Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITOR'S REPORT

To the Participants and Trustees of the
Tuckpointers Local 52 Pension Plan

Opinion

We have audited the accompanying financial statements of the Tuckpointers Local 52 Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of April 30, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Tuckpointers Local 52 Pension Plan as of April 30, 2023 and 2022, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Tuckpointers Local 52 Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Tuckpointers Local 52 Pension Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which many become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentation, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Tuckpointers Local 52 Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregated, that raise substantial doubt about the Tuckpointers Local 52 Pension Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets held for investment purposes at the end of the year, the schedule of reportable transactions and the schedules of administrative expenses, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Respectfully submitted,

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Tuckpointers Local 52 Pension Plan ("Plan") provides only general information. Participants should refer to the Summary Plan Description for more complete information.

General

The Plan was adopted in accordance with an Agreement and Declaration of Trust ("Agreement") effective July 1, 1964, between the Pointers, Cleaners and Caulkers Union, Local 52 of Illinois, of the International Union of Bricklayers and Allied Craftsmen, AFL CIO ("Union") and the Tuckpointing Contractors Association ("Association"). This Agreement was for the benefit of employees of the members of the Association. It established the Tuckpointers Local 52 Pension Trust Fund ("Fund"), which provided for the appointment of individual Trustees to administer the Plan and the Fund, and authorized the individual Trustees to enter into those agreements necessary for the management of the Fund. The Agreement, including any Amendments thereto, constitutes the "Trust Agreement" under which the Fund is maintained. The Plan has been amended from time to time. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Administration of the Plan is the responsibility of the Board of Trustees (the Trustees) and is governed by a joint board consisting of equal representation from the participating employers and the Local 52.

There are seven classes of benefits payable under the Plan:

Normal Retirement Benefits

These benefits are available to members who leave covered employment after having attained the age of sixty-two and having met the eligibility requirements of vesting service. Effective May 1, 2022, the accrual rate for past and future service is $5.15. This rate applies to members who retire on or after May 1, 2022, and have worked at least 250 hours in a calendar year beginning in 2015, or later, subject to the break in service rules. The monthly amount of normal retirement pension is equal to the applicable accrual rate for each 50 hours a participant works in covered employment during a calendar year. The payment of the monthly benefit is guaranteed for sixty months.

Early Retirement Benefits

These benefits are available to members who wish to retire prior to their attaining age sixty-two provided such an employee has attained the age of fifty-five, and has, during the period immediately preceding his retirement, met the eligibility requirements of vesting service. The benefits to be paid will be computed as for normal retirement, except they shall be reduced by one-quarter of one percent for each month that retirement occurs prior to normal retirement date.

Disability Retirement Benefits

These benefits are available to members who become totally and permanently disabled provided that: (a) they have met the eligibility requirements of vesting service, and (b) they have not attained age sixty-two. The disability benefits will commence six months after the date of disability and shall be payable until recovery, attainment of normal retirement age, or death, whichever shall occur first. Upon a totally and permanently disabled employee attaining normal retirement age, benefits to which such employee shall be entitled shall be determined in accordance with the normal retirement benefits.

Pre-retirement Benefits

Should an employee die before he receives any pension benefit, but after he meets the eligibility requirements of vesting service, his beneficiary shall be eligible to receive a benefit for a period of sixty months equal to the amount of the monthly accrued benefit to which the deceased member was entitled. Additional benefits are also available beyond the sixty-month period where there is a surviving spouse.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Deferred Vested Benefits

Any member who leaves covered employment, provided he has met the eligibility requirements of vesting service, will remain entitled to a pension payable at normal retirement date determined in accordance with normal retirement benefits based on his age and accrued benefit as of his termination date.

Temporary Monthly Supplemental Benefits

These benefits are available to members who retire from active participation at or after age sixty, but prior to age sixty-five. The amount of the benefit is based on the number of years of vesting service accrued by the participant at retirement.

Post-retirement Lump Sum Death Benefit

These benefits are available to a retired participant's designated beneficiary in the event of the retiree's death.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Contributions Receivable

Employer contributions due but not received at year end are recorded as contributions receivable. Employer contributions owed as a result of payroll compliance audits are recorded when collected. An allowance for uncollectible accounts is considered unnecessary and is not provided.

