June 30, 2023 and 2022

(With Independent Auditor's Report Thereon)

Independent Auditor's Report

To the Participants and Plan Administrator of Rocky Mountain Human Services Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of the Rocky Mountain Human Services Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of June 30, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the years ended June 30, 2023 and 2022, stating that the certified investment information, as described in Notes 6 and 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Rocky Mountain Human Services Retirement Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

To the Participants and Plan Administrator of Rocky Mountain Human Services Retirement Plan

As described in Note 10, the Plan has excluded from investments in the accompanying statement of net assets available for benefits certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02. The investment income and distributions related to such accounts have been excluded in the accompanying statements of changes in net assets available for benefits. The amount of these excluded annuity and custodial accounts and the related income and distributions are not determinable. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, which raise substantial doubt about the Rocky Mountain Human Services Retirement Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Rocky Mountain Human Services Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

**To the Participants and Plan Administrator of
Rocky Mountain Human Services Retirement Plan**

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, which raise substantial doubt about the Rocky Mountain Human Services Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i-Schedule of Assets (Held at End of Year) and Schedule H, Line 4i-Schedule of Assets (Acquired and Disposed of Within Year) as of June 30, 2023 and 2022, are presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Rocky Mountain Human Services Retirement Plan

Notes to Financial Statements

June 30, 2023 and 2022

(1) General Description of the Plan

The following description of the Rocky Mountain Human Services Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a 403(b) defined contribution plan covering all full-time employees of Rocky Mountain Human Services (the Employer). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Contributions

Eligible employees may begin to participate in the Plan with elective deferral contributions as of the date of hire. Each year, participants may contribute to the Plan the maximum amount allowed by law. Participants who have attained age 50 during a calendar year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans as rollover contributions. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers twenty-nine mutual funds and one guaranteed insurance contract as investment options for participants. The employee becomes eligible for employer matching contributions after six months of service.

The Employer may elect to make a matching contribution equal to a percentage of the participant's elective deferral contributions, not to exceed 5% of eligible compensation. Effective July 1, 2018, the Plan's elective employer contributions were 4% of eligible compensation. The employee and employer contributions are invested in the portfolio of investments as directed by the participant.

Effective September 1, 2022, elective deferral contributions cannot be more than 100% of compensation. The maximum deferral percentage shall apply to all elective deferral contributions including age 50 catch-up contributions but excluding special section 403(b) catch-up contributions. A participant may elect to designate all or any portion of his future elective contributions as Roth elective deferral contributions. The Plan allows for pre-tax and Roth rollovers.

(c) Participant Accounts

Each participant's account is credited with the participant's, employer's, and rollover contributions as well as investment earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. If a participant terminates employment, the participant may elect to receive a distribution of some or all of the participant's vested account balance.

(d) Vesting

Employee and employer contributions, pre-tax deferrals, and income earned thereon are fully vested immediately and cannot be forfeited, even if employment is terminated or an employee becomes ineligible to participate in the Plan.

(1) General Description of the Plan, Continued

(e) Notes Receivable from Participants

Participants may borrow from their vested employee account balance a minimum of \$1,000 up to a maximum of the lesser of 50% of the participant's vested account balance or \$50,000 minus the highest outstanding balance of all other plan loans during the past twelve months. The current outstanding loans are secured by the balances in the participants' accounts and bear interest at a rate of 5.25% to 10.25%, for the years ended June 30, 2023 and 2022. Loans must be paid in substantially level, amortized payments over a period not exceeding five years, except in the purchase of a primary residence, in which case the term is limited to fifteen years or the repayment period currently in effect for a commercial home loan. Principal and interest are paid ratably through payroll deductions each pay period. A participant may only have one loan outstanding at any time. No more than two loans will be approved within any twelve-month period.

(f) Payment of Benefits

On termination of service due to death, a single lump-sum cash payment or annuity options will be made to the participant's designated beneficiary. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution, an annuity option or a direct rollover to an individual retirement account or to another employer's tax qualified plan. For termination of service due to other reasons, a participant whose account balance is greater than \$5,000 can withdraw all or part of the vested account in a single sum or can generally leave all or part of the vested account in the Plan and defer receipt of the benefit. If a participant's vested account balance is \$5,000 or less, the participant will receive a single-sum payment at termination of employment. Participants who are age 59½ and still employed by the Employer may withdraw all or a portion of their respective vested account balance.

