INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of
UNITED STEELWORKERS OF AMERICA AND VELSICOL CHEMICAL CORPORATION
AMENDED AND RESTATED PENSION AGREEMENT
Rosemont, Illinois

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of **UNITED STEELWORKERS OF AMERICA AND VELSICOL CHEMICAL CORPORATION AMENDED AND RESTATED PENSION AGREEMENT** (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of July 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the year ended July 31, 2023, the statement of accumulated plan benefits as of August 1, 2022 and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of **UNITED STEELWORKERS OF AMERICA AND VELSICOL CHEMICAL CORPORATION AMENDED AND RESTATED PENSION AGREEMENT'S** financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of July 31, 2023 and 2022, and for the year ended July 31, 2023, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of **UNITED STEELWORKERS OF AMERICA AND VELSCOL CHEMICAL CORPORATION AMENDED AND RESTATED PENSION AGREEMENT'S** internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Schedules Required by ERISA

The supplementary schedules, Schedule H, Line 4i – Schedule of Assets (Held at Year End) and Schedule H, Line 4j – Schedule of Reportable Transactions, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplementary schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplementary schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplementary schedules, we evaluated whether the supplementary schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplementary schedules, other than the information in the supplementary schedules that agreed to or is derived from the certified investment information,

are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplementary schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

July 31, 2023 and 2022

NOTE 1. DESCRIPTION OF THE PLAN

The following description provides only general information on the provisions of the **UNITED STEELWORKERS OF AMERICA AND VELSICOL CHEMICAL CORPORATION AMENDED AND RESTATED PENSION AGREEMENT** (the "Plan"). Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. General

Effective August 1, 1973, and most recently restated effective July 22, 2019, **VELSICOL CHEMICAL CORPORATION** (the "Company") entered into a pension agreement with the United Steelworkers of America, as defined in the collective bargaining agreement dated February 9, 1992. The Plan is designed as a qualified, noncontributory, tax-exempt defined benefit retirement plan to assist collectively bargained employees at the Company's Chattanooga plant in providing for their future security. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective April 14, 2007, all employees at the Company's Chattanooga, TN location were terminated due to the permanent closure of the plant. As a result of the plant closure, no benefits accrue under the Plan subsequent to April 14, 2007, and all benefits accumulated as of that date are considered 100% vested. No decision to terminate the Plan has yet been made by the Plan sponsor.

B. Administration

The Pension and Savings Plan Committee administers the Plan. Members are appointed by the Board of Directors of the Company and are employees of the Company. Principal Life Insurance Company is the Trustee of the Plan.

C. Eligibility and Participation

Union employees included in the collective bargaining unit at the Company's plant in Chattanooga, TN, who have completed one year of service, are eligible to participate in the Plan.

D. Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. The Plan met its minimum funding requirements for the years ended July 31, 2023 and 2022.

NOTES TO FINANCIAL STATEMENTS

July 31, 2023 and 2022

NOTE 1. DESCRIPTION OF THE PLAN - Continued

E. Pension Benefits

The normal retirement monthly benefit is calculated by multiplying the multiplier in effect per the union contract as of the participant's last severance from service by the years of credited service, up to 30 years. The 2001 amendment increased the multiplier to \$24.75 for participants whose last severance from service occurred on or after February 9, 2002 and \$26.00 for participants whose last severance from service occurred on or after February 9, 2003. The multiplier was \$26.50 for participants whose last severance from service occurred on or after February 9, 2005 and increased to \$27.25 for participants whose last severance from service is on or after February 9, 2006. A participant is eligible for early retirement if their last severance from service occurs before age 65 but after ten years of continuous service and attainment of the age 62 or at the age of 50 with at least ten years of continuous service and where age plus service is equal to or greater than 80. If benefits commence prior to normal retirement, the accrued benefit is reduced as defined in the Pension Agreement. The Pension Agreement also provides for certain disability and survivor benefits to eligible participants as defined in the Pension Agreement.

