INDEPENDENT AUDITOR'S REPORT

**To the Plan Administrator and Plan Trustees of
The Retirement Plan of Power Financial Credit Union
Pembroke Pines, Florida**

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of The Retirement Plan of Power Financial Credit Union, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits and of accumulated plan benefits as of June 30, 2023 and 2022, and the related statement of changes in net assets available for benefits and of changes in accumulated plan benefits for the year ended June 30, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Retirement Plan of Power Financial Credit Union's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of June 30, 2023, and 2022, and for the year ended June 30, 2023, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with the accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

To the Plan Administrator and Plan Trustees of
The Retirement Plan of Power Financial Credit Union

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The Retirement Plan of Power Financial Credit Union and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Retirement Plan of Power Financial Credit Union's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit Section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

To the Plan Administrator and Plan Trustees of
The Retirement Plan of Power Financial Credit Union

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Retirement Plan of Power Financial Credit Union's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Retirement Plan of Power Financial Credit Union's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental schedules of Assets Held and Reportable Transactions are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

To the Plan Administrator and Plan Trustees of
The Retirement Plan of Power Financial Credit Union

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

THE RETIREMENT PLAN OF POWER FINANCIAL CREDIT UNION NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: DESCRIPTION OF PLAN

The following description of The Retirement Plan of Power Financial Credit Union (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined benefit plan available to employees of the Credit Union. An employee is eligible to participate in the Plan following completion one year of credited service and has attained the age of 21. The Plan is subject to the provisions of the Employee Retirement Securities Act of 1974 (ERISA).

Pension Benefits

Effective January 5, 2015, the Plan has been amended. Plan benefit accruals for employment service ceased for the period of employment beginning January 1, 2015 and forward. A participant's annual benefit determined under the Plan shall not increase after the Plan Freeze date. Plan benefits for service prior to January 5, 2015 accrued as per the following:

Normal Retirement Benefits - At Normal Retirement Age (65), with five years of participation, participants will be entitled to receive a Normal Retirement Benefit. For employees hired on or before June 1, 2008, the normal retirement date is the first day of the month coinciding with or next following your Normal Retirement Age and will be equal to 60% of compensation (benefit is based on average salary during the highest 5 consecutive years of employment) with a minimum service of 25 years vesting at a 3-7 year step schedule. For employees hired after June 1, 2008, the normal retirement date is the first day of the month coinciding with or next following your Normal Retirement Age and will be equal to 40% of compensation (benefit is based on average salary during the highest 5 consecutive years of employment) with a 25-year service minimum, vesting at a 5-year cliff schedule. Payment of benefits will begin as soon as practicable following your Normal Retirement Date.

Early Retirement Benefits - The Early Retirement Date is the first day of the month coinciding with or next following the date the participant has attained age 55. For employees hired on or before June 1, 2008, benefits are reduced by .167% for each month by which the date benefits commence precedes Normal Retirement Date. For employees hired after June 1, 2008, benefits are reduced by .5% for each of the first 60 complete calendar months and .333% for each month for the next 60 months, by which the date benefits commence precedes the Normal Retirement Date. Payment of your Early Retirement benefits will begin as soon as practicable following the date you elect to receive payment.

Late Retirement Benefits - The benefits provided at a late retirement date generally takes into account the requirement that the participant continues to earn or "accrue" benefits past the normal retirement age. The calculation of your late retirement benefits is based on complex Internal Revenue Service (IRS) regulations which would generally provide, for each plan past normal retirement age, a late retirement benefit equal to the greater of the following:

- a) the retirement benefit you have actually earned or "accrued" as of the end of the plan year in which you actually retire
- b) the actuarial equivalent of the benefit you were entitled to as of the close of the plan year immediately preceding your actual retirement.

Death Benefits - If death occurs, the amount paid to the surviving spouse is equal to the present value of the Accrued Death Benefit.

THE RETIREMENT PLAN OF POWER FINANCIAL CREDIT UNION NOTES TO THE FINANCIAL STATEMENTS

NOTE 2: SUMMARY OF ACCOUNTING POLICIES

Basis of Presentation: The Plan's financial statements are on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from these estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded when paid. Realized gains and losses on security transactions are computed on the basis of average cost of investments sold. Net appreciation/depreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits: Accumulated plan benefits are those future periodic payments, including lump sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' accumulated pension credits as determined under the Plan ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances, retirement, death, disability and termination of employment are included, to the extent they are deemed attributable to employees' service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts of interest) and the probability of payment (by means of decrements such as death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of December 31, 2022 were as follows:

Actuarial Cost Method

Investment return	7.00%
Mortality for ASC 960	Based on Pri-2012 white collar worker table, projected generationally with the mortality improvement scale MP-2021
Salary increases	0.00%

The foregoing actuarial assumptions are based on the presumptions that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The computations of the actuarial present value of accumulated plan benefits were made as of July 1, 2023 and 2022. Had the valuations been performed as of June 30th, there would be no material difference.

<p style="text-align: center;">THE RETIREMENT PLAN OF POWER FINANCIAL CREDIT UNION NOTES TO THE FINANCIAL STATEMENTS</p>

Payment of benefits: Benefit payments to participants are recorded upon disbursements.

Administrative Expenses: Expenses for Trustee and Investment Advisory services, as well as the PBGC premium, are paid by the Plan and included herein. Expenses paid by the Plan Sponsor are excluded from these financial statements.

Subsequent Events: Credit Union Management has evaluated subsequent events through April 2, 2024, the date on which the financial statements were available to be issued.