Revenue Recognition

Revenue derived from employer contributions is recognized in the period in which covered work is performed, based on the number of hours worked and contribution rates set forth in the applicable collective bargaining agreement. Employers are required to remit contributions monthly.

To prevent deprivation of benefits to participants solely because of temporary employment within the jurisdiction of a local union other than their home local union, reciprocity agreements provide for the following: when a member of the home local union who works in the territory of a reciprocating local union, the latter is to make contributions to the former's benefit plans on the participant's behalf, at rates applicable to the reciprocating plans, and that monies received by the Plan on behalf of members of participating local unions are forwarded to their home local union's benefit plans. The Plan's contribution revenue includes monies received pursuant to reciprocity agreements. The Plan uses the same recognition and measurement criteria for such revenue as for all other employer contribution revenue.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

Comparability

Certain items were reclassified from the prior year for ease of comparison. The reclassification did not affect the Net Assets Available for Benefits.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (decline) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fixed Assets

Fixed assets are carried at cost less accumulated depreciation. Depreciation is computed on a straight-line basis over the estimated useful lives of the related assets.

Administration of Pension Plan

The Plan is self-administered. Pension benefit payments are calculated by the actuarial consultant and paid by the administrative office where appropriate records are maintained.

Payment of Benefits

Benefit payments to the participants are recorded upon distribution. Pension benefit checks issued in advance of the corresponding benefit month are recorded as prepaid pension benefits.

NOTE 3 -ACTUARIAL INFORMATION

Pension Protection Act Funding Status

Beginning May 1, 2022, based on actuarial assumptions, participant and financial data, and plan provisions, the Plan's actuary certified that the Plan was in neither critical nor endangered status ("green zone"), as defined by the Pension Protection Act of 2006.

Actuarial Accrued Liability

At May 1, 2022 (most recent report available), the overfunded actuarial accrued liability reported by The Segal Company (actuaries and consultants) for 1,585 participants and 506 retired participants and beneficiaries was $7,669,898, and the annual normal cost was stated to be $4,564,537.

NOTE 3 -ACTUARIAL INFORMATION (CONTINUED)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions, that are attributable under the Plan's provisions to the service participants have rendered. Accumulated plan benefits include benefits expected to be paid to (a) terminated vested participants and inactive non-vested participants, (b) active participants (c) benefits currently payable to retired participants and to surviving spouses and other beneficiaries of retired participants. Benefits under the plan are accumulated based on participants' reported hours worked during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances – retirement, death, and disability – are included, to the extent they are deemed attributable to participant service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by an independent actuary, The Segal Company, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of May 1, 2022, (the beginning of the Plan year) were (a) life expectancy of participants (Pri-2012 Blue-Collar Employee mortality tables (sex specific) multiplied by 115% and projected generationally using scale MP-2020) (b) retirement age assumptions (the assumed average retirement age was 60) and (c) investment return. The valuation included assumed average rates of return of 7% annually net of investment expenses. Other assumptions include withdrawal rate, disability rate, percent married, age of spouse, assumed hours worked and administrative expenses.

The foregoing actuarial assumptions are based on the presumption that the that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

There was a change in the assumptions including assuming administrative expenses increased to $550,000.

The following shows the actuarial present value of accumulated plan benefits at May 1, 2022 and 2021:

	2022	2021
Vested benefits		
For retired participants and beneficiaries	$ 121,869,676	$ 98,598,649
For other participants	178,228,040	155,574,382
Total vested benefits	300,097,716	254,173,031
Non-vested benefits	10,286,915	9,312,507
Total actuarial present value of accumulated plan benefits	$ 310,384,631	$ 263,485,538

NOTE 3 -ACTUARIAL INFORMATION (CONTINUED)

Changes in the Actuarial Present Value of Accumulated Plan Benefits

The factors that affected the change in the actuarial present value of accumulated plan benefits from May 1, 2021 to May 1, 2022 are as follows:

