INDEPENDENT AUDITOR'S REPORT

To the plan administrator and participants of
Watsonville Community Hospital Cash Balance Pension Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Watsonville Community Hospital Cash Balance Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the Statements of Net Assets Available for Benefits as of December 31, 2022 and 2021, the Statements of Changes in Net Assets Available for Benefits for the Years Ended December 31, 2022 and 2021, the Statement of Accumulated Benefits as of December 31, 2021, the Statement of Changes in Accumulated Benefits for the Year Ended December 31, 2021, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to benefits provided under the plan and certified to by a qualified institution or assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA 103(a)(3)(C) audit opinion.

Emphasis of Matter—Frozen Benefits

As discussed in Note 1a of the financial statements, the Plan was amended effective September 30, 2022, to freeze benefit accruals under the Plan. Our report is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, line 4i—Schedule of Assets (Held at End of Year) as of December 31, 2022, and Schedule H, line 4j—Schedule of Reportable Transactions for the Year Ended December 31, 2022, are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to benefits provided under the plan and certified to by a qualified institution or assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Watsonville Community Hospital Cash Balance Pension Plan

Notes to Financial Statements
For the Years Ended December 31, 2022 and 2021

1. Plan Description

The following description of Watsonville Community Hospital Cash Balance Pension Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

a. General

The Plan, originally effective December 28, 2015, is a cash balance plan covering all employees of Watsonville Hospital Corporation (the Employer) who have attained the age of 21, completed one year of eligible service, and are covered under the Service and Maintenance Unit collective bargaining agreement by and between the Employer and the SEIU United Healthcare Workers-West, excluding certain classes of employees as set forth in the plan document. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective August 31, 2022, the Pajaro Valley Health Care District Project (PVHCDP) acquired the assets of Watsonville Community Hospital and agreed to assume the sponsorship of, and the obligation to fund and maintain the plan. Effective September 30, 2022, participants ceased to accrue further benefits under the Plan and each participant became fully vested. Participants will continue to receive increases to their benefits from interest credits (see Note 1c).

b. Funding Policy

Contributions to provide benefits under the Plan are made solely by the Employer. The Plan's funding policy is for the Employer to make cash contributions to the Plan in amounts that meet or exceed the minimum funding requirements under ERISA and that fully provide for eligible employees' benefits by the time they retire, based on the actuarial assumptions referred to in Note 5. At December 31, 2022 and 2021, the Plan's funding exceeded the minimum funding requirements under ERISA. For the year ended December 31, 2022, the Employer contributed \$25,776 to the Plan. For 2021, the Employer did not contribute to the Plan.

c. Participant Accounts

A cash balance account is established for each participant. These accounts are a recordkeeping representation of the accrued benefits under the Plan. No specific assets are allocated to the cash balance accounts. The accounts of eligible participants are credited annually with benefits based on years of credited service, their annual eligible compensation, and an established interest credit. The specific factors determining the benefits accrued to each participant's cash balance account are set forth in the plan document and subject to Internal Revenue Service (IRS) limitations. As disclosed in Note 1a, pursuant to the freezing of the Plan, annual additions to eligible participants' cash balance account are limited to only the interest credit benefit.

d. Vesting

Due to the plan freeze discussed in Note 1a, all participants are fully vested in their accrued benefits.

Notes to Financial Statements
For the Years Ended December 31, 2022 and 2021

e. Plan Benefits

Benefits are determined based on the participant's recordkeeping representation of accrued benefits. Upon termination of employment due to termination of service, death, disability, or retirement, participants may elect to receive the value of their vested benefit in a lump-sum distribution or through various forms of joint and survivor annuities.

2. Summary of Significant Accounting Policies

a. Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

b. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

c. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are generally recorded on a trade-date basis. As permitted by Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 960-325, *Plan Accounting--Defined Benefit Plans: Investments--Other*, settlement-date basis may be used when (a) the settlement date is after the financial statement date, (b) the fair value of the securities purchased or sold did not change significantly from the trade date to the financial statement date, and (c) the purchases or sales do not significantly affect the composition of the plan's net assets available for benefits.

Dividends are recorded on the ex-dividend date. Net realized and unrealized depreciation and appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

d. Payment of Benefits

Benefits are recorded when paid.

