Independent Auditor's Report

The Plan Administrator
Indiana Glass Company Union
Employees' Retirement Benefit Plan
Westerville, Ohio

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Indiana Glass Company Union Employees' Retirement Benefit Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of June 30, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended June 30, 2023, and the statements of accumulated plan benefits as of June 30, 2023 and 2022, and the related statement of changes in accumulated plan benefits for the year ended June 30, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certification from a qualified institution as of June 30, 2023 and 2022, and for the year ended June 30, 2023, stating that the certified investment information, as described in Notes 2 and 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meet(s) the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of June 30, 2023 and Schedule of Reportable Transactions for the year ended June 30, 2023, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional

procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedules agrees to, or are derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Indiana Glass Company Union Employees' Retirement Benefit Plan

Notes to Financial Statements

1. Description of Plan and Tax Status

The Indiana Glass Company Union Employees' Retirement Benefit Plan (Plan) is contained in the agreement dated February 2, 2005 between Dkirk, Inc., formerly known as Indiana Glass Company, (Company) and the United Steelworkers of America, AFL-CIO. Effective July 1, 2015, the Company's obligations under the Plan were assumed by Lancaster Glass Corporation as a result of the merger of the Company into Lancaster Glass Corporation. The Plan is a noncontributory defined benefit plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Participants should refer to the plan document as well as the aforementioned agreement for more complete information. See Note 7 for amendments to benefit provisions.

At June 30, 2023 and 2022, the Plan had no active participants.

The Plan invests a significant portion of its assets in a Master Trust with other subsidiaries of Lancaster Colony Corporation whereby they pool their investment assets. Allocation of net assets, net investment income, and gains and losses to participating plans are allocated to the plans on a pro rata basis based on the Plan's undivided interest. Participants should refer to the Master Pension Trust Agreement for more complete information. See Note 5 for summary information on the Master Trust. The Plan's interest in the Master Trust was approximately 60% and 61% at June 30, 2023 and 2022, respectively.

On November 1, 2002, the Company announced a partial plant shutdown. As a result of this event, Plan participants terminated during the 12-month period ended on November 26, 2002 became 100% vested in the Plan. This plant was closed and all remaining employees became fully vested and were terminated on February 28, 2009.

The Plan obtained a favorable determination letter dated June 27, 2014 from the Internal Revenue Service. The Plan, as designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code, including any that have become effective since the effective date of the amendments in the latest determination letter. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America (GAAP) require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the tax authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2023 and 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

2. Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Indiana Glass Company Union Employees' Retirement Benefit Plan

Notes to Financial Statements

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Fair values of investments, in and outside of the Master Trust, are based on the latest securities quotations available as provided by the trustee of the Plan. See Note 5 for discussion of the investment in the Master Trust and Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) beneficiaries of employees who have died. Benefits under the Plan are based on employees' years of credited service. The accumulated plan benefits for active employees are based on their years of credited service ending on the date the benefit information is presented (the valuation date). Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary from CBIZ Benefits & Insurance Services, Inc., and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of June 30, 2023 and 2022 were (a) life expectancy of participants (for 2023, the SOA PRI-2012 Blue-Collar Dataset Amount-Weighted Mortality for Employees, Retirees, and Contingent Survivor, projected with Scale MP-2021 fully generation, was used; for 2022, the SOA PRI-2012 Blue-Collar Dataset Amount-Weighted Mortality for Employees, Retirees, and Contingent Survivor, projected with Scale MP-2021 fully generation, was used), (b) retirement age assumptions (the assumed average retirement age was 65), and (c) investments return. The 2023 and 2022 valuations included an assumed average net rate of return of 5.14% and 5.30%, respectively. The computations of the actuarial present value of accumulated plan benefits were made as of July 1, 2023 and 2022. Had the valuation been performed as of June 30, there would be no material differences.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Indiana Glass Company Union Employees' Retirement Benefit Plan

Notes to Financial Statements

Plan amendments are included in the actuarial calculation of accumulated plan benefits as of their effective date (see Note 7).

