Independent Auditor's Report

Plan Administrator
CTC Enterprise Ventures Corporation Defined Contribution Retirement Plan
Johnstown, Pennsylvania

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of CTC Enterprise Ventures Corporation Defined Contribution Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of June 30, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended June 30, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of June 30, 2023 and 2022, and for the year ended June 30, 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- the certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule (Schedule H, Line 4i - Schedule of Assets (Held at End of Year)) as of June 30, 2023 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying

accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the certified investment information in the supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

CTC Enterprise Ventures Corporation Defined Contribution Retirement Plan

Notes to the Financial Statements

1. Description of the Plan

The following description of the CTC Enterprise Ventures Corporation Defined Contribution Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan, established October 1, 2002 and restated July 1, 2021, is a defined contribution plan covering substantially all employees of CTC Enterprise Ventures Corporation (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined by the Plan, up to the maximum limits of the Internal Revenue Code (the IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan document allows for auto-enrollment. All new employees as well as current employees contributing less than 3% will automatically be enrolled in the Plan with a deferral of 3% of eligible wages. Participants may also contribute amounts representing distributions from other qualified plans.

Effective January 1, 2024, the Plan was amended to disallow hardship distributions and to allow for loans to participants.

Participants credited with at least 500 hours of service, as defined by the Plan, are eligible to receive employer matching contributions. For those participants, the Company matches 100% of the first 3% of eligible compensation contributed to the Plan by the participant. Participants direct the investment of all contributions into various investment options offered by the Plan. Contributions are subject to certain Internal Revenue Service (the IRS) limitations.

Administration of Plan Assets

The Plan's assets are administered under a contract with the Teachers Insurance and Annuity Association of America (TIAA) and College Retirement Equities Fund (CREF) (together, TIAA and CREF), a custodian of the Plan and recordkeeper and agent for TIAA, FSB, a custodian of the Plan (collectively, the custodians). TIAA invests funds received from contributions, investment sales, interest, and dividend income and makes distribution payments to participants.

Participant Accounts

Each participant account is credited with the participant's contribution and allocations of (a) the matching contribution and (b) investment earnings, if any, and is charged with withdrawals and investment losses, if any. Administrative expenses, representing third-party investment advisor fees, are charged to those participant accounts that engage in these services. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants direct the investment of their account balances into various investment options offered by the Plan and may change their investment options at any time, subject to the terms of the funding

CTC Enterprise Ventures Corporation Defined Contribution Retirement Plan

Notes to the Financial Statements

vehicles. Plan investment earnings and losses are allocated to participants' accounts on a daily basis according to the type of funding vehicle in which balances are invested. Fund managers' fees are charged to participants' accounts as a reduction of the return earned on each investment option.

Vesting and Forfeitures

Participants are immediately vested in their voluntary and rollover contributions plus actual earnings thereon. Effective with the July 1, 2021 restatement of the Plan, participants are immediately vested in the Company's contributions. For participants who terminated prior to the restatement, vesting in the Company's contributions is based on years of credited service and are fully vested after three years of credited service.

When certain terminations of participation in the Plan occur, the non-vested portion of a participant's account represents a forfeiture. Forfeitures are available to reduce employer contributions. Forfeited non-vested accounts totaled \$14,090 and \$10,849 at June 30, 2023 and 2022, respectively. During the Plan year ended June 30, 2023, no forfeitures were used to reduce employer contributions.

Payment of Benefits

Upon termination of service, retirement, death, or total permanent disability, a participant may elect to receive a distribution of his or her entire accumulated Plan balance, subject to the terms and certain limitations of the funding vehicles. In addition, participants are also permitted to make hardship withdrawals from their elective deferral account balances in certain cases of immediate and heavy financial need. Participants' deferral contributions to the Plan must be suspended for a period of six months following hardship withdrawal. Minimum required distributions for participants who have reached age 70½ also apply per IRS regulations.

