Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

REPORT OF INDEPENDENT AUDITORS

To the Investment Committee
Sparton Corporation Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of the Sparton Corporation Pension Plan (the “Plan”), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (“ERISA”), as permitted by ERISA Section 103(a)(3)(C) (“ERISA Section 103(a)(3)(C) audit”). The financial statements comprise the statement of net assets available for benefits as of June 30, 2023, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan’s financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s (“DOL”) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (“investment information”) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL’s Rules and Regulations for Reporting and Disclosure under ERISA (“qualified institution”).

Management has obtained certification from a qualified institution as of and for the year ended June 30, 2023, stating that the certified investment information, as described in Note G to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor’s Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (“GAAP”).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (“GAAS”). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management’s election of the ERISA Section 103(a)(3)(C) audit does not affect management’s responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan’s ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan’s transactions that are presented and disclosed in the financial statements are in conformity with the Plan’s provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor’s Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter — Supplemental Schedules Required by ERISA

The supplemental schedules of Form 5500, Schedule H, Line 4i - Schedule of Assets (Held at End of Year) and Form 5500, Schedule H, Line 4j - Schedule of Reportable Transactions as of or for the year ended June 30, 2023, are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements.

The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2022 Financial Statements

Predecessor auditors performed an audit of the 2022 financial statements of the Sparton Corporation Pension Plan. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the Plan that were certified by a qualified institution.

Their report dated April 18, 2023, indicated that (a) the amounts and disclosures in the 2022 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with GAAP, and (b) the information in the 2022 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C). Their report also indicated that the form and content of the 2022 supplemental schedules, other than the information in the 2022 supplemental schedules that agreed to or is derived from the certified investment information, were presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA; and the information in the 2022 supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determines meets the requirements of ERISA Section 103(a)(3)(C).

SPARTON CORPORATION PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

June 30, 2023 and 2022

A. Description of the Plan

General

The Sparton Corporation Pension Plan (the “Plan”) is a defined benefit pension plan established to provide both normal and early retirement benefits, termination benefits, and death and disability benefits to all eligible employees of Sparton Corporation and certain of its wholly owned subsidiaries: Sparton Deleon Springs, LLC; Sparton Technology, Inc.; Sparton Brooksville, LLC; and Sparton Medical Systems, Inc. Effective July 2020, Sparton Corporation (the “Company”) completed the sale of the wholly owned subsidiaries that constituted its Manufacturing & Design Services business unit (“MDS Sale”). As a result of the MDS Sale, Sparton Brooksville, LLC and Sparton Medical Systems, LLC ceased to be subsidiaries of the Company, and certain Plan participants were given the option to take lump-sum distributions of their related funds. Effective April 2021, Elbit Systems of America, LLC completed acquisition of Sparton Corporation and its remaining wholly owned subsidiaries. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions

The Plan’s funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement as calculated by an independent actuary. Additionally, the Company makes annual contributions to the Plan based upon the maximum deductibility under the Internal Revenue Code (the “Code”). For the years ended June 30, 2023 and 2022, the Plan was fully funded as defined by ERISA funding requirements. After consideration of the funded status, the Company elected to make no contribution attributable to 2023 or 2022.

Plan Expenses

Employees of the Company perform certain administrative functions of the Plan with no compensation from the Plan. In accordance with Plan provisions, the Plan pays substantially all administrative expenses and costs relating to asset charges and recordkeeping, as well as Pension Benefit Guarantee Corporation (“PBGC”) premiums. Any administrative expenses, if any, that are paid by the Company are not reflected in the accompanying financial statements.

Plan Benefits

Participants accrue benefits as defined under the Plan’s provisions based on years of service and Plan provisions in effect as of the date of determination. Participants may elect to receive their benefits in the form of a monthly payment, a lump-sum payment, or a joint and survivor annuity determined in accordance with reduction factors in the Plan.

Vesting

The Plan was amended as of April 1, 2009. Future benefit accruals and participation were frozen as of the Plan amendment date, and all participants became 100% vested.

B. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates. Refer to Note C for significant assumptions used in determining the Plan’s present value of accumulated plan benefits.

Risks and Uncertainties

The Plan directly invests in investment securities including mutual funds, exchange traded funds, and a money market fund. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the accompanying financial statements.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Investments

The investments of the Plan are stated at fair value as of the end of the year and are generally subject to market or credit risks customarily associated with equity and fixed income investments. Fair values are determined in accordance with U.S. GAAP, which defines fair value, establishes a framework for measuring fair value, and requires certain disclosures about assets and liabilities measured at fair value. See Note D for information related to the Plan’s valuation methodologies.

Purchases and sales of securities are recorded on a trade-date basis. The net realized and unrealized gains and losses on investments include realized gains and losses on sales of investments during the year and unrealized increases or decreases in the market value of investments held at year-end. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

NOTES TO FINANCIAL STATEMENTS (continued)

B. Summary of Significant Accounting Policies – continued

Payment of Benefits

Benefits are recorded when paid.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are estimated future periodic payments, including lump-sum distributions, attributable under the Plan's provisions to services rendered by employees through the valuation date. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries and present employees or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered through the valuation date.

C. Actuarial Present Value of Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by Plan participants to reflect the time value of money and the probability of payment (such as for death, disability, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of the accumulated plan benefits information based on a beginning of the year valuation is as follows:

	June 30,	
	2022	2021
Vested benefits:		
Participants currently receiving payments	\$ 1,098,786	\$ 1,138,444
Other vested participants	1,203,873	1,231,179
Total vested benefits	2,302,659	2,369,623
Non-vested benefits	-	253
Total actuarial present value of accumulated plan benefits	<u>\$ 2,302,659</u>	<u>\$ 2,369,876</u>

SPARTON CORPORATION PENSION PLAN
NOTES TO FINANCIAL STATEMENTS (continued)

C. Actuarial Present Value of Accumulated Plan Benefits – continued

The following is a summary of the changes in the actuarial present value of accumulated plan benefits between the applicable benefit information dates:

	Year Ended June 30,	
	2022	2021
Actuarial present value of accumulated plan benefits at beginning of the year	\$ 2,369,876	\$ 3,173,478
Changes during the year:		
Actuarial gain	29,872	314,397
Changes in actuarial assumptions	6,778	(17,977)
Increase for interest due to decrease in the discount period	151,353	177,433
Benefits paid	(255,220)	(1,277,455)
Actuarial present value of accumulated plan benefits at end of the year	<u>\$ 2,302,659</u>	<u>\$ 2,369,876</u>

The actuarial cost method used was the traditional unit credit actuarial cost method. The more significant assumptions underlying the actuarial computations as of July 1, 2022 and 2021, for the respective actuarial valuations, are as follows:

	2022	2021
Interest discount rate	6.75%	6.75%
Effective interest rate	5.22%	5.38%
Normal retirement age	65	65

The actuarial assumptions related to the mortality basis are based on prescribed male/female tables by the Internal Revenue Service (“IRS”) for 2022 and 2021.

The change in the actuarial assumptions was primarily due to the following: (1) the cash balance interest crediting rate was increased from 2.173% to 2.253%; and (2) changes in the mortality tables from the 2021 IRS prescribed tables to the 2022 IRS prescribed tables.

These actuarial assumptions are based on the presumption that the Plan will continue. If the Company terminates the Plan at some future date, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

SPARTON CORPORATION PENSION PLAN
NOTES TO FINANCIAL STATEMENTS (continued)

D. Fair Value Measurements

U.S. GAAP defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and establishes a three-tier hierarchy that is used to identify assets and liabilities measured at fair value. The hierarchy focuses on the inputs used to measure fair value and requires that the lowest level input be used. The three levels defined are as follows:

Level 1 — Inputs are unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date.

Level 2 — Inputs (other than quoted prices included in Level 1) are either directly or indirectly observable for assets or liabilities through correlation with market data at the measurement date and for the duration of the instruments' anticipated lives.