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Certification of Investment Information

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Huntington National Bank, a qualified institution, has certified that the following investment information included in the accompanying financial statements and ERISA-required supplemental schedules are complete and accurate:

- Investments, as shown in the statements of net assets available for benefits as of June 30, 2023 and 2022.
- Investment income, net, as shown in the statement of changes in net assets available for benefits for the year ended June 30, 2023.
- Investment information included in the Schedule of Assets (Held at End of Year) as of June 30, 2023 and the Schedule of Reportable Transactions for the year ended June 30, 2023, as shown on the ERISA-required supplemental schedules.

At the request of the Plan Administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information in the financial statements, including reading the disclosures related to the investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP, and, in the ERISA-required supplemental schedules, including assessing whether the supplemental schedules are in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Administrative Expenses

Substantially all administrative expenses are paid by the Plan.

Subsequent Events

The Plan has evaluated events and transactions that occurred between July 1, 2023 and February 29, 2024, the date that the financial statements were available to be issued.

Subsequent to the Plan year end, the Plan's trustee changed from Huntington National Bank to Charles Schwab Trust Bank. This transition occurred during December 2023.

Indiana Glass Company Union Employees' Retirement Benefit Plan

Notes to Financial Statements

3. Funding Policy

The Company's funding policy is to make annual contributions to the Plan at least equal to an amount based on an actuarial calculation of the Plan's minimum funding requirements under ERISA. There was no contribution required for 2023 and 2022.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA and in the collective bargaining agreement as described in Notes 1 and 4.

4. Plan Termination

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

If the Plan terminates, the net assets of the Plan will be allocated as required by ERISA regulations. Certain benefits under the Plan are insured by the PBGC if the Plan terminates. The PBGC guarantees are outlined in the plan document and participants should refer to these documents for more complete information.

5. Investment in Master Trust

At June 30, 2023 and 2022, a significant portion of the Plan's assets were held in a Master Trust referred to as the Lancaster Colony Corporation Master Pension Trust (Master Trust). At June 30, 2023 and 2022, the Plan had an undivided interest in the Master Trust having a fair market value of \$16,653,335 and \$17,573,240, respectively.

6. Fair Value Measurements

Accounting Standards Codification (ASC) 820-10, *Fair Value Measurements and Disclosures*, defines fair value and provides guidance for measuring fair value and expands disclosures about fair value measurements in accordance with GAAP.

ASC 820-10 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobserved inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Level 1 - The securities classified as Level 1 include money market funds and mutual funds. Quoted market prices in active markets are available for investments in this category.

Indiana Glass Company Union Employees' Retirement Benefit Plan

Notes to Financial Statements

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by the level, within the fair value hierarchy, the Master Trust's assets and other Plan investments at fair value:

June 30, 2023

	Level 1	Level 2	Level 3	Total

7. Plan Amendments

As of February 28, 2009, the Plan effectively ceased the crediting of credited service for benefits since the Company no longer employed any of the participants and the status of the Plan became "frozen" with regards to each participant's accrued benefit. This change in the Plan simply freezes the amounts of the accrued retirement benefits and the Plan will otherwise continue and does not affect the basic amount of any pension that is currently payable to, or on behalf of, any retired employee or former employee who previously retired or terminated employment with a vested right to benefits under the Plan.

Effective July 1, 2020, the Plan was amended to correct the definition of "Company" from Dkirk, Inc to Lancaster Glass Corporation. The amendment updated Section 4.02, *Benefits Upon Postponed Retirement*, and Section 4.04, *Deferred Vested Retirement Benefit*, to specify when a Participant

Indiana Glass Company Union Employees' Retirement Benefit Plan

Notes to Financial Statements

commences benefits, their pension benefit would not be less than the Actuarial Equivalent value of the accrued benefit at Normal Retirement Date.

Effective for annuity starting dates after September 1, 2021, the Plan amended Section 4.04 to specify when a Participant commences benefits and the annuity starting date is after the date described in Section 5.06(a), their pension benefit will be equal to the benefit payable on the date described in Section 5.06(a). The Participant must receive a make-up payment (including interest) to reflect any missed payments for the period from the date described in the immediately prior sentence to the date of the actual make-up payment.

8. Parties-in-Interest

Parties-in-interest are defined under the Department of Labor's Rules and Regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. The Plan holds investment interest in the Master Trust. The Plan's trustee, Huntington National Bank, is the trustee of the Master Trust and the trustee of the investments held by the Master Trust (see Note 5). Accordingly, the Plan's investments in the Master Trust qualify as party-in-interest transactions.

