## REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

To the Participants and Administrative Committee of the  
Retirement Wealth Builder Plan Of PwC

### Opinion

We have audited the financial statements of Retirement Wealth Builder Plan Of PwC (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of June 30, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of June 30, 2023 and 2022, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

### Basis for opinion

We conducted our audits of the financial statements in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Responsibilities of management for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

**Auditor's responsibilities for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## Retirement Wealth Builder Plan Of PwC

### NOTES TO FINANCIAL STATEMENTS

June 30, 2023 and 2022

#### NOTE 1 - PLAN DESCRIPTION

The Retirement Wealth Builder Plan Of PwC (formerly known as the Retirement Wealth Builder Plan of PricewaterhouseCoopers LLP) (the Plan) is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The purpose of the Plan is to provide benefits to participants upon retirement, death, and in certain events, upon termination of employment.

The Plan's assets are held in the Group Trust for Wealth Builder Plans of PricewaterhouseCoopers LLP (Master Trust) and the PwC Defined Contribution Investment Trust by the Bank of New York Mellon, the custodian of the Plan, with recordkeeping services provided by Conduent HR Solutions, LLC through June 30, 2022. Effective July 1, 2022, the Plan's recordkeeping services were changed to Alight Solutions LLC. In connection with this change, the quarterly entry period was removed.

The following is a summary of the major provisions of the Plan. Participants should refer to the amended Plan agreement for more complete information.

#### ***Participation***

Effective July 1, 2008, all employees, partners and principals of PwC US Group LLP (the Firm, Plan Administrator or Plan Sponsor) and its affiliates, where provided for by the Plan excluding certain job titles as defined by the Plan, participate in the Plan. Prior to July 1, 2008, only partners and principals, and certain directors of the Firm, participated in the Plan. In May 2022, the Firm entered into a corporate transaction which resulted in the transfer of approximately \$41,000,000 of participant balances out of the Plan. On August 31, 2022, the Firm completed a spinoff of certain information technology personnel resulting in the transfer of approximately \$12,000,000 in participant account balances. These spinoffs are included in the respective plan year transfers out, net line item of the Statement of Changes in Net Assets. Participants became fully vested in their accounts on the effective date. Also included in transfers out, net are transfers of participant accounts from another plan of the Firm into the Plan.

#### ***Contributions***

Effective July 1, 2008, the Firm contributes to the Plan 3% - 9% percent of a participant's eligible compensation, based on job title and years of service as defined by the Plan. Contributions to this Plan are made entirely by the Firm.

#### ***Participants' Accounts***

Each participant's account is credited with the Firm's contribution made on behalf of the participant and an allocation of the Plan's earnings attributable to the investments in the participant's account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

#### ***Vesting***

A participant is fully vested in their account balance at the earliest of (a) the date of the participant's death, if the participant dies while employed with the Firm, (b) the participant's retirement date, as defined, or (c) as follows:

- i. for participation beginning prior to July 1, 2007, the participant completing five years of service;

If an employee completes 1,000 hours or more of service in a vesting computation period (October 1 - September 30), the employee is credited for the entire year for vesting purposes.

***Participant Loans***

Loans to a participant from their account are not permitted.

***Payment of Benefits***

Benefits are payable upon the participant's termination of employment with the Firm at the election of the participant, or upon retirement. Payments of benefits are made from the participant's account as of the applicable valuation date as defined by the Plan. Distributions are made in the form of a single lump-sum payment.

The Plan allows for the automatic distribution of account balances for those accounts with \$1,000 or less.

***Forfeited Accounts***

Forfeited non-vested accounts totaled approx. \$1,298,000 and \$5,362,000 at June 30, 2023 and 2022, respectively. Amounts used to reduce employer contributions during the plan years ended June 30, 2023 and 2022 were approximately \$35,402,000 and \$40,609,000, respectively.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

***Basis of Accounting***

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of

the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

#### ***Use of Estimates***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

#### ***Investment Valuation and Income Recognition***

The Plan's investments in the Master Trust are reported at fair value, except for fully benefit-responsive investment contracts (see Note 5), which are reported at contract value. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract plus interest credited less participant withdrawals and fees. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation and depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

#### ***Payment of Benefits***

Benefits are recorded when paid.

