REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

To the Board of Trustees of The Johns Hopkins University and
the Participants of The Johns Hopkins University Applied Physics
Laboratory Pension Plan B

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed our audits of the financial statements of the Johns Hopkins University Applied Physics Laboratory Pension Plan B (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of June 30, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or Federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of and for the years ended June 30, 2023 and 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available for issuance.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

S B & COMPANY, LLC
KNOWLEDGE • QUALITY • CLIENT SERVICE

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal controls. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available for issuance.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedule Required by ERISA

The supplemental schedule h, line 4i – schedule of assets (held at end of year) as of June 30, 2023 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing

and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements
June 30, 2023 and 2022

(1) Description of the Plan

The following brief description of The Johns Hopkins University Applied Physics Laboratory Pension Plan B (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined-contribution 403(b) plan, which provides retirement, death, severance from employment, and disability benefits for all eligible employees of The Johns Hopkins University Applied Physics Laboratory, LLC (APL). The Plan is intended to qualify as a tax-sheltered annuity retirement plan under Section 403(b) of the Internal Revenue Code (the Code). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Plan Administration

The Plan is administered by the Johns Hopkins University Applied Physics Laboratory Pension Committee, which consists of certain officers and employees of APL.

(c) Recent Legislation

The Setting Every Community Up for Retirement Enhancement (SECURE) Act was enacted in December 2019, and became effective January 1, 2020. The SECURE Act was designed to encourage investing for retirement by increasing the required minimum distribution age, allowing part-time employee enrollment, and offering annuity options for certain tax-qualified retirement plans.

The Plan incorporated the SECURE Act changes in its Plan document during the year ended June 30, 2022. SECURE Act 2.0 was signed into the 2023 Consolidations Appropriations Act under the Securing a Strong Retirement Act on December 29, 2022, with similar retirement provisions designed to increase retirement savings, facilitate access to retirement savings, encourage employees to save for retirement, and lower employers' cost of offering and funding retirement plans. The Plan's management and those charged with governance have a policy to incorporate legislative changes in its Plan document by the prescribed deadlines.

(d) Contributions

All employees who work for APL are eligible to participate in the Plan upon hire. Participants may contribute up to the maximum percentage of compensation, as defined by the Plan, and dollar amount permissible under the Internal Revenue Service (IRS) regulations to the Plan pursuant to salary reduction and salary deduction agreements with APL. Participants who have attained age 50 before the end of the calendar year and are "qualified employees" (as defined by the Plan) are eligible to make catch-up contributions. An active participant may make before-tax deferrals, Roth deferrals, and/or after-tax employee contributions under this Plan in 0.001% increments of compensation per payroll period, subject to a 1% of compensation minimum.

Under the terms of the Johns Hopkins University Applied Physics Laboratory Pension Plan A (Plan A), APL contributes 2.5% of compensation for all eligible employees with 12 months of service to Plan A. For amounts contributed to the Plan, up to 4% of compensation, APL also contributes to Plan A two times the amount of such contributions. Employees may make additional contributions to the Plan, in

**THE JOHNS HOPKINS UNIVERSITY
APPLIED PHYSICS LABORATORY
PENSION PLAN B**

Notes to Financial Statements
June 30, 2023 and 2022

excess of 4% of compensation, subject to certain limitations, but such contributions do not result in additional contributions by APL.

The Plan will accept a direct rollover of a participant's eligible rollover distribution from a qualified plan described in Section 401(a) or 403(a) of the Code, excluding after-tax employee contributions; a qualified tax-sheltered annuity plan described in Section 403(b) of the Code, excluding after-tax employee contributions; an eligible plan under Section 457(b) of the Code that is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state; or an individual retirement account or annuity described in Section 408(a) or 408(b) of the Code that is eligible to be rolled over and with respect to amounts therein that would otherwise be includible in gross income.

Participants are automatically enrolled in the Plan with a 4% contribution, beginning the first pay date of the calendar year following or coincident with the date of becoming a participant in Plan A, to a qualified default investment alternative, which meets the requirements of Section 404(c)(5) of ERISA.

(e) Participant Accounts

Each participant's account is credited with the participant's contributions and the Plan earnings or losses thereon and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(f) Vesting

The Plan provides for immediate vesting of participant salary deferral contributions, after-tax participant contributions, and rollover contributions.