In addition, certain employees of Lancaster Colony Corporation, the Plan Administrator, provide administrative and investment services, some of which may be fiduciary in nature, to the Plan; however, the Plan does not provide any compensation for these services.

9. Risks and Uncertainties

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment securities, in and outside of the Master Trust, are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in these risks, estimates and assumptions in the near term could materially affect the amounts reported in the financial statements.

SUMMARY OF ASSUMPTIONS

Funding Discount Rates IRS-Prescribed Three-Segment Rates, for the month prior to the valuation (June).

	Non-Stabilized	Limited to 25- Year Corridor
Segment 1:	1.02%	4.75%
Segment 2:	2.80%	5.18%
Segment 3:	3.38%	5.92%

The "Limited to 25 Year Corridor" rates are adjusted by the applicable maximum and applicable minimum percentages of the 25-year average segment rates, as set forth in the American Rescue Plan Act of 2021 ('ARPA-21') for use in Minimum Required Contribution calculations. The IRS Maximum Deductible Limit Calculations use the rates from the "Non-Stabilized" column above.

The interest rates used to value the Target Liability for determining the minimum and maximum contributions are prescribed by law and based on elections made by the Plan Sponsor.

Effective Interest Rate The Effective Interest Rate (EIR) for the current Plan Year is 5.30%. For the prior Plan Year, the EIR was 5.48%.

The EIR is the single rate of interest which, if used to determine the Funding Target, would equal the Funding Target determined using the Plan Sponsor's above elected discount rates. The EIR is used to discount contributions for minimum funding requirements and to accumulate excess contributions to the end of the year.

Funding Expected Return on Assets

The Expected Return on Assets (EROA) used in the calculation of the Actuarial Value of Assets is the lesser of a) or b), below:

a) The Plan Sponsor's expected long-term rate of return on assets based on policy trust allocations; or

b) The third segment rate in the IRS-prescribed three-segment rate assumption, based on the elections made by the Plan Sponsor for minimum funding purposes.

The results are as follows:

Plan Year	Assumption a)	Seg. III b)	EROA (smaller of a or b)
2021	5.00%	6.11%	5.00%
2020	5.00%	5.94%	5.00%

The assumed rate of return used for determination of the actuarial value of assets was selected taking into consideration input from the Plan's asset advisor and publicly available survey information on expected returns by asset class as of July 1, 2022.

Administrative expenses are assumed to equal the prior year's actual administrative expenses.

Salary Scale

Not applicable.

Rationale: The Plan has no active participants.

Inflation

Not applicable.

Rationale: This assumption affects long-term assumed increases in the Social Security Taxable Wage base and the IRS Compensation Limits. Because the Plan has no actives and there are no benefits over the IRS Compensation Limits, this assumption is not applicable.

Mortality Healthy and Disabled Participants - IRS §430(h) Separate Annuitant / Non-Annuitant Generational Mortality Tables for the Current Plan Year. These tables are the Society of Actuaries' (SOA) RP-2014 separate employee and healthy annuitant generational mortality tables, adjusted to 2006, then projected forward using generational projection scale MP-2020, for males and females.

The mortality assumptions used to value the Target Liability for determining the minimum and maximum contributions are prescribed by law and based on elections made by the Plan Sponsor.

Withdrawal Rates Not applicable.

Rationale: There are no active participants for which this assumption would apply.

Disability Incidence Not applicable.

Rationale: There are no active participants for which this assumption would apply.

Retirement Rates All participants are assumed to retire at Normal Retirement Age.

Rationale: There are no active participants for which this assumption would apply.

Spousal Assumptions 100% of males and 100% of females are assumed to be married.

Females are assumed to be 3 years younger than males.

Rationale: Because the employer does not have enough data to do a fully credible experience analysis with respect to spousal information, the current assumption has been selected based on the actuary's experience with plans of a similar size, plan design, participant composition, as well as discussions with the Plan Sponsor.

Benefit Commencement Age Normal Retirement Age, or valuation age, if later.

