Part I	Asset and Liability Statement		
1 Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. Round off amounts to the nearest dollar. MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 1b(1), 1b(2), 1c(8), 1g, 1h, and 1i. CCTs, PSAs, and 103-12 IEs also do not complete lines 1d and 1e. See instructions.

INDEPENDENT AUDITOR'S REPORT

To the Board Trustees of the
Cement Masons' Union Local
No. 592 Pension Plan

Opinion

We have audited the financial statements of the Cement Masons' Union Local No. 592 Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of April 30, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of April 30, 2023 and 2022, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets Held at End of Year, Schedule of Reportable Transactions, and Schedules of Administrative Expenses, together referred to as “supplemental information,” are presented for the purpose of additional analysis and are not a required part of the financial statements. The supplemental Schedule of Assets Held at End of Year and Schedule of Reportable Transactions are supplemental information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of the Plan’s management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including their form and content, are presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

APRIL 30, 2023 AND 2022

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Method of Accounting - The accompanying financial statements are prepared using the accrual basis of accounting.

Investments and Income Recognition - Investments in common stock, United States Government and Government Agency obligations, corporate obligations, the municipal obligation, and short-term investments are carried at fair value as provided by the investment custodian, which generally represents quoted market prices or net asset value as of the last business day of the year. Investments in the mortgage-backed security and asset-backed securities are carried at estimated fair value as provided by the investment custodian as of the last business day of the year. The real estate limited partnerships, opportunistic hedge fund of funds - limited partnerships, and private equity limited partnerships are stated at net asset value or its equivalent (NAV) as reported by the partnerships. The common collective trusts are carried at NAV as provided by the trusts. The 103-12 investment entity - international equity is carried at NAV as provided by the sponsor of the investment.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Funding Policy and Revenue Recognition - The Plan is funded by contributions from participating employers under the terms of collective bargaining agreements (CBA). Employer contributions are accounted for as exchange transactions. The contributions are due on a monthly basis. It is the policy of the Trustees to pursue monies due.

Contributions Receivable - Contributions due and not paid prior to year end are recorded as contributions receivable. Allowance for doubtful accounts is considered unnecessary and is not provided.

Property and Equipment - Property and equipment and leasehold improvements are recorded at cost. Major additions are capitalized, while replacements, maintenance, and repairs which do not improve or extend the lives of the respective assets are expensed currently. Depreciation and amortization are computed using the straight-line method over the estimated useful lives of the related assets, generally three to seven years for furniture and equipment and seven years for leasehold improvements. Allocated depreciation expense totaled \$1,145 and \$2,577 for the years ended April 30, 2023 and 2022, respectively.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Actuarial Present Value of Accumulated Plan Benefits - Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service which employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

Payment of Benefits - Benefit payments to participants are recorded upon distribution.

NOTE 2. DESCRIPTION OF PLAN

The Plan was established pursuant to various collective bargaining agreements. The Plan provides normal, early, and disability retirement pensions, annuity benefits, and death benefits for members of Cement Masons' Union Local No. 592, which represents members employed as cement masons in the eastern portion of Pennsylvania, the southern portion of New Jersey, and Delaware. Reference should be made to the summary plan description for specific details as to vesting, eligibility, and computation of benefits. The Plan is a multiemployer pension plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Effective November 1, 2005, active members covered by the Cement Masons' Area 699 Annuity Plan became participants of the Plan. Affected participants have been credited with contributions for annuity benefits with respect to covered employment after November 1, 2005.

Effective October 1, 2019, the Plan was amended for the following:

- The Plan will offer the joint and 100% survivor form of payment to all Plan participants.
- The definition of a beneficiary was clarified to provide that the participant's spouse, children or other heirs will be their beneficiary(ies) if they fail to designate a beneficiary.
- The Plan has eliminated the lump sum option to pay participants their Annuity Account balance.
- Annuity Account payments will only be available at or after age 55 except in the event of total and permanent disability.
- The actuarial factors used to calculate the single life annuity option payable from the Annuity Account have been adjusted. This adjustment will not affect the benefit payable at the participant's normal retirement age that was accrued prior to May 1, 2021.