F. Vesting

Effective April 7, 2007 the Plan was frozen, and all participants became 100% vested.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

B. Actuarial Measurement Date of Plan Benefits

The Plan's benefits are measured at the beginning of the plan year. Therefore, the Statement of Accumulated Plan Benefits and Statement of Changes in Accumulated Plan Benefits are as of and for the year ended August 1, 2022.

C. Investment Valuation and Income Recognition

The Plan's investments are valued by Principal Life Insurance Company, the custodian, based on quoted market prices. Purchases and sales of securities are recorded on a trade-date basis.

NOTES TO FINANCIAL STATEMENTS

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

D. Management Estimates

The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and reported amounts of additions and deductions from net assets available for benefits during the reporting period. Actual results could differ from those estimates.

E. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future payments, including lump-sum distributions, that are payable under the Plan's provisions. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died; and (c) present employees or their beneficiaries. Benefits under the Plan are based on an employee's highest consecutive five-year average of compensation. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from Principal Life Insurance Company and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the value date and the expected date of payment.

The significant actuarial assumptions used in the evaluations as of August 1, 2022 were (a) life expectancy of participants based on the IRS prescribed mortality-option table for small plans; (b) an assumed retirement age of 65 and (c) an assumed rate of return on investments of 5.31% (a rate of 5.48% was used for the year ended August 1, 2021). The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

F. Payments of Benefits

Benefits are recorded when paid.

G. Administrative Expenses

All administrative costs, charges and expenses are paid by the Plan to the extent not paid by the Company.

NOTE 3. FAIR VALUE MEASUREMENTS

VALUATION OF INVESTMENTS – FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows.

LEVEL 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

LEVEL 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in active markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

LEVEL 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There has been no change in the methodology used at July 31, 2023 and 2022.

Pooled Separate Accounts: Valued at the daily closing price as reported by the fund. Pooled separate accounts held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The pooled separate accounts held by the Plan are deemed to be actively traded. The pooled separate accounts also include Principal U.S. Property account. Principal U.S. Property invests in real estate, which is an unobservable input, therefore this fund is classified as level 3.

The preceding method may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 3. FAIR VALUE MEASUREMENTS – Continued

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of July 31, 2023 and 2022, respectively.

Assets at fair value as of July 31, 2023				
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	\$ -	\$ 3,084,583	\$ 268,314	\$ 3,352,897
Total	\$ -	\$ 3,084,583	\$ 268,314	\$ 3,352,897

Assets at fair value as of July 31, 2022

NOTE 4. INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included on accompanying financial statements and supplementary schedules are complete and accurate:

- a. Total investments as shown on the accompanying Statements of Net Assets Available for Benefits of \$3,352,897 and \$3,759,305 as of July 31, 2023 and 2022, respectively.
- b. Net investment income (loss) as shown on the accompanying Statements of Changes in Net Assets Available for Benefits of (\$67,180) and (\$459,582) for the years ended July 31, 2023 and 2022, respectively.

Additionally, the Trustee certified all information on the Schedule of Assets (Held at Year End) at July 31, 2023, which may be found on the supplementary schedules.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included on the related financial statements and supplementary schedules.

NOTES TO FINANCIAL STATEMENTS

July 31, 2023 and 2022

NOTE 5. PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party who rendered service to the Plan, the employer, and certain others. Certain Plan investments are shares of pooled separate accounts that were issued by Principal Life Insurance Company. Principal Life Insurance Company is the Trustee as defined by the Plan and, therefore, transactions between the Plan and Principal Life Insurance Company qualify as party-in-interest transactions.

NOTE 6. INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated July 8, 2020 that the Plan and related Trust established under the Plan is tax-exempt under the appropriate sections of the Internal Revenue Code ("IRC"). The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan has adopted recently issued accounting principles related to uncertain tax positions and has evaluated its tax positions taken from all open tax years. Currently, the 2019, 2020, and 2021 tax years are open and subject to examination by the Internal Revenue Service and the Department of Labor. However, the Plan is not currently under audit nor has the Plan been contacted by either of these jurisdictions.