Watsonville Community Hospital Cash Balance Pension Plan

Notes to Financial Statements
For the Years Ended December 31, 2022 and 2021

e. Plan Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Employer. Expenses that are paid by the Employer are excluded from these financial statements. Investment related expenses are included in net realized and unrealized appreciation and depreciation in fair value of investments. For the year ended December 31, 2022, the Plan paid approximately \$106,000 in administrative expenses, including approximately \$41,400 in premiums to the Pension Benefit Guaranty Corporation (PBGC) and \$64,600 in trustee and asset management fees. For the year ended December 31, 2021, the Plan paid approximately \$83,100 in administrative expenses, including approximately \$20,600 in premiums to PBGC and \$62,500 in trustee and asset management fees.

f. Subsequent Events

The Plan has evaluated the subsequent events through April 25, 2024, the date the financial statements were available to be issued.

3. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made, and the actuarial present value of accumulated benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

4. Fair Value Measurement

FASB ASC 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements).

4. Fair Value Measurement (Continued)

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the asset or liability;• inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2022 and 2021.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the United States Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts: Carried at fair value using NAV as a practical expedient. Valued at the NAV of units held by the Plan at year-end, which is considered by plan management to be the best approximation of fair value. The unit values are calculated based on the collective values of the underlying investments. Funds held in pooled separate accounts may be redeemed daily without restriction.

Common/Collective trusts: Carried at fair value using NAV as a practical expedient. Valued at the NAV of units held by the Plan at year-end, which is considered by plan management to be the best approximation of fair value. The unit values of common/collective trust funds with underlying equity investments are calculated based on the observable value of the underlying investments. Funds held in common/collective trusts may generally be redeemed daily without restriction.

4. Fair Value Measurement (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022 and 2021.

Assets at Fair Value as of December 31, 2022				
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	\$ <u>2,713,860</u>	\$ <u>-</u>	\$ <u>-</u>	\$ <u>2,713,860</u>
Total assets in the fair value hierarchy	2,713,860	-	-	2,713,860
Investments measured at NAV as a practical expedient (1)	<u>-</u>	<u>-</u>	<u>-</u>	<u>1,059,444</u>
Investments, at fair value	\$ <u>2,713,860</u>	\$ <u>-</u>	\$ <u>-</u>	\$ <u>3,773,304</u>

Assets at Fair Value as of December 31, 2021				
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	\$ <u>3,499,013</u>	\$ <u>-</u>	\$ <u>-</u>	\$ <u>3,499,013</u>
Total assets in the fair value hierarchy	3,499,013	-	-	3,499,013
Investments measured at NAV as a practical expedient (1)	<u>-</u>	<u>-</u>	<u>-</u>	<u>1,271,568</u>
Investments, at fair value	\$ <u>3,499,013</u>	\$ <u>-</u>	\$ <u>-</u>	\$ <u>4,770,581</u>

(1) In accordance with FASB ASC 820, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the tables above are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

5. Actuarial Present Value of Accumulated Benefits

Accumulated benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the services employees have rendered. Accumulated benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

The actuarial present value of accumulated benefits is determined by an independent actuary and is that amount which results from applying actuarial assumptions to adjust the accumulated benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The effect of plan amendments on accumulated benefits is recognized during the year in which such amendments become effective. The actuarial valuations are as of January 1, 2022, which is the beginning of the plan year and is presented in the Statement of Accumulated Benefits as of December 31, 2021.

The significant actuarial assumptions used in determining accumulated benefits as of December 31, 2021, are as follows:

Expected return	4.50%
Mortality	Based on Pri-2012 Blue collar base rate mortality table projected generationally using the Principal Mortality Improvement Scale (Principal 2017-10).
Cash balance interest crediting rate	1.30%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different assumptions and other factors might be applicable in determining the actuarial present value of accumulated benefits.

6. Certified Investment Information

Management has elected to have the audits of the Plan performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Trust Company, the Trustee of the Plan, has certified that the following investment information is complete and accurate:

- Fair value of investments as reflected in the Statements of Net Assets Available for Benefits as of December 31, 2022 and 2021.
- Dividends and net realized and unrealized appreciation and depreciation in fair value of investments as reflected in the Statements of Changes in Net Assets Available for Benefits for the Years Ended December 31, 2022 and 2021.
- Investment information as reflected in Note 4 to these financial statements.
- Investment information reflected in the Schedule H, line 4i—Schedule of Assets (Held at End of Year) as of December 31, 2022.
- Investment information reflected in the Schedule H, line 4j—Schedule of Reportable Transactions for the Year Ended December 31, 2022.

