Independent Auditor's Report

To the Plan Administrator
Southeastern Regional Medical Center Tax-Deferred Savings Plan
Lumberton, North Carolina

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of the Southeastern Regional Medical Center Tax-Deferred Savings Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA ("ERISA Section 103(a)(3)(C) audit"). As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency ("qualified institution"), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from qualified institutions as of December 31, 2022, and for the year then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report,

- the amounts and disclosures in the accompanying 2022 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP"); and
- the certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by qualified institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedule H, line 4i-schedule of assets (held at end of year) as of December 31, 2022, and supplemental schedule H, line 4a-schedule of delinquent participant contributions for the year ended December 31, 2022, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or

is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the certified investment information in the supplemental schedules agrees to, or is derived from, in all material respects, the information prepared and certified by qualified institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Other Matter - Auditor's Report on the 2021 Financial Statements

The 2021 financial statements of the Plan were audited by other auditors. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the plan that were certified by a qualified institution. Their report dated October 11, 2022 indicated that (a) the amounts and disclosures in the 2021 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America, and (b) the information in the 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements

1. Description of the Plan

The following description of the Southeastern Regional Medical Tax-Deferred Savings Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the comprehensive Plan Document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan established pursuant to section 403(b) of the Internal Revenue Code (“IRC”) of 1986 (as amended) for the benefit of the employees of Southeastern Regional Medical Center (the “Employer”). The Plan covers all employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Contributions

Participants may contribute up to 100% of their eligible compensation to the Plan. Eligible participants are automatically enrolled at 4% of Plan compensation unless the participant affirmatively elects not to participate. The Plan has no automatic escalation provision. Participants who have attained age 50 before the end of the Plan year are eligible for catch-up contributions. Participants may also elect to make special catch-up contributions prior to the age of 50 if 15 years of service has been rendered by the participant subject to certain limitations. Participants may also contribute amounts representing distributions from other qualified plans.

The Employer matches a percentage of the first 4% of employee deferrals based on years of service as of the immediately preceding December 31st. The match is 25% for 4 years of service or less, 50% for 5 to 9 years of service, and 100% for 10 or more years of service for a maximum match of 4%. The Plan also allows for an Employer discretionary nonelective contribution. To receive the Employer discretionary nonelective contribution, a participant must have completed 1 year of service. During 2022, no Employer discretionary nonelective contributions were made.

Contributions are subject to certain limitations.

Participant Accounts

Each participant’s account is credited with the participant’s contributions, employer contributions, and an allocation of net Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which participants are entitled is the vested portion of their accounts.

Vesting

Participants are 100% vested in their individual deferrals including catch-up contributions, rollover contributions, and Employer matching contributions at all times. For Employer discretionary nonelective contributions, a participant is 0% vested for the first 3 years and then 100% vested thereafter.

Southeastern Regional Medical Center Tax-Deferred Savings Plan

Notes to Financial Statements

Forfeitures

At December 31, 2022 and 2021, forfeited non-vested accounts totaled \$389,896 and \$358,877, respectively. These accounts may be used at the discretion of the Employer. During 2022, no forfeitures were used by the Employer.

Payment of Benefits

A participant's vested balance may be distributed upon termination of service, death, disability or retirement (age 65). A participant may elect to receive a lump sum payment, an annuity, or installment payments. Vested account balances below \$5,000 may be automatically distributed to the participant.

The Plan allows for in-service hardship withdrawals and withdrawals of account balances representing rollovers from other qualified plans. Additionally, in-service withdrawals are permitted upon attainment of age 59½.

Contract Loans to Participants

Participants may borrow directly from Variable Annuity Life Insurance Company ("VALIC"), a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of the vested accrued benefit of the VALIC Fixed Plus Account. The participant must pledge sufficient collateral. The collateral of the loans must be maintained in their investment accounts to the VALIC Fixed Plus Account.

The loans are not shown in the Plan's statements of net assets available for benefits, as the loans are not made from plan assets and are, therefore, not considered assets of the Plan. Loan interest rates are variable at prevailing interest rates and can be increased or decreased by VALIC. Principal and interest is paid ratably by the participant directly to VALIC. A default charge will be assessed against the portion of the loan collateral used to foreclose on all or part of any loan.

Loan balances outstanding to VALIC from the Plan's participants were \$969,040 and \$1,021,295 as of December 31, 2022 and 2021, respectively. There were \$830,075 and \$848,432 in loans to participants in default, and subject to repayment from participants' accounts at the time of distribution, as of December 31, 2022 and 2021, respectively. There was \$103,808 in loan collateral foreclosed upon by VALIC and distributed from participant accounts to repay a defaulted loan during 2022.