(g) Expenses

Plan administration expenses are paid from the assets of the Plan to the extent permitted. Expenses may be allocated among all Plan participants or charged directly against individual account balances. Fees charged directly to individual account balances include general recordkeeping fees and expenses related to processing distributions or loans, qualified domestic relations orders, and directing the investment of the participants' account balances. Expenses totaled \$97,941 in 2023 and \$110,626 in 2022.

(h) Hardship Distributions

The Plan permits the withdrawal of a hardship distribution by a participant to satisfy immediate and heavy financial needs. A hardship distribution may be made only for certain needs, including medical expenses, costs related to the purchase of a principal residence, costs to prevent eviction from a principal residence, burial or funeral expenses, expenses for the repair of damage to a participant's personal residence that would qualify for a casualty loss deduction, Federal, state or local income taxes or penalties anticipated to result from a hardship distribution, certain educational expenses for post-secondary education, or expenses and losses incurred on account of a federally declared disaster. In determining whether the need can be relieved from cash or other liquid resources that are reasonably available to a participant, the Employer may rely on the participant's representation (unless the Employer has actual knowledge to the contrary) that the need cannot reasonably be relieved from other resources.

Furthermore, the distribution cannot be in excess of the amount of the participant's immediate and heavy financial need; and all other distributions, other than hardship distributions, and all loans currently available under the Plan must have been exhausted. The distribution can be made only from the participant's salary deferrals (including catch-up contributions).

(2) Summary of Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

(b) Estimates

The preparation of financial statements in conformity with generally accepted accounting principles (GAAP) requires the Plan's administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

(c) Investments

Investments are reported at fair value, except for the Fixed Income Guarantee Option, a guaranteed interest account, which is valued at contract value (see Note 6). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 2(d) for discussion of fair value measurements.

Investments return consists of the Plan's distributive share of any interest, dividends, capital gains and losses, generated from investments, as well as the change in fair value of the investments. Gains and losses attributable to investments are realized and reported upon a sales or disposition of the investments. Unrealized gains and losses are included in the increase or decrease in net assets available for benefits.

(2) Summary of Accounting Policies, Continued

(d) Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a fair value hierarchy that prioritizes investments based on the assumptions market participants would use when pricing an asset. The fair value hierarchy gives the highest priority to quoted prices in active markets (observable inputs) and the lowest priority to an entity's assumptions (unobservable inputs).

The Plan groups assets at fair value in three levels based on the markets in which the assets and liabilities are traded, and the reliability of the assumptions used to determine fair value. In addition, the Plan reports certain investments using the "practical expedient" method. The practical expedient allows net asset value per share or its equivalent to represent fair value for reporting purposes when the criteria for using this method are met. Investments valued using net asset value per share or its equivalent are not categorized within the hierarchy.

These levels are:

- Level 1 Unadjusted quoted market prices for identical assets or liabilities in active markets as of the measurement date.
- Level 2 Other observable inputs, either directly or indirectly, including:
 - Quoted prices for similar assets/liabilities in active markets;
 - Quoted prices for identical or similar assets in non-active markets;
 - Inputs other than quoted prices that are observable for the asset/liability; and,
 - Inputs that are derived principally from or corroborated by other observable market data.
- Level 3 Unobservable inputs that cannot be corroborated by observable market data.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. These classifications (Level 1, 2 and 3) are intended to reflect the observability of inputs used in the valuation of investments and are not necessarily an indication of risk or liquidity.

Market price is affected by a number of factors, including the type of instrument and the characteristics specific to the instrument, as well as the effects of market, interest and credit risk. Instruments with readily available active quoted prices or for which fair value can be measured from actively quoted prices generally will have a higher degree of market price observability and a lesser degree of judgment used in measuring fair value. It is reasonably possible that change in values of these instruments will occur in the near term and that such changes could materially affect amounts reported in the Plan's financial statements.

(e) Participant Accounting Records

The Plan's third-party administrator, Principal Financial Group, maintains individual participants' accounting records. Income is allocated to the participants' accounts on a daily basis. Statements are prepared and sent to all participants on a quarterly basis summarizing the status of his or her account as of the end of each quarter. Similar reports may be obtained by a participant upon termination of employment or at any other time by writing directly to the Employer.

