Independent Auditors' Report

To the Trustees of
Ventura Orthopedics Medical Group, Inc. 401(k) Profit Sharing Plan
San Luis Obispo, California

Opinion

We have audited the financial statements of Ventura Orthopedics Medical Group, Inc. 401(k) Profit Sharing Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the year ended December 31, 2022, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Trustees of

Ventura Orthopedics Medical Group, Inc. 401(k) Profit Sharing Plan

Page 2

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of the Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2022 is presented for purposes of additional analysis and are not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the

Trustees of

Ventura Orthopedics Medical Group, Inc. 401(k) Profit Sharing Plan

Page 3

underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Notes to Financial Statements
December 31, 2022

Note 1: Description of Plan

The following description of the Ventura Orthopedics Medical Group, Inc. (the Company) 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a type of defined contribution plan under which each participant has a specific account balance. The Plan covers all employees of the Company who have one year of service and have attained age twenty-one. Certain employees under whose employment is covered under a collective bargaining agreement, employees who are non-resident aliens with no U.S. sources of income, leased employees, and employees who are employed by an affiliated employer which does not adopt this plan are not eligible to participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Trustees are responsible for oversight of the Plan and determine the appropriateness of the Plan's investment offerings and monitor investment performance.

Contributions

Participants may contribute to the Plan up to 100% of eligible compensation, through salary reductions, as defined by the Plan. Effective May 15, 2020, participants have the option of contributing through two types of salary deferrals – pre-tax 401(k) deferrals or Roth 401(k) deferrals. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans as a rollover contribution. Participants direct the investment of their contributions into various investment options offered by the Plan.

Each year the Company makes safe harbor non-elective contributions equal to a percentage of each participant's eligible compensation. For the year ended December 31, 2022, the Company made safe harbor non-elective contributions of \$319,678.

In addition, each year the Company may elect at its discretion to contribute a non-elective contribution to the Plan which is typically based on a percentage of compensation and/or profit-sharing contributions which is in the form of a lump sum amount to the Plan. Participants are allocated a certain amount based on a method determined by the Company in the year in which the contribution is made. The current allocation method for non-elective contributions uses the grouping method and assigns each individual to their allocation group. Non-elective and matching contributions will be credited to eligible participant accounts provided they are still employed on the last day of the Plan year and completed at least 1,000 hours of service during the Plan year. The Company contributed non-elective contributions during the year ended December 31, 2022 of \$398,700 which were reduced by forfeitures of \$8,966. In addition, each year the Company makes Contributions, by the employee and employer, are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the company's contribution and (b) plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting and Forfeitures

Participants are immediately vested in their elective deferrals plus actual earnings thereon. Vesting in the Company matching and discretionary contributions portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100% vested after six years of service. Forfeitures of employer matching and discretionary contributions, if any, may be used to reduce plan expenses, restore previously forfeited balances or increase future employer contributions. At December 31, 2022, forfeited non-vested accounts totaled \$14,062 of which \$8,966 will be used to reduce employer contributions receivable.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at prime plus 1%, as of the note date. Principal and interest are paid through automatic payroll deductions and terms range from one to five years or may exceed five years when used for the purchase of a primary residence.

Payment of Benefits

Benefit payments will commence upon termination of service unless elected otherwise by the participant. In addition, the Plan has a required minimum distribution for participants who have obtained age 72 and an in-service distribution available for participants who have attained age 65. The plan also allows hardship withdrawals provided certain requirements are met. Benefits may be paid in one of the following forms of payment, or in a combination: (1) single lump sum or (2) installments over a period not to exceed the participant's or participant's beneficiary's life expectancy or (3) partial withdrawals or (4) any form acceptable to the participant and the Plan administrator.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Note 2: Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the Plan document. No allowance for credit losses has been recorded as of December 31, 2022 or 2021.

Fair Value Measurement and Income Recognition

Fair Value Measurements and Disclosures Topic of the Financial Accounting Standards Board Accounting Standards Codification (the Topic), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the reporting date. The Topic also established a three-tier hierarchy, which prioritizes the inputs used in the valuation methodologies in measuring fair value:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets and liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Notes to Financial Statements
December 31, 2022

Note 2: Summary of Significant Accounting Policies (Continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Registered Investment Companies (Mutual Funds, Target Date Retirement Portfolios, and self-directed brokerage accounts): Investments in registered investment companies are stated at the respective funds' fair value, which is determined based on market values at the closing price on the last business day of the year. Fair value is a quoted price in an active market and classified within Level 1 of the valuation hierarchy.

Annuities: Annuities are reported at fair value based on quoted market prices on national securities exchanges. Substantially all annuities are classified within Level 1 on the valuation hierarchy.

Partnership Interests: Investments in partnership interests are reported at fair value based on partnership activity during the year. These investments are classified within Level 3 on the valuation hierarchy.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on the investments bought and sold as well as held during the year.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 2: Summary of Significant Accounting Policies (Continued)

Payment of Benefits

Benefits are recorded when paid.

Plan Administration Expenses

Plan administration expenses are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments. Total administrative costs were \$12,394 for the year ended December 31, 2022. Total advisory costs were \$88,675 for the year ended December 31, 2022. In addition, the Company paid \$39,176 in administrative expenses related to the Plan for the year ended December 31, 2022.

Note 3: Investments

During the year ended December 31, 2022, the Plan's investments (including investments bought, sold, and held during the period) depreciated in value by \$2,351,937 on participant self-directed brokerage accounts. Earnings on investment holdings, including interest income on notes receivable from participants, for the year ended December 31, 2022 were \$946,793. Losses on participant self-directed holdings for the year ended December 31, 2022 were \$1,433,393.

Note 4: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 5: Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated June 30, 2020, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Ventura Orthopedics Medical Group, Inc. 401(k) Profit Sharing Plan
Notes to Financial Statements
December 31, 2022

Note 5: Tax Status (Continued)

Accounting principles generally accepted in the United States of American require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6: Participant-Directed Investments

The Plan has a deposit contract with Charles Schwab Trust Bank (Charles Schwab) and the Plan is administered by WESPAC Plan Services, LLC. Charles Schwab maintains the contributions in mutual funds as directed by the participants. The account is credited with actual earnings on the mutual funds as well as any changes in market value and charged for Plan withdrawals. The contract is included in the financial statements as of December 31, 2022 and 2021, at current values as reported to the Plan by Charles Schwab. The Plan also holds investments from self-directed outside brokerage accounts through which participants invest in a variety of securities, including stocks, bonds, mutual funds and cash equivalents.

The Plan provides a variety of investment programs that participants may choose from, allowing the participants to allocate their contributions between the programs in any manner they choose.

Note 7: Related Party and Party in Interest Transactions

Certain Plan investments are managed by Charles Schwab Trust Bank (Schwab). Schwab is the trustee for the Plan and, therefore, these transactions qualify as party in interest transactions.

Note 8: Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9: Subsequent Events

Events subsequent to December 31, 2022 have been evaluated through January 29, 2024, which is the date the financial statements were available to be issued. Management did not identify any subsequent events requiring disclosure.
