INDEPENDENT AUDITOR'S REPORT

To the Plan Administrators and Participants
Dillard University 403(b) Defined Contribution Plan 365974

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

I have performed audits of the financial statements of **Dillard University 403(b) Defined Contribution Plan 365974 (the Plan)**, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of **the Plan** financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), my audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit, continued

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In my opinion, based on my audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section –

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

I conducted my audits in accordance with auditing standards generally accepted in the United States of America (GAAS). My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am required to be independent of **the Plan** and to meet my other ethical responsibilities in accordance with the relevant ethical requirements relating to my audits. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about **the Plan's** ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of my report, my objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

Auditor's Responsibilities for the Audit of the Financial Statements, continued

In performing an audit in accordance with GAAS, I:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risk of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risk. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of **the Plan's** internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in my judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about **the Plan's** ability to continue as a going concern for a reasonable period of time.

My audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

Auditor's Responsibilities for the Audit of the Financial Statements, continued

I am required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that I identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental schedules of (1) assets held at the end of year as of December 31, 2022; (2) assets acquired and disposed of within the year for the year ended December 31, 2022; (3) financial transactions schedule for the year ended December 31, 2022, are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, I compared such information to the related certified investment information.

In forming my opinion on the supplemental schedules, I evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In my opinion –

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Supplemental Schedules Required by ERISA, continued

- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

DILLARD UNIVERSITY
403(b) DEFINED CONTRIBUTION PLAN 365974
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

NOTE 1 - DESCRIPTION OF PLAN:

The following description of the **Dillard University 403(b) Defined Contribution Plan 365974 (the Plan)** provides only general information. Participants should refer to **the Plan** agreement for a more complete description of **the Plan's** provisions.

General

The Plan is a 403(b) defined contribution plan covering all full-time employees of **Dillard University (the University)** who have one (1) year of service. **The Plan** is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The responsibility for operation and administration of **the Plan** (except for investment management and control of assets) is vested in **the Plan Administrator**, an employee of **the University**.

The Custodian function of **the Plan** is performed by Teachers Insurance and Annuity Association - College Retirement Equities Fund (TIAA-CREF) (**the Trustee**). **The Custodian** receives and holds contributions made to **the Plan** in trust and invests those contributions as directed by participants and according to the policies established by **the Plan** documents. **The Custodian** also makes payouts from **the Plan** in accordance with the plan document.

Eligibility

Full-time employees are eligible to participate in **the Plan** and elect to have elective deferrals or Roth 403(b) contributions made on their behalf hereunder immediately upon becoming employed by **the University**. For **the University's** contributions and employee mandatory contributions, each employee who has met the applicable age and service requirements, if any, as specified in **the Plan** provisions section, shall be eligible to have such contributions(s) made to their account under **the Plan**.

DILLARD UNIVERSITY
403(b) DEFINED CONTRIBUTION PLAN 365974
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

NOTE 1 - DESCRIPTION OF PLAN, CONTINUED:

Contributions

Each year participants may contribute up to \$20,500 and \$19,500 of pretax annual compensation for 2022 and 2021 respectively, as defined in **the Plan**. Participants are eligible to make catch-up contributions before the end of **the Plan** year. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by **the Plan**. **The Plan** currently offers three mutual funds, five variable annuity funds, and a guaranteed annuity as investment options for participants. **The University** contributes a match up to five (5) percent of the employees' base compensation. The matching **University** and employee contributions are invested directly with **the Custodian**. The total amount of contributions to a participant's account from all sources may not exceed the lesser of \$61,000 for 2022 and \$58,000 for 2021.

Participant's Accumulation Account

Each participant's accumulation account is credited with the participant's contribution and allocations of (a) **the University's** contribution and, (b) **the Plan's** earnings, and also charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's accumulation account. Participants may direct their contributions into a variety of investments offered by **the Custodian**.

Vesting

Participants are immediately vested in their contributions and **the University's** contributions plus actual earnings thereon.

Forfeitures

Forfeitures of matching, employer and excess aggregate contributions are applied to reduce **the Plan** contributions.