As permitted by ERISA Section 103(a)(3)(C), the audit need not extend to any statements or information related to the certified investment information.

7. Plan Termination

In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed to the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2022 and 2021, the ceiling is \$6,205 and \$6,034 per month, respectively. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceiling is actuarially adjusted downward.

Whether all participants receive their benefits should the plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Employer and the level of benefits guaranteed by the PBGC.

8. Tax Exempt Status

The IRS has determined and informed the Employer by a letter dated July 12, 2017, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the plan has been amended, the plan administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Party-in-Interest Transactions

Principal Trust Company is the Trustee of the Plan and holds and manages investments. Transactions with Principal Trust Company are exempt party-in-interest transactions, as defined by ERISA.

Assumptions prescribed by law

Mortality

During benefit payment period

IRS Prescribed Mortality - Static Annuitant, male and female.

Before benefit payment period

IRS Prescribed Mortality - Static Non-annuitant, male and female.

Assumptions selected by actuary

Inflation

2.40% increase per year.

Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.

Asset return

5.00% for the current plan year.

The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.

Expected expense

The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.

Retirement

Active and inactive participants

Age	Probability of retirement
65-69	20%
70	100%

This assumption is based on the results of recent experience analysis and anticipated future experience.

Upcoming year salary increase

The preceding year's salary is increased by 3.50% at each age. Note: not used for Plan accounting calculations.

Expected salary increase is composed of salary inflation, a real wage growth and a merit increase. This reflects company salary increase philosophies along with more recent experience of the plan participants.

Disability	<p>1987 Commissioner's Group Disability Table, six month elimination period, male and female.</p> <p>We rely on a publicly published table due to the limited size of the plan. The 1987 CGDT was recommended by the Society of Actuaries for pension valuation purposes.</p>
Marriage	<p>80% married; husbands are 3 years older than wives.</p> <p>This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.</p>
Withdrawal	<p>2003 Society of Actuaries Small Plan Age Table, multiplied by 1.00.</p> <p>We rely on a publicly published table due to the limited size of the plan. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 1.00 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.</p>
Compensation limit increase	<p>2.40% increase per year used in the calculation of the IRC 404 maximum deduction cushion. See <u>Calculated deduction</u> in Rules and regulations.</p> <p>Compensation limit increase is consistent with the inflation assumption.</p>
Form of benefit and basis	<p>100% of active participants are assumed to receive the cash balance account value benefits as a single lump sum payable immediately for death and disability.</p> <p>50% of active and inactive participants are assumed to receive the cash balance account value benefits as a single lump sum payable immediately for withdrawal and retirement and 50% a single lump sum at retirement age equal to the cash balance account value.</p> <p>This assumption is based on the results of recent experience analysis and anticipated future experience.</p>
Cash balance interest crediting rate	<p>1.30% compounded annually.</p> <p>Plan defines the interest crediting rate as the yield on 1-Year Treasury Constant Maturities for the first full calendar month immediately preceding the Plan Year plus an associated margin of 100 basis points.</p>

Methods prescribed by law

Liability measure Funding target is the present value of the benefits accrued on the valuation date. Target Normal Cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.

Benefit accrual All benefits paid at decrement are considered in total and then split to determine how much is included in funding target. The following pieces are included in the funding target.

The portion based on the plan's definition of accrued benefit.

The benefit portion in excess of the accrued benefit based on the ratio of the participant's years of service on the valuation date to the years of service the participant will have at the time of decrement.

The benefits included in target normal cost are calculated similarly, by splitting the benefits. The target normal cost is based on the difference between the amount included in funding target and an amount calculated assuming the participant accrues service through the end of the plan year.

HCE benefit payment restrictions A ratio of the plan assets and accrued liability is used to determine if restrictions apply. Assets and accrued liability are as of the valuation date and are reduced by:

- any retiree benefit index or floor
- amounts for HCEs who were previously restricted
- an amount for the retiring HCE

The estimated HCE ratio illustrated in this report is based on the market value of plan assets (excluding late deposits) and funding target as of the valuation date. The funding target uses the non-stabilized interest rates as defined in IRC §430(h)(2)(C)(iv). Other assumptions or methods could be used.

Methods selected by plan sponsor

Asset method Market value

Segment rates 24-month average with no weighting to prior law basis. Use rates where December is the last month included in the average.