Rationale: Because the employer does not have enough data to do a fully credible experience analysis with respect to Benefit Commencement Age, the current assumption has been selected based on the actuary's experience with plans of a similar size, plan design, participant composition, as well as discussions with the Plan Sponsor.

Form of Payment

All benefits are assumed to be paid in the Normal Form defined under the terms of the Plan.

Rationale: Because the employer does not have enough data to do a fully credible experience analysis with respect to Form of Payment, the current assumption has been selected based on the actuary's experience with plans of a similar size, plan design, participant composition, as well as discussions with the Plan Sponsor.

**Changes in non-required
Funding assumptions
since the prior valuation**

None.

**Changes in the prescribed
assumptions since the
prior valuation**

The funding mortality tables were changed from the IRS 2021 Static Mortality Tables to the IRS 2022 Static Mortality Tables.

The discount rates for funding and PBGC premiums were updated from the rates shown in the 2021 valuation report to the rates shown above.

SUMMARY OF METHODS

Minimum Funding Cost Method

The actuarial cost method used to determine the liabilities for minimum funding calculations is the Traditional Unit Credit method. The objective under this method is to fund each participant's benefits under the plan as they accrue. Under this cost method, the actuarial accrued liability is the sum of the individual accrued liabilities for all participants and the normal cost is the sum of the individual normal costs for each participant. The individual accrued liability for a participant is the present value of the accrued benefit as of the valuation date taking into account service and/or pay as of the valuation date. The individual normal cost for a participant is the present value of the benefit expected to accrue in the plan year being valued.

If a plan is frozen, there is no normal cost attributable to benefit accruals.

Maximum Deductible Contribution Method

The actuarial cost method used to determine the liabilities for maximum deductible calculations is the Projected Unit Credit method. The objective under this method is to fund each participant's benefits under the plan as they accrue, taking into consideration expected future compensation increases. Under this cost method, the actuarial accrued liability is the sum of the individual accrued liabilities for all participants and the normal cost is the sum of the individual normal costs for all participant. The individual accrued liability for a participant is the sum of 1) the present value of the accrued benefit earned as of the valuation date taking into account service and/or pay as of the valuation date; plus 2) the present value of the accrued benefit expected to be earned because of any expected future compensation increases.

The individual normal cost for a participant is the sum of the present value of the benefit expected to accrue in the plan year being valued taking into account any expected future compensation increases.

Asset Method

We used financial data submitted by the trustee as of the valuation date without further audit. We have reviewed the information for internal consistency, and we have no reason to doubt its substantial accuracy.

Actuarial Value of Assets For funding purposes, Actuarial Value of Assets is a smoothed market value assets adjusted by the applicable percentage of gain or loss calculated in each year during the smoothing period. The gain or loss is the difference between the current year's market value, and prior year's market value brought forward with contributions, benefit payments, and administrative expenses, all adjusted at the expected interest rate to the valuation date. The expected interest rate for each year is the lesser of the expected rate of return and the third segment rate. The applicable percentage is 66-2/3% for the year preceding the valuation date, and 33-1/3% for the second year preceding the valuation date. The actuarial value of assets will be adjusted to be no greater than 110% and no less than 90% of the current (market) value of assets.

Receivable contributions are discounted back to the valuation date at the prior year's effective interest rate.

Changes in methods since the prior valuation None.

Independent Auditor's Report

The Plan Administrator
Indiana Glass Company Union
Employees' Retirement Benefit Plan
Westerville, Ohio

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Indiana Glass Company Union Employees' Retirement Benefit Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of June 30, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended June 30, 2023, and the statements of accumulated plan benefits as of June 30, 2023 and 2022, and the related statement of changes in accumulated plan benefits for the year ended June 30, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certification from a qualified institution as of June 30, 2023 and 2022, and for the year ended June 30, 2023, stating that the certified investment information, as described in Notes 2 and 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meet(s) the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of June 30, 2023 and Schedule of Reportable Transactions for the year ended June 30, 2023, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional

procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedules agrees to, or are derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Indiana Glass Company Union Employees' Retirement Benefit Plan

Notes to Financial Statements

1. Description of Plan and Tax Status

The Indiana Glass Company Union Employees' Retirement Benefit Plan (Plan) is contained in the agreement dated February 2, 2005 between Dkirk, Inc., formerly known as Indiana Glass Company, (Company) and the United Steelworkers of America, AFL-CIO. Effective July 1, 2015, the Company's obligations under the Plan were assumed by Lancaster Glass Corporation as a result of the merger of the Company into Lancaster Glass Corporation. The Plan is a noncontributory defined benefit plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Participants should refer to the plan document as well as the aforementioned agreement for more complete information. See Note 7 for amendments to benefit provisions.

