Independent Auditors' Report

To the Participants and Plan Administrator of the
King's College Tax Deferred Annuity Plan GSRA

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the King's College Tax Deferred Annuity Plan GSRA (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of June 30, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended June 30, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of June 30, 2023 and 2022, and for the year ended June 30, 2023, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of June 30, 2023 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agrees to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

King's College Tax Deferred Annuity Plan GSRA

Notes to Financial Statements

June 30, 2023 and 2022

1. Description of the Plan

The following description of the King's College Tax Deferred Annuity Plan GSRA (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that operates under Section 403(b) of the Internal Revenue Code (IRC) covering substantially all employees of King's College (College), except students and non-resident aliens. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

In 2015, the College established a new defined contribution plan under Section 403(b) named the King's College Defined Contribution Retirement Plan - Plan Number 003 (New Plan) covering substantially all employees of the College, except students and non-resident aliens. All future contributions are being made to the New Plan. In connection therewith, this Plan was frozen to new contributions effective January 2015. Participants were asked to transfer their balances to the New Plan since the participants hold individual contracts with the provider and the College cannot transfer without their approval. During 2023, there were no participant balances transferred to the New Plan.

Contributions

As noted above, the Plan is frozen to participant contributions. The Plan did not provide for College contributions.

Participant Accounts

Each participant's account is credited with an allocation of plan earnings. Allocations are based on account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants vested immediately in their contributions plus actual earnings thereon.

Payment of Benefits

On termination of service, death, disability or attainment of age 59½, a participant is eligible to receive a distribution of their account balance. The normal form of benefit payment is a lump-sum distribution. Participants can also elect partial or installment payments or may purchase an annuity contract.

Notes Receivable from Participants

Participants may borrow from their account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The borrowings are secured by the balance in the participant's account. Terms extend up to a period of five years unless used for the purchase of a primary residence and must bear a reasonable interest rate. As of June 30, 2023 and 2022, there were no notes receivable from participants within the Plan. However, as discussed in Note 8, there are loans outside of the Plan issued by the Teachers Insurance Annuity Association (TIAA).

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes gains and losses on investments bought and sold as well as held during the year.

Expenses

Expenses of maintaining the Plan are paid by the College and are excluded from these financial statements. Investment related expenses are included in net appreciation in fair value of investments.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through February 15, 2024, the date the financial statements were available to be issued.

The Secure 2.0 Act of 2022 was signed into law on December 29, 2022. This legislation includes a vast array of provisional changes to retirement plans, becoming effective in 2023 and beyond. Plan management is evaluating the impact of the adoption and implementation of this legislation on the Plan.

3. Investment Contract With TIAA

The Plan offers the option to invest in the TIAA Traditional Annuity Account, a guaranteed annuity contract with TIAA. Plan participants enter into these contractual agreements with TIAA by selecting a TIAA Traditional Annuity Account (TIAA Account). Participants of the Plan may invest in the following subaccounts: Group Supplemental Retirement Annuity (GSRA) or Retirement Annuity (RA).

The GSRA is considered fully benefit-responsive and is reported at contract value of \$1,633,342 and \$1,965,195 at June 30, 2023 and 2022, respectively. Contract value, as reported to the Plan by TIAA, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. The RA is considered nonbenefit-responsive and is reported at fair value.

The TIAA Account is a single group annuity contract with a fixed rate of interest. Interest is credited to the account and accumulations include a guaranteed rate, plus discretionary additional amounts determined annually by the TIAA Board of Trustees. The additional amounts, when declared, remain in effect through the "declaration year," which begins each March 1. The guaranteed annual interest rate is 1% for all premiums remitted since 1979 under all TIAA Traditional Annuity accumulating contracts. They are not a portfolio of contracts whose yields are based on changes in fair value of underlying assets, therefore the average yield earned by the Plan is the interest earned on the group annuity contract.

There are no reserves against contract value for credit risk of TIAA or otherwise. The crediting interest rate is based on a formula agreed upon by TIAA, which will not be less than zero percent. Such interest rates are reviewed on an annual basis for resetting. The TIAA Account does not permit TIAA to terminate the agreement prior to the scheduled maturity date.