NOTE 2. DESCRIPTION OF PLAN (continued)

- The Plan has created additional payment options for the Annuity Account benefits that are similar to the options for traditional pension benefits which includes allowing participants to take their Annuity Account in a monthly amount for a guaranteed period, in addition to options to receive a monthly benefit for their life or joint and survivor payments for their life with a survivor benefit to their spouse. These options replace the existing temporary payments option. The new options also eliminate any future lump sum payments of the Annuity Account. The options include single life annuity, joint and 50% survivor, joint and 75% survivor, joint and 100% survivor, guaranteed term with single life annuity payments, and guaranteed term of 180 months.
- The participant's traditional Pension and Annuity Account benefits will be now paid at the same time. When participants begin receiving their Pension benefit from the Plan, they must also commence payments of their Annuity Account benefit.

Benefits are funded through employer contributions. The employer contribution rates vary depending on the geographic region of the work. The employer contribution rates for the fiscal years ended April 30, 2023 and 2022 ranged from \$9.25 per hour to \$24.42 per hour.

NOTE 3. PRIORITIES UPON TERMINATION

It is the intent of the Trustees to continue the Plan in full force and effect; however, the right to discontinue the Plan is reserved to the Trustees. Termination shall not permit any part of the Plan assets to be used for or diverted to purposes other than the exclusive benefit of the pensioners, beneficiaries, and participants. In the event of termination, the net assets of the Plan will be allocated to pay benefits in priorities as prescribed by ERISA and its related regulations. Whether or not a participant will receive full benefits, should the Plan terminate at some future time, will depend on the sufficiency of the Plan's net assets at that time and the priority of those benefits.

In addition, certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. The PBGC does not guarantee all types of benefits and the amount of any individual participant's benefit protection is subject to certain limitations, particularly with respect to benefit increases as a result of plan amendments in effect for less than five years. Some benefits may be fully or partially provided for while other benefits may not be provided at all.

NOTE 4. TAX STATUS

The Plan obtained its latest determination letter on November 28, 2016, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements under Section 401(a) of the Internal Revenue Code and was, therefore, exempt from Federal income taxes under the provisions of Section 501(a). The Plan has been amended since receiving the determination letter. The Plan's administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by the U.S. Federal, state, or local taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Typically, plan tax years will remain open for three years; however, this may differ depending upon the circumstances of the Plan.

NOTE 5. ACTUARIAL INFORMATION

An actuarial valuation of the Plan was made by a consulting actuary as of May 1, 2022. Information in the report included the following:

Actuarial present value of accumulated
plan benefits:

Vested benefits:

Participants currently

\$ 101,998,613

Other participants

59,289,253

\$ 165,390,202

Present value of administrative expenses*

\$ 1,941,702

* Present value calculated per ERISA 4044 methodology, but with interest rate no less than 1.00%.

NOTE 5. ACTUARIAL INFORMATION (continued)

As reported by the actuary, the changes in the present value of accumulated plan benefits for the year ended April 30, 2022, were as follows:

Actuarial present value of accumulated plan benefits at beginning of the year	<u>\$ 163,409,073</u>
Increase (decrease) during the year attributable to:	
Benefits accumulated, net experience gain or loss	3,455,826
Interest due to decrease in the discount period	11,759,402
Benefits paid	<u>(13,234,099)</u>
Net increase	<u>1,981,129</u>
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 165,390,202</u>
Net assets available for benefits	<u>131,033,975</u>
Excess of actuarial present value of accumulated plan benefits over net assets available for benefits	<u>\$ 34,356,227</u>

The actuarial valuation was made using the Unit Credit Cost method. Some of the more significant assumptions used in the valuation as of May 1, 2022 were as follows:

Mortality:

Healthy lives: RP-2014 gender-distinct Comb. Blue Collar mortality tables, with rates set forward three years, with no projected mortality improvements.