At June 30, 2023 and 2022, the Plan had no active participants.

The Plan invests a significant portion of its assets in a Master Trust with other subsidiaries of Lancaster Colony Corporation whereby they pool their investment assets. Allocation of net assets, net investment income, and gains and losses to participating plans are allocated to the plans on a pro rata basis based on the Plan's undivided interest. Participants should refer to the Master Pension Trust Agreement for more complete information. See Note 5 for summary information on the Master Trust. The Plan's interest in the Master Trust was approximately 60% and 61% at June 30, 2023 and 2022, respectively.

On November 1, 2002, the Company announced a partial plant shutdown. As a result of this event, Plan participants terminated during the 12-month period ended on November 26, 2002 became 100% vested in the Plan. This plant was closed and all remaining employees became fully vested and were terminated on February 28, 2009.

The Plan obtained a favorable determination letter dated June 27, 2014 from the Internal Revenue Service. The Plan, as designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code, including any that have become effective since the effective date of the amendments in the latest determination letter. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America (GAAP) require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the tax authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2023 and 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

2. Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Indiana Glass Company Union Employees' Retirement Benefit Plan

Notes to Financial Statements

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Fair values of investments, in and outside of the Master Trust, are based on the latest securities quotations available as provided by the trustee of the Plan. See Note 5 for discussion of the investment in the Master Trust and Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) beneficiaries of employees who have died. Benefits under the Plan are based on employees' years of credited service. The accumulated plan benefits for active employees are based on their years of credited service ending on the date the benefit information is presented (the valuation date). Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary from CBIZ Benefits & Insurance Services, Inc., and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of June 30, 2023 and 2022 were (a) life expectancy of participants (for 2023, the SOA PRI-2012 Blue-Collar Dataset Amount-Weighted Mortality for Employees, Retirees, and Contingent Survivor, projected with Scale MP-2021 fully generation, was used; for 2022, the SOA PRI-2012 Blue-Collar Dataset Amount-Weighted Mortality for Employees, Retirees, and Contingent Survivor, projected with Scale MP-2021 fully generation, was used), (b) retirement age assumptions (the assumed average retirement age was 65), and (c) investments return. The 2023 and 2022 valuations included an assumed average net rate of return of 5.14% and 5.30%, respectively. The computations of the actuarial present value of accumulated plan benefits were made as of July 1, 2023 and 2022. Had the valuation been performed as of June 30, there would be no material differences.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Indiana Glass Company Union Employees' Retirement Benefit Plan

Notes to Financial Statements

Plan amendments are included in the actuarial calculation of accumulated plan benefits as of their effective date (see Note 7).

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Certification of Investment Information

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Huntington National Bank, a qualified institution, has certified that the following investment information included in the accompanying financial statements and ERISA-required supplemental schedules are complete and accurate:

- Investments, as shown in the statements of net assets available for benefits as of June 30, 2023 and 2022.
- Investment income, net, as shown in the statement of changes in net assets available for benefits for the year ended June 30, 2023.
- Investment information included in the Schedule of Assets (Held at End of Year) as of June 30, 2023 and the Schedule of Reportable Transactions for the year ended June 30, 2023, as shown on the ERISA-required supplemental schedules.

At the request of the Plan Administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information in the financial statements, including reading the disclosures related to the investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP, and, in the ERISA-required supplemental schedules, including assessing whether the supplemental schedules are in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Administrative Expenses

Substantially all administrative expenses are paid by the Plan.

Subsequent Events

The Plan has evaluated events and transactions that occurred between July 1, 2023 and February 29, 2024, the date that the financial statements were available to be issued.

Subsequent to the Plan year end, the Plan's trustee changed from Huntington National Bank to Charles Schwab Trust Bank. This transition occurred during December 2023.

