Plan Administrator
Griffin Ford, Inc. 401(k) Plan
Waukesha, Wisconsin

Dear Plan Administrator:

We have audited the financial statements of Griffin Ford, Inc. 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit") for the year ended December 31, 2022, and we have issued our report thereon dated February 22, 2024. As permitted by ERISA Section 103(a)(3)(C), our audit did not extend to any statements or information related to assets held for investment of the Plan ("investment information") by Ascensus, LLC, the custodian, which is a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, that prepared and certified the statements or information regarding assets so held in accordance with 29 CFR 2520.103-5. Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements and supplemental schedules, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America ("GAAP"). Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP. Professional standards require that we provide you with information about our responsibilities under auditing standards generally accepted in the United States of America ("GAAS"), as well as certain information related to the planned scope and timing of our audit. We have communicated such information verbally during our planning discussions with you on June 26, 2023. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Plan are described in Note 2 to the financial statements. No new accounting policies were adopted, and the application of existing policies was not changed during 2022. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. We had no significant differing opinions regarding management's accounting estimates.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosure affecting the financial statement is the disclosure of Prohibited Transactions in Note 6 to the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Form 5500 Procedures

We are required to obtain and read a substantially complete draft of Form 5500 prior to dating our auditor's report. The purpose of this procedure is to identify any material inconsistencies between the draft Form 5500 and the Plan's financial statements. We identified no material inconsistencies in performing and completing our audit.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate misstatements identified during the audit, other than those which are clearly trivial, and communicate them to the appropriate level of management. None of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

The attached schedule summarizes uncorrected misstatements of the financial statements. Management has determined that their effects are immaterial, both individually and in the aggregate, to the financial statements taken as a whole. The uncorrected misstatements or the matters underlying them could potentially cause future period financial statements to be materially misstated, even though in our judgment, such uncorrected misstatements are immaterial to the financial statements under audit.

Disagreements With Management

For purposes of this letter, a disagreement with management is a disagreement on a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated February 22, 2024, a copy of which accompanies this letter.

Management's Consultation With Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Plan's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Plan's auditors. However, these discussions occurred in the normal course of our professional relationship, and our responses were not, a condition to our retention.

Other Matters

Our responsibility for the ERISA-required supplemental schedules accompanying the financial statements is to perform adequate procedures to evaluate whether the form and content of the ERISA-required supplemental schedules, other than that agreed to or derived from the certified investment information, is presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure Under ERISA, and whether the information in the supplemental schedules related to assets held by and certified to by qualified an institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Internal Control Matters

Except as discussed in the following paragraph, in planning and performing our audit of the financial statements of the Plan, an employee benefit plan subject to ERISA, as of and for the year ended December 31, 2022, in accordance with GAAS, we considered the Plan's internal control over financial reporting ("internal control") as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of issuing our report on the financial statements, but not for the purpose of expressing our opinion on the effectiveness of the Plan's internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control.

We were engaged to perform an ERISA Section 103(a)(3)(C) audit of those financial statements as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit did not extend to any statements or information related to assets held for investment of the Plan ("investment information") by Ascensus, LLC, ("Ascensus"), which prepared and certified the statements or information regarding assets so held in accordance with 29 CFR 2520.103-5. Our audit also did not include a consideration of internal control relating to the investment information.

Our consideration of internal control was for the limited purpose described in the preceding paragraphs and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies; therefore, material weaknesses or significant deficiencies may exist that were not identified. In addition, because of inherent limitations in internal control, including the possibility of management override of controls, misstatements due to error or fraud may occur and not be detected by such controls. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. Also, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the Plan's financial statements will not be prevented or detected and corrected on a timely basis.

A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. A reportable finding is an indication of a deficiency in internal control identified during the audit that has not been communicated to management by other parties and that, in the auditor's professional judgement, is of sufficient importance to merit management's attention.

We identified the following deficiencies in internal control that we consider to be significant deficiencies and reportable findings:

Ineligible Rollover Contributions

According to plan documents, the Plan does not allow rollovers from Roth elective deferral sources. We noted that there was only one rollover contribution during the year, but that it included amounts from a Roth elective deferral source. We recommend the plan sponsor work with its service provider to correct this error. We also recommend the plan sponsor review its internal controls currently in place to ensure the plan is operating in accordance with all plan provisions. If it is the plan sponsor's intent to allow rollovers from Roth elective deferral sources, it is recommended that the plan sponsor amend the plan documents accordingly. Failure to comply with the plan document and to correct errors in a timely manner could result in loss of the Plan's qualified tax status.