Disabled lives: RP-2014 Disabled Retiree mortality table, with no projected mortality improvements.

Interest rates:

The RPA '94 current liability rate was 2.21%.

Retirement age:

<u>Age</u>		<u>Age</u>		<u>Age</u>	
55	0.10	59	0.05	63	0.10
56	0.05	60	0.10	64	0.10
57	0.05	61	0.05	65	1.00
58	0.05	62	0.25		

Investment rate of return: 7.50%

Administrative expenses: \$750,000, payable as of the beginning of the year.

NOTE 5. ACTUARIAL INFORMATION (continued)

Assumption changes from prior year valuation:

The RPA '94 current liability rate was changed from 2.35% to 2.21%.

Current liability mortality rates were updated to the current year IRS prescribed rates.

The Actuarial Value of Assets (AVA) is equal to the market value, reduced/increased by unrecognized gain/losses over the prior 4 years, and adjusted to be within 20% of market value. Gains/losses are recognized at 20% per year and are calculated as the difference between the actual investment return and an expected investment return (based on the market value of assets and actual cash flows.)

The above actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining actuarial results. Pension benefits in excess of the present assets of the Plan are dependent upon contributions received under collective bargaining agreements with employers and income from investments.

Since information on the actuarial present value of accumulated plan benefits as of April 30, 2023, and the changes therein for the year then ended are not included above, these financial statements do not purport to present a complete presentation of the financial status of the Plan as of April 30, 2023, and the changes in its financial status for the year then ended, but a presentation of the net assets available for benefits and the changes therein as of and for the year ended April 30, 2023. The complete financial status is presented as of April 30, 2022.

During the years ended April 30, 2023 and 2022, the Plan did not meet the ERISA minimum funding requirement. However, because the Plan was certified to be in critical status for those years and because the Plan has met the requirements of Critical Status Plan, there are no adverse repercussions on account of the failure to meet minimum funding requirements.

As of May 1, 2023, the Plan was not in Critical Status or Endangered Status under the Pension Plan Protection Act of 2006. The Plan emerged from Critical Status in the plan year beginning May 1, 2023.

NOTE 6. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Basis of Fair Value Measurement:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE 6. FAIR VALUE MEASUREMENTS (continued)

Level 2 - Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Total investments at fair value	\$ 127,443,699			

(a) In accordance with Subtopic 820-10, certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the period.

For the years ended April 30, 2023 and 2022, there were no transfers in or out of levels 1, 2, or 3.

The unfunded commitments and redemption information are as follows at April 30, 2023 and 2022:

* - Redemptions can be processed at the end of the calendar quarter with notice given at least 30 days prior to the end of the calendar quarter. The ASB Allegiance Real Estate Fund (the ASB Fund) has the right to determine that method and timing of honoring withdrawal requests and can delay payment if the payment would adversely affect the ASB Fund's liquidity or would require the ASB Fund to liquidate assets at substantial discounts to their inherent value. As of April 30, 2023, the ASB Fund has a redemption queue on all redemption requests that will delay receipt of the redemptions requested by the investors.

(a) - Limited partners of the GCM Grosvenor Secondary Opportunities Fund II, L.P. GCM Grosvenor Secondary Opportunities Fund III, L.P., the Patriot Financial Partners III, LP, and Patriot Financial Partners IV, LP. are not permitted to make withdrawals. These funds are closed-end funds and redemptions are not provided for in the investment agreements. The purpose of the GCM Grosvenor Secondary Opportunities Feeder Fund II, L.P. is to invest, directly, or indirectly, as a limited partner in, and as a feeder vehicle of the GCM Grosvenor Secondary Opportunities Fund II, L.P. The purpose of the GCM Grosvenor Secondary Opportunities Fund II, L.P. is to (a) identify potential investments ("Investments"), (b) to acquire, hold finance, manage, and dispose of Investments, (c) pending utilization or disbursement of funds, to invest such funds in accordance with the terms of the Amended and Restated Limited Partnership Agreement ("LPA") dated May 26, 2017 and the amendment to the LPA dated December 7, 2017, and (d) to do everything necessary or desirable for the accomplishment of the above purposes and to do every other act and thing incident thereto or connected therewith permitted by the Delaware Act.