(g) Payment of Benefits

Participants or their beneficiaries are eligible for distributions upon termination, retirement, disability, hardship, or death. Participants have the right to designate the method of payment of retirement benefits within limitations specified in the Plan. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's account.

All funds in the Plan must begin to be distributed in accordance with the requirements of Internal Revenue Code Section 401(a)(9). Distributions must commence no later than April 1 of the year following the later of the year in which a participant reaches age 72 or, for participants who remain employed by APL beyond age 72, the year in which they retire.

(h) Investment Options

The Plan allows participation in investment options sponsored by Vanguard Fiduciary Trust Company (Vanguard) and TIAA and CREF (TIAA-CREF), and TIAA-CREF as agent for TIAA, FSB collectively. Vanguard and TIAA serve as the trustees and custodians of the Plan.

(i) Notes Receivable from Participants

Effective July 1, 2009, notes are limited to account balances held only by Vanguard. Participants may borrow from their accounts a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000 or 50% of their vested balance. Repayment terms are established by the participant, not to exceed the

five-year maximum term determined by the Plan Administrator, with the exception of 10 years for the purchase of the participant's primary residence. The notes receivable are secured by the balance in the participant's account and bear interest commensurate with the prevailing interest rate charged by persons in the business of lending money for loans that would be made under similar circumstances. Principal and interest are paid ratably through payroll deductions.

(j) Collateralized Assets with TIAA CREF

Prior to July 1, 2009, a participant could elect to take out a loan subject to the rules and limitations of the Plan and the terms of the applicable contract.

The Plan offered a loan feature whereby a participant (borrower) enrolled in the Plan could borrow a minimum of \$1,000, up to a maximum of 45% of his/her vested balance or \$50,000, whichever was less. Loans to the participant were made directly from TIAA CREF. The participant's account was not reduced by the loan amount, but the participant pledged as security for the loan 110% of loan amount in their Traditional Annuity Account. The loans were required to be repaid directly to TIAA CREF within a five year period in substantially equal payments (not less frequently than quarterly). The five year repayment period did not apply to a loan that was used to acquire a principal residence of the borrower.

If the borrower did not repay the loan and related interest due, in accordance with the schedule set forth in the promissory note or other writing permitted by applicable law representing the loan, their loan will be deemed in default.

There were no loans outstanding as of June 30, 2023 and June 30, 2022.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

(b) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value other than investments in fully benefit-responsive investment contracts, which are recorded at contract value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. See Note 5 for discussion of fair value measurements. See Note 4 for discussion of fully benefit-responsive investment contracts.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

**THE JOHNS HOPKINS UNIVERSITY
APPLIED PHYSICS LABORATORY
PENSION PLAN B**

Notes to Financial Statements
June 30, 2023 and 2022

(c) Contributions

Contributions are recorded in the period that APL makes payroll deductions from the participant's earnings.

(d) Payment of Benefits

Benefit payments to participants are recorded when paid.

(e) Administrative Expenses

All expenses of maintaining the Plan are paid directly by the Plan, unless paid by APL. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment management related expenses are allocated among various funds and are included as an offset to net appreciation (depreciation) in fair value of investments.

(f) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of June 30, 2023 and 2022. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

(g) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities as of the date of the financial statements. Actual results could differ from those estimates.

(3) Information Certified

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held as of June 30, 2023 and 2022, and net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the years ended June 30, 2023 and 2022, was obtained by management and agreed to or derived from information certified as complete and accurate by Vanguard and TIAA-CREF (the trustees of the Plan).

(4) Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the entity has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means; if the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

**THE JOHNS HOPKINS UNIVERSITY
APPLIED PHYSICS LABORATORY
PENSION PLAN B**

Notes to Financial Statements
June 30, 2023 and 2022

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

When observable prices are not available, investments are valued using one or more of the following valuation techniques: market approach – this approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities; income approach – this approach determines a valuation by discounting future cash flows; or cost approach – this approach is based on the principle of substitution and the concept that a market participant would not pay more than the amount that would currently be required to replace the asset. These valuation techniques may include inputs such as price information, volatility statistics, operating statistics, specific and broad credit data, recent transactions, earnings forecasts, discount rates, reserve reports, futures pricing, and other factors.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of June 30, 2023 or 2022.

