Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Robeson Health Care Corporation Retirement Savings Plan, which comprise the statements of net assets available for benefits (modified cash basis) as of June 30, 2023 and 2022, and the related statements of changes in net assets available for benefits (modified cash basis) for the year ended June 30, 2023, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note B; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal Trust Company), the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended June 30, 2023 and 2022, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Basis of Accounting

We draw attention to Note B of the financial statements, which describes the basis of accounting. The financial statements and supplemental schedules are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matter – Supplemental Schedules

The supplemental schedules, Schedule H, line 4i - Schedule of Assets (Held at End of Year) and Schedule H, line 4a - Schedule of Delinquent Participant Contributions, as of and for the year ended June 30, 2023, are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements
June 30, 2023

NOTE A – Description of Plan

The following description of the Robeson Health Care Corporation Retirement Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General. The Plan is a defined contribution Plan established by Robeson Health Care Corporation (the “Organization”) to provide employees with a systematic means of savings and investing for retirement. All permissible employees of the Organization, as defined in accordance with the universal availability standards are eligible to enroll on their date of hire. Deferrals begin on the first day of enrollment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions. Each year, participants may contribute up to 100 percent of pretax annual compensation, subject to certain discrimination tests prescribed by the Internal Revenue Code and other limitations specified in the Plan. The Organization contributes a matching amount based on 50 percent of employee contribution up to the amount of six percent of the participant’s compensation. An employee who is age 50 or older may make a catch-up contribution as defined by IRS regulations.

Discretionary Contributions. Each year, the Organization may make discretionary contributions to participant accounts. Discretionary contributions are made at the discretion of the Organization and the contribution, if any, is be divided among participants eligible for a share at June 30.

Expenses. The Plan pays administrative expenses that consist primarily of administrative fees paid to third-party administrators, the trustee, and actuary. These expenses are reported on the statement of changes in net assets available for benefits as administrative expenses. Expenses that are paid by the Company are excluded from these financial statements.

Participant Accounts. Each participant’s account is credited with the participant’s contribution, allocations of the Organization’s matching contributions, Plan earnings, and any discretionary contributions. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Investment Options. Upon enrollment in the Plan, participants may direct the investment of their contributions and the Organization’s contributions into various investment contracts and annuity options offered by the Plan.

Vesting. Participants are immediately vested in their voluntary contributions, Organization matching contributions, and actual earnings thereon.

Excess Contributions Payable. Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as accounts payable, with a corresponding reduction to contributions. There were no excess contributions for the year ended June 30, 2023.

Payment of Benefits. Upon retirement, disability or death, a participant or beneficiary receives the entire amount credited to the participant’s account in either a lump sum or, at the participant’s election, in annual installments. Upon termination, other than by retirement, disability, or death, a participant becomes eligible to receive the current value of the participant’s vested account in a lump-sum.

Participant Investment Rollovers. Participants are allowed to transfer or rollover funds into the Plan from other qualified or 403(b) Plans.

NOTE B – Summary of Significant Accounting Policies

Basis of Accounting. The financial statements of the Plan are prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles. Modified cash basis of accounting is defined as cash basis accounting modified with respect to contributions. Employer and employee contributions and the related contribution receivables are accounted for based on the payroll check dates within the Plan year. Contribution receivables are recorded if Plan contributions from check dates occurring within the Plan year were credited to the Plan after the year end date.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the plan.

Use of Estimates. The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Expenses. Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Administrative fees are charged directly to the participant's account and are included in administrative costs.

Subsequent Events. Management has evaluated subsequent events through April 11, 2024, the date of which the financial statements were available to be issued.

Investment Valuation and Income Recognition. Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits. Benefit payments to participants are recorded when paid.

NOTE C – Investments

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal Trust Company), the trustee of the Plan, has certified to the completeness and accuracy of all investments, related investment activity, and related activity in the accompanying statements of net assets available for benefits for the years ended June 30, 2023 and 2022, the accompanying statement of changes in net assets available for benefits for the year ended June 30, 2023 and accompanying supplemental schedule of assets (held at end of year) as of June 30, 2023.

NOTE D – Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- | | |
|---------|--|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | <p>Inputs to the valuation methodology include –</p> <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the asset or liability;• inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.</p> |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in methodologies used at June 30, 2023 and 2022.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

NOTE E – Guaranteed Investment Contract with Principal Life Insurance Company

The Plan entered into a traditional fully benefit-responsive guaranteed investment contract with Principal Life Insurance Company (Principal) totaling \$732,275 and \$674,262 at June 30, 2023 and 2022, respectively. Principal maintains the contributions in a general account. The account is credited with actual earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest that is guaranteed to the Plan. The credit rating is based on a formula established by the contract issuer but may not be less than 1.80 percent. The credit rating is reviewed on a quarterly basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measurement for fully benefit-responsive investment contracts because this amount received participants if they were to initiate permitted transactions under the Plan. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amount dues is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the Plan's ability to transact at contract value with Principal. Such events include the following: (1) amendments to the Plan documents (including the complete or partial Plan termination or merger with another Plan), (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without the consent of the issuer.

NOTE F – Related-Party Transactions

Certain Plan investments are guaranteed investment contracts and shares of mutual funds managed by Principal Investment Company. Principal Investment Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to the trustee for the year ended June 30, 2023 totaled \$23,777.

NOTE G – Plan Termination

Although it has not expressed any intent to do so, the Organization has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

NOTE H – Tax Status

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (Code). The terms of the Plan have been prepared to conform to the sample language provided by the Internal Revenue Service (IRS) in Revenue Procedure 2007-71. The plan administrator intends to apply for a determination letter on the Plan once the IRS opens such a program. The Plan is required to operate in conformity with the Code to maintain the tax-exempt status for Plan participants under Section 403(b). The Plan is subject to income tax examinations generally for three years after they were filed.

NOTE I – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits (modified cash basis).