NOTE 6. FAIR VALUE MEASUREMENTS (continued)

(b) - Limited partners of the Intercontinental U.S. Real Estate Investment Fund are permitted redemptions at any time after the later of (i) the first anniversary of the Initial Closing and (ii) the date upon which the Net Asset Value first exceeds \$200 million (the period then ending, the “Redemption Lockout Period”), and subject to Article 7, a limited partner may elect to redeem some or all of its Interests by providing the Manager with a written notice to such effect (a “Redemption Notice”) in a form acceptable to the Manager at least 90 days prior to a calendar quarter end; provided, in any case, that there is not an Unfunded Capital Commitment with respect to such member. Unless such notice period is waived by the Manager, redemption requests will be effective as of the first calendar quarter end upon or after the expiration of the 90-day notice period (the “Redemption Effective Date”). (Interests subject to a valid Redemption Notice shall, upon the Redemption Effective Date, become “Redemption Interests.”)

The Corbin ERISA Opportunity Fund, L.P. may pursue its investment objective by employing a variety of investment strategies, including, but not limited to; high-yield and distressed securities, long/short credit, structured and asset-backed credit, private lending, event driven investing and emerging markets credit. The Fund expects to use a range of implementation methods depending on the market opportunities available, including employing the services of multiple independent portfolio managers (“Portfolio Managers”). The Fund may allocate its capital to Portfolio Managers through traditional separately managed accounts (“SMAs”), collective investment vehicles such as funds (“Investee Funds”) or in other structures (such as single-investor vehicles) managed by Portfolio Managers. The Fund may also make investments upon the advice or recommendation of, or alongside as a co-investor with, or otherwise in partnership with or with the involvement of, Portfolio Managers. In addition, Corbin Capital Partners, L.P. (“CCP”), acting as the investment manager to the Fund (the “Investment Manager”), may independently direct and implement certain of the Fund’s investments without the involvement of Portfolio Managers, including without limitation, for purposes of hedging certain exposures.

The Fund’s investments may include securities of U.S. and non-U.S. corporations and other entities including notes, bonds, and other debt securities. The Fund may, without limitation, also invest in loans and other credit instruments, U.S. government securities, non-U.S. government securities, money-market instruments, derivatives on securities, commodity interests including futures contracts, options, options on futures, swaps and forward contracts, other derivatives, currencies, physical commodities and other instruments. The Fund may maintain a portion of its assets in cash, which amount, in the discretion of the Investment Manager, may be substantial at times. The Fund may participate in certain illiquid or restricted investments that may be separated from the Fund’s other investment by creating “side pockets”. The Fund may hold its investments directly or through other vehicles for tax, regulatory or other reasons. In particular, the Fund holds certain investments through a wholly-owned subsidiary, Corbin ERISA Opportunity Fund, Ltd. (“CEOF Ltd.”); a Cayman Islands exempted company that is classified as a corporation for U.S. federal tax purposes.

The Boyd Watterson State Government Fund, L.P. is a Delaware limited partnership formed to operate as a perpetual life, open-end, commingled collective investment fund and intends to invest primarily in real estate primarily leased to the state government agencies.