Level 3 — Inputs reflect the best estimate of what market participants would use in pricing assets or liabilities at the measurement date. Consideration is given to the risk inherent in the valuation technique and the risk inherent in the inputs to the model.

For the years ended June 30, 2023 and 2022, there were no significant transfers between levels. The Plan held no Level 2 or 3 investments as of June 30, 2023 or 2022.

The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds, exchange traded funds, and money market fund: The fair values of the mutual funds, exchange traded funds, and the money market fund are considered Level 1, as the investments have readily available quoted prices in active markets, which represents the net asset values of shares held by the Plan.

Investments measured at fair value on a recurring basis at June 30:

2023		
	Level 1	Total
Mutual funds	\$ 1,367,036	\$ 1,367,036
Exchange traded funds	1,700,359	1,700,359
Money market fund	54,706	54,706
Total investments, at fair value	<u>\$ 3,122,101</u>	<u>\$ 3,122,101</u>
2022		
	Level 1	Total
Mutual funds	\$ 3,159,825	\$ 3,159,825
Money market fund	172,043	172,043
Total investments, at fair value	<u>\$ 3,331,868</u>	<u>\$ 3,331,868</u>

SPARTON CORPORATION PENSION PLAN
NOTES TO FINANCIAL STATEMENTS (continued)

E. Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee organization, or relatives of such persons.

PNC Bank, National Association (“PNC Bank”) is the Plan’s trustee and, therefore, certain transactions qualify as party-in-interest transactions. Fees paid to PNC Bank by the Plan totaled \$18,514 and \$22,919 for the years ended June 30, 2023 and 2022, respectively and are included as a component of administrative expenses within the accompanying statements of changes in net assets available for benefits.

F. Plan Termination

While the Company has not expressed any intent to permanently discontinue its contributions, it is free to do so under the provisions of the Plan at any time, subject to the provisions of ERISA. Should the Company terminate the Plan at some future time, its net assets will generally not be available on a pro-rata basis to provide participant benefits.

Whether a particular participant’s accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at such time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC’s guarantee, while other benefits may not be provided for at all.

G. Certified Investments

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments held and accrued investment income at June 30, 2023 and 2022, and net realized and unrealized gains (losses) on investments, and interest and dividends for the years ended June 30, 2023 and 2022, was obtained by management and agreed to or derived from information certified as complete and accurate by PNC Bank.

H. Tax Status

The Plan obtained its latest determination letter on January 5, 2017, in which the IRS stated that the Plan and related trust are designed in accordance with the applicable sections of the Code. The Company may rely on this letter with respect to the qualification of the Plan under Code Section 401(a) with certain limitations. The Company believes that the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

SPARTON CORPORATION PENSION PLAN
NOTES TO FINANCIAL STATEMENTS (*continued*)

H. Tax Status – continued

U.S. GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of June 30, 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

I. Subsequent Events

In preparing the accompanying financial statements, management has evaluated all subsequent events and transactions for potential recognition or disclosure through April 8, 2024, the date the financial statements were available for issuance.

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Rates not reflecting stabilization are used to determine PBGC variable rate premiums if the alternative method is used, and are used to determine the PBGC FTAP and the PBGC 4010 FS.

Form of payment

It was assumed that 80% of active participants would receive their benefit in the form of a lump sum and that the lump sum rate at time of settlement would be the valuation interest rate. The remaining 20% of active participants are assumed to receive their benefit in the normal form for a single participant (life annuity with 10 years guaranteed).

The same election assumption was used for terminated vested participants, with the following exceptions:

- Continuing terminated vested participants are assumed to receive their benefit in the form of an annuity at normal retirement age.
- Terminated vested participants with lump sums less than the cash-out limit of \$5,000 are assumed to receive their benefit in the form of a lump sum.

Disability benefits are assumed to commence as a life annuity with 10 years guaranteed.

Death benefits are assumed to be paid in the form of a lump sum.

