Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditor's Report

To the Trustees
Retirement Plan for Employees of Block Distributing Company, Ltd.

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of the Retirement Plan for Employees of Block Distributing Company, Ltd. (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of June 30, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended June 30, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Retirement Plan for Employees of Block Distributing Company, Ltd. financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of June 30, 2023 and 2022, and for the year ended June 30, 2023, stating that the certified investment information, as described in Notes to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Retirement Plan for Employees of Block Distributing Company, Ltd. and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis

for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Retirement Plan for Employees of Block Distributing Company, Ltd. ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Retirement Plan for Employees of Block Distributing Company, Ltd. internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Retirement Plan for Employees of Block Distributing Company, Ltd. ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental schedules are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting

and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTES TO FINANCIAL STATEMENTS AND SUPPLEMENTAL SCHEDULES

JUNE 30, 2023 AND 2022

NOTE 1 - DESCRIPTION OF PLAN

The following brief description of the Retirement Plan for Employees of Block Distributing Company, Ltd. is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

1. General

The Plan is a defined benefit pension plan covering all eligible employees of the sponsor, BG Distributing Partners, Ltd., LLP DBA Republic National Distributing Company. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The eligibility of the Plan was amended effective December 31, 2005 to prohibit any new Plan Participants. This will have the effect of lowering costs in the future as current Plan Participants terminate or retire.

2. Pension Benefits

There is no vesting for less than three years credited service. Participants with three years or more credited service are 100% vested.

At Normal Retirement Date, a Participant is fully vested upon attaining age 65. Upon attaining his Normal Retirement Date, a Participant is entitled to receive his Basic Monthly Pension. The Basic Monthly Pension payable to a Participant at his Normal Retirement Date is an amount equal to 45% of the Participant's Plan Compensation reduced by 10% for Credited Service for benefit accrual service less than 10 years, not to exceed \$3,000 per month payable in the normal form of a Basic Monthly Pension. Provided, however, with regard to Credited Service completed on and after July 1, 1996, the Basic Monthly Pension payable to a Participant at his Normal Retirement Date shall be reduced from 45% to 30% of the Participant's Plan Compensation, reduced by 5% for each year of Credited Service for benefit accrual purposes less than 20 years, with the maximum monthly benefit payable remaining at \$3,000 per month payable in the normal form of a Basic Monthly Pension. Finally, a Participant shall be entitled to a minimum benefit as of his Normal Retirement Date which shall not be less than the member's Accrued Benefit as of June 30, 1989, under the provisions of the Plan in effect as of that date.

Upon Disability Retirement, the Participant will receive the projected normal retirement benefit based on Average Monthly Compensation at date of disability and Benefit Service to Normal Retirement Date. For early commencement, the benefit shall be actuarially reduced for payment prior to age 65.

NOTES TO FINANCIAL STATEMENTS AND SUPPLEMENTAL SCHEDULES

JUNE 30, 2023 AND 2022

NOTE 1 - DESCRIPTION OF PLAN (Continued)

2. Pension Benefits (Continued)

In the event of the death of a Participant prior to his Normal Retirement Date, his Beneficiary will receive the present value of the accrued benefit at date of death.

In the event of death of a Participant after his Normal Retirement Date and after his benefit payments have commenced, his beneficiary will receive the balance of any guaranteed payments due at the date of his death.

In the event of a Participant's termination of employment prior to Normal Retirement Date for reasons other than death or disability, the Participant will receive 100% of his Accrued Benefit commencing at Normal Retirement Date. If the lump sum value of the benefit is under \$10,000, or the Participant is over age 55, the lump sum value may be paid.

The normal form of benefit under the plan is a life annuity with 120 monthly payments guaranteed. The Plan provides that the Participant, with the consent of the Committee, may elect other forms of payment, such as a joint or survivor annuity or other annuity forms, lump sum distribution, periodic payments or a combination of methods. The Plan provides that married Participants must receive a 50% joint and survivor annuity, unless they elect otherwise.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan:

1. Date of Management's Review

Subsequent events were evaluated through April 8, 2024, which is the date the financial statements were available to be issued.

2. Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

RETIREMENT PLAN FOR EMPLOYEES OF BLOCK DISTRIBUTING COMPANY, LTD.

NOTES TO FINANCIAL STATEMENTS AND SUPPLEMENTAL SCHEDULES

JUNE 30, 2023 AND 2022

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES (Continued)

3. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

4. Valuation of Investments

The Plan's mutual funds are valued at fair market value at June 30, 2023 and 2022 using quoted market prices.