NOTE 6. FAIR VALUE MEASUREMENTS (continued)

The U.S. Real Estate Investment Fund, LLC is a limited liability company. The Fund's investment objectives are to invest in a pool of real estate assets that are diversified by geography and property type, with a focus on yield-driven investment and, to a lesser extent, on value-added investments. The Fund is an open-end, commingled real estate investment fund and is intended to have an indefinite term. The real estate investments of the Fund are stated at estimated fair value and are reviewed and adjusted quarterly. At least annually, an independent appraisal of the underlying real estate is performed and includes a complete property and market inspection. All appraisal reports are completed in accordance with currently published Uniform Standards of Professional Appraisal Practice, as promulgated by the Appraisal Foundation. In the quarters in which an investment is not independently appraised, the fair value is updated as appropriate by management for changes in prior cash flow estimates and market assumptions. As of April 30, 2023, the U.S. Real Estate Investment Fund, LLC has a redemption queue on all redemption requests that will delay receipt of the redemptions requested by the investors.

The Patriot Financial Partners III, LP and Patriot Financial Partners IV, LP are focused on growth equity investments in the community banking sector (defined as banks and thrifts with assets between \$500.0 million and \$5.0 billion) throughout the United States, with a secondary focus on financial services companies closely related to the banking sector. The Fund assumes an exit multiple of 200% (2x gross multiple on invested capital) of tangible book value for its investments.

NOTE 7. RELATED PARTY TRANSACTIONS

The Plan has common Trustees and shares office facilities and staff with other related parties and affiliates. The operating expenses of the common facilities and staff are initially paid by the Plan. Certain Plan investments are shares of mutual funds managed by Principal Financial Group. Principal Financial Group is the custodian, as defined by the Plan, and therefore, these investment transactions qualify as party-in-interest transactions. These investments and investment transactions have been denoted as such on the supplemental schedules of assets held at end of year and reportable transactions.

The above transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

NOTE 8. MULTIEMPLOYER DEFINED BENEFIT PENSION PLANS

Employees of the Plan participate in three multiemployer defined benefit pension plans under the terms of a collective bargaining agreement that covers its union-represented employees and a participation agreement that covers its non-collectively bargained employees. The risks of participating in these multiemployer defined benefit pension plans are different from single-employer plans in the following aspects:

- a. Assets contributed to the multiemployer defined benefit pension plan by one employer may be used to provide benefits to employees of other participating employers.
- b. If a participating employer stops contributing to the multiemployer defined benefit pension plan, the unfunded obligations of the multiemployer defined benefit pension plan may be borne by the remaining participating employers.
- c. If the Plan chooses to stop participating in any of its multiemployer defined benefit pension plans, the Plan may be required to pay those multiemployer defined benefit pension plans an amount based on the underfunded status of those multiemployer defined benefit pension plans, referred to as a withdrawal liability.

The Plan's participation in these multiemployer defined benefit pension plans for the annual periods ended April 30, 2023 and 2022 is outlined in the table below. The zone status is based on information that the Plan received from each multiemployer defined benefit pension plan and is certified by each multiemployer defined benefit pension plan's actuary. Among other factors, pension plans in the red zone are generally less than 65 percent funded, pension plans in the yellow zone are less than 80 percent funded, and pension plans in the green zone are at least 80 percent funded.

The Plan was reimbursed \$89,647 and \$84,854 by the related parties and affiliates disclosed in Note 7 during the years ended April 30, 2023 and 2022, respectively, for their allocated share of the health and welfare contributions.

* The Plan provides hospital, surgical, dental, death, weekly disability income, prescription, alcohol and drug abuse treatment, asbestos screening, vision, and life insurance benefits to eligible active participants and retirees of the Plan and their spouses, beneficiaries, and covered dependents.

NOTE 10. RISKS AND UNCERTAINTIES

The Plan invests in various investments. Investments are exposed to various risks such as economic, interest rate, market, and sector risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 10. RISKS AND UNCERTAINTIES (continued)

The actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and participant demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statement disclosures.

NOTE 11. SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through January 31, 2024, the date the financial statements were available to be issued, and they have been evaluated in accordance with relevant accounting standards.