Employer Contribution True-Up

According to plan documents, the compensation period for calculation of employer contributions is year to date eligible wages. As a result, the plan sponsor should compute a true-up calculation at the end of each plan year to ensure that employer contributions are in accordance with plan provisions. This true-up calculation has not been calculated for the 2022 plan year, and was not calculated for the 2021 plan year. While management has determined that the impact of these employer contribution true-ups is immaterial for the years ended December 31, 2022 and 2021, Wipfli recommends that the plan sponsor work with Ascensus to calculate the employer contribution true-ups for 2022 and 2021 plan years ends. Failure to comply with the plan document and to correct errors in a timely manner could result in loss of the Plan's qualified tax status.

Delayed Enrollment

During our audit, we noted that any individual eligible to be enrolled in the Plan on January 1, 2022 was not enrolled until the second payroll in January. This delayed enrollment resulted in missed employee and employer contributions for the first payroll of 2022 and does not follow January 1st and July 1st enrollment date provisions. There is no employee deferral correction required as the issue was corrected within the required self-correction time frame. However, Wipfli recommends that the plan sponsor work with Ascensus to determine any necessary correction for missed employer contributions. Additionally, it is recommended the Company provide training for all office managers regarding eligibility requirements as defined by the plan. Failure to comply with the plan document could result in loss of the Plan's qualified tax status.

Contributions

During the 2022 audit procedures, we noted the following related to plan contributions:

- 1) For one individual, the participant's deferral rate change was not updated timely in the payroll system. This error resulted in the participant contributing less than elected for a period of time. There is no employee deferral correction required as the issue was corrected within the required self-correction time frame. However, Wipfli recommends that the plan sponsor with Ascensus to determine any necessary correction for missed employer contributions.

- 2) For one participant who changed locations during the year, the participant's deferral rate was not set up in the payroll system upon the location change. As a result, the participant was not able to defer, or receive employer contributions, for three payrolls. During the year, the plan sponsor identified this error, added the participant's deferral election at new location, and worked with Ascensus to calculate and fund required correction for missed employer contributions. Wipfli recommends that the plan sponsor review payroll records to identify any other participants who changed locations during the year to ensure proper deferral rates were timely set up in payroll at the new location.
- 3) Deferrals were improperly limited during the year for one individual who transferred locations during the year. At the new location, the office manager mistakenly entered the IRS catch-up limit for maximum deferrals instead of the standard maximum contribution. The plan sponsor should work with Ascensus to calculate the correction required for missed employee deferrals and related employer contributions.
- 4) During our audit procedures, Wipfli identified that the match true-up for the plan year had not been calculated or funded. Wipfli recommends that the match true-up be calculated timely in order to comply with plan documents. Subsequent to year end, the plan sponsor worked with Ascensus to calculate the employer contributions match true-up and the required correction was funded to make participants whole. The amount of the true-up calculation was determined to be immaterial to the financial statements.

These noted errors suggest that deficiencies in the plan sponsor's internal controls related to the processing and remittance of contributions to the Plan exist, which leads to errors occurring with the Plan. In addition to correcting the errors noted for the current year, it is recommended the plan sponsor enhance the internal controls in place to prevent similar errors from occurring in the future. Recommendations include: (a) programming the payroll software used by the plan sponsor to accurately calculate company matching contributions to remove the manual manipulation currently done by the plan sponsor, (b) implementing procedures to ensure deferral rate changes are updated in the payroll system in a timely manner, (c) confirming that participants that transfer locations are properly set up in the payroll system upon transferring locations, and (d) reviewing deferral limits for participants on an annual basis.

Failure to Implement Loan Repayments

During our audit, we noted that there were three loans that had been issued, but for which participants had not yet started repaying due to plan sponsor's failure to set up loan repayments in the payroll system. As a result, the loans for these three individuals become delinquent. At the time of this letter, the plan sponsor had already addressed this issue with Ascensus and loan repayments are now being processed through payroll. Wipfli recommends that the plan sponsor implement procedures to review all loans being initiated to confirm that they are properly set up in the payroll system for timely repayments. Failure to comply with the plan document could result in loss of the Plan's qualified tax status.

Forfeiture Account

According to requirements set by the Internal Revenue Service ("IRS"), plans are not allowed to accumulate their forfeiture balances. Instead, balances are to be used by the Plan on a routine and consistent basis, allowing all participants to equally benefit from the use of the forfeitures. Per plan documents, forfeitures can be used to reduce Company discretionary matching contributions or pay plan expenses at the election of the plan sponsor.

As of December 31, 2022 and 2021, there were \$2,778 and \$1,461, respectively, of forfeitures in the Plan. Wipfli notes that there were no forfeitures used during the 2022 plan year. We recommend that the plan sponsor establish procedures for reviewing and using forfeitures regularly throughout the plan year to meet IRS requirements. Failure to comply with the plan document could result in loss of the Plan's qualified tax status.