Net realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for benefits as net appreciation (depreciation) in fair value of investments.

Brokerage fees are added to the acquisition costs of assets purchased and subtracted from the proceeds of assets sold.

5. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the plan are based on employees' compensation for the 5 consecutive years out of the last 10 years which produce the highest average. The accumulated plan benefits for active employees are based on their average compensation during the 10 years ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES (Continued)

5. Actuarial Present Value of Accumulated Plan Benefits (Continued)

The actuarial present value of accumulated plan benefits is determined by an actuary from Transamerica and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of June 30, 2023 and 2022 were:

Actuarial Methods Assumptions

(A) Actuarial Cost Method

The actuarial cost method used to determine the target normal cost, target liability and required contribution amounts for the plan is the Traditional Unit Credit Actuarial Cost Method. Under this method, both the target normal cost and target liability are based on the annual accrual of benefits as accruals occur each year.

The target liability for each active plan participant is equal to the actuarial present value of the participant's accrued benefit as of the valuation date. The total target liability of the plan is equal to the sum of such liabilities as determined for each active participant plus the actuarial present value of benefits being paid, or due to be paid, to retirees, beneficiaries and former participants with deferred vested benefits.

The target normal cost for each active participant is equal to the actuarial present value of the benefit expected to be earned during the year starting on the valuation date. The total target normal cost of the plan is the sum of the target normal costs for each active plan participant.

All employees who are plan participants on a valuation date are included in the actuarial valuation.

NOTE 2 -SUMMARY OF ACCOUNTING POLICIES (Continued)

5. Actuarial Present Value of Accumulated Plan Benefits (Continued)

Actuarial Methods Assumptions (Continued)

(B) Asset Valuation Method

The actuarial value of assets is equal to the market value of assets on the valuation date reduced by the sum of:

1. 66.67% of gains and losses of the prior year;
2. 33.33% of gains and losses of the second prior year;

Investment gains and losses are determined by the excess or deficiency of the expected return over the actual return on the market value (including employer contributions receivable for any given year. However, the expected return on assets may be limited by certain statutory interest rates.

The actuarial valuation of assets is further constrained to be not less than 90% or more than 110% of market value (including employer contributions receivable).

(C) Interest Rate Methods

Target Liability Interest Rates

Segment rates for March prior to the valuation date as adjusted in accordance with Code Section 430(h)(2)(C)(iv).

7. Plan Termination

In the event the Plan terminates, the net assets would be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- (A) First to the portion of each Participant's Accrued Benefit which is derived from his Voluntary Contribution.
- (B) Equally among individuals in the following two categories:
 - (1) Benefits to Retired Participants and their Beneficiaries to whom payment commenced at least three (3) years prior to the termination date, based on Plan provisions in effect during the five (5) year period ending on such date; the lowest benefit in any pay status during the most recent three (3) year period shall be considered the benefit in pay status for such period.
 - (2) Benefits as respects a participant wherein payment would have commenced at least three (3) years prior to the termination date if the Participant has actually retired, based on the lowest benefit determined under the Plan provisions in effect during the five (5) year period ending on such date.
- (C) All other benefits guaranteed (insured under the Act) determined without regard to Section 4022(b)(5) thereof; and additional benefits, if any, under this subparagraph if Section 4022(b)(6) of the Act did not apply.
- (D) All other (uninsured) Vested benefits.
- (E) All other benefits under the Plan.
- (F) Return of any excess funds to the Employer or reallocated to the Participants on the basis of their Present Value of Accrued Benefit, if authorized by the Employer, only after satisfaction of all liabilities, fixed and contingent.

NOTE 2 -SUMMARY OF ACCOUNTING POLICIES (Continued)

8. Mutual Funds

Investments in mutual funds through Frost National Bank were purchased with the annual contributions. The plan's return (loss) on assets was (14.65)% and 28.20% for the years ended June 30, 2023 and 2022, respectively.

9. ERISA Minimum Funding Requirement

10. Federal Income Tax Status

The Plan has received a favorable determination letter as a qualified plan from the Internal Revenue Service.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for tax periods for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2019.

11. Payments of Benefits

Benefit payments to participants are recorded upon distribution.