May 1, 1992 to April 30, 2000	\$ 0.0400
May 1, 1988 to April 30, 1992	\$ 0.0365
Prior to May 1, 1988	Various

- (iii) \$60 times Credited Service prior to April 30, 2010 (applies to Participants active on or after May 2000)
The \$60 rate may not apply for participants who were not continuously active since 1990.
- (iv) \$25 times Credited Service on or after May 1, 2010 (applies to Participants active on or after May 2010)

Annuity Benefit

The Annuity Benefit Accumulation Account (ABAA) is calculated on a year-by-year basis. Annual contributions are equal to the Contribution Hours multiplied by the applicable contribution rate. Interest is credited each year based on the ABAA and the contributions. The interest crediting rates for contributions made since May 1, 2010 have been 1.0% per year.

The accrued monthly benefit at normal retirement is equal to the greater of:

- (1) ABAA reflecting all contributions, increased with 5.0% interest to normal retirement and converted to a monthly single life annuity using the UP 1984 mortality and 5.0% interest.
- (2) ABAA reflecting pre-2020 contributions, increased with 7.5% interest to normal retirement and converted to a monthly single life annuity using the UP 1984 mortality and 7.5% interest.

**Cement Masons' Union Local 592 Pension Plan
PPA Zone Status Certification
Plan Year Beginning May 1, 2022**

Actuarial Assumptions, Methods and Plan Provisions

The actuarial assumptions, methods and plan provisions used in this certification are the same as those used in the most recent annual report as required under ERISA section 103(d), except as noted below. The items listed below apply to the regular zone status tests, as well as the critical and declining zone status test, the projection of critical status within the next five years, and in testing scheduled progress under a funding improvement or rehabilitation plan, unless noted below.

- All liabilities as of the beginning of the certification year were projected from the most recent annual report as required under ERISA section 103(d) assuming all plan demographic assumptions were met, except that (i) actual benefit payments were reflected, and (ii) normal costs were adjusted to reflect actual covered employment hours worked.
- No changes in the plan of benefits occurred since the most recent ERISA section 103(d) annual report and no changes were reflected for certification purposes.
- Market value of assets as of the beginning of the certification year is based on unaudited preliminary value provided by the Plan's investment consultant, plus cash in checking accounts provided by the Plan's administrator, plus net receivables and payables based on average of the last two audited plan years. Investment returns are assumed to be 7.5% in each future year starting with the certification year.
- Contributions, benefits, and administrative expenses for the year preceding the certification year were based on unaudited preliminary values as provided by the Plan auditor. Contributions, benefits, and administrative expenses for the following ten years are documented in the attached exhibits.
- Contribution rates reflect the rates that have been allocated in conformance with the existing collectively bargained agreements as of May 1, 2022. These are also the rates used for testing scheduled progress under the rehabilitation plan.
- Future industry activity is based on input from Board of Trustees and is equal to 575,000 covered employment hours in the certification year and each future year, with 11% of such hours attributable for work where contributions are required for the annuity benefit only.
- Normal cost, excluding administrative expenses, is assumed to be \$2,576,000 in the certification year, increasing by 2% in each future year.

Detailed Summary
Summary of Assumptions

Assumption	Description
Active Participation	New employees are included as active participants upon becoming plan participants.
Form of Payment	Single life annuity for active participants and terminated vested participants' pension benefit; 15-year certain for terminated vested participants' annuity account benefit
Marital and Spouse Information	80% of non-retired participants are assumed to be married. Spouses of non-retired male/female participants are assumed to be 3 years younger/older than the participant.
Benefit Accruals	Active participants eligible for the pension benefit are assumed to work 1,400 hours per year of employment. Active participants eligible for the annuity account benefit only are assumed to work 900 hours per year of employment.
Late Retirement	Benefits for terminated participants who do not begin their pension benefit by normal retirement age are increased based on actuarial equivalence.
Annuity Balance Conversion	For active participants, balance as of valuation date is projected to normal retirement date with 2.0% interest, and then converted to an immediate straight life annuity using plan actuarial equivalence. The resulting monthly normal retirement benefit is then valued. For terminated vested participants, balance as of valuation date is projected to age 55 with 3.0% interest, and then converted to a 15-year certain only form of payment. For retirees and beneficiaries, an immediate certain-only monthly benefit is valued, with the certain period derived based on the account balance as of the valuation date and the annual payout amounts.
Assumed Ages	Assumed ages as of valuation date for participants with missing dates of birth are age 35 for active, age 51 for terminated vested, age 72 for healthy retirees, age 65 for disabled retirees, and age 75 for surviving spouses.
Assumed Service	Assumed service as of valuation date for active participants with an annuity account and missing service was estimated based on the total account balance and the known employer contribution rate.