The Plan allows for in-service withdrawals of pre-tax elective deferrals for participants who reach the age of 59½. The Plan is also permitted to automatically distribute account balances for terminated participants with balances of \$5,000 or less.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Investment Valuation and Income Recognition

Investments are reported at fair value, except for the fully benefit-responsive investments contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further information related to fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

CTC Enterprise Ventures Corporation Defined Contribution Retirement Plan

Notes to the Financial Statements

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Plan Servicing Credit Account

The Plan includes a revenue credit account which represents a suspense account under the Plan that shall be credited for all amounts received by the Plan that do not consist of earnings on Plan investments or Plan contributions and are not attributable to identified participant accounts. This account can be used to pay expenses incurred in connection with the operation of the Plan. Account balances were \$1,673 and \$2,541 at June 30, 2023 and 2022, respectively. For the year ended June 30, 2023, a total of \$4,000 was utilized to pay administrative expenses.

Administrative Expenses

Substantially all administrative expenses of the Plan are paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. The Company incurred \$5,043 and \$11,272 during the year ended June 30, 2023 and 2022, respectively, in administrative expenses.

Management fees and operating expenses charged to the Plan are deducted from investment income earned daily and are not separately reflected. Consequently, management fees and operating expenses are reflected in a reduction of investment return.

3. Certified Investment Information

The Plan Sponsor has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TIAA and CREF have certified that the following information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

- Investments, at fair value, as shown in the statements of net assets available for benefits as of June 30, 2023 and 2022.
- Total investment income, as shown in the statement of changes in net assets available for benefits for the year ended June 30, 2023.
- Schedule H, Line 4i - schedule of assets (held at end of year) as of June 30, 2023, as shown on the ERISA-required supplemental schedule.

The Plan's independent accountants did not perform auditing procedures with respect to information certified by the custodians, except for comparing such information to the related information included in the financial statements and ERISA-required supplemental schedule.

4. Fair Value Measurements

Financial Accounting Standards Board (the FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- *Level 1* - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- *Level 2* - Inputs to the valuation methodology, including the following:
 - quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- *Level 3* - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value, as well as the general classification pursuant to the valuation hierarchy. There have been no changes in the methodologies used at June 30, 2023 and 2022.

- The fair values of TIAA and CREF mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).
- The fair values of accumulation units held by the Plan in CREF accounts (registered investment companies held as variable annuity accounts) are based on each account's daily net asset value (NAV), which is considered by Plan management to be the best approximation of fair value. CREF accounts are not exchange traded. Data for NAVs are available daily to Plan administrators and client investors on NASDAQ's website (Level 1), and provide sufficient corroborative evidence to ascertain the relationship between each fund's NAV and the values of individual underlying holdings. Underlying holdings are primarily valued using market quotations or prices obtained from independent pricing sources.
- The fair value of the Plan's interest in the TIAA Real Estate Account (a pooled separate account) is based on the fund's daily NAV, which is considered by Plan management to be the best approximation of fair value. The unit value of the fund is calculated daily and available

CTC Enterprise Ventures Corporation

Defined Contribution Retirement Plan

Notes to the Financial Statements

to Plan administrators and client investors on NASDAQ's website. Underlying holdings are primarily valued using independent appraisals or independent pricing sources (Level 2). Although the underlying assets of the fund cannot be quickly sold and converted to liquid assets, the TIAA general account provides the fund with a liquidity guarantee whereby TIAA ensures that the fund has funds available to meet participant redemption, transfer or cash withdrawal requests.

- Investments in non-benefit responsive TIAA Traditional Annuity contracts are reported at contract value, which approximates fair value. As these investments are contract-based, observable prices for identical or similar investments do not exist and, accordingly, these investments are valued using unobservable inputs (Level 3). The contract value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals. Liquidity restrictions apply to certain of these investments that could impact the value realized upon exiting certain types of contracts within the TIAA Traditional Annuity account. See also Note 6 for further information related to the TIAA Traditional Annuity. In determining the reasonableness of the methodology, Plan management evaluates a variety of factors including a review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms, while others are substantiated utilizing available market data.

The preceding methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30:

	2023			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 4,208,072	\$ -	\$ -	\$ 4,208,072

Changes in Fair Value of Level 3 Assets

The following table shows the purchases, transfers and distributions for assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) during the year ended June 30, 2023:

TIAA Traditional Annuity

Beginning balance	\$ 461,626
Investment income	22,390
Purchases	13,789
Sales and withdrawals	(5,539)

Ending balance	\$ 545,083

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of the values for those inputs as of June 30, 2023 and 2022:

	2023 Fair Value	2022 Fair Value	Principal Valuation Technique	Unobservable Inputs

*See Note 6 for definitions of the Group Retirement Annuities (GRA) contract type.