DILLARD UNIVERSITY
403(b) DEFINED CONTRIBUTION PLAN 365974
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

NOTE 1 - DESCRIPTION OF PLAN, CONTINUED:

Participant Loans

Loans shall be permitted under **the Plan** to the extent elected by **the University** in **the Plan's** provisions section and to the extent permitted by the individual agreements controlling the account assets from which the loan is made and by which the loan will be secured. No loan to a participant under **the Plan** may exceed the lesser of:

- \$50,000, reduced by the greater of (i) the outstanding balance on any loan from **the Plan** to the participant on the date the loan is made or (ii) the highest outstanding balance on loans from **the Plan** to the participant during the one-year period ending on the day before the date the loan is approved by **the Plan Administrator** (not taking in account any payments made during such one-year period); or
- The greater of fifty percent (50%) of the present value of the participant's vested accrued benefit in **the Plan** of \$10,000. For purposes of **the Plan** document, any loans from any other plan maintained by **the University**, and any related employer shall be treated as if it were a loan made from **the Plan**, and the participant's vested interest under any such other plan shall be considered a vested interest under this **Plan**; provided, however that the provisions under **the Plan** shall not be applied so as to allow the amount of a loan to exceed the amount that would otherwise be permitted per **the Plan** document.

At December 31, 2022 and 2021, participants had outstanding plan loans balances totaling \$144,446 and \$349,729, respectively. Such loans are funded by the custodian outside of plan assets.

403(b) DEFINED CONTRIBUTION PLAN 365974
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

NOTE 1 - DESCRIPTION OF PLAN, CONTINUED:

Payment of Benefits

On termination of service due to death, disability or retirement, upon attaining the age of 59 1/2 a participant may elect to receive either a one-time lump-sum amount equal to ten (10) percent of the participant's accumulation account, or annual installments either under the Joint and Survivor Annuity, Minimum Distribution Annuity or the Limited Periodic Withdrawal Option. If a participant dies before the start of retirement benefit payments, the full current value of the accumulation account is payable to the beneficiary (ies) from the investment option selected by the participant.

In the event of financial hardship, a participant may receive a distribution from their account. Any distribution of this type must be on account of the employee's immediate and heavy financial need as described in **the Plan** document. Participants receiving hardship distributions must cease making elective deferrals for a period of six months following such distributions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES:

Basis of Accounting

The financial statements of **the Plan** are prepared on the accrual basis of accounting. **The Plan** follows accounting standards set by the Financial Accounting Standard Board (FASB), which establishes generally accepted accounting principles (GAAP) that are followed in reporting the statements of net assets available for benefits and the statement of changes in net assets available for benefits. References to GAAP issued by the FASB in these notes are to the FASB Accounting Standards Codifications referred to as the ASC.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

DILLARD UNIVERSITY
403(b) DEFINED CONTRIBUTION PLAN 365974
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES, CONTINUED:

Investment Valuation and Income Recognition

The Plan follows the fair value measurement and disclosure regulations of FASB ASC 820. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the gains and losses on investments bought and sold during the year as well as the unrealized appreciation or depreciation on those investments.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All expenses of maintaining **the Plan** are offset against the investment earnings of **the Plan**. Such amounts totaled \$67,684 for the year ended December 31, 2022.

Contributions Receivable

Contributions receivable totaling \$35,354 and \$37,088 as of December 31, 2022 and 2021 respectively, represent employee deductions and the related employee match for the month of December that were transmitted to **the Custodian** by **the University** during the subsequent month.

Reclassifications

Certain December 31, 2021 amounts have been reclassified to conform to the December 31, 2022 financial statement presentation.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES, CONTINUED:

Subsequent Events

The University had evaluated subsequent events through the date that the financial statements were available to be issued, January 18, 2024, and determined that no events occurred that require disclosure. No subsequent events occurring after this date have been evaluated for inclusion in these financial statements.

NOTE 3 - FAIR VALUE MEASUREMENTS OF ASSETS AND LIABILITIES:

In accordance with ASC Topic 820, fair value is defined as the price that **the Plan** would receive to sell an asset or pay to transfer a liability in a timely transaction with an independent buyer in the principal market, or in the absence of a principal market the most advantageous market for the asset or liability. FASB ASC 820 establishes a three-tier hierarchy to distinguish between (1) inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on market data obtained from sources independent of the reporting entity (observable inputs) and (2) inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing an asset or liability developed based on the best information available in the circumstances (unobservable inputs) and to establish classification of fair value measurements for disclosure purposes.

