value. The Plan is required to give 12 month irrevocable written notice of its intention to redeem all or a portion of its participation in the Invesco Fund.

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2022 and 2021 respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

December 31, 2022	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
CCT - Invesco Fund	\$ 108,350,346	\$-	Daily	12 months
CCTs - Target Date Funds	\$ 348,216,131	\$-	Daily	n/a
CCTs - Equity Funds	\$ 219,651,146	\$-	Daily	n/a
CCTs - Bond Funds	\$ 30,704,426	\$-	Daily	n/a

December 31, 2021	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period

Notes to Financial Statements

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and the Internal Revenue Code. In the event of Plan termination, Participants would become 100 percent vested in their Company contributions.

6. Related-Party Transactions and Party-In-Interest Transactions

Plan investments are managed by the Plan Trustee, Bank of America, N.A. and its affiliates. Transactions with the Plan Trustee qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are partially included in net depreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment, with a direct payment. For the year ended December 31, 2022, the Plan paid the Plan Trustee fees of \$316,346 which was not covered by revenue sharing. There is a revenue sharing agreement between Bank of America affiliates and the Plan that permits revenue to be used to pay Plan expenses, as defined, or to be allocated to participants. These revenues were de minimis in 2022. The Company pays directly any other fees related to the Plan's operations.

In addition, participant loans receivable qualifies as party-in-interest transactions, which are exempt from the prohibited transaction rules.

7. Income Tax Status

The Plan is a qualified plan pursuant to Section 401(a) of the IRC and the related trust is exempt from federal taxation under Section 501(a) of the IRC. A favorable tax determination letter from the IRS dated June 22, 2017, that the Plan and related trust are designed in accordance with applicable sections of the IRC, after adoption of certain 2017 administrative amendments. Accordingly, no provision for income taxes has been made. The Plan has been amended since receiving the opinion letter. However, the Plan Administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC and, therefore, the Plan is qualified, and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan is subject to routine examinations by taxing jurisdictions, however there are currently no such examinations for any tax periods in progress.

8. Risks and Uncertainties

The Plan provides for various investment options. Such investments are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term, including a decrease in value, and that such changes could materially affect Participants' account balances and the amounts reported in the statement of net assets available for benefits.
