To the Plan Administrator and Sponsor
Holaday Circuits, Inc. 401(k) Profit Sharing Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the Financial Statements

We have performed audits of the accompanying financial statements of Holaday Circuits, Inc. 401(k) Profit Sharing Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Holaday Circuits, Inc. 401(k) Profit Sharing Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021 and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion on the Financial Statements

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the Financial Statements

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Holaday Circuits, Inc. 401(k) Profit Sharing Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Independent Auditor's Report

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Holaday Circuits, Inc. 401(k) Profit Sharing Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the Financial Statement section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of Holaday Circuits, Inc. 401(k) Profit Sharing Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Holaday Circuits, Inc. 401(k) Profit Sharing Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Independent Auditor's Report

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Holaday Circuits, Inc. 401(k) Profit Sharing Plan

Notes to the Financial Statements

December 31, 2022 and 2021

1. Description of Plan

The following description of the Holaday Circuits, Inc. 401(k) Profit Sharing Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information regarding the Plan's provisions.

General

The Plan is a defined contribution plan and was created by an agreement between Holaday Circuits, Inc. (the "Company" or "Plan Administrator") and the former trustee, State Street Bank and Trust Company, dated October 25, 1977. The Plan was amended in its entirety effective September 1, 2015 by adopting the Automatic Data Processing Non-standardized 401(k) Prototype Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA") and the Internal Revenue Code ("IRC").

Plan Operation

The Company is the Plan Sponsor and Plan Administrator. The trustee of the Plan is Reliance Trust Company (the "Trustee"). TD Ameritrade, Inc. is the custodian for the self-directed brokerage accounts. The Plan recordkeeper, Automatic Data Processing, Inc. (ADP), maintains the records of each participant's accrued benefits.

Eligibility

Employees who have completed 500 hours of service within the first six months of employment or completed one year of service, attained the age of 21 years, and who are not independent contractors, non-resident aliens, union employees or leased employees are eligible to become contributing participants in the 401(k) portion of the Plan as soon as administratively possible following the date on which requirements are satisfied. Participants must also complete one year of service in order to receive an allocation of any discretionary Company profit sharing contributions.

Contributions

The Plan allows participants in the 401(k) feature to contribute up to 50% of eligible compensation on a pre-tax or post-tax basis to the Plan. Participants may also contribute amounts representing distributions from other qualified plans. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

Upon enrollment in the Plan, participants may direct contributions into any combination of several investment options available through the Plan. Alternatively, participants may request contributions be invested in specific assets of their own choosing. The self-directed investments are included as self-directed brokerage accounts on the statements of net assets available for benefits.

As allowed under the Plan, the Company may elect to make discretionary employer matching contributions. The employer's matching contribution was 15% of a participant's contribution, up to a maximum of \$1,000, if the participant is an employee of the Company on the last day of the Plan year or if the condition is waived due to death, disability, and retirement. The Company's matching contribution was approximately \$47,000 for 2022.

In addition, the Company may elect to make a discretionary profit sharing contribution to the Plan, as determined by the Company's Board of Directors. Such contributions are allocated to participants' accounts according to a formula based on compensation. The Company did not make a discretionary profit sharing contribution to the Plan in 2022.

The Plan allows for rollover and catch-up contributions. Contributions are subject to a compensation ceiling and annual limitations prescribed by the IRC.

Notes to the Financial Statements

December 31, 2022 and 2021

1. Description of Plan (Continued)

Participant Accounts

Participants may direct the balances of their account and their contributions into any of the Plan's investment options. These investment options may be changed by the participant daily. The allocation of contributions to various funds is made by the participants. Participants can change their allocation to the various funds electronically on a daily basis.

Each participant's account is credited with the participant's contributions and an allocation of (a) the Company's contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. The benefit to which the participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and the Company matching contributions. Participants' vesting in Company discretionary profit sharing contributions is 10% per year for each of the first two years of service and 20% per year thereafter until fully vested. A participant's account becomes fully vested upon reaching the normal retirement age of 65, death, disability, or termination of the Plan.

Forfeitures

Forfeitures of Company discretionary profit sharing contributions are allocated to all participants eligible to share in the allocations of profit sharing contributions. Forfeitures are allocated to participants' accounts according to a formula based on compensation. There were no material forfeitures that were unallocated at December 31, 2022 and 2021. There were no forfeited amounts that were reallocated during 2022.

Notes Receivable From Participants

Participants are permitted to borrow up to 50% of their vested account balance with a minimum of \$1,000 up to a maximum loan amount of \$50,000. The terms require monthly principal and interest payments, and participants must repay the loans within five years, except for the purchase of a principal residence as permitted by IRS regulations and in accordance with Plan provisions. Participants may only have three loans outstanding at one time. Participant loans are also subject to the deduction of certain origination and processing charges. If not paid, the balance is treated as a distribution to the participant in the year the loan defaults. The interest rate on loans is fixed at 1.0% over the prime-lending rate.

Distribution of Benefits

On termination of service due to death, disability, retirement, or termination of employment, a participant's vested benefit is distributed as soon as administratively feasible following the date on which a distribution is requested or otherwise payable in a single lump-sum payment. The distribution will be in the form of a lump-sum payment if the participant's vested benefit is \$5,000 or less, unless the participant timely elects a direct rollover of the vested account balance. Pre-retirement distributions are allowed under the Plan after attaining the age of 59 1/2. No hardship distributions are allowed.