Various inputs are used in determining the value of **the Plan's** assets or liabilities. Investments measured and reported at fair value are classified and disclosed in one of the following categories:

- Level 1 - Quoted prices are available in active markets for identical investments as of the reporting date.
- Level 2 - Significant other observable inputs. Pricing inputs are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value is determined through the use of models or other valuation methodologies, including inputs that are derived principally from or corroborated by observable market data by correlation or other means.

DILLARD UNIVERSITY
403(b) DEFINED CONTRIBUTION PLAN 365974
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

NOTE 3 - FAIR VALUE MEASUREMENTS OF ASSETS AND LIABILITIES:
CONTINUED:

Level 3 - Pricing inputs are unobservable for the investment and include situations where there is little, if any, market activity. The inputs into the determination of fair value require significant management judgment or estimation.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new or not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that the valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

A description of the valuation methodologies used for assets measured at fair value are as follows:

The fair values of the College Retirements Equities Funds, the TIAA Real Estate Account, the TIAA-CREF Lifecycle Account, the TIAA Access Accounts, and the TIAA-CREF Traditional Annuity are based upon the underlying holdings, which are considered to be the best approximation of fair value.

Exchange-Traded Equity Securities, Common and Preferred Stock

Equity securities listed or traded on a national market or exchange are valued based on their sale price on such market or exchange at the close of business on the date of valuation, or at the mean of the closing bid and asked prices if no sale is reported. To the extent these securities are actively traded, and valuation adjustments are not applied, they are categorized in Level 1 of the fair value hierarchy. Foreign investments are valued at the last sale price or official closing price reported on the exchange where traded and converted to U.S. dollars at the prevailing rates of exchange on the date of valuation. For events affecting the value of foreign securities between the time when the exchange on which they are traded closes and the time when the account's net assets

are calculated, such securities will be valued at fair value in accordance with generally accepted procedures.

Debt Securities

Debt securities will generally be valued using prices provided by a pricing service that may employ various indications of value including but not limited to broker-dealer quotations. Certain debt securities, other than money market instruments, are valued based on the most recent bid price or the equivalent quoted yield for such securities (or those of comparable maturity, quality and type). Debt securities are generally categorized in Level 2 of the fair value hierarchy; in instances where prices, yields or any other key inputs are observable, they are categorized in Level 3 of the hierarchy.

Real Estate Properties, Real Estate Joint Ventures
and Limited Partnerships (Real Estate)

Real estate underlying holdings are generally valued based upon independent third-party appraisals and independent pricing sources which are considered by **the Plan Administrator** to be the best approximation of fair value. This investment is classified within Levels 1, 2 and 3 of the fair value hierarchy.

Traditional Annuity

Investments in TIAA Traditional Annuity contracts are reported at contract value, which approximates fair value. As these investments are contract-based, observable prices for identical or similar investments do not exist and, accordingly, these investments are valued using unobservable inputs (Level 3). The contract value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals. See also Note 5 for a discussion of the TIAA Traditional Annuity.

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

NOTE 3 - FAIR VALUE MEASUREMENTS OF ASSETS AND LIABILITIES,
CONTINUED:

Investments in Registered Investment Companies

The TIAA Access funds are individual and group variable annuity contracts funded through the TIAA CREF Lifecycle Funds. The TIAA CREF Lifecycle Funds consists of 11 active investment sub-accounts. These investments are valued at their net asset value on the valuation date and are categorized in Level 1 of the fair value hierarchy.

Short Term Investments

Short-term investments, excluding investments in registered investment companies, with maturities of 60 days or less are valued at amortized cost. Short-term investments with maturities in excess of 60 days are valued in the same manner as debt securities. Short-term investments are generally categorized in Level 1 or 2 of the fair value hierarchy.

