## Independent Auditor's Report

The Board of Directors  
Farmers Mutual Hail Insurance Company of Iowa Retirement Plan  
West Des Moines, Iowa

### Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audits of the financial statements of Farmers Mutual Hail Insurance Company of Iowa Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprises the statements of net assets available for benefits as of March 9, 2023 (in liquidation) and December 31, 2022 (in liquidation), and the related statements of changes in net assets available for benefits for the period from January 1, 2023 to March 9, 2023 (in liquidation) and for the year ended December 31, 2022 (in liquidation), the statements of accumulated plan benefits as of March 9, 2023 (in liquidation) and December 31, 2021 (in liquidation) and the related statements of changes in accumulated plan benefits for the period ended March 9, 2023 (in liquidation) and the year ended December 31, 2021 (in liquidation), and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the period ended March 9, 2023 and the year ended December 31, 2022, stating that the certified investment information, as described in Note 7 to the financial statements, are complete and accurate.

## **Opinion**

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

## **Emphasis of Matter – Plan Termination and Liquidation Basis of Accounting**

As further discussed in Note 1 and 5 to the financial statements, the Board of Directors approved a termination of the Plan on March 7, 2022, and management determined liquidation is imminent. The plan was terminated on March 9, 2023, and all assets were distributed from the plan. As a result, the Plan changed its basis of accounting from the ongoing basis of accounting used in presenting the 2022 and 2023 statements of net assets available for benefits and statement of changes in net assets available for benefits to the liquidation basis of accounting used in presenting the related statement of net assets available for benefits. Our opinion is not modified with respect to that matter.

## **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### **Other Matters - Supplemental Schedules Required by ERISA**

The supplemental schedule H, line 4j – schedule of reportable transactions for the period ended March 9, 2023, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including the form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

## **Note 1 - Description of Plan**

The following brief description of Farmers Mutual Hail Insurance Company of Iowa Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

### **General**

The Plan was a noncontributory defined benefit plan covering substantially all employees of Farmers Mutual Hail Insurance Company of Iowa (the Company) who, prior to December 31, 2012, (the Benefit Plan Freeze), that had completed one year of service and attained age 21, with the exception of crop-hail adjusters, seasonal employees, employees employed by Burridge Storey and Co., or employees compensated on a per diem basis. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Fiduciary Committee determined the appropriateness of the Plan's investment offerings and monitored investment performance.

### **Benefit Plan Freeze**

On November 16, 2012, the Company amended the Plan, freezing the entry into the Plan after December 31, 2012. After that date, no employee or former employee became an active participant, and no inactive participant or former participant again became an active participant. The accrued benefit was also frozen effective December 31, 2012, and no additional benefits accrued after such date.

### **Pension Benefits**

Under the terms of the Plan, employees were entitled to monthly benefit payments beginning at normal retirement age (65) at the rate of 60% of the average of the highest 36 consecutive months compensation out of the 156 most recent months, prior to the Benefit Plan Freeze, multiplied by a factor equal to complete months of service prior to the Benefit Plan Freeze, divided by 360. The monthly benefit was reduced amount when early retirement preceded age 62 (eligibility is age 55 with ten years of vesting service). The monthly benefit was an increased amount when the retirement date was subsequent to the normal retirement date (with employer consent). Normal benefits were payable for life. Monthly income payments to annuitants receiving retirement benefits were adjusted annually for changes in the Consumer Price Index (not to exceed 3%). Effective for benefits earned after January 1, 1996, and prior to the Benefit Plan Freeze, any accrued value was increased by one half of the Consumer Price Index (not to exceed 3%).

### **Death Benefits**

In the event of a death of a participant prior to retirement, the beneficiary received a death benefit equal to 50% of the participant's accrued benefit. The monthly benefit commenced at the later of the spouse's attained age of 50, or the participant's date of death.

## **Vesting**

Participants were fully vested in the Plan and forfeitures were not applicable.