Based on evaluation of the Plan's tax positions, the Plan Administrator believes all positions taken would be upheld under examination. Therefore, no provision for the effects of uncertain tax positions has been recorded for the years ended July 31, 2023 and 2022.

NOTE 7. PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be generally allocated, as prescribed by ERISA and its related regulations, to provide the following benefits in the order indicated:

1. Benefits that former employees or their beneficiaries have been receiving for at least three years, or that the employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations discussed elsewhere.

UNITED STEELWORKERS OF AMERICA AND VELSICOL CHEMICAL CORPORATION

AMENDED AND RESTATED PENSION AGREEMENT

NOTES TO FINANCIAL STATEMENTS

July 31, 2023 and 2022

NOTE 7. PLAN TERMINATION – Continued

3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits and certain disability and survivor's benefits. However, the amount of benefit protection from the PBGC is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits, should the Plan terminate at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported on the Statements of Net Assets Available for Benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, employee demographics, and other factors, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

NOTE 9. SUBSEQUENT EVENTS

The Plan has evaluated all events subsequent to July 31, 2023 for possible adjustment or disclosure to the accompanying financial statements. This evaluation was done through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.

In September 2023, the Plan Sponsor filed for Chapter 11 bankruptcy. The Plan Sponsor has met all minimum funding requirements for the year ended July 31, 2023. At this time, the Plan Sponsor anticipates all future minimum funding requirements will be met. Further information may be obtained from management.

Assumptions prescribed by law

Mortality	During benefit payment period IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.
	Before benefit payment period IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.

Assumptions selected by actuary

Inflation	2.40% increase per year.
	Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.
Asset return	5.00% for the current plan year.
	The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.
Expected expense	The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets. This is the best estimate available of upcoming year's expenses.
Retirement	Active and inactive participants are assumed to retire at normal retirement age as defined in <u>Plan provisions</u> .
	This assumption is based on the results of recent experience analysis and anticipated future experience.
Disability	None. There are no active participants in this plan.
Marriage	75% married; husbands are 3 years older than wives.
	This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.
Withdrawal	None. Due to the size of the plan and limited experience, we're not recognizing a withdrawal assumption prior to retirement.
Form of benefit	Participants are assumed to receive their benefits on the normal form at the assumed retirement age.

Methods prescribed by law

Liability measure Funding target is the present value of the benefits accrued on the valuation date. Included in Funding Target is the value of any missed required minimum distributions (defined in IRC §401(a)(9) and Treasury Regulation §1.401(a)(9)), equal to back payments with interest at 6.00%.

Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.

Methods selected by plan sponsor

Asset method The asset valuation method is prescribed by law for plans that elect to use a value other than market value.

For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.

The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.

When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.

Segment rates 24-month average with no weighting to prior law basis. Use rates where July is the last month included in the average.

PBGC premium basis Variable rate premiums are calculated using census, market value of assets and the one-month average of corporate bond rates in effect on the valuation date. You elected this Standard interest method for the 08/01/2018 plan year and the method must be used for five years before a change can be made.

Segment 1 years 0-5	Segment 2 years 5-20	Segment 3 years 20+
3.67%	4.67%	4.73%

Methods elected by actuary

Retirees	Assets and liabilities for current and future retirees are included.
Vested benefits	A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date. The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality	Based on Pri-2012 Blue collar base rate mortality table projected generationally using the using the Principal Mortality Improvement Scale (Principal 2022).
Mortality base rates	Before benefit payment period Employee amount-weighted, male and female During benefit payment period Retiree amount-weighted, male and female The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Blue collar base rate table was selected based on information provided by the plan sponsor. Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.

Mortality improvement Principal 2022 MI scale is based on MIM-2021-v3 application tool issued by SOA in October 2022 with the following parameters:

Parameter	Principal 2022
Historical dataset	SSA
Whittaker-Henderson Graduation	Order 3
Interpolation Structure	Basic
Graduated MI data last year ("jumping off" point)	2017
H/D transition ultimate year by age/cohort	2028/2028
Weight placed on interpolation by cohort	50%
Initial Slope periods (constraint)	2016-2017 (0.000)
LTR	SSA LTR 2022
COVID-19 or Excess load	None ¹

¹Based on the sponsor's input, plan experience does not show a need for long-term excess death or Covid death load adjustments. See [Mortality documentation](#) for rationale and additional information.