Actuarial present value of accumulated plan benefits – Beginning of year	$	263,485,538
Plan amendments		33,127,721
Benefits accumulated, net experience gain or loss, changes in data		7,325,065
Benefits paid		(11,559,387)
Changes in actuarial assumptions		-
Interest		18,005,694
Net increase		46,899,093
Actuarial present value of accumulated plan benefits – End of year	$	310,384,631

NOTE 4 - FUNDING POLICY

Employers contribute a set amount per hour to the Plan pursuant to the current collective bargaining agreement between employers and the union. The contribution rates per hour by period are listed below.

Period	Journeyman	Journeyman Assistant
June 1, 2020 to May 31, 2021	$8.50	$8.50
June 1, 2021 to May 31, 2022	$8.75	$8.75
June 1, 2022 to May 31, 2023	$9.00	$9.00
June 1, 2023 to May 31, 2024	$9.30	$9.30

Contributions by participants are not permitted under the Plan. The Plan Trustees design the benefit structure based on information from the actuarial consultants. The Plan's actuary has certified that the minimum funding requirements of ERISA have been met as of May 1, 2022, the most recent actuarial report available.

NOTE 5 - PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

a) Pension benefits that retired members or their beneficiaries have been receiving for at least three years, or that members eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of pension under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.

b) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. Government agency) up to the applicable limitations (discussed below).

c) All other vested benefits (that is, vested benefits not insured by the PBGC).

d) All nonvested benefits.

NOTE 5 - PLAN TERMINATION (CONTINUED)

Benefits to be provided via contracts under which Prudential Insurance Company (Note 8) is obligated would be excluded for allocation purposes.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC. For multiemployer plans, the PBGC provides financial assistance to plans that are unable to pay basic PBGC guaranteed benefits when due.

NOTE 6 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 : Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 : Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 : Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at April 30, 2023 and 2022.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Common/collective trust: Valued at the net asset value (NAV) of shares held by the Plan at year end. The NAV is based on the market value of its underlying investments. The NAV is not a publicly-quoted price in an active market.

Registered investment company: Valued at the closing price reported on the active market on which the individual funds are traded.

NOTE 6 - FAIR VALUE MEASUREMENTS (CONTINUED)

Partnerships, joint ventures & hedge funds: Valued at the Plan's ownership percentage of the partnership or joint venture's investment holdings at year end. The ownership percentage is based on the market value of its underlying investments. The ownership percentage is not a publicly-quoted price in an active market.

Money market fund: Valued using amortized cost which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table summarizes the fair value of the Plan's investments according to the GAAP valuation hierarchy as of April 30, 2023 and 2022.

Assets at Fair Value as of April 30, 2023

NOTE 6 - FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3 Measurements

The Plan's investment in a private equity fund represents an interest in a limited partnership. The value of interest held in the limited partnership is determined by the general partner, unadjusted by the Plan, and is generally equal to or based upon the reported capital account or net asset value of the underlying partnership investments. Because the partnership's investments represent direct private equity investments that are not publicly traded, market quotations are generally not available to the general partner to be used for valuation purposes. The underlying investments are valued on a quarterly basis taking into consideration any changes in key inputs such as loan structure, company performance, comparable market transactions, discount rates, cash flow projections, and/or liquidity, credit and market risk factors. The relevant valuation models are updated to reflect these changes. The valuation methodology underlying the investment is reviewed and approved quarterly by a valuation committee. As such, this investment is only valued quarterly so the fair value reported is as of March 31, 2023, with distributions and contributions reported through April 30, 2023. In certain circumstances, the general partner may use a third-party valuation firm to corroborate certain values determined by management.

The table below sets forth a summary of changes in the fair values of the Plan's Level 3 private equity fund for the year ended April 30, 2023. As of March 31, 2023, the Plan had an undrawn capital commitment of $2,884,508.