#### ***Administrative Expenses***

The administrative expenses of the Plan are fully paid by the Firm.

#### ***Subsequent Events***

Management has evaluated subsequent events for potential disclosure in, or adjustment to, the financial statements through April 11, 2024, the date the accompanying financial statements were available to be issued.

### **NOTE 3 - FAIR VALUE MEASUREMENTS**

According to authoritative guidance for accounting for fair value measurements of financial assets and liabilities that are recognized or disclosed at fair value on a recurring basis, the definition of fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date (that is, an exit price). The exit price is based on the amount that the holder of the asset or liability would receive or need to pay in an actual transaction at the measurement date. In some circumstances, the entry and exit price may be the same; however, they are conceptually different.

### NOTES TO FINANCIAL STATEMENTS - CONTINUED

June 30, 2023 and 2022

The authoritative guidance establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If an asset or a liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy (Note 4) is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

#### **NOTE 4 - INTEREST IN MASTER TRUST**

The Plan's investments are in the Master Trust, which was established for the investment of assets of the Plan and another Firm-sponsored retirement plan. Each participating retirement plan has a divided interest in the Master Trust.

Although assets are commingled in the Master Trust, the recordkeeper maintains supporting records for the purpose of allocating the net gain or loss of the investment account to the respective plans. The net investment income (loss) of the investment assets is allocated by the recordkeeper to each participating plan based on the relationship of the interest of each plan to the total of the Master Trust.

|  | \$ 477,336,803 | \$ (619,817,071) |

Following is a description of the valuation methodologies used for assets measured at fair value at June 30, 2023 and 2022.

- *Registered investment companies* - Mutual funds valued at the quoted net asset value (NAV) of shares held by the Master Trust at year end.
- *Collective trust funds* - Valued at the NAV as a practical expedient to fair value of participation units held by the Master Trust. The NAV of these units is determined by the custodian based on current fair values of the underlying investments in the respective trust funds.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

- (a) The strategy of the domestic equity securities and other short-term investments is to approximate the risk and return of an index of a specific financial market, such as the Russell 2000 Growth Index or the Standard & Poor's (S&P) 500 index. To achieve this strategy, a replication technique is used which generally seeks to hold each index constituent in its proportional index weight.
- (b) The strategy of the U.S. government debt securities and other short-term investments is to approximate the overall performance of an index of a specific financial market, such as the Barclay's Capital Short-Term Government Bond Index, the Barclay's Capital Long-Term Government Bond Index, and the Barclay's Capital U.S. Treasury Inflation-Protected Securities Index.
- (c) The strategy of the international equity securities and other short-term investments is to provide investment results that approximate the overall performance of an index of a specific financial market, such as the Morgan Stanley All Country World Index (MSCI ACWI) Ex-US Index and the Morgan Stanley Europe, Australasia, and Far East (MSCI EAFE) Index.
- (d) The strategy of the lifetime moderate funds is to provide investment results that approximate the risk and return of a volatile index consisting of global equities, bonds, and traditional inflation hedges such as commodities and TIPS.
- (e) The strategy of the corporate debt securities is to approximate the overall performance of an index of a specific financial market, such as the Barclay's Capital U.S. Long-Term Credit Index.

**NOTE 5 - STABLE VALUE FUND**

In May 2023, PwC formed the PwC Stable Value Fund (the Fund) is a unitized custom fund that is comprised of security-backed, synthetic contracts with Metropolitan-Life, VOYA, Citi-Bank N.A., RGA Reinsurance and Pacific LifeCorp (the Synthetics) and the Morgan Stanley Liquidity Funds Treasury. The purpose of the Fund is to provide a stated rate of return that insulates participants' accounts from daily fluctuations in the market.