The valuation interest rate as of July 1, 2022 is the 2022 ARPA segment rates.

These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued based on discussions with the plan sponsor regarding the likelihood that these benefits will be paid. Willis Towers Watson has reviewed the plan provisions with the plan sponsor and, based on that review, is not aware of any significant benefits required to be valued that were not.

The plan sponsor furnished participant data as of July 1, 2022. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. We made no adjustments to the data and are not aware of any adjustments made by the data provider. We have assumed beneficiary sex to be opposite of participant sex where omitted.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale – Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Cash Balance Interest crediting rate	The plan credits interest to cash balance accounts using the 30-year Treasury rate for May. Our long term estimate of the 30-year Treasury rate is 2.253%. This is the average of the 30-year Treasuries in effect for the three May 1 ^{sts} ending with May 1, 2022.
Lump sum conversion rate	As required by IRC §430, lump sum benefits are valued using “annuity substitution”, so that the interest rates assumed are effectively the same as described above for the discount rate.
Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).
Rates of increase in:	
■ Assumed return for asset smoothing	The assumed return of 6.11% (for the 2022 plan year) used for asset smoothing is the third segment rate. Although we have not explicitly determined an expected return on assets, based on an analysis of the plan sponsor’s investment policy we believe the rate to be above the third segment rate.

Assumptions Rationale – Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).

SCHEDULE SB ATTACHMENTS

Termination	Assumed termination rates differ by age and gender because of expected differences in termination rates by gender.
Disability	Assumed disability rates differ by age and gender because of expected differences in disability rates by gender.
Retirement	<p>Retirement rates were based on an experience study conducted in 2010, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.</p> <p>Assumed retirement rates differ by gender because of observed differences in retirement rates by gender.</p>
Benefit commencement date for deferred benefits	Deferred vested participants are assumed to begin monthly annuity benefits at age 65 (or current age if later) because the plan's experience is not considered to be credible, but deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at earlier ages is not expected to be significant.
Form of payment	The percentage of retiring participants assumed to take lump sums is based on observed experience since 2000, when the Plan converted to a Cash Balance formula.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC 430.

The mortality table used to calculate the funding target and target normal cost was updated to use the MP-2020 projection scale as specified in the regulations under §1.430(h)(3)-1.

The mortality table used for lump sum conversion was updated from the PPA Optional Combined Mortality Unisex Table for 2021 to the PPA Optional Combined Mortality Unisex Table for 2022.

While the underlying assumption methodology did not change for the following, these additional adjustments were made in the valuation:

- The cash balance interest crediting rate was increased from 2.173% to 2.253%.
- The interest rates to accumulate employee contributions were updated to 3.59% starting in 2022.
- The assumed plan-related expenses added to the target normal cost were changed from \$11,000 for the prior valuation to \$11,000 for the current valuation.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

June 1, 1963 (replaces prior programs effective November 1, 1950 and June 1, 1944) as amended July 1, 1984, January 1, 1988, January 1, 1989, July 1, 1989, September 1, 1989, July 1, 1990, and July 1, 1992. Amended and restated effective April 1, 2000. Amended January 1, 2002, July 1, 2002, July 1, 2004, July 1, 2005, July 1, 2007, July 1, 2008 and April 1, 2009. Amended and restated effective July 1, 2015.

Covered employees Age 20 with six months of service on July 1 following calendar year of hire

Participation date The plan was closed to new hires effective April 1, 2009.

Definitions

Vesting service For service prior to July 1, 1976, a participant is credited with one year or portion thereof of service based on elapsed time from date of hire to July 1, 1976. For service on or after July 1, 1976, a participant is credited with one year of service for each plan year in which he performs an hour of service.