Notes Receivable from Participants

Participants are permitted to borrow a minimum of \$1,000 of their vested benefits under the Plan. Participants may borrow up to a maximum equal to the lesser of 50% of their vested account balance or \$50,000. Loans are secured by the participant's account and bear an interest rate at the prime rate plus 1% or at local prevailing rates as determined by the Plan Administrator, which would be made under similar circumstances and is fixed for the term of the loan. The notes are repaid ratably through payroll deductions over a period of five years or less, unless used to purchase a principal residence. These loans are subject to certain restrictions as defined by the Plan Document and applicable restrictions under the IRC.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by its custodians, and insurance companies. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued unpaid interest. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Employer. Expenses that are paid by the Employer are excluded from these financial statements. Fees related to participant-initiated transactions are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation (depreciation) in fair value of investments.

Southeastern Regional Medical Center Tax-Deferred Savings Plan

Notes to Financial Statements

Immaterial Error Correction

Subsequent to the issuance of the 2021 financial statements, immaterial errors were identified related to the presentation and disclosure of the Plan's investments in fixed annuity contracts (NFBR) of \$10,409,732, of which \$10,075,363 was incorrectly reported as level 2 investments in the fair value hierarchy table and \$334,369 was incorrectly reported as noninterest bearing cash in the statement of net assets available for benefits, and registered investments of \$18,082,638, which were incorrectly reported as level 1 investments in the fair value hierarchy table at December 31, 2021. The fixed annuity contracts (NFBR) should have been reported as level 3 investments in the fair value hierarchy table and the registered investments should have been reported at fair value using NAV as a practical expedient.

The Plan revised the Statement of Net Assets Available for Benefits at December 31, 2021 to present as separate line items fixed annuity contracts (NFBR) of \$10,409,732 and mutual funds and other registered investments of \$132,130,824 resulting in the total investments, at fair value of \$142,540,556 compared to the previously reported amount of \$142,206,187.

In addition, the Plan revised Note 4 to move fixed annuity contracts (NFBR) to level 3 investments in the fair value hierarchy table and to remove the registered investments from the fair value hierarchy table and to report the registered investments at fair value using NAV as a practical expedient at December 31, 2021. The Plan also revised Note 4 to include all the investment strategies of the registered investments at December 31, 2021, which are not direct filing entities.

3. Certified Investment Information

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at December 31, 2022 and 2021, and net depreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2022, was obtained by management and agreed to or derived from information certified as complete and accurate by AIG Federal Savings Bank ("AIG") and VALIC, qualified institutions.

4. Fair Value Measurements

Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Southeastern Regional Medical Center Tax-Deferred Savings Plan

Notes to Financial Statements

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Fixed Annuity Contracts: The non-fully benefit responsive ("NFBR") fixed annuity contracts, composed of the VALIC Fixed Account Plus and VALIC Short Term Fixed Account, are reported at fair value, which is approximated by contract value. Fair value is determined using a discounted cash flow model. The fixed annuity contracts are not available for sale or transfer on any securities exchange. The fixed annuity account is subject to various restrictions. See Note 5.

Mutual Funds: Mutual funds represent investments with various investment managers. The mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Registered Investments: These separate accounts are registered investments that invest principally in equity securities, fixed-income instruments and short-term investments in accordance with each portfolio's investment objectives. Units held in the registered investments are valued at the NAV. The NAV, as provided by VALIC, is used as a practical expedient to estimate fair value. The NAV is measured based on the fair value of the underlying investments held by the fund less its liabilities. The fair value of the underlying investments are determined using market quotations or prices obtained from independent pricing sources that may employ various pricing methods to value the investments, including matrix pricing. Money market account holdings are generally valued at amortized cost. On a daily basis, units in the registered investments are revalued to reflect performance of the underlying investments minus any fees and charges.