Balance at May 1, 2022	$	4,356,051
Contributions		402,505
Distributions		(1,811,977)
Realized Gain/(Loss)		-
Net appreciation (decline) in fair value of investments		190,584
Balance at April 30, 2023	$	3,137,163

The plan uses the Net Asset Value (NAV) to determine the fair value of all the underlying investments which a) do not have a readily determinable fair value and b) prepare their financial statements consistent with the measurement principles of an investment company or have the attributes of an investment company. The following table lists investments in other investment companies by major category:

NOTE 7 – FIXED ASSETS

Fixed Assets used in operations consists of the following:

	2023	2022
Furniture and equipment	$ 22,831	$ 22,831
Computer equipment & software	121,102	121,740
	143,933	144,571
Accumulated depreciation	(134,375)	(142,392)
Fixed Assets	$ 9,558	$ 2,179

Total depreciation expense for the years ended April 30, 2023 and 2022, was $2,178 and $2,614 respectively.

NOTE 8 - GROUP ANNUITY CONTRACT GA 1221

The Plan purchased retirement annuities under Group Annuity Contract GA 1221 from Prudential Insurance Company through April 30, 1989. Prudential is under contract to pay all future benefits to named participants or their beneficiaries. The annuity contracts provide for dividends at Prudential's discretion based on its experience under the contract.

NOTE 9- RELATED PARTY TRANSACTION

The Plan is related to the Chicago Area Joint Welfare Committee for the Pointing Cleaning, and Caulking Industry Local No. 52 (Welfare Plan), and the Tuckpointers Local 52 Defined Contribution Annuity Trust Fund (Annuity Plan) through a common Administrator and Trustees. The Plan is also related to the Tuckpointers Local 52 Promotional Trust (Promotional Trust) through shared office space and employee.

In accordance with an agreement between the four Plans, they share certain administrative expenses. These expenses are allocated based on each plan's proportionate use of space, goods, and services. All shared administrative expenditures are initially paid by the Welfare Plan and are allocated to the respective related parties, payable upon notice. For the years ended April 30, 2023 and 2022, shared expenses allocated to the Plan were $295,118 and $306,371, respectively.

Employer contributions for all Local 52 Funds are deposited into the Welfare Plan lockbox. The deposits are reconciled to the employer contribution reports and the amounts due to other funds are disbursed monthly.

At April 30, 2023 and 2022, the net amount due (to) from the Welfare Plan consisted of the following:

	2023	2022
Due from Welfare Plan related to monthly employer contributions	$ 570,835	$ 448,768
Due (to) from Welfare Plan related to administrative expenses	23,032	(8,771)
Net due (to) from Welfare Fund	$ 593,867	$ 439,997

The following is a reconciliation of the amounts due (to) from the Welfare Plan for administrative expenses:

	2023	2022
Beginning balance due (to) from the Welfare Plan	$ (8,771)	$ (36,054)
Administrative expenses	(295,118)	(306,371)
Payments to Welfare Plan during the year	326,921	333,654
Net due (to) from Welfare Fund	$ 23,032	$ (8,771)

NOTE 10 - TAX STATUS

The Plan obtained its latest determination letter on March 17, 2016, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan's attorney believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained by examination by the Internal Revenue Service or the U.S. Department of Labor. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of April 30, 2023, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. The outcome was favorable with only minor corrective action requested. The Plan Administrator believes it is no longer subject to income tax examinations for the fiscal years prior to April 30, 2020.

NOTE 11 - CONCENTRATION OF CREDIT RISK

The Plan maintains its cash in bank deposit and money fund accounts at various financial institutions. The balances, at times, may exceed federally insured limits or are not eligible to be federally insured.

NOTE 12 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties, inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 13 – SIGNIFICANT PARTICIPATING EMPLOYERS

In 2023 and 2022, contributions from four employers each represented over 5% of total employer contributions per year. In total, these four employers accounted for 27% and 28% of total employer contributions, respectively.

NOTE 14 - SUBSEQUENT EVENTS

Management has evaluated subsequent events through November 28, 2023, the date which the financial statements were available to be issued.

Summary of Plan Provisions

(Schedule MB, Line 6)

This exhibit summarizes the major provisions of the Plan included in the valuation. It is not intended to be, nor should it be interpreted as, a complete statement of all plan provisions.