Rocky Mountain Human Services Retirement Plan

Notes to Financial Statements, Continued

(2) Summary of Accounting Policies, Continued

(f) Payment of Benefits

Benefits are recorded when paid.

(g) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Participant loans are placed on nonaccrual status at the time a participant terminates employment and makes no further payments on the loan. A participant loan is considered delinquent when payments are ninety days past due, at which time the entire balance of principal and interest is due. A terminated employee is required to pay the entire balance of principal and interest within sixty days of termination. If unpaid, these participant loans for terminated participants are reclassified as distributions based upon the terms of the Plan document.

At June 30, 2023, all notes receivables from participants are current. Because all loans are secured in full by the balance in the participants' accounts, management believes these loans are very likely to be collected and any amount that would be written off is considered insignificant.

(h) Subsequent Events

Subsequent events were evaluated through February 14, 2024, which is the date the financial statements were available to be issued.

(3) Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

(4) Tax Status

The Plan has been informed by its contract administrator that the 403(b) plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since its adoption, the Plan administrator is of the opinion that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that would likely not be sustained upon examination by taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of June 30, 2023 and 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan files Form 5500, and the three previous tax years remain subject to examination.

Rocky Mountain Human Services Retirement Plan

Notes to Financial Statements, Continued

(5) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(6) Custodial Guaranteed Investment Contract

The Plan has as one of its investment options the Principal Fixed Income Guaranteed Option (PFIGO), a fully benefit responsive group annuity contract issued by the Principal Life Insurance Company (PLIC) totaling \$1,197,433 and \$1,206,758 at June 30, 2023 and 2022, respectively. PLIC maintains the contributions in a general account. The participant account balances are credited with a net crediting rate after deducting fees for administrative and recordkeeping services provided to the Plan. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. Such interest rates are reviewed on a semi-annual basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date, but the insurance company has the right to no longer receive deposits with 60 days written notice.

The contract meets the fully benefit-responsive investment contract criteria, and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by PLIC, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on events competing investment options, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, and (4) a material amendment to the agreement with the consent of the issuer.

(8) Related Party Transactions

Investment products and plan administrative services are provided by Principal Life Insurance Company. Securities are offered through Princor Financial Services Corporation and/or independent broker dealers. Securities sold by a Princor Registered Representative are offered through Princor. Princor and PLIC are members of the Principal Financial Group. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are embedded in the investments' returns and are not readily available.

(9) Financial Data Certified by the Plan Trustee

The Plan administrator has elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator and trustee have certified all financial data from which the Plan investment balances and activities reported on the statement of net assets available for benefits, the statement of changes in net assets available for benefits and the supplemental schedule of assets held for investment purposes have been prepared.

Notes to Financial Statements, Continued

(10) Assets Excluded Under DOL FAB 2009-2

The Department of Labor (DOL) issued Field Assistance Bulletin (FAB) 2009-2, *Annual Reporting Requirements for 403(b) Plans*, which permits the plan administrator to exclude certain pre-January 1, 2009 annuity contracts and custodial accounts for ERISA reporting purposes. Rocky Mountain Human Services does have these types of contracts and accounts, and because they are held with a different third-party administrator and custodian limited information is available to Rocky Mountain Human Services, as these contracts were considered contracts between the third-party administrator and custodian and the participant, and not contracts that involved Rocky Mountain Human Services as the plan administrator. These contracts and accounts were all issued to employees and former employees prior to January 1, 2009. Rocky Mountain Human Services did not make any contributions to the accounts in 2023 and 2022.

All rights and benefits under the contracts and accounts are legally enforceable against the insurer or custodian by the participant without Rocky Mountain Human Service's involvement. The participants are fully vested in the contracts and accounts.

At June 30, 2023 and 2022, these contracts and accounts represent approximately \$648,016 and \$893,504, respectively. They are not included in the statements of net assets available for benefits. The income and distributions related to these contracts and accounts are also not determinable and are not included in the change in net assets available for benefits. These excluded amounts result in a disclaimer of opinion on these financial statements.