Pooled separate account: The pooled separate account, the TIAA Real Estate Account (REA), is a variable account, whose return is not guaranteed, and the accumulations and returns fluctuate based on the performance of the underlying investments.

Registered investment companies (Vanguard and TIAA-CREF): The shares in registered investment companies consist of various mutual funds that invest principally in equity securities, fixed-income instruments, other mutual funds, and short-term investments in accordance with each fund's investment objectives. Fund holdings are generally valued using market quotations or prices obtained from independent pricing services, except those held by the money market funds, whose holdings are valued at amortized cost. The money market funds are managed to maintain a constant value, not guaranteed, of \$1 per share. Shares in registered investment companies are valued using the Net Asset Value (NAV) of units held by the Plan at year-end. The fair values of accumulation units held by the Plan in registered investment companies are based on each account's daily NAV. Data for NAVs are available daily to Plan Administrators and Plan participants on Vanguard's and TIAA-CREF's websites and provides sufficient corroborative evidence to ascertain the relationship between each fund's NAV and the values of individual underlying holdings.

TIAA investment contracts – The TIAA Traditional Annuity investment contracts represents insurance contracts issued by TIAA, which guarantees principal and a contractually specified interest rate to account participants. The accounts are backed by individual bonds, commercial mortgages, real estate, stocks, and other assets that target different sectors of the marketplace. The portfolio follows specific guidelines with respect to major asset classes, sectors, industries, property types, geographic regions, individual issuers/borrowers, foreign holdings, liquidity, quality, and derivatives.

REA invests mainly in real estate and real estate-related investments. The fair value of the Plan's interest in REA is based on the fund's daily NAV, which is considered by Plan management to be the best approximation of fair value. The fund is valued at the NAV of shares held by the Plan at year-end. Participants may redeem amounts from the fund quarterly. The unit value of the fund is calculated daily and available to Plan Administrators and Plan participants on TIAA's website. Underlying holdings are primarily valued using independent appraisals or independent pricing sources. There are no unfunded commitments from participants in the Plan who invest in this account.

**THE JOHNS HOPKINS UNIVERSITY
APPLIED PHYSICS LABORATORY
PENSION PLAN B**

Notes to Financial Statements
June 30, 2023 and 2022

Interest credited to TIAA Traditional Annuity Accumulations includes a guaranteed rate, plus additional amounts that are not guaranteed but may be established on a year-by-year basis. These additional amounts, when declared, remain in effect through the end of the “declaration year,” which begins each March 1. The guaranteed annual interest rate 3% for all premiums remitted since 1979 under TIAA Traditional Retirement Annuity accumulating contracts. Both the one-year total returns and the yield credited to participants for 2023 and 2022 are net of annual fees. The crediting interest rate is calculated daily.

The TIAA Traditional Annuity is valued at contract value, which approximates fair value. Redemptions or transfers of RA contracts invested in the TIAA Traditional Annuity are subject to restrictions and redemption charges. Transfers or redemptions of RA contracts invested in the TIAA Traditional Annuity must be spread in 10 annual installments.

A Plan Sponsor – initiated contract termination is an event that could limit the ability of the Plan to transact at contract value if payment is required within 90 days. The Plan Sponsor does not believe that an event that would limit the Plan’s ability to transact at contract value is probable of occurring. There are no events that allow the issuer to terminate the contract and that require the Plan Sponsor to settle at an amount different than contract value paid either within 90 days or over time.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan’s investments at fair value as of June 30, 2023 and 2022.

Changes in Fair Value of Level 3 Assets

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. The significance of transfers between level is evaluated based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.

The following table set forth a summary of certain changes in the fair value of the Plan's level 3 assets for the year ended June 30, 2023.