NOTE 4 - FAIR VALUE MEASUREMENTS

Securities listed on a securities exchange, market or automated quotation system for which quotations are readily available (except for securities traded on NASDAQ), including securities traded over the counter, are valued at the last quoted sale price on the primary exchange or market (foreign or domestic) on which they are traded, or, if there is no such reported sale, at the most recent quoted bid price. For securities traded on NASDAQ, the NASDAQ Official Closing Price will be used. If available, debt securities are priced based on valuations provided by independent, third-party pricing agents. Such values generally reflect the last reported sales price if the security is actively traded. The third-party pricing agents may also value debt securities at an evaluated bid price by employing methodologies that utilize actual market transactions, broker-supplied valuations, or other methodologies designed to identify the market value for such securities. Debt obligations with remaining maturities of sixty days or less may be valued at their amortized cost, which approximates market value. The prices for foreign securities are reported in local currency and converted to U.S. dollars using currency exchange rates. Prices for most securities held in the Funds are provided daily by recognized independent pricing agents. If a security price cannot be obtained from an independent, third-party pricing agent, the Funds seek to obtain a bid price from at least one independent broker.

Securities for which market prices are not “readily available” are valued in accordance with Fair Value Procedures established by the Fund’s Board of Trustees (the Board). The Funds’ Fair Value Procedures are implemented through a Fair Value Committee (the Committee) designated by the Board. Some of the more common reasons that may necessitate that a security be valued using Fair Value Procedures include; the securities trading has been halted or suspended; the security has been de-listed from a national exchange; the security’s primary trading market is temporarily closed at a time when under normal conditions it would be open; the security has not been traded for an extended period of time; the security’s primary pricing source is not able or willing to provide a price; or trading of the security is subject to local government-imposed restrictions. When a security is valued in accordance with the Fair Value Procedures, the Committee will determine its value after taking into consideration relevant information reasonably available to the Committee.

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

For securities that principally trade on a foreign market or exchange, a significant gap in time can exist between the time of a particular security's last trade and the time at which a Fund calculates its net asset value. The closing prices of such securities may no longer reflect their market value at the time a Fund calculates net asset value if an event that could materially affect the value of those securities (a Significant Event) has occurred between the time of the security's last close and the time that a Fund calculates net asset value. A Significant Event may relate to a single issue or to an entire market sector. If the Adviser of the Funds becomes aware of a Significant Event that has occurred with respect to a security or group of securities after the closing of the exchange or market on which the security or securities principally trade, but before the time at which a Fund calculates net asset value, it may request that a committee meeting be called. In addition, the Funds' Administrator monitors price movements among certain selected indices, securities and/or baskets of securities that may be an indicator that the closing prices received earlier from the foreign exchanges or markets may not reflect market value at the time a Fund calculates net asset value. If price movements in a monitored index or security exceed levels established by the Administrator, the Administrator notifies the Adviser if a Fund is holding a relevant security that such limits have been exceeded. In such event, the Adviser makes the determination whether a committee meeting should be called based on the information provided.

In accordance with the authoritative guidance on fair value measurements and disclosure under GAAP, the Funds disclose fair value of their investments in a hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The objective of a fair value measurement is to determine the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Accordingly, the fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

RETIREMENT PLAN FOR EMPLOYEES OF BLOCK DISTRIBUTING COMPANY, LTD.

NOTES TO FINANCIAL STATEMENTS AND SUPPLEMENTAL SCHEDULES

JUNE 30, 2023 AND 2022

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that the Funds have the ability to access at the measurement date;

Level 2 – Quoted prices which are not active, or inputs that are observable (either directly or indirectly) for substantially the full term of the asset or liability; and

Level 3 – Prices, inputs or exotic modeling techniques which are both significant to the fair value measurement and observable (supported by little or no market activity).

Investments are classified within the level of the lowest significant input considered in determining fair value.

For the years ended June 30, 2023 and 2022, there were no Level 3 securities within the Funds except for the Total Return Bond Fund and the Frost Credit Fund. A reconciliation of Level 3 investments and disclosures of significant unobservable inputs are presented when the Fund has a significant amount of Level 3 investments at the beginning and/or end of the period in relation to net assets. Management has concluded that Level 3 investments are not material in relation to net assets.

Investments classified within Level 3 whose fair value measurement considers several inputs may include Level 1 or Level 2 inputs as components of the overall fair value measurement. The table below sets forth information about the level within the fair value hierarchy at which the Fund's investments are measured at June 30, 2023 and 2022.