Indiana Glass Company Union Employees' Retirement Benefit Plan

Notes to Financial Statements

3. Funding Policy

The Company's funding policy is to make annual contributions to the Plan at least equal to an amount based on an actuarial calculation of the Plan's minimum funding requirements under ERISA. There was no contribution required for 2023 and 2022.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA and in the collective bargaining agreement as described in Notes 1 and 4.

4. Plan Termination

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

If the Plan terminates, the net assets of the Plan will be allocated as required by ERISA regulations. Certain benefits under the Plan are insured by the PBGC if the Plan terminates. The PBGC guarantees are outlined in the plan document and participants should refer to these documents for more complete information.

5. Investment in Master Trust

At June 30, 2023 and 2022, a significant portion of the Plan's assets were held in a Master Trust referred to as the Lancaster Colony Corporation Master Pension Trust (Master Trust). At June 30, 2023 and 2022, the Plan had an undivided interest in the Master Trust having a fair market value of \$16,653,335 and \$17,573,240, respectively.

6. Fair Value Measurements

Accounting Standards Codification (ASC) 820-10, *Fair Value Measurements and Disclosures*, defines fair value and provides guidance for measuring fair value and expands disclosures about fair value measurements in accordance with GAAP.

ASC 820-10 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobserved inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Level 1 - The securities classified as Level 1 include money market funds and mutual funds. Quoted market prices in active markets are available for investments in this category.

Notes to Financial Statements

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by the level, within the fair value hierarchy, the Master Trust's assets and other Plan investments at fair value:

7. Plan Amendments

As of February 28, 2009, the Plan effectively ceased the crediting of credited service for benefits since the Company no longer employed any of the participants and the status of the Plan became "frozen" with regards to each participant's accrued benefit. This change in the Plan simply freezes the amounts of the accrued retirement benefits and the Plan will otherwise continue and does not affect the basic amount of any pension that is currently payable to, or on behalf of, any retired employee or former employee who previously retired or terminated employment with a vested right to benefits under the Plan.

Effective July 1, 2020, the Plan was amended to correct the definition of "Company" from Dkirk, Inc to Lancaster Glass Corporation. The amendment updated Section 4.02, *Benefits Upon Postponed Retirement*, and Section 4.04, *Deferred Vested Retirement Benefit*, to specify when a Participant

Indiana Glass Company Union Employees' Retirement Benefit Plan

Notes to Financial Statements

commences benefits, their pension benefit would not be less than the Actuarial Equivalent value of the accrued benefit at Normal Retirement Date.

Effective for annuity starting dates after September 1, 2021, the Plan amended Section 4.04 to specify when a Participant commences benefits and the annuity starting date is after the date described in Section 5.06(a), their pension benefit will be equal to the benefit payable on the date described in Section 5.06(a). The Participant must receive a make-up payment (including interest) to reflect any missed payments for the period from the date described in the immediately prior sentence to the date of the actual make-up payment.

8. Parties-in-Interest

Parties-in-interest are defined under the Department of Labor's Rules and Regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. The Plan holds investment interest in the Master Trust. The Plan's trustee, Huntington National Bank, is the trustee of the Master Trust and the trustee of the investments held by the Master Trust (see Note 5). Accordingly, the Plan's investments in the Master Trust qualify as party-in-interest transactions.

In addition, certain employees of Lancaster Colony Corporation, the Plan Administrator, provide administrative and investment services, some of which may be fiduciary in nature, to the Plan; however, the Plan does not provide any compensation for these services.

9. Risks and Uncertainties

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment securities, in and outside of the Master Trust, are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in these risks, estimates and assumptions in the near term could materially affect the amounts reported in the financial statements.