Summary of Methods

Method	Description
Funding Method	Unit Credit actuarial funding method used in calculating Normal Cost and Actuarial Accrued Liability.
Actuarial Value of Assets	Actuarial value is equal to the market value, reduced/increased by unrecognized gains/losses over the prior 4 years, and adjusted to be within 20% of market value. Gains/losses are recognized at 20% per year and are calculated as the difference between the actual investment return and an expected investment return (based on the market value of assets and actual cash flows).
Withdrawal Liability	Determined in accordance with the presumptive method per ERISA Section 4211(b).
Changes in Methods since Prior Year	No changes in actuarial asset or liability methods since prior year.

Cement Masons' Union Local 592 Pension Plan

EIN: 23-1972409

Plan Number: 001

Schedule R, Part V

Summary of Rehabilitation Plan as of April 30, 2023

Rehabilitation Period

The rehabilitation period is May 1, 2010 – May 1, 2030.

Effective April 2010, the rehabilitation period was extended by three years (from 10 years to 13 years, to April 30, 2023) due to an election the Trustees made under Section 205 of WRERA '08.

Effective February 2021, the Plan Sponsor determined that based on reasonable actuarial assumptions and upon exhaustion of all reasonable measures, the Plan cannot emerge from Critical Status by the end of the rehabilitation period and amended the rehabilitation plan to extend the rehabilitation period from ending on April 30, 2023 to ending on May 1, 2030. The Board of Trustees determined that the Plan was not reasonably expected to emerge from Critical Status by April 30, 2023 due to lingering effects of the 2008 economic crisis, the negative economic impact of political turbulence in 2016, a reduction to the Plan's assumed rate of investment return, and the widespread economic uncertainty caused by the COVID-19 pandemic, which resulted in inconsistent investment performance and suppressed employment experience since the adoption of the Rehabilitation Plan.

Schedule of Expected Annual Progress

The Plan measures expected annual progress based on anticipated emergence from critical status by the end of the rehabilitation period. Based on the actuarial certification for the plan year in which this Form 5500 is filed, the Plan is making scheduled progress with the rehabilitation plan.

Changes to Plan of Benefits

The following changes have been made to the rehabilitation plan since its inception:

- Increased number of hours required for a full year of Credited Service from 800 to 1,000, effective 5/1/2010
- Reduced the annual interest crediting rate from 2.0% to 1.0%, effective 5/1/2010
- Reduced the service-related benefit accrual rate from \$60.00 per month to \$25.00 per month with respect to future Credited Service for Grandfathered Area 592 Participants, effective 5/1/2010
- Reduced the crediting rate for Annuity benefits by \$2.00 per hour for Area 592 participants and Area 699 participants, effective 10/1/2012
- Benefits for pensioners and beneficiaries (other than Local 107) increased by \$10 per month effective May 1, 2011, May 1, 2012, May 1, 2013, May 1, 2014, and May 1, 2015. These increases were paid for out of additional contributions not contemplated by the Rehabilitation Plan, and, after taking into account the increases, the plan was still reasonably expected to emerge from critical status by the end of the Rehabilitation Period.

Changes to Hourly Contribution Rates

The historic hourly contribution rates under the rehabilitation plan are summarized below for the most significant geographic areas covered by the Plan.