Debt, equity securities and the traditional annuity investments classified within Level 3 have significant unobservable inputs, as they trade infrequently or not at all. Inputs used may include the original transaction price, recent transactions in the same or a similar market, and subsequent rounds of financing. When observable prices are not available, these investments are valued using one or more valuation techniques described below:

- **Market Approach:** This approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.
- **Income Approach:** This approach determines a valuation by discounting future cash flows.
- **Cost Approach:** This approach is based on the principle of substitution and the concept that a market participant would not pay more than the amount that would currently be required to replace the asset.

DILLARD UNIVERSITY
403(b) DEFINED CONTRIBUTION PLAN 365974
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

NOTE 3 - FAIR VALUE MEASUREMENTS OF ASSETS AND LIABILITIES,
CONTINUED:

Although a secondary market exists for these investments, it is not active and individual transactions are typically not observable.

In accordance with ASC 820, certain investments that are measured at fair value using the net asset value per share practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statement of assets and liabilities.

The valuation methodologies previously described for **the Plan** is investments may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while **the Plan** believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan obtains the majority of the prices used in the valuation of its investments from a pricing service that is utilized by either the Investment Managers or **the Custodian**. The pricing service utilizes industry standard pricing models that consider various inputs, including benchmark yields, reported trades, broker/dealer quotes, issuer spreads and benchmark securities as well as other relevant economic measures. As a result of discussions with **the Custodian, the Plan Administrator** is of the opinion that the prices received from the pricing service are a reliable representation of exit prices.

ASU No. 2010-06 requires disclosures and clarifies existing disclosure requirements about fair value measurements. ASU 2010-06 requires (a) disclosure of gross significant transfers in and/or out between Levels 1 and 2 and the reasons for those transfers, (b) disclosure of all transfers in/out of Level 3 (significant transfers to be presented gross) and the reasons for those transfers, and (c) purchases, sales, issuances, and settlements to be disclosed separately (i.e. gross) within Level 3 roll-forward.

ASU 2010-06 also clarifies (a) the levels of disaggregation in presenting fair value disclosures for each class of assets and liabilities and (b) the disclosures about value techniques and inputs that are required for fair value measurements that fall within either Level 2 or 3.

ASU 2011-04 requires additional disclosures with a focus on Level 3 measurements. ASU 2011-04 stipulates that quantitative information about significant unobservable inputs used in the Level 3 fair value measurement and a description of the Level 3 valuation processes be disclosed. Additionally, for nonfinancial assets, a nonpublic entity must disclose why the asset is being used in a manner different from its highest and best use.

In accordance with ASC 820, certain investments measured at fair value using the net asset value per share practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statement of Net Assets Available for Planned Benefits. The tables on the following pages summarize the valuation of **the Plan's** investments measured at fair value by the FASB ASC 820 fair value hierarchy levels as of December 31, 2022 and 2021.

NOTE 3 - FAIR VALUE MEASUREMENTS OF ASSETS AND LIABILITIES,
CONTINUED:

ASC Topic 820 requires **the Plan** to disclose fair value information of all financial instruments, whether or not recognized in the Statements of Net Assets Available for the Plan Benefits, for which it is practicable to estimate fair value. **The Plan's** contributions receivable is generally short-term in nature and contain minimal credit risk. The carrying value of **the Plan's** contributions receivable is assumed to approximate fair value.

NOTE 4 - INVESTMENTS:

The following investments represent five (5) percent or more of **the Plan's** net assets available for benefits at December 31, 2022 and 2021.

<u>Description</u>	<u>2022</u>	<u>2021</u>
TIAA Traditional Annuity	\$ 4,636,372	\$ 4,522,680
CREF - CREF Stock	\$ 2,865,058	\$ 3,773,864
CREF - Equity Index	\$1,307,903	\$1,731,199
TIAA Real Estate	\$869,584	\$1,331,721
CREF - Global Equity	\$1,110,432	\$1,560,425
TIAA Lifecycle Funds	\$960,705	\$1,195,712

During the year ended December 31, 2022, **the Plan's** investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$2,832,322.