Timely Remittance of Participant Contributions

There were certain payrolls in 2022 for which employee contributions were remitted outside the plan sponsor's normal remittance timeframe. According to DOL Reg. 2510.3-102(b), employers are required to remit the employee contributions to the Plan as soon as they can be reasonably segregated from the employer's general assets, but in no event later than the 15th business day following the end of the month in which employee contributions are withheld or received by the employer. Failure to remit employee contributions to the Plan in a manner acceptable to the DOL may result in penalties to the plan sponsor. We recommend the plan sponsor review the procedures involved in remittance of employee contributions to ensure employee contributions are consistently remitted on a timely basis.

We consider the following deficiencies in the Plan's internal control to be significant deficiencies:

Financial Accounting and Reporting

An entity's internal control over financial reporting does not end at the general ledger but extends to the financial statements and notes. As part of our professional services for the year ended December 31, 2022, Wipfli drafted the financial statements and related notes. Because the plan sponsor relies on Wipfli to provide the necessary understanding of current accounting and disclosure principles in the preparation of the financial statements and chose to have Wipfli prepare the financial statements, a significant deficiency exists in the plan sponsor's internal controls.

The completeness of the financial statement disclosures and the accuracy of the overall financial presentation may be negatively impacted because outside auditors do not have the same comprehensive understanding of the Plan as its internal financial staff.

Review of Information Prepared by Third-Party Service Providers

We noted that the plan sponsor does not perform timely reviews of certain information prepared or provided by its third-party service providers. The plan sponsor is responsible for the prudent oversight and review of all services provided by third parties to the Plan. We recommend the plan sponsor perform various periodic reviews and reconciliations of information provided by its third-party service providers, including reviewing the activity noted on the trust statements provided by Ascensus for reasonableness and reconciling the contributions noted in the trust statements to the plan sponsor's payroll records.

Without performing various periodic reviews and reconciliations of information provided by third-party service providers, the plan sponsor cannot ensure information reported by Ascensus is both complete and accurate. In addition, by performing reviews and reconciliations periodically, the plan sponsor may find actual errors throughout the year, allowing the plan sponsor to respond in both a timely and efficient manner to issues that arise.

Other Operational, Administrative, and Internal Controls Matters

During our audit, we also became aware of deficiencies in internal control other than significant deficiencies or material weaknesses, and the following other matters that are opportunities for strengthening internal controls and operating efficiency:

Reconciliation of Payroll Reports to Trust Statements

During our audit, we noted that the employee contributions and employer matching contributions per the plan sponsor's payroll reports do not reconcile to the amounts received by Ascensus and reflected on the annual trust statement. Wipfli notes that the variances are not material to the overall financial statements; however, we recommend the plan sponsor reconcile the variances to ensure all necessary corrections are made and all amounts owed to participants are remitted to the Plan, making participants whole for the 2022 plan year.

Review of Participant Distributions and Loans

It is our understanding that the Custodian administers participant distributions and loans. While this is a common practice, it's important the Plan Administrator understands it still has a fiduciary responsibility to oversee this process. Oversight can take place in a variety of ways, including an annual review of distribution and loan activity for reasonableness and a review of each transaction prior to processing. We recommend the Company consider implementing an oversight process to ensure distributions and loans are being administered properly and in accordance with plan documents.

Forfeiture Calculation

During our audit we noted that Ascensus calculates forfeitures on distributions the day prior to the distribution date. Because stock prices fluctuate from day to day, this early calculation of forfeitures results in improper forfeiture amounts according to value of funds on day of distribution. This fluctuation can result in participants receiving more or less employer contributed funds than what they are entitled depending on the change in the market. While the difference of calculating forfeitures prior to distribution date is not expected to have a material impact on the financials statements, Wipfli recommends that the plan sponsor review forfeiture calculations from Ascensus to ensure they are materially correct.

Document Retention

During our testing, management indicated they did not retain certain information requested by Wipfli, including support for dates of hire and dates of terminations as well as for enrollment and deferral election. By not maintaining this information, the plan sponsor is not able to substantiate that it has properly administered a participant's account in accordance with Plan documents. Wipfli recommends that the plan sponsor maintain a record of all significant personnel documentation going forward.

We will review the status of these comments during our next audit engagement. We have already discussed many of these comments and suggestions with various plan personnel, and we will be pleased to discuss them in further detail at your convenience, to perform any additional study of these matters, or to assist you in implementing the recommendations.

Conclusion

This information is intended solely for the use of the Plan Administrator and, if appropriate, management of the Plan and is not intended to be, and should not be, used by anyone other than these specified parties.

Sincerely,

A handwritten signature in black ink that reads "Wipfli LLP". The signature is written in a cursive, flowing style.