Total investments measured at the NAV as practical expedient	\$ 11,228,272	\$ 18,082,638	\$ -		

The investment objectives for the registered investments measured using the net asset value are as follows:

- Equities*: To invest in a broad diversified portfolio of foreign and domestic common stocks to meet a specified favorable long-term rate of return.
- Fixed Income*: To invest in a broad range of fixed income securities with high income yields, returns that outpace inflation, or returns that are designed to track a specified inflation index.
- Indexed*: To achieve returns that mimic certain published indexes.
- International Equity*: To achieve long-term capital growth and high total returns through investing in the equity securities of foreign companies in emerging markets, and through investing in the equity securities, fixed income securities of companies and government, and money market instruments of any country.
- Large Cap*: To achieve long-term capital growth through investing in large cap diversified portfolio of growth-oriented securities, dividend paying equity securities and undervalued common stocks.
- Lifecycle*: To invest in a diversified asset allocation which adjusts over time to be more conservative as retirement nears.
- Mid Cap*: To invest in mid cap equity securities that have the potential for strong earnings or sales growth or that are undervalued based on various financial ratios.
- Money Market*: To invest in short-term securities or instruments that present minimal credit risk to provide liquidity and preserve capital.

Southeastern Regional Medical Center Tax-Deferred Savings Plan

Notes to Financial Statements

- i) *Multi-Asset*: To invest in domestic and foreign stocks, bonds, and other equity securities of companies that meet certain social criteria including specified environmental, social and governance criteria.
- j) *Small Cap*: To invest in small cap equity securities focused on companies across a wide range of sectors, growth rates and valuations that have favorable prospects for significant long-term capital appreciation.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy the Plan's assets at fair value:

During 2022, total purchases and sales of the fixed annuity contracts (NFBR) were \$0 and \$1,765,566, respectively.

5. Fixed Annuity Contracts

As discussed in Note 4, fixed annuity contracts consist of investment options available to participants known as the VALIC Fixed Account Plus and the VALIC Short Term Fixed account.

VALIC Fixed Account Plus and Short Term Fixed Account

VALIC fixed annuity accounts are credited with a guaranteed minimum rate of interest that is determined monthly. The minimum guaranteed rate depends on the year the account was established. VALIC fixed annuity accounts established before December 1, 2003 have a minimum guaranteed rate of 3%, and 2% thereafter.

The VALIC Fixed Account Plus employs a modified new money interest crediting policy. VALIC declares a "current" interest rate at the beginning of each month applicable to contributions received during that month. The current rate declared is guaranteed until the end of that calendar year for contributions received that month. At the beginning of the third calendar year, such contributions will earn interest at a new declared pool rate. This rate is established January 1 of each calendar year and guaranteed for that entire calendar year. The contractually guaranteed minimum interest rate is applicable for the lifetime of the contract.

The Short Term Fixed account's crediting rates are established on a portfolio basis, whereby all deposits in the option receive the same crediting rate, regardless of initial date of deposit.

The VALIC fixed account options are supported by the VALIC general account and offer guaranteed crediting rates specified in advance of participant investment.

The VALIC Fixed Account Plus may be withdrawn at a rate of 20% annually. Any transfers back to the VALIC Fixed Account Plus may be subject to new crediting interest rates. The VALIC Short Term Fixed account may be withdrawn up to 100% at any time. After a transfer into the VALIC Short Term Fixed accounts, a participant may not make a transfer out of the account within 90 days. Withdrawals are subject to a surrender charge if more than 10% of the balance is withdrawn. Surrender charges are equal to the lesser of 5% of all deposits into the account in the last 60 months or 5% of the amount withdrawn. The VALIC Fixed Account Plus and the VALIC Short Term Fixed

Southeastern Regional Medical Center Tax-Deferred Savings Plan

Notes to Financial Statements

accounts are not considered to be fully benefit-responsive investment contracts as defined by ASC 962.

6. Plan Termination

Although it has not expressed any intention to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants would remain or become 100% vested in their accounts.

7. Tax Status

Effective January 1, 2021, the Plan was amended and restated using a 403(b) Volume Submitter Plan to comply with certain regulatory requirements. The 403(b) Volume Submitter Plan received an Internal Revenue Service ("IRS") opinion letter dated April 5, 2018, stating that the form of the plan is acceptable under the IRC. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no IRS examinations for any tax periods in progress.

8. Risks And Uncertainties

The Plan holds various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements and participant account balances.

9. Related Party and Party-In-Interest Transactions

Certain investments are managed by VALIC, and certain investments act as loan collateral for loans to VALIC. Investment management fees are recorded net of investment gains and losses in the accompanying statement of changes in net assets available for benefits. Participant directed transaction fees may also be paid by the Plan to VALIC. Notes receivable from participants also qualify as party-in-interest transactions. These transactions are considered exempt party-in-interest transactions.

During 2022, plan management identified untimely participant contributions totaling \$1,420,648. Plan management intends to correct the untimely participant contributions by remitting lost earnings to the Plan.

10. Subsequent Events

The Plan has evaluated subsequent events through May 2, 2024, the date the financial statements were available to be issued.