PBGC premium basis Variable Rate Premiums are calculated using census, market value of assets and interest rates in effect on the current valuation date. Interest rates are the 24-month average rates used for annual cost but without the interest rate corridor defined in IRC §430(h)(2)(C)(iv). You elected this Alternative interest method for the 01/01/2021 plan year and this method must be used for five years before a change can be made.

Methods elected by actuary

Retirees Assets and liabilities for current and future retirees are included.

Vested benefits A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.

The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality Based on Pri-2012 Blue collar base rate mortality table projected generationally using the using the Principal Mortality Improvement Scale (Principal 2017-10).

Base rates

Before benefit payment period

Employee amount-weighted, male and female

During benefit payment period

Retiree amount-weighted, male and female

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Blue collar base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.

Mortality improvement (MI)

Principal 2017-10 MI scale: this scale is based on MP-2021 study and model issued by SOA with the exception of the following user-selected assumptions:

- 10-year convergence period on age and cohort
- Long-term rates (LTR) assumptions using sex-distinct and age-based rates developed from Social Security Trustees Reports.

See [Mortality Documentation](#) for rationale and additional information.

Interest rate used to value liabilities

4.50%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

Treatment of administrative expenses

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception - contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Line 22 - Description Of Weighted Average Retirement Age
 Watsonville Community Hospital Cash Balance Pension Plan
 EIN 91-1894113 Plan No. 007

The weighted average retirement age is weighted by the expected percentage of active participants retiring at each age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

(1) Age	(2) Expected Active Headcount	(3) Retirement Rate	(4) Expected Retirements (2)*(3)	(5) Weighted Age (1)*(4)
65	49.0832	0.2000	9.8166	638.0820

Schedule SB, Part V - Summary of Plan Provisions
Watsonville Community Hospital Cash Balance Pension Plan
EIN 91-1894113 Plan No. 007

Plan eligibility

Age	Attained age 21.
Service	One year of service in which at least 1,000 hours worked. Years of Service shall include an Employee's consecutive Years of Service with Watsonville Community Hospital immediately prior to January 1, 2006.
Class	Employee who is covered by the Service and Maintenance Unit collective bargaining agreement by and between the Watsonville Hospital Corporation and the SEIU United Healthcare Workers-West, except for Employees classified as per diem or non-benefited.

Normal retirement benefit

Age	Attained age 65.
Service	5 years of participation.
Form	Monthly annuity payable for life (optional forms may be elected in advance of retirement).
Amount (accrued benefit)	One-twelfth (1/12) of the Actuarial Equivalent of the Hypothetical Account. The amount of a monthly retirement benefit commencing on the Participant's Normal Retirement Date is equal to the Actuarial Equivalent of the balance of the Participant's Hypothetical Account as of the Participant's Normal Retirement Age taking into account all Hypothetical Allocations and Interest Credits through the normal retirement date using the last Interest Credit of the Plan Year containing the determination date as the Interest Credit for subsequent periods through such Participant's Normal Retirement Age.

Early retirement benefit

Age	Attained age 55.
Service	Completed 15 years of service. Years of Service shall include consecutive Years of Service for Watsonville Community Hospital immediately prior to January 1, 2006. A Participant shall become fully Vested upon satisfying this requirement if still employed at Early Retirement Age.
Form	Same as normal retirement benefit.
Amount	Actuarial Equivalent of the Participant's Accrued Benefit

Schedule SB, Part V - Summary of Plan Provisions
Watsonville Community Hospital Cash Balance Pension Plan
EIN 91-1894113 Plan No. 007

Late retirement benefit

Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	Greater of Accrued Benefit on Late Retirement Date or Accrued Benefit on Normal Retirement Date actuarially increased to Late Retirement Date.

Termination benefit

Vesting percentage	100% after three years of vesting service.
Form	Same as Normal Retirement Benefit with income deferred until Normal Retirement Date
Amount	Accrued Benefit on date of termination multiplied by the Vesting Percentage.

Disability benefit

Eligibility	Active participant who becomes totally and permanently disabled.
Service	3 years of vesting service.
Form	Monthly income payable immediately until normal retirement, death, or recovery and a deferred annuity payable at the normal retirement date.
Amount	Actuarial equivalent of accrued benefit on disability retirement date.

Survivor annuity death benefit (a vested benefit)

Eligibility	Qualified married participant fully vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's normal retirement date. The surviving spouse may also elect a lump sum of the value of the pre-retirement survivor annuity.
Amount	If death occurs, the amount paid to the surviving spouse is equal to the spouse's portion of a qualified joint and 50% survivor annuity of the participant's Actuarial Equivalent of the accrued benefit as of the date of death or the vested Portion of the accrued benefit if the participant was terminated immediately prior to death.