Synthetic guaranteed investment contracts ("GICs") are issued by an insurance company or bank and backed by a portfolio of underlying bonds that are owned by the Plan. These assets underlying the wrap contract are maintained separately from the contract issuer's general assets. The wrapper contracts are obligated to provide an interest rate not less than zero. These contracts typically provide that realized and unrealized gains and losses on the underlying assets are not reflected immediately in the net assets of the Plan, but rather are amortized, usually over the time to maturity or the duration of the underlying investments, through adjustments to the future interest crediting rate. The interest crediting rate at June 30, 2023 was 4.37%. The interest crediting rate resets quarterly each January, April, July and October.

### NOTES TO FINANCIAL STATEMENTS - CONTINUED

June 30, 2023 and 2022

These contracts are fully benefit-responsive and provide that Plan participant-initiated withdrawals permitted under a participating plan will be paid at contract value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions plus credited interest less participant withdrawals and administrative expenses.

The total balance of the synthetic GIC contracts for the Stable Value Fund of the PwC Defined Contribution investment that at June 30, 2023 is as follows:

|                                     |                       |
|-------------------------------------|-----------------------|
| Cash liquidity fund                 | \$ 19,875,154         |
| Synthetic investment contracts      | <u>694,424,970</u>    |
| Total investments at contract value | <u>\$ 714,300,124</u> |

In addition to certain wrap agreement and termination provisions discussed as noted below, the contracts generally provide for withdrawals associated with certain events that are not in the ordinary course of fund operations, and that the issuer determines will have a material adverse effect on the issuer's financial interest, will be paid with a market value adjustment to the contract value amount of such withdrawal as defined in such contracts. While each contract issuer specifies the events that may trigger such a market value adjustment, typically such events include all or a portion of the following: (i) amendments to the fund documents or fund's administration; (ii) changes to the fund's prohibition on competing investment options by participating plans or deletion of equity wash provisions; (iii) complete or partial termination of the fund or its merger with another fund; (iv) the failure of the fund or its trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA; (v) unless made in accordance with the withdrawal provisions of the fund, the redemption of all or a portion of the interests in the fund held by a participating plan at the direction of the participating plan sponsor, including withdrawals due to the removal of a specifically identifiable group of employees from coverage under the participating plan (such as a group layoff or early retirement incentive program), or the closing or sale of a subsidiary, employing unit or affiliate, the bankruptcy or insolvency of a plan sponsor, the merger of the plan with another plan, or the plan sponsor's establishment of another tax-qualified defined contribution plan; (vi) any change in law, regulation, ruling, administrative or judicial position or accounting requirement, in any case applicable to the fund or participating plans; and (vii) the delivery of any communication to plan participants designed to influence a participant not to invest in the fund. At this time, management does not believe that the occurrence of any such market value event that would limit these contract's ability to transact at contract value with participants is probable.

The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

#### NOTE 6 - RELATED-PARTY AND PARTIES-IN-INTEREST TRANSACTIONS

Fees paid by the Plan for the investment management services are included in net appreciation or depreciation in fair value of investments. Certain employees of the Firm served as trustee and administrators of the Plan. These employees did not receive compensation from the Plan for their services as trustee and administrators. The Firm may also pay certain administrative costs of the Plan.

**NOTES TO FINANCIAL STATEMENTS - CONTINUED**

**June 30, 2023 and 2022**

**NOTE 7 - INCOME TAX STATUS**

The Internal Revenue Service has determined and informed the Firm by a letter dated October 15, 2015, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC) although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the organization has taken an uncertain position that would not more likely than not be sustained upon examination by taxing authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2023 and 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**NOTE 8 - PLAN TERMINATION**

Although it has not expressed any intent to do so, the Firm has the right under the Plan to amend or discontinue the Plan at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their accounts.

**NOTE 9 - RISK AND UNCERTAINTIES**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.