The Custodian holds **the Plan's** investments and executes all investment transactions. All investment information disclosed in the accompanying financial statements and schedules, including investments held at December 31, 2022 and 2021 and net appreciation in fair value of investments and interest income for the year ended December 31, 2022 was obtained or derived from information supplied to **the Plan** Administrator and certified as complete and accurate by **the Custodian**. The investment income/(loss) totaled \$(2,286,981) for December 31, 2022 and \$1,918,694 for December 31, 2021.

**NOTE 5 - GUARANTEED INVESTMENT CONTRACT
WITH TEACHERS AND ANNUITY ASSOCIATION:**

The TIAA Traditional Annuity is a non-benefit responsive guaranteed fixed annuity investment contract with Teachers Insurance and Annuity Association (TIAA). Plan Participants' accounts are credited with actual earning on the underlying investments and charged for participant withdrawals and administrative expenses. TIAA is contractually obligated to repay the principle and a specified interest rate that is guaranteed to **the Plan**. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value.

Fair value represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments. The fair value of the investment contract at December 31, 2022 and 2021 was \$4,636,372 and \$4,522,680, respectively.

The TIAA Traditional Annuity is offered through a variety of contracts, including Retirement Annuities (RAs), Group Retirement Annuities (GRAs), Supplemental Retirement Annuities (SRAs), Group Supplemental Retirement Annuities (GSRAs), Retirement Choice (RC), and Retirement Choice PLUS (RCP) Annuities, IRAs and Keoghs. The type of contract through which a participant allocates to the TIAA Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional amounts paid, the degree of liquidity of the participant's account and the options for receiving income upon retirements.

The TIAA Traditional Annuity guarantees principal and pays a guaranteed minimum interest rate during the accumulation phase—generally 3%, but between 1% and 3% for some contracts.

Each participant dollar applied to the account purchases a guaranteed amount of lifetime annuity income, paid to participants when they annuitize. Under most TIAA Traditional Annuity contracts, the minimum guaranteed interest rate during the payout phase is 2.5%

DECEMBER 31, 2022 AND 2021

NOTE 5 - GUARANTEED INVESTMENT CONTRACT
WITH TEACHERS AND ANNUITY ASSOCIATION, CONTINUED:

Under RA contracts, participants may only make withdrawals in the form of a life annuity or in ten (10) installments, with the first installment paid immediately so that the "10-year" withdrawal period actually occurs over a period of nine (9) years and one day.

NOTE 6- RELATED PARTY TRANSACTIONS:

Certain plan investments are shares of mutual funds managed by Teachers Insurance and Annuity Association; the Trustee as defined of **the Plan**. Reasonable fees paid by **the Plan** for investment, management and administrative services amounted to \$67,684 for the year ended December 31, 2022. Such fees were paid from investment earnings.

NOTE 7- PLAN TERMINATION:

Although it has not expressed any intent to do so, **the University** has the right under **the Plan** to discontinue its contributions at any time and to terminate **the Plan** subject to the provisions of ERISA. In the event of plan termination, participants would be notified of the termination and all accumulation accounts will become non-forfeitable to the extent that benefits are accrued.

NOTE 8- INFORMATION PREPARED AND CERTIFIED BY TRUSTEE:

The Custodian of the Plan has certified as being complete and accurate the investments on the statements of net assets available for benefits as of December 31, 2022 and 2021. Accordingly, as permitted under such election, **the Plan Administrator** instructed **the Plan's** independent auditors not to perform any auditing procedures with respect to the information certified as complete and accurate by **the Plan's Custodian** for the respective periods. Additionally, JP Morgan Chase Bank, N.A. (JP Morgan) has authorized TIAA to act as JP Morgan's agent for the purposes of certifying the year-end financial statements required by 29 CFR 2520.103-8, except for annuity contracts.

DILLARD UNIVERSITY
403(b) DEFINED CONTRIBUTION PLAN 365974
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

NOTE 9 - TAX STATUS:

The Plan is structured to comply with the applicable requirements of Section 403(b) of the Internal Revenue Code of 1986, as amended (IRC). A tax determination letter program is not yet available for IRC Section 403(b) plans through the Internal Revenue Service. **The Plan Administrator** believes that **the Plan** is currently designed and being operated in compliance with applicable requirements of the IRC and as such is exempt from Federal income taxes.

NOTE 10 - RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