Plan Year	May 1 through April 30
Plan Credit Year	January 1 through December 31
Plan Status	Ongoing plan
Normal Pension	• *Age Requirement*: 62 • *Service Requirement*: None • *Amount:* $5.15 for each 50 hours a participant works in covered employment during a plan credit year • *Delayed Retirement Amount:* Normal pension accrued at Normal Retirement Age (NRA), actuarially increased for each month, for which benefits are not suspended, between NRA and benefit commencement date.
Early Retirement Pension	• *Age Requirement:* 55 • *Service Requirement:* 10 years of vesting service • *Amount:* Regular pension accrued, reduced by 3% for each year of age less than 62
Unreduced Early Retirement Pension	• *Age Requirement:* 60 • *Service Requirement:* 30 years of vesting service and does not incur a one-year break in service during the current or prior plan credit year • *Amount:* Normal pension accrued
Disability Retirement Pension	• *Age Requirement*: None • *Service Requirement:* 5 years of vesting service • *Amount:* Normal pension accrued, benefit converts to normal pension at NRA
Deferred Vested Pension	• *Age Requirement:* None • *Service Requirement:* 5 years of vesting service • *Amount:* Regular or early pension accrued based on plan in effect when last active • *Normal Retirement Age:* 62

Segal

Temporary Supplemental Pension

- *Age Requirement:* Retirement from active participation on or after age 60, but before age 65
- *Service Requirement:* 10 years of vesting service
- *Amount:* Based on the table shown below:

Years of Vesting Service	Temporary Monthly Benefit
30 or more	$900
25-29	750
20-24	600
15-19	450
10-14	300

- *When Paid:* Payment commences immediately at retirement and ceases upon attainment of age 65 or, if earlier, the death of the participant.

Pre-Retirement Death Benefit

- *Age Requirement:* None
- *Service Requirement:* 5 years of vesting service
- *Amount:* 100% of the participant's accrued benefit payable immediately after the death of the participant, for a guarantee of 60 months to the surviving spouse (or designated beneficiary if no surviving spouse). After that, 50% of the amount payable had the participant retired the day before he or she died and elected the 50% joint and survivor option will be paid for the life of the surviving spouse. If the participant died prior to eligibility for an immediate benefit, payment of the "50% benefit" to the surviving spouse begins at the participant's earliest retirement date, but in no event earlier than the completion of the payment of the guaranteed benefit. This benefit is not reduced for early commencement if the participant dies while in active status.

Post-Retirement Lump-Sum Death Benefit

- $8,000 payable upon death for any participant receiving a normal, early, unreduced early, or disability pension

Normal Forms of Payment

- *50% Joint and Survivor Pension (with a 5-year guarantee):* If married, pension benefits are paid in the form of a 50% joint and survivor annuity (with 60 payments of full benefits guaranteed) with the benefit amount reduced to reflect the joint and survivor coverage.
- *5-Year Certain and Life Pension:* If not married, benefits are payable for the life of the participant with 60 payments guaranteed without reduction.

Optional Forms of Payment

- 5-Year Certain and Life Pension, if married
- 50% Joint and Survivor Pension with Pop Up (with 5-year guarantee), if married
- 75% Joint and Survivor Pension, with or without Pop Up (with 5-year guarantee), if married
- Ten Year Certain and Life Pension
- Fifteen Year Certain and Life Pension

Conversion factors for the optional forms of payment are detailed in the Appendices of the Plan Document.

Ten and Fifteen Year Certain and Life Pension – Amount is actuarially equivalent to the 5-Year Certain and Life Pension based on an interest rate of 7.00% and the 1984 Unisex Pension mortality table.

Annual Supplemental Pension (13th check)

- *Eligibility:* Pensioners and beneficiaries on the pension rolls as of December 1, 2009
- *Amount:* A certain percentage of the total pension benefit received during the year. The percentage is determined based on the retirement date of the pensioner according to the following table:

Date of Retirement	Percentage
On or before December 1995	40%
Between January 1996 and May 1997	35%
Between June 1997 and May 1999	30%
Between June 1999 and April 2006	20%
Between May 2006 and April 2008	10%

When Paid: December each year

Participation

An employee who is engaged in covered employment during the contribution period becomes a participant as of the earlier of January 1 or July 1 following accrual of 500 hours of covered employment within the 12-month period following his employer's contribution date.