Definitions

Actuarial equivalence The actuarial equivalence conversion basis uses the applicable interest rate and applicable mortality table as set forth in Code Section 417 for lump sum payments. The applicable interest rate uses the rates for the month of December, the first calendar month preceding the first day of the stability period, which is the plan year.

Credited service One year of service for each plan year thereafter in which the participant is credited with at least 1,000 hours of service. Credited Service includes service in the plan prior to 01/01/2006.

Compensation Compensation is the participant's total compensation reportable as wages (including bonuses, overtime and "on-call" wages), tips and other compensation on Federal Form W-2, excluding severance payments.

For purposes of the Hypothetical Allocations for the Plan Year in which an Eligible Employee first enters the Plan, Compensation shall be limited to the amount received during that part of the determination period during which the Eligible Employee was a Participant in the Plan.

Hypothetical account The account established for the Participant to receive the Hypothetical Allocations and Interest Credits.

Hypothetical allocation For each plan year a Participant completes a Year of Service, the following hypothetical allocation equal to a percentage of determination period Compensation based on Years of Service according to the table below:

Years of Service	Pay Credit
0-5	6.00%
6-10	6.25%
11-15	6.50%
16+	6.75%

Interest credit For each Plan Year continuing until the last day of the month immediately preceding the date that payment of a Participant's Accrued Benefit commences, each Participant's Hypothetical Account shall be credited, whether or not the Participant remains an Employee, with a hypothetical Interest Credit determined by multiplying the dollar amount representing the balance of the Participant's Hypothetical Account as of the beginning of the Plan Year, including all previous and subsequent Hypothetical Allocations and Interest Credits, minus any distributions made during the Plan Year, by the yield on 1-Year Treasury Constant Maturities for the first full calendar month immediately preceding the Plan Year plus an associated margin of 100 basis points (the "Yield").

Definitions (continued)

Optional forms of benefit payments

The optional forms of benefit payments are:

- Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 75 or 100
- Single sum payment equal to the present value of the vested retirement benefit

The optional form conversion basis uses the applicable interest rate and applicable mortality table as set forth in Code Section 417 for lump sum payments. The applicable interest rate uses the rates for the month of December, the first calendar month preceding the first day of the stability period, which is the plan year.

Vesting service

A Year of Vesting Service is credited for each plan year an Employee is credited with 1,000 or more hours of service. Years of Vesting Service with Watsonville Community Hospital prior to 01/01/2006 are included in a Participant's Vesting Service.

Changes in Principal Eligibility or Benefit Provisions

The plan froze benefit accruals as of 10/1/2022.

Significant Event

We understand that based upon extensive research and discussions with the Office of General Counsel at PBGC and senior legal advisers at the DOL it has been determined that it would be reasonable and appropriate for the Hospital Corporation to take the position that the defined contribution plan and defined benefit plan it was "forced" to assume from Watsonville Community Hospital (WCH), in connection with the sale and transfer of the assets of WCH as part of a bankruptcy proceeding, can following the assumptions (10/1/22 for the cash balance; 9/1/22 for the 401(k)/401(a)) be treated as "non-ERISA" governmental plans.

This means that any compliance/reporting requirements under ERISA are to be followed prior to the respective assumption dates, but should not be observed following the respective assumption dates. This also means that, among other things, no PBGC premiums are to be paid following the assumption dates, and no forms 5500 are to be prepared or filed with respect to periods following the assumption dates.

Schedule SB, Line 24 – Change in Actuarial Assumptions
Watsonville Community Hospital Cash Balance Pension Plan
EIN 91-1894113 Plan No. 007

Certain non-prescribed assumptions have been changed since last year. These assumptions were changed to better reflect the anticipated experience of your plan. See the attachment, Part V – Statement of Actuarial Assumptions/Methods, for the rationale for each assumption.

The assumed asset return for the current year has increased from 4.75% to 5.00%. This rate is used in the calculation of the actuarial value of plan assets.

The inflation assumption has increased from 2.25% to 2.40%.

The wage base increase has increased from 3.25% to 3.40%.

The compensation limit increase has increased from 2.25% to 2.40%.

The cash balance crediting rate was updated from 1.10% to 1.30%.