	<u>TIAA Investment Contracts</u>
Contributions	\$ --
Distributions	(2,437,584)
Transfers In	3,716,214
Transfers Out	(3,862,485)

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments as of June 30, 2023 and 2022, respectively, and the significant unobservable inputs and the ranges of values for those inputs:

Instrument	Fair Value 06/30/23	Fair Value 06/30/22	Principal Valuation Technique	Significant Unobservable Input	Range of Significant Input Values
TIAA Investment Contracts	\$ 33,446,337	\$ 35,512,895	External Appraisals	Risk-adjusted discount rate applied	2023 RA- 3.00% - 3.80% RC- 2.75% - 3.90% 2022 RA- 3.00% - 3.80% RC- 2.75% - 3.90%

For the year ended June 30, 2023, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

(5) Investment Contracts

The Plan participates in investment contracts managed by TIAA CREF. The TIAA Traditional Annuity consists of various contract types such as Retirement Annuity (RA), Group Supplemental Retirement Annuity (GSRA), and Supplemental Retirement Annuity (SRA) Contracts. RA investment contracts were \$33,446,337 and \$35,512,895, as of June 30, 2023 and 2022, respectively. RA contracts are not fully benefit responsive contracts. Redemption or transfer of these contracts are subject to restrictions and redemption charges. Transfers or redemption of RA contracts must be spread in 10 annual installments. RA contracts are valued at contract value, which approximates fair value as of June 30, 2023 and 2022. GSRA and SRA contract investments were \$120,901,377 and \$124,393,816, as of June 30, 2023 and

**THE JOHNS HOPKINS UNIVERSITY
APPLIED PHYSICS LABORATORY
PENSION PLAN B**

Notes to Financial Statements
June 30, 2023 and 2022

2022, respectively. GSRA and SRA contracts are fully benefit responsive contracts and are fully liquid with no restrictions on their redemption or transfer between funds. GSRA and SRA contracts are valued at contract value as of June 30, 2023 and 2022.

The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay principal and interest to the Plan.

Interest is credited on contract balances using a single “portfolio rate” approach. Under this methodology, a single interest crediting rate is applied to all contributions made to the product regardless of the timing of those contributions. Interest crediting rates reset on an annual basis. Interest crediting rates are determined using a formula. Factors utilized in the determination of interest crediting rates include the timing and amount of the Plan’s cash flow as well as the expected and actual investment experience of securities held in a commingled reference portfolio within the issuer’s general account. The minimum crediting rate under the contract is 3.00%. Interest crediting rates are reviewed on an annual basis for resetting.

A Plan Sponsor initiated contract termination is an event that could limit the ability of the Plan to transact at contract value if payment is required within 90 days. The Plan Sponsor does not believe that an event that would limit the Plan’s ability to transact at contract value is probable of occurring. There are no events that allow the issuer to terminate the contract and that require the Plan Sponsor to settle at an amount different than contract value paid either within 90 days or over time.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuers. These events may be different under each contract. Examples of such events include the following:

1. Amendments to the Plan documents (including complete or partial Plan termination or merger with another Plan);
2. Changes to the Plan’s prohibition on competing investment options or deletion of equity wash provisions;
3. Bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan;
4. The failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA; and/or
5. Premature termination of the contract.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan’s investment guidelines;
2. A breach of material obligation under the contract;
3. A material misrepresentation; and/or
4. A material amendment to the agreements without the consent of the issuer.

(6) Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants are fully vested in their accounts.

(7) Related-Party and Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by Vanguard and TIAA-CREF. Vanguard and TIAA-CREF are the trustees for those investments as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing. Fees paid by the Plan for investment management and recordkeeping services amounted to \$743,754 and \$745,699, for the years ended June 30, 2023 and 2022, respectively.

(8) Tax Status

The Plan has been designed to qualify under Section 403(b) of the Code, and therefore, the related trust is exempt from taxation. The Plan was amended and restated effective June 30, 2019; however, the Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2020.

(9) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The fully benefit responsive contracts described in Note 4 represent approximately 5% and 6% of the Plan's net assets as of June 30, 2023 and 2022, respectively, and represents an obligation from the fund manager to repay as amounts come due. There are no reserves against contract value from credit risk of the contract issuer or otherwise. The Plan does not believe that any events would limit the Plan's ability to transact at contract value.

(10) Subsequent Events

Effective January 1, 2024, the Plan will be amended to change the Plan year from a June 30 fiscal year to the calendar year, which also creates a short Plan year between July 1, 2023 and December 31, 2023.

The Plan Sponsor has evaluated subsequent events through April 4, 2024, the date the financial statements were available to be issued.