CTC Enterprise Ventures Corporation Defined Contribution Retirement Plan

Notes to the Financial Statements

5. Investments at Contract Value

The Plan has the following fully benefit-responsive investment contracts, which are reported at contract value, at June 30:

	2023	2022
TIAA Stable Value	\$ 33,994	\$ 82,096
TIAA Traditional Benefit Retirement Choice Plus (RCP)**	1,673	2,541
Total investments, at contract value	\$ 35,667	\$ 84,637

**See Note 6 for definitions of the RCP contract type.

The Plan has entered into a fixed-rate group annuity contract, TIAA Stable Value, with TIAA that is benefit-responsive. Contributions are maintained in a non-unitized separate account of TIAA and buys a contractual or guaranteed amount of future benefits for the participants.

Because the fixed-rate group annuity contract is fully benefit-responsive, contract value is the relevant measurement attributed for that portion of the net assets available for benefits attributable to the TIAA Stable Value. Contract value, as reported to the Plan by TIAA, represents accumulated cash contributions, interest credit to the contract and transfers less any withdrawals. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value subject to excessive trading restrictions.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is guaranteed between 1% and 3% before reductions for contract fees.

General limitations: Certain events limit the Plan's ability to transact at contract value. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

6. TIAA Traditional Annuity

The TIAA Traditional Annuity contracts are guaranteed fixed annuity contracts available as investment options to Plan participants. Each contract is fully and unconditionally guaranteed by TIAA. The Traditional Annuity is offered through a variety of contract types, including the GRA and the RCP. The type of contract through which a participant invests in the TIAA Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional interest declarations, the degree of liquidity of the participant's account, and the options for receiving income upon retirement.

When participants choose to allocate a portion of their retirement savings to the TIAA Traditional Annuity during the accumulation phase of the contract, their contributions purchase a specific

CTC Enterprise Ventures Corporation Defined Contribution Retirement Plan

Notes to the Financial Statements

amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. Participants' principal, plus a specified minimum rate of interest, is guaranteed by TIAA's claims-paying ability. The TIAA Traditional Annuity also provides the potential for additional interest if declared by TIAA's Board of Trustees. Additional interest, when declared, remains in effect for the declaration year, which begins each March 1 for accumulating annuities, and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years. Together, the guaranteed minimum and additional amounts make up the crediting interest rate.

All GRA contracts require withdrawals in the form of a lifetime payout annuity or in periodic installments over a 10-year period. Because this provision is considered to restrict participants' "reasonable access" to their contract balances, GRA contracts are not considered to be fully benefit-responsive investment contracts. GRA contracts allow for lump sum withdrawals within 120 days after termination. When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the statement of changes in net assets available for benefits.

7. Tax Status

The underlying non-standardized prototype plan and the restated plan have received opinion letters from the IRS, dated June 30, 2014 and October 7, 2020, respectively, stating that the form of the Plan is qualified under Section 401 of the IRC, and therefore, the related trust is tax exempt. The Company has determined that it is eligible and has chosen to rely on the current IRS prototype opinion letter. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended subsequent to the date of the restated opinion letter. The Plan administrator believes the Plan, as amended, is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Voluntary Compliance

During the year ended June 30, 2022, the Company failed to withhold employee contributions and make corresponding matching contributions for a certain category of eligible compensation, as defined in the Plan, which resulted in the Company under-contributing to the Plan for certain eligible participants. Management elected to make qualified nonelective contributions in October and November 2023 in order to compensate their employees for the missed deferral opportunity.

9. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

CTC Enterprise Ventures Corporation Defined Contribution Retirement Plan

Notes to the Financial Statements

10. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will remain 100% vested in their accounts.

11. Parties-In-Interest

Plan investments are managed by the Plan's custodians and, as such, these transactions qualify as party-in-interest transactions and are exempt from the prohibited transaction rules of ERISA. Fees paid during the year for legal, accounting, and other professional services rendered by parties-in-interest were based on customary and reasonable rates for such services.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

12. Subsequent Events

The Plan Administrator has evaluated subsequent events through April 12, 2024, the date the financial statements were available to be issued. Other than as described in Note 1, the Plan Administrator is not aware of any subsequent events which would require recognition or disclosure in the financial statements.