## **Plan Termination**

The Employer had the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the ERISA. As discussed further in Note 5, the Employer elected to terminate the Plan effective June 30, 2022. Upon termination of the Plan, the Board of Directors directed the Trustee to pay all liabilities and expenses of the Pension Plan. Subsequently, the interest of each participant in the Plan will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan. The Plan made all final distribution payments in March 2023.

## **Note 2 - Significant Accounting Policies**

### **Basis of Accounting**

The financial statements of the Plan as of and for the period ended March 9, 2023 and as of and for the year ended December 31, 2022, are prepared under the liquidation basis of accounting.

### **Use of Estimates**

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosures of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Accordingly, actual results may differ from those estimates.

### **Investment Valuation and Income Recognition**

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Fiduciary Committee determines the Plan's valuation policies utilizing information provided by its investment advisers, custodians, and insurance company. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as those held during the year.

The classification of investment earnings reported in the statements of changes in net assets available for benefits may differ from the classification of earnings on Internal Revenue Service (IRS) Form 5500 due to different reporting requirements on Form 5500.

## **Payment of Benefits**

Benefit payments to participants are recorded upon distribution.

## **Administrative Expenses**

The Plan's expenses are paid by either the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment-related expenses are included in net appreciation (depreciation) of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

## **Subsequent Events**

The Plan sponsor has evaluated subsequent events through December 22, 2023, the date which the financial statements were available to be issued.

## **Note 3 - Actuarial Present Value of Accumulated Plan Benefits**

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the services rendered by the employees prior to the Benefit Plan Freeze. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on employees' annual compensation during their three consecutive highest-compensated years of credited service prior to the Benefit Plan Freeze. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered prior to the Benefit Plan Freeze. Benefits to be provided via annuity contracts excluded from the Plan assets are excluded from accumulated Plan benefits. Benefit payments on these contracts are excluded from the statement of changes in accumulated Plan benefits.

The actuarial present value of accumulated Plan benefits is determined by an independent actuary and is that amount which results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The information below is inclusive of the Benefit Plan Freeze (both Plan participation and benefit accruals) effective December 31, 2012.

# Farmers Mutual Hail Insurance Company of Iowa Retirement Plan

Notes to Financial Statements

March 9, 2023 (In Liquidation) and December 31, 2021 (In Liquidation)

The following is a summary of the more significant actuarial assumptions underlying the actuarial computations for the year ended December 31, 2021 (in liquidation):

Assumed Rate of Return on Investments	Inflation Rate/ Cost of Living Adjustment	Mortality Basis	Normal Retirement Age	Rate of Withdrawal
4.15%	2.25% per year for benefits earned prior to 1/1/1996 and 1.125% per year for benefits earned after 1/1/1996	2021 IRS prescribed	55	2.50%
		Mortality Optional	56	2.50%
		Combined Table for Small	57	2.50%
		Plans, Male and Female	58	2.50%
			59	20.00%
			60	20.00%
			61	20.00%
			62	25.00%
			63	25.00%
			64	25.00%
			65	25.00%
			66	25.00%
			67	50.00%
		68	100.00%	

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

For the year ended December 31, 2021, the one-year change in the Internal Revenue Service (IRS) prescribed mortality table is included in the experience gains and losses, and the change in the inflation rate has been included in the assumption changes on the statement of changes in accumulated Plan benefits.

The computations of the actuarial present value of accumulated Plan benefits were made as of January 1, 2022. Had the valuations been performed as of December 31, there would be no material differences.

Due to the plan termination, as of March 9, 2023, the accumulated benefit obligation was \$0 and all assets of the plan have been distributed.

## **Note 4 - Funding Policy**

The Plan's funding policy is for the Company to make annual contributions to the Plan in amounts that are estimated amounts necessary to fund the benefits provided, as determined by the Plan actuary, in an amount that will meet or exceed the annual ERISA minimum funding requirement. For the Plan year ending December 31, 2022, the employer made a contribution for \$6,651,659. The Company's contributions for the year ended December 31, 2022, met or exceeded the minimum funding requirements established by ERISA. No further contributions were required to appropriately pay out benefits due to plan termination. All assets were distributed from the plan effective March 9, 2023.