NOTE 3: FUNDING POLICY

The contributing employer may be required to make contributions to the Plan. Employee participants are not required to contribute to the Plan.

The Plan's funding policy is for the Credit Union to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. Effective for the plan year ending June 30, 2023, the Credit Union made no contributions to the Plan. The Plan was fully funded and had a credit balance as of the valuation date.

NOTE 4: PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated after providing for any administrative expenses:

- a) benefits attributable to employee contributions, if any, taking into account those paid out before termination.
- b) annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the terms of the Plan. The priority amount is limited to the lowest benefit that was payable during those three years. The amount is further limited to the lowest benefit that would be payable under the plan provisions in effect at any time during the five years preceding plan termination.
- c) to benefits guaranteed and insured by the Pension Benefit Guaranty Corporation (PBGC)
- d) to all other vested accrued benefits under the Plan not insured by the PBGC
- e) to all non-vested benefits

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the level of benefits guaranteed by the PBGC.

<p style="text-align: center;">THE RETIREMENT PLAN OF POWER FINANCIAL CREDIT UNION NOTES TO THE FINANCIAL STATEMENTS</p>

Although it has not expressed any intent to do so, Power Financial Credit Union has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 5: INVESTMENTS - UNAUDITED

Certain information related to investments held by Pentegra Trust Company disclosed in the accompanying financial statements and supplemental schedule, including investments held on June 30, 2023 and 2022, and net appreciation in fair value of such investments for the year ended June 30, 2023, was obtained and derived from information supplied to the plan administrator and certified as complete and accurate. This information has not been audited by independent public accountants.

NOTE 6: FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The availability of inputs relevant to the asset or liability and the relative reliability of the inputs might affect the selection of appropriate valuation technique. The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs

- (a) quoted market prices for similar assets or liabilities in active markets;
- (b) quoted market prices for identical or similar assets or liabilities in inactive markets;
- (c) inputs other than quoted market prices that are observable for the asset or liability;
- (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of June 30, 2023.

<p style="text-align: center;">THE RETIREMENT PLAN OF POWER FINANCIAL CREDIT UNION NOTES TO THE FINANCIAL STATEMENTS</p>

Mutual Funds: Valued at the daily closing price as reported by the Fund. Mutual funds held by the Plan are open-end mutual funds that are registered by the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective Trust: Contains large cap stocks with above-average yields. The portfolio typically holds between 60 and 70 stocks and the price is based on level 2 methods based on amount of units owned in the trust.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of June 30, 2023 and 2022:

Assets at Fair Value as of June 30, 2023					
	Level 1	Level 2	Level 3	Total	
Mutual Funds	\$ 17,945,763	\$ -	\$ -	\$ 17,945,763	
Collective Trust	-	1,272,987	-	1,272,987	
Total Investments at Fair Value	\$ 17,945,763	\$ 1,272,987	\$ -	\$ 19,218,750	

Assets at Fair Value as of June 30, 2022					
	Level 1	Level 2	Level 3	Total	
Mutual Funds	\$ 17,336,061	\$ -	\$ -	\$ 17,336,061	
Collective Trust	-	1,311,203	-	1,311,203	
Total Investments at Fair Value	\$ 17,336,061	\$ 1,311,203	\$ -	\$ 18,647,264	

NOTE 7: TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain plan investments are shares and mutual funds managed by Pentegra Trust Company. Pentegra Trust Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 8: TAX STATUS

The Internal Revenue Service has determined and informed the Plan by a letter dated March 30, 2018, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. The Plan administrator and the Plan's tax council believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor or the IRS. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

<p style="text-align: center;">THE RETIREMENT PLAN OF POWER FINANCIAL CREDIT UNION NOTES TO THE FINANCIAL STATEMENTS</p>

NOTE 9: RISKS AND UNCERTAINTIES

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and demographics, all of which are subject to change. The actuarial value of accumulated benefits is also based the accrued benefits as of the Plan freeze date. Due to uncertainties inherent in the estimations and assumptions, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

The Plan invests in various investments which are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect plan assets and the amounts reported in the Statement of Net Assets Available for Benefits.

The Retirement Plan of Power Financial Credit Union

Actuarial Valuation at 7/1/2022 for Plan Year 7/1/2022 to 6/30/2023

2022 Form 5500 Schedule SB, Part V - Statement of Actuarial Assumptions/Methods (EIN: 59-0690962/PN: 001)

Actuarial Cost Method

Liabilities shown in this report are computed in accordance with the Pension Protection Act of 2006 and subsequent guidance issued by the Internal Revenue Service. The target normal cost is the present value of all benefits that have accrued or have been earned (or that are expected to accrue or to be earned) under the plan during the plan year. The funding target of the plan for the plan year is the present value of all benefits that have been accrued or earned under the plan as of the first day of the plan year.

The benefits taken into account in determining the funding target and target normal cost are all benefits earned or accrued under the plan, including retirement-type and ancillary benefits. The determination of the funding target and target normal cost is based on plan provisions that are adopted no later than the valuation date for the plan year and that become effective during that plan year.

Asset Valuation Method

The actuarial value of plan assets equals the market value of plan assets.

Actuarial Assumptions

The actuarial assumptions summarized below are either prescribed by law, or when not prescribed by law, selected by the plan's actuary as the best predictor of future experience, based on all available prior experience and future expectations. For any assumption not prescribed by law or selected by the plan's actuary, the individual or organization selecting such assumption is identified separately, and the report will note if the actuary has any disagreement with the appropriateness of the assumption.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