Termination of the Plan

Although it has not expressed any intentions to do so, the Company has the right to amend, in whole or in part, any or all of the provisions of the Plan at any time. Additionally, the Company has the right to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

Notes to the Financial Statements

December 31, 2022 and 2021

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Accounting Estimates

Management uses estimates and assumptions in preparing these financial statements in accordance with accounting principles generally accepted in the United States of America. Those estimates and assumptions affect the reported amounts of assets and liabilities, and the changes therein, and the disclosure of contingent assets and liabilities. The most significant estimate relates to the valuation of investments. Actual results could differ from those estimates, and the difference could be material.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Realized gains and losses on investments bought and sold during the year as well as unrealized gains and losses on investments held during the year are presented in the net appreciation in fair value of investments.

Payment of Benefits

Benefit payments are recorded when paid.

Fair Value of Financial Instruments

The Plan's accounting for fair value measurements of assets and liabilities that are recognized or disclosed at fair value in the financial statements on a recurring or nonrecurring basis adheres to the Financial Accounting Standards Board (FASB) fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 Inputs: Unadjusted quoted prices in active markets for identical assets or liabilities accessible to the Plan at the measurement date.
- Level 2 Inputs: Other than quoted prices included in Level 1 inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.
- Level 3 Inputs: Unobservable inputs for the asset or liability used to measure fair value to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at measurement date.

The level in the fair value hierarchy within which a fair measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Holaday Circuits, Inc. 401(k) Profit Sharing Plan

Notes to the Financial Statements

December 31, 2022 and 2021

2. Summary of Significant Accounting Policies (Continued)

Fair Value of Financial Instruments (Continued)

Mutual Funds

Valued at quoted market prices, which are based on the NAV of shares held by the Plan at year end. Mutual funds traded in active markets are classified within Level 1 of the fair value hierarchy.

Common Collective Trust

Valued at NAV per unit as determined by the collective trusts as of the valuation date. The unit values are determined based upon the fair value of the underlying assets. The NAV, as provided by the Trustee, is used as practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.

Self-Directed Brokerage

The self-directed brokerage holdings include common stocks, money market funds, and mutual funds. These investments are valued at the closing price reported on the active market on which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Administrative Expenses

Substantially all administrative expenses incurred by the Plan are paid by the Company. Investment transaction fees and record keeping service fees are paid by the Plan.

Notes Receivable

Notes receivable from participants are valued at their unpaid principal balance plus accrued interest. Upon termination of employment, the outstanding balance of a note is reported as benefits paid to participants. Participant loans are considered to be in default if any scheduled loan repayment is not made by the end of the calendar quarter following the calendar quarter in which a payment is first missed. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document. No allowance for credit losses has been recorded as of December 31, 2022 and 2021.

Subsequent Events

Effective May 1, 2023, the Plan Sponsor of the Plan changed its name to FTG Circuits Minnetonka.

The Plan's management has evaluated subsequent events for recording or disclosure in the financial statements through August 9, 2023, the date which the financial statements were available to be issued.

3. Party-In-Interest Transactions

Transactions resulting in Plan assets being transferred to or used by a related party are considered prohibited transactions under the Pension Reform Act unless a specific exemption exists.

There were no funds managed by parties-in-interest as of December 31, 2022 or 2021. ADP is the third-party administrator as defined by the Plan. Therefore, these transactions qualify as party-in-interest transactions. Loans to participants also qualify as party-in-interest transactions. However, ERISA regulations provide an exemption for such transactions. Fee expenses paid by the Plan to the Trustee and ADP for investment management services and record keeping services totaled approximately \$3,000 for 2022. The Plan has the discretion to use the other income to pay Plan expenses, reduce employer contributions, or be allocated to participants on a pro-rata basis.

Holaday Circuits, Inc. 401(k) Profit Sharing Plan

Notes to the Financial Statements

December 31, 2022 and 2021

4. Risks and Uncertainties

The Plan invests in various investment securities. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will continue to occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

5. Secure 2.0

In December 2022, Securing a Strong Retirement Act (SECURE 2.0) was passed into law. The provisions of SECURE 2.0 continue the themes and reforms that began with the 2019 CARES Act. Most of the provisions of SECURE 2.0 will become effective in 2024 and beyond. Therefore, there is no current impact to the Plan. Since the provisions include both required and optional elements, the Plan Administrator will determine the optional provisions to elect.

6. Certification of Investment Information

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Plan's trustee (Reliance Trust Company) has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments at fair value and notes receivable from participants, as shown in the accompanying statements of net assets available for benefits as of December 31, 2022 and 2021.
- Investment income (loss) and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2022.
- Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2022.

At the direction of the Plan Administrator, the Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

7. Tax Status

The Automatic Data Processing Non-standardized 401(k) Prototype Plan obtained its latest Internal Revenue Service opinion letter on October 6, 2020, in which the Internal Revenue Service stated the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the opinion letter. However, the Plan's management, Trustee, and tax counsel believe the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