Vesting Services

One year of vesting service for each plan credit year during the contribution period in which the employee works at least 500 hours

Contribution Rate

$8.75 per hour effective June 1, 2021 and $9.00 per hour effective June 1, 2022.

Changes in Plan Provisions

Effective May 1, 2022, the following plan provisions were changed:

- All pensioners and beneficiaries who were receiving a monthly pension on May 1, 2022 and who retired and were in pension payment status prior to May 1, 2022, received a 15% increase in their monthly pension benefit.
- All participants who retire on or after May 1, 2022 had their accrual rate increased by $0.65, from $4.50 to $5.15, for each 50 hours of past and future service worked in covered employment.

FSA Contribution Timing (Schedule MB, line 3a)	Unless otherwise noted, contributions are paid periodically throughout the year pursuant to collective bargaining agreements. The interest credited in the FSA is therefore assumed to be equivalent to a November 1 contribution date.

Statement of Actuarial Assumptions, Methods and Models

(Schedule MB, Line 6)

Mortality Rates

Healthy Employees: Pri-2012 Blue-Collar Employee mortality tables (sex-specific), multiplied by 115% and projected generationally using scale MP-2020

Healthy Retirees: Pri-2012 Blue-Collar Retiree mortality tables (sex-specific), multiplied by 115% and projected generationally using scale MP-2020

Disabled Retirees: Pri-2012 Disabled Retiree mortality tables (sex-specific), projected generationally using scale MP-2020

Beneficiaries: Pri-2012 Contingent Survivor mortality tables (sex-specific), projected generationally using scale MP-2020

The selected base mortality tables, multiplied by the applicable factor and projected to the valuation year reasonably reflect the mortality experience of the Plan for the respective groups of participants as of the measurement date. The mortality tables were then adjusted to future years using generational projection with the MP-2020 mortality improvement scale to anticipate future mortality improvement.

The mortality rates were based on historical and current demographic data, adjusted to reflect estimated future experience and professional judgment. As part of the analysis, comparisons were made between the actual number of deaths and the expected number of deaths and between the actual liability change and the expected liability change based on the prior years' assumption over the most recent five years.

The withdrawal rates and disability rates were based on historical and current demographic data, adjusted to reflect estimated future experience and professional judgment. As part of the analysis, a comparison was made between the actual number of withdrawals and disability retirements and the projected number based on the prior years' assumption over the most recent five years.

Retirement Rates for Active and Inactive Vested Participants

60 – 61	20
62	30
63 – 64	20
65	50
66+	100

[1] An additional 40% is added in the first year the participant is eligible for the unreduced early pension before normal retirement age.

The retirement rates were based on historical and current demographic data, estimated future experience and professional judgment. As part of the analysis, a comparison was made between the actual number of retirements by age and the projected number based on the prior years' assumption over the most recent five years.