NOTE 5 - RISKS AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Part V – Statement of Actuarial Assumptions/Methods**

**Plan Name: Retirement Plan for Employees of Block Distributing Co., LTD.
EIN/PN: 76-0515846/001**

A ACTUARIAL COST METHOD

The actuarial cost method used to determine the target normal cost, target liability and required contribution amounts for the plan is the Traditional Unit Credit Actuarial Cost Method. Under this method, both the target normal cost and target liability are based on the annual accrual of benefits as accruals occur each year.

The target liability for each active plan participant is equal to the actuarial present value of the participant's accrued benefit as of the valuation date. The total target liability of the plan is equal to the sum of such liabilities as determined for each active participant plus the actuarial present value of benefits being paid, or due to be paid, to retirees, beneficiaries and former participants with deferred vested benefits.

The target normal cost for each active participant is equal to the actuarial present value of the benefit expected to be earned during the year starting on the valuation date. The total target normal cost of the plan is the sum of the target normal costs for each active plan participant.

All employees who are plan participants on a valuation date are included in the actuarial valuation.

B ASSET VALUATION METHOD

The actuarial value of assets is equal to the market value of assets on the valuation date reduced by the sum of:

1. 66.67% of gains and losses of the prior year;
2. 33.33% of gains and losses of the second prior year.

Investment gains and losses are determined by the excess or deficiency of the expected return over the actual return on the market value (including employer contributions receivable for any given year. However, the expected return on assets may be limited by certain statutory interest rates.

The actuarial valuation of assets is further constrained to be not less than 90% or more than 110% of market value (including employer contributions receivable).

<u>Effective Date</u>	July 1, 2006, the date on which the provisions of this amended and restated Plan are effective. The original effective date of the Plan is July 1, 1968.
<u>EIN/PN</u>	76-0515846/001
<u>Eligibility</u>	Completion of 1 ½ years of Credited Service and attainment of age 20 ½. No employee who was not a participant at December 31, 2005 is eligible to participate in the plan.
<u>Credited Service</u>	A year of Credited Service is earned for each calendar year during which an employee works 1,000 hours or more.
<u>Compensation</u>	The employee's wages from the Employer as defined in Section 3401 (a) of the Code for purposes of federal income tax withholding at the source, modified by including elective contributions under a cafeteria plan described in Section 125 of the Code and elective contribution to any plan qualified under Section 401(k), 132(f), 408(k), or 403(b) of the Code. Earnings represent compensation for services rendered during the calendar year ending within the Fiscal Year.
<u>Final Average Earnings</u>	The average annual Earnings for the 5 consecutive years out of the last 10 years which produce the highest average.
<u>Normal Retirement Date</u>	Normal Retirement Date is the first day of the month coincident with or next following attainment of age 65.
<u>Normal Retirement Benefit</u>	30% of the participant's Final Average Earnings reduced by 5% for each year that Credited Service (assuming continued employment to Normal Retirement Date) is less than 20. This amount is then multiplied by the ratio of Credited Service at termination of employment divided by Credited Service assuming continued employment to Normal Retirement Date. The resulting amount is limited to \$36,000 per year.

EIN/PN: 76-0515846/001**

Early Retirement

After reaching age 55 with no service requirement. The Normal Retirement Benefit is actuarially reduced.

Late Retirement

A participant may continue in the employment of the Employer after his Normal Retirement Date. In such event he will receive at actual retirement the greater of:

- (i) Normal Retirement Benefit based on his Final Average Earnings and Credited Service at actual retirement, or
- (ii) actuarial equivalent at Late Retirement of his Normal Retirement Benefit based on His Final Average Earnings and Credited Service at Normal Retirement Date.

Termination Benefit

All participants are always 100% vested.

All terminated vested participants may elect to commence their benefit at age 55, regardless of the years of service. Their accrued benefit is subject to the early retirement reductions.

Pre-Retirement Spouse's Benefit

Upon death while actively employed or while inactive with a vested benefit prior to commencement of benefits, the beneficiary receives a monthly pension beginning the month after the participant's death equal to the participant's accrued benefit as of the date of death, paid for the life of the beneficiary with 120 monthly payments guaranteed.

Normal Form of Payment

The normal form of payment for single participants is an annuity paid in monthly installments for life with 120 minimum period of guaranteed payments. The normal for married participants is an actuarial equivalent 50% Joint & Survivor Annuity.

Optional Forms of Payment

Single Life Annuity; 50%, 66-2/3%, 75% and 100% Joint & Survivor Annuity; 60, 120, 180 and 240 Month Certain & Continuous Annuity; Lump-Sum.