Interest rate used to value liabilities

4.75%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

Treatment of administrative expenses

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses. Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer. Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception - contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

Assumptions used in the forecast of funded status and annual cost

Interest rates	Our current best estimate of next year's effective interest rate is based on your plan's duration of 9. It assumes that the monthly corporate bond yield curve for January 2023 remains constant for all future months.
Benefit payments	Estimated benefit payments of \$387,000 for both your plan's assets and funding target.
Contributions	Assets assume contributions are made in cash at the end of the plan year to exactly satisfy the 2022 annual cost and are reduced by the current year expense estimate of \$26,000.
Expenses	Expenses included in the projected annual cost are the same as the 2022 estimate.
Methods and assumptions	The estimates do not reflect any change in the methods or assumptions (other than interest rate) disclosed in this report.

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the plan signed 7/22/2019 and the plan amendment signed 10/16/2021.

Plan eligibility

Service One year of service.

Class Any employee of the employer who is included in the collective bargaining unit at the employer's plant in Chattanooga, TN excluding leased employees, office clerks on fixed salaries, technical persons, and employed as foremen.

Normal retirement benefit

Age The later of attained age 65 or 5 years after plan entry.

Form Monthly annuity payable for life (optional forms may be elected in advance of retirement).

Amount (accrued benefit) Effective February 9, 2006, \$27.25 multiplied by years of accrual service (not to exceed 30 years).

Early retirement benefit

Age and service Participant has both attained age 62 and 10 years of vesting service, or attained age 50 with 10 years of vesting service, and his age when added to his vesting service equals or exceeds 80.

Form Same as normal retirement benefit.

Amount (only inactives remain) Accrued benefit on early retirement date for inactive participants is actuarially reduced using 6% interest and the mortality table as set forth in the UP 1984 Mortality Table for both males and females.

Late retirement benefit

Age No maximum age.

Form Same as normal retirement benefit.

Amount An active participant's retirement benefit on his late retirement date shall be equal to his accrued benefit on his late retirement date.

Termination benefit

Vesting percentage	100% after five years of vesting service.
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

Disability benefit

Service Completed 5 years of vesting service.

Amount Greater of (a), (b), or (c) below:

(a) A monthly benefit in an amount determined according to the following schedule. Such benefit shall be reduced by any benefit received under an applicable worker compensation or occupational disease law.

Years accrual service	Amount	Years accrual service	Amount

Death benefit

Eligibility Qualified married participant fully or partially vested in an accrued benefit.

Form Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.

Amount If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day.

Definitions

Accrual service Sum of (a) and (b):

(a) The total of an employee's service with the employer before August 1, 1976 is determined according to the provisions of the plan in effect on July 31, 1976.

(b) On and after August 1, 1976, service is measured from an employee's employment commencement date to his most recent severance date. This shall be reduced by all or any part of a period of service that is not counted. It should also be reduced by any period of severance. Service shall be expressed as years and fractional parts of a year on the basis that 365 days equal one year.

Optional forms of
benefit payments

The optional forms of benefit payments are:

- Monthly annuity payable for life.
- Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50 or 75.

The optional form conversion basis is 6.0% interest and the mortality table as set forth in the UP 1984 Mortality Table for both males and females for payments other than lump sums.

The optional form conversion basis uses the applicable interest rate and applicable mortality table as set forth in Code Section 417 for lump sum payments. The applicable interest rate uses the second calendar month preceding the first day of the stability period which is the plan year.

Changes in Principal Eligibility or Benefit Provisions

There have been no changes in principal eligibility or benefit provisions since the last valuation.

Significant Event

The enrolled actuary has not been made aware that any significant events have occurred during the year.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