Description of Weighted Average Retirement Age	Age 61, determined as follows: The weighted-average retirement age for each participant is calculated as the sum of the product of each potential current or future retirement age times the probability of surviving from current age to that age and then retiring at that age, assuming no other decrements. The overall weighted-average retirement age is the average of the individual weighted-average retirement ages based on all the active participants included in the May 1, 2022 actuarial valuation.
Future Benefit Accruals	1,200 hours per year per active employee included in the valuation The future benefit accruals were based on historical and current demographic data, adjusted to reflect economic conditions of the industry, advice from the Trustees, estimated future experience and professional judgment. As part of the analysis, a comparison was made between the assumed and the actual benefit accruals over the most recent five years.
Unknown Data for Participants	Same as those exhibited by participants with similar known characteristics. If not specified, participants are assumed to be male.
Definition of Active Participants	Non-retired participants who completed at least 250 hours of covered employment in the most recent plan credit year and have at least one year of vesting service at the end of that plan credit year. Service and accrued benefits for active participants are provided as of the end of the most recent plan credit year and are adjusted to the valuation date.
Exclusion of Inactive Vested Participants	Inactive participants over age 70 are assumed to never return and apply for a benefit. The exclusion of inactive vested participants over age 70 was based on historical and current demographic data, estimated future experience and professional judgment. As part of the analysis, the retirement experience of inactive vested participants over age 70 over the most recent five years was reviewed.
Percent Married	80%
Age of Sex and Spouse	Age and sex of current spouse, if known; otherwise, spouses are assumed to be three years younger than male participants and three years older than female participants and have the opposite sex of the participant.
Benefit Election	50% of participants are assumed to elect the 50% Joint and Survivor Pension (with a 5-year guarantee) form of payment and 50% are assumed to elect the 5-Year Certain and Life Pension. The benefit elections were based on historical and current demographic data, adjusted to reflect the plan design, estimated future experience and professional judgment. As part of the analysis, a comparison was made between the assumed and the actual option election patterns over the most recent five years.
Delayed Retirement Factors	Active participants are assumed to work enough hours each month to not qualify for delayed retirement adjustment. Inactive vested participants past normal retirement age are assumed to qualify for delayed retirement increases.
Net Investment Return	7.00% The net investment return assumption is a long-term estimate derived from historical data, current and recent market expectations, and professional judgment. An analysis was performed that reflects inflation expectations and anticipated risk premiums for each of the portfolio's asset classes as provided by Segal Marco Advisors, as well as the Plan's target asset allocation.

Annual Administrative Expenses	$550,000 for the year beginning May 1, 2022 (equivalent to $530,309 payable at the beginning of the year) or 13.1% of Normal Cost. The annual administrative expenses were based on historical and current data, adjusted to reflect estimated future experience and professional judgment.
Actuarial Value of Assets	The market value of assets less unrecognized returns in each of the last five years. Unrecognized return is equal to the difference between the actual market return and the projected return on the market value and is recognized over a five-year period. The actuarial value is further adjusted, if necessary, to be within 20% of the market value.
Actuarial Cost Method	Entry Age Normal Actuarial Cost Method. Entry Age is the age at date of employment or, if date is unknown, current age minus years of vesting service. Normal Cost and Actuarial Accrued Liability are calculated on an individual basis and are allocated by service, with Normal Cost determined as if the current plan provisions had always been in effect.
Benefits Valued	Unless otherwise indicated, includes all benefits summarized in Exhibit L.
Current Liability Assumptions	*Interest:* 2.21%, within the permissible range prescribed under IRC Section 431(c)(6)(E) *Mortality:* Mortality prescribed under IRS Regulations 1.431(c)(6)-1 and 1.430(h)(3)-1(a)(2): RP-2006 employee and annuitant mortality tables, projected generationally using scale MP-2020 (previously, MP-2019)
Actuarial Models	Segal valuation results are based on proprietary actuarial modeling software. The actuarial valuation models generate a comprehensive set of liability and cost calculations that are prepared to meet regulatory, legislative and client requirements. Deterministic cost projections are based on a proprietary forecasting model. Our Actuarial Technology and Systems unit, comprised of both actuaries and programmers, is responsible for the initial development and maintenance of these models. The models have a modular structure that allows for a high degree of accuracy, flexibility and user control. The client team programs the assumptions and the plan provisions, validates the models, and reviews test lives and results, under the supervision of the responsible Enrolled Actuary.

Justification for Change in Actuarial Assumptions (Schedule MB, line 11)	For purposes of determining current liability, the current liability interest rate was changed from 2.35% to 2.21% due to a change in the permissible range and recognizing that any rate within the permissible range satisfies the requirements of IRC Section 431(c)(6)(E) and the mortality improvement scale was changed in accordance with IRS Regulations 1.431(c)(6)-1 and 1.430(h)(3)-1. Based on past experience and future expectations, the following actuarial assumptions were changed as of May 1, 2022. • Administrative expenses were increased to $550,000 (previously, $500,000)

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