Independent Auditor's Report

The Plan Administrator
Indiana Glass Company Union
Employees' Retirement Benefit Plan
Westerville, Ohio

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Indiana Glass Company Union Employees' Retirement Benefit Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of June 30, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended June 30, 2023, and the statements of accumulated plan benefits as of June 30, 2023 and 2022, and the related statement of changes in accumulated plan benefits for the year ended June 30, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certification from a qualified institution as of June 30, 2023 and 2022, and for the year ended June 30, 2023, stating that the certified investment information, as described in Notes 2 and 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meet(s) the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of June 30, 2023 and Schedule of Reportable Transactions for the year ended June 30, 2023, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional

procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedules agrees to, or are derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Indiana Glass Company Union Employees' Retirement Benefit Plan

Notes to Financial Statements

1. Description of Plan and Tax Status

The Indiana Glass Company Union Employees' Retirement Benefit Plan (Plan) is contained in the agreement dated February 2, 2005 between Dkirk, Inc., formerly known as Indiana Glass Company, (Company) and the United Steelworkers of America, AFL-CIO. Effective July 1, 2015, the Company's obligations under the Plan were assumed by Lancaster Glass Corporation as a result of the merger of the Company into Lancaster Glass Corporation. The Plan is a noncontributory defined benefit plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Participants should refer to the plan document as well as the aforementioned agreement for more complete information. See Note 7 for amendments to benefit provisions.

At June 30, 2023 and 2022, the Plan had no active participants.

The Plan invests a significant portion of its assets in a Master Trust with other subsidiaries of Lancaster Colony Corporation whereby they pool their investment assets. Allocation of net assets, net investment income, and gains and losses to participating plans are allocated to the plans on a pro rata basis based on the Plan's undivided interest. Participants should refer to the Master Pension Trust Agreement for more complete information. See Note 5 for summary information on the Master Trust. The Plan's interest in the Master Trust was approximately 60% and 61% at June 30, 2023 and 2022, respectively.

On November 1, 2002, the Company announced a partial plant shutdown. As a result of this event, Plan participants terminated during the 12-month period ended on November 26, 2002 became 100% vested in the Plan. This plant was closed and all remaining employees became fully vested and were terminated on February 28, 2009.

The Plan obtained a favorable determination letter dated June 27, 2014 from the Internal Revenue Service. The Plan, as designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code, including any that have become effective since the effective date of the amendments in the latest determination letter. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America (GAAP) require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the tax authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2023 and 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

2. Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Indiana Glass Company Union Employees' Retirement Benefit Plan

Notes to Financial Statements

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Fair values of investments, in and outside of the Master Trust, are based on the latest securities quotations available as provided by the trustee of the Plan. See Note 5 for discussion of the investment in the Master Trust and Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) beneficiaries of employees who have died. Benefits under the Plan are based on employees' years of credited service. The accumulated plan benefits for active employees are based on their years of credited service ending on the date the benefit information is presented (the valuation date). Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary from CBIZ Benefits & Insurance Services, Inc., and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of June 30, 2023 and 2022 were (a) life expectancy of participants (for 2023, the SOA PRI-2012 Blue-Collar Dataset Amount-Weighted Mortality for Employees, Retirees, and Contingent Survivor, projected with Scale MP-2021 fully generation, was used; for 2022, the SOA PRI-2012 Blue-Collar Dataset Amount-Weighted Mortality for Employees, Retirees, and Contingent Survivor, projected with Scale MP-2021 fully generation, was used), (b) retirement age assumptions (the assumed average retirement age was 65), and (c) investments return. The 2023 and 2022 valuations included an assumed average net rate of return of 5.14% and 5.30%, respectively. The computations of the actuarial present value of accumulated plan benefits were made as of July 1, 2023 and 2022. Had the valuation been performed as of June 30, there would be no material differences.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Indiana Glass Company Union Employees' Retirement Benefit Plan

Notes to Financial Statements

Plan amendments are included in the actuarial calculation of accumulated plan benefits as of their effective date (see Note 7).

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Certification of Investment Information

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Huntington National Bank, a qualified institution, has certified that the following investment information included in the accompanying financial statements and ERISA-required supplemental schedules are complete and accurate:

- Investments, as shown in the statements of net assets available for benefits as of June 30, 2023 and 2022.
- Investment income, net, as shown in the statement of changes in net assets available for benefits for the year ended June 30, 2023.
- Investment information included in the Schedule of Assets (Held at End of Year) as of June 30, 2023 and the Schedule of Reportable Transactions for the year ended June 30, 2023, as shown on the ERISA-required supplemental schedules.