Certain events might limit the ability of the Plan to transact at contract value with TIAA. Examples of such events include the following: (1) the Plan's failure to qualify under Section 401(a) of the IRC or the failure of the trust to be tax-exempt under Section 501(a) of the IRC, (2) premature termination of the contract, (3) Plan termination or merger, (4) changes to the Plan's prohibition on competing investment options or (5) bankruptcy of the College or other College events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with TIAA and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow TIAA to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include the following: (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation and (4) a material amendment to the agreements without the consent of TIAA.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2023 and 2022:

Assets at Fair Value as of June 30, 2023				
	Level 1	Level 2	Level 3	Total

	Assets at Fair Value as of June 30, 2022			
	Level 1	Level 2	Level 3	Total
Separate accounts	\$ -	\$ 2,331,940	\$ -	\$ 2,331,940
Guaranteed annuity contract, RA	-	-	142,912	142,912
Total assets in the fair value hierarchy	\$ -	\$ 2,331,940	\$ 142,912	2,474,852
Investment measured at NAV (a)				311,735
Total investments at fair value				\$ 2,786,587

(a) The investment measured at net asset value (NAV) per share (or its equivalent) is not classified in the fair value hierarchy but is presented to permit reconciliation to the investments at fair value line presented in the Statements of Net Assets Available for Benefits.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2023 and 2022.

Separate accounts are valued based on the NAV per unit of participation in the account. The NAV is based on the fair value of the underlying assets held by the account less its liabilities and is considered to be a readily determinable fair value. The accounts invest principally in equity securities, fixed income instruments and short-term instruments in accordance with each fund's investment objectives.

The guaranteed annuity contract - RA is reported at contract value, which approximates fair value, based on TIAA's ability to pay the guaranteed claims in accordance with the terms of the contract. This contract is considered nonbenefit-responsive. As of June 30, 2023, TIAA's credit ratings were as follows: A++ by A.M. Best Company, AAA by Fitch Ratings, Aa1 by Moody's Investors Service, and AA+ by Standard & Poor's. The high credit ratings of TIAA as of the measurement date uphold its ability to meet obligations set forth in the contract. Contract value is the aggregation of contributions, plus interest, less withdrawals, if any. Crediting rates are a combination of a guaranteed rate and an annually established discretionary rate. Additionally, the discretionary rate applied to contributions received during a reporting period may vary from the discretionary rate applied to account balances at the end of the prior reporting period. Contract value approximates a discounted cash flow value calculated using an appropriate risk-adjusted market discount rate which correlates closely with the historical crediting rates. The RA has redemption restrictions based on the terms of the underlying contract selected by the participant and loan agreements with participants and claims against the contracts are solely supported by TIAA's ability to pay on such claims. The redemption restrictions do not have a material impact on the contract value.

The investment measured at NAV is a pooled separate account valued at NAV per unit of participation in the account. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying assets held by the account less its liabilities. This practical expedient is not used when it is determined to be probable that the account will sell the investment for an amount different than the reported NAV.

5. Plan Termination

Although it has not expressed any intent to do so, the College has the right to terminate the Plan subject to the provisions of ERISA.

King's College Tax Deferred Annuity Plan GSRA

Notes to Financial Statements
June 30, 2023 and 2022

6. Tax Status

The Plan has been designed to qualify under Section 403(b) of the IRC. The plan administrator believes the Plan is operating in accordance with the applicable requirements of Section 403(b) of the IRC and therefore believes the Plan is qualified and the related custodial account is tax-exempt.

Management must evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Information Certified By TIAA and the College Retirement Equities Fund

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2023 and 2022. Accordingly, TIAA and the College Retirement Equities Fund (CREF) have certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of June 30, 2023 and 2022, the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of June 30, 2023 and related investment activity reported in the Statement of Changes in Net Assets Available for Benefits for the year ended June 30, 2023.

8. Related-Party and Party in Interest Transactions

The Plan's assets are managed by TIAA and CREF. Transactions with TIAA and CREF qualify as party in interest transactions. Fees incurred by the Plan for the investment manager services are included in net appreciation in the fair value of the investment, as they are paid through revenue sharing, rather than a direct payment.

Administrative expenses of the Plan are paid by the College. Certain administrative functions are performed by officers or employees of the College. No such officer or employee receives compensation from the Plan.

TIAA issues loans to plan participants which, though secured by the participant's account balance, are contractual agreements between TIAA and the plan participant and are funded from TIAA's general fund. A participant is required to transfer 110% of the loan value to the TIAA Account upon the issuance of the loan and is restricted from transfers or withdrawals. The restricted account balance is used as collateral on the loan balance in accordance with the terms of the note. The loans are to be repaid over not more than five years, unless for a principal residence and the interest rate was 5.56% at June 30, 2023. There was one loan outstanding with a balance of \$13,808 and \$33,018 at June 30, 2023 and 2022, respectively.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Market risks include global events which could impact the value of the investment security such as a pandemic or international conflict. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balance and the amounts reported in the Statements of Net Assets Available for Benefits.

At June 30, 2023 and 2022, the Plan had \$2,918,459 and \$3,552,155 concentrated in two and three investments, respectively.