Pension service Frozen as of March 31, 2009

Normal retirement date (NRD) First of month coinciding with or next following the attainment of age 65

Monthly pension benefit

Benefit formula:

For service prior to April 1, 2000

Monthly benefit is \$2.25 per year of credited service, maximum 40 years; plus, if a Contributing Participant, 1½% of Average Monthly Earnings per year of "Contributory Credited Service" after July 1, 1992 as defined in the Plan, maximum 30 years (subject to minimum benefit due to participation in prior Plan). The maximum service is reduced for Contributory Service before July 1, 1992. The benefit payable for Contributory Service earned prior to July 1, 1992 is 1½% of Average Monthly Earnings in excess of \$400 per year of such service, maximum 30 years.

For service post March 31, 2000

Monthly benefit is determined under a Cash Balance benefit formula. Principle Credits equal to 2% of Salary and Interest Credits based on 30-year Treasury bill interest rates are accrued annually from April 1, 2000 (or date of hire if later). The sum of Interest and Principal Credits are converted to a monthly benefit using the lump sum assumption. Normal form of benefit is life with 120 payments certain.

The plan was closed to future benefit accruals effective April 1, 2009.

Monthly preretirement death benefit

2/3% of the monthly pension benefit as of the date of death, reduced for the 2/3% joint and survivor election and reduced for payment as early as the participant's 55th birthday

Eligibility for Benefits

Normal retirement

Retirement on NRD

Early retirement

Retirement before NRD and after attaining age 60 with 3 years of Vesting Service or Age 55 with 10 years of Vesting Service

Postponed retirement

Retirement after NRD

Deferred vested termination

3 years of Vesting Service; Participants terminating prior to July 1, 2008, 5 years of Vesting Service. All participants at April 1, 2009 became 100% vested.

Disability Disabled after attaining age 50 with 15 years of Vesting Service

Preretirement death benefit Upon the death of a participant eligible for a vested retirement benefit before the commencement of such benefit

Benefits Paid Upon the Following Events

Normal retirement The monthly pension benefit determined as of NRD

Early retirement Accrued portion of normal formula reduced by 6/10 of 1% for each of the first 60 complete calendar months by which benefit commencement precedes age 65 plus 3/10 of 1% for each of the next 60 complete calendar months preceding age 65

Postponed retirement The monthly pension benefit determined as of the actual retirement date, with actuarial factors applied for commencement after NRD

Deferred vested termination A vested Participant is entitled to his monthly pension benefit commencing at age 65. On or after age 60 (or age 55 and 10 years of Vesting Service), the Participant may elect to receive a benefit in the amount of his monthly pension benefit reduced by 6/10 of 1% for each calendar month preceding age 65 plus 3/10 of 1% for each calendar month preceding age 60.

Disablement The monthly pension benefit is determined as of the date of disablement and unreduced for early commencement. Upon attainment of NRD, the disability benefit will be recomputed as a Normal Retirement Benefit.

Preretirement death

A qualified preretirement survivor annuity (QPSA) is provided to the survivor of an active or terminated Participant who dies after having earned at least 3 years of Vesting Service. The QPSA, payable on the first day of the month following the Participant's 60th (or age 55 with 10 years of Vesting Service) birthday (or date of death if later), is equal to the survivor annuity otherwise payable as if the Participant had, on the day before his death, retired and elected to have his benefits commence immediately under the Qualified Joint and Survivor Annuity, and then died the next day.

In lieu of the monthly benefit detailed above, a survivor may elect to commence the benefit as a lump sum equal to the lump sum otherwise payable to the participant as of his date of death.

Other Plan Provisions

Forms of payment

Monthly pension benefits are paid as a life annuity with 10 years guaranteed, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of a 2/3% joint and survivor annuity with a 10 year payment guarantee or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are a 75% joint and survivor annuity with a 10 year payment guarantee, a life annuity, or a lump sum. For joint and survivor annuities, reduction occurs at the first death of the participant or beneficiary, and the guaranteed payments are based upon the reduced amount.

Actuarial equivalence is based on the applicable mortality table pursuant to Internal Revenue Code Section 417(e)(3)(B) and the applicable interest rate pursuant to Internal Revenue Code Section 417(e)(3)(C). Lump sums are determined as the present value of the deferred to normal retirement benefit.