At the request of the Plan Administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information in the financial statements, including reading the disclosures related to the investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP, and, in the ERISA-required supplemental schedules, including assessing whether the supplemental schedules are in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Administrative Expenses

Substantially all administrative expenses are paid by the Plan.

Subsequent Events

The Plan has evaluated events and transactions that occurred between July 1, 2023 and February 29, 2024, the date that the financial statements were available to be issued.

Subsequent to the Plan year end, the Plan's trustee changed from Huntington National Bank to Charles Schwab Trust Bank. This transition occurred during December 2023.

Notes to Financial Statements

3. Funding Policy

The Company's funding policy is to make annual contributions to the Plan at least equal to an amount based on an actuarial calculation of the Plan's minimum funding requirements under ERISA. There was no contribution required for 2023 and 2022.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA and in the collective bargaining agreement as described in Notes 1 and 4.

4. Plan Termination

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

If the Plan terminates, the net assets of the Plan will be allocated as required by ERISA regulations. Certain benefits under the Plan are insured by the PBGC if the Plan terminates. The PBGC guarantees are outlined in the plan document and participants should refer to these documents for more complete information.

5. Investment in Master Trust

At June 30, 2023 and 2022, a significant portion of the Plan's assets were held in a Master Trust referred to as the Lancaster Colony Corporation Master Pension Trust (Master Trust). At June 30, 2023 and 2022, the Plan had an undivided interest in the Master Trust having a fair market value of \$16,653,335 and \$17,573,240, respectively.

6. Fair Value Measurements

Accounting Standards Codification (ASC) 820-10, *Fair Value Measurements and Disclosures*, defines fair value and provides guidance for measuring fair value and expands disclosures about fair value measurements in accordance with GAAP.

ASC 820-10 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobserved inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Level 1 - The securities classified as Level 1 include money market funds and mutual funds. Quoted market prices in active markets are available for investments in this category.

Indiana Glass Company Union Employees' Retirement Benefit Plan

Notes to Financial Statements

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by the level, within the fair value hierarchy, the Master Trust's assets and other Plan investments at fair value:

June 30, 2023

	Level 1	Level 2	Level 3	Total

7. Plan Amendments

As of February 28, 2009, the Plan effectively ceased the crediting of credited service for benefits since the Company no longer employed any of the participants and the status of the Plan became "frozen" with regards to each participant's accrued benefit. This change in the Plan simply freezes the amounts of the accrued retirement benefits and the Plan will otherwise continue and does not affect the basic amount of any pension that is currently payable to, or on behalf of, any retired employee or former employee who previously retired or terminated employment with a vested right to benefits under the Plan.

Effective July 1, 2020, the Plan was amended to correct the definition of "Company" from Dkirk, Inc to Lancaster Glass Corporation. The amendment updated Section 4.02, *Benefits Upon Postponed Retirement*, and Section 4.04, *Deferred Vested Retirement Benefit*, to specify when a Participant

Indiana Glass Company Union Employees' Retirement Benefit Plan

Notes to Financial Statements

commences benefits, their pension benefit would not be less than the Actuarial Equivalent value of the accrued benefit at Normal Retirement Date.

Effective for annuity starting dates after September 1, 2021, the Plan amended Section 4.04 to specify when a Participant commences benefits and the annuity starting date is after the date described in Section 5.06(a), their pension benefit will be equal to the benefit payable on the date described in Section 5.06(a). The Participant must receive a make-up payment (including interest) to reflect any missed payments for the period from the date described in the immediately prior sentence to the date of the actual make-up payment.

8. Parties-in-Interest

Parties-in-interest are defined under the Department of Labor's Rules and Regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. The Plan holds investment interest in the Master Trust. The Plan's trustee, Huntington National Bank, is the trustee of the Master Trust and the trustee of the investments held by the Master Trust (see Note 5). Accordingly, the Plan's investments in the Master Trust qualify as party-in-interest transactions.

In addition, certain employees of Lancaster Colony Corporation, the Plan Administrator, provide administrative and investment services, some of which may be fiduciary in nature, to the Plan; however, the Plan does not provide any compensation for these services.

9. Risks and Uncertainties

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment securities, in and outside of the Master Trust, are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in these risks, estimates and assumptions in the near term could materially affect the amounts reported in the financial statements.