## Note 5 - Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have received for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under the Plan provisions in effect at any time during the five years preceding the Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a United States Governmental agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect at the date of the Plan's termination.

Whether all participants receive their benefits, should the Plan terminate at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

In March 2022, the Company determined to terminate the Plan with the termination date effective June 30, 2022. Upon the termination date, the accrued benefits of all participants became 100% vested. The vested accrued benefits of each participant under the Plan were distributed by March 2023 after required notifications to the participants were made the government approvals were received.

## Note 6 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the FASB ASC 820 are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following are descriptions of the valuation methodologies used for assets measured at fair value.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts – Valued at fair value based on the NAV of units as determined by the insurance company. The NAV is based on the observable market prices of the underlying assets within the account, less liabilities. The NAV for the underlying assets of the account is a readily determinable measure of their fair value and is the basis for current transactions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Total investments, at fair value	\$ 35,171,088	\$ -	\$ -	\$ 35,171,088

## **Note 7 - Certified Information**

Certain information related to investments disclosed in the accompanying financial statements and ERISA required supplemental schedules, including investments held at December 31, 2022, and net appreciation (depreciation) in fair value of investments, interest, and dividends for the period ended March 9, 2023 and for the year ended December 31, 2022, was obtained by management and agreed to or derived from information certified as complete and accurate by Principal Life Insurance Company (PLIC), the custodian of the Plan, and Delaware Charter Guarantee and Trust Company, d/b/a Principal Trust Company, the trustee of the Plan.

## **Note 8 - Tax Status**

The IRS has determined and informed the Company by a letter dated May 23, 2023, that the Plan's termination did not affect its qualification for federal tax purposes. In a letter dated, March 30, 2019, the IRS had indicated that the Principal Life Insurance Company Volume Submitter Defined Benefit Plan document that was utilized by the Plan was designed in accordance with the applicable regulations of the Internal Revenue Code (IRC).

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

## **Note 9 - Contracts with Insurance Company**

Under the terms of the group annuity contract with the Plan Administrator, all funds received by PLIC not specifically directed to a pooled separate account shall be, and remain a part of, the general funds (general investment fund), and PLIC shall be the sole owner thereof, without any duty or requirement of segregation or separate investment. Substantially all of the assets held under the contract are invested in equity and fixed income securities carried at fair value.

The Plan has a flexible payment investments group annuity contract with PLIC to fund the liability and purchase individual annuities for retired participants. The assets allocated for retired lives (retired life fund) must be maintained at the amount required, according to the present value of the benefit index, to provide for the remaining pension benefits for all current retirees. As the discount rate fluctuates, the retired life reserve fluctuates, and assets are moved between the Plan assets and the retired life fund. The changes in the present value of the allocated reserve for December 31, 2022 was \$8,411,74 and that has been allocated and applied to annuities (that is, PLIC is obligated to pay the related pension benefits), are excluded from the Plan's assets. Total funds excluded from Plan assets at December 31, 2022 was \$46,307,298. Under the terms of the contract, net investment income (losses) and benefit payments paid to retirees are included in the statements of changes in net assets available for benefits.

Upon the termination of the plan, effective March 9, 2023, \$67,127,290 in assets were transferred to Principal. In addition, \$46,307,298 was accounted for as a change in the benefit index and included on the Form 5500 as "Other Income" – the net amount of \$20,819,992 is included on the statement of changes in net assets available for benefits as net transfers related to the plan termination.

## **Note 10 - Related Party and Party-in-Interest Transactions**

Certain Plan investments were shares of pooled separate accounts managed by PLIC, an affiliated entity of Delaware Charter Guarantee and Trust Company, d/b/a Principal Trust Company, the trustee, as defined by the Plan. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are exempt party-in-interest transactions under ERISA.

## **Note 11 - Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or global conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Notes to Financial Statements

March 9, 2023 (In Liquidation) and December 31, 2021 (In Liquidation)

---

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.
