ROA 401(k) Plan
Notes to Financial Statements
December 31, 2020

1. Description of the Plan

The following description of the ROA 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a multiple-employer defined contribution plan, which was adopted to provide retirement benefits for employees of adopting affiliates (Participating Employers). The Plan covers substantially all full-time employees (participants) of Participating Employers. Age and service eligibility is determined by each Participating Employer. During 2020, there were 63 Participating Employers in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Participating Employers are responsible for the administration of the Plan and have entrusted the maintenance of records and the day-to-day administration to TAG Resources, LLC (TAG), who processes transactions through Transamerica Life Insurance Company and Transamerica Financial Life Insurance Company (collectively, Transamerica), the custodians. One Participating Employer entered the Plan effective December 31, 2019, and their assets were held with Massachusetts Mutual Life Insurance Company, on behalf of Talcott Resolution Life Insurance Company (TRLIC), a former custodian, as of December 31, 2019 and for the period from January 1, 2020 through September 22, 2020. All other Participating Employers assets are held with Transamerica.

The Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was signed into law in March 2020. The Plan implemented certain provisions of the CARES Act which allow certain eligible participants impacted by COVID-19 (Qualified Individuals) to obtain larger loans from the Plan with relief for loan repayments; obtain in-service distributions; suspend required minimum distributions and delay the commencement date for required minimum distributions.

Contributions

Each year, participants may contribute up to 90% of their pre-tax annual compensation, as defined in the Plan. In addition, participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan. Participants can change the investment options previously elected at any time.

Participating Employers each have unique funding arrangements, but generally these arrangements consist of one or more of the following types of contributions: discretionary matching, matching, safe harbor matching, discretionary profit sharing and qualified nonelective.

Contributions are subject to certain Internal Revenue Service (IRS) limitations.

ROA 401(k) Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contributions and, where applicable, the Participating Employers' contributions and Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions and, where applicable, the Participating Employer's safe harbor matching contributions, qualified nonelective contributions plus actual earnings on these contributions. Vesting in the Participating Employers' discretionary matching contribution, matching contribution and discretionary profit sharing contribution portion of their accounts plus related earnings thereon is based on years of vesting service and is determined by each individual Participating Employer.

Notes Receivable from Participants

Participating Employers have the option of allowing participants to borrow part of the value of their fund accounts from the Plan. Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the remaining vested balance in the participant's account. The loan interest rate is set at 1% above the prime rate, as defined. Principal and interest are paid ratably through payroll deductions.

A CARES Act loan was available to Qualified Individuals during the period from March 27, 2020, through September 22, 2020, in addition to any other outstanding loan, up to a maximum total loaned amount of \$100,000 or 100% of their nonforfeitable accrued benefit. All CARES Act loan repayments have been deferred, with accrued interest, until January 2021. Accordingly, the maximum term is five years plus the deferral period.

Also, Qualified Individuals were eligible to request a deferral of loan repayments for an existing general loan that otherwise would have been due between March 27, 2020, and December 31, 2020. The deferred loan repayments resumed in January 2021, with accrued interest, and the term is extended by the deferral period.

CARES Act loan and loan repayment deferrals were only available for Qualified Individuals by request in 2020, but the outstanding balances are included in participant notes receivable with varying due dates through December 2025.

ROA 401(k) Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Payment of Benefits

On termination of service due to death, disability or early retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Participants electing to receive benefits after the normal retirement age may choose either a lump-sum amount or annual installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution or roll over their account into another individual retirement account. Participating Employers may permit in-service and hardship withdrawals under certain conditions.

Qualified Individuals were eligible for a CARES Act distribution in 2020 up to a maximum amount of \$100,000, with no limit on the number of distributions. CARES Act distributions may be recontributed, in part or in full, to the Plan as rollover contributions within three years of the distribution. The retribution may occur in multiple transactions within the three-year period.

CARES Act distributions were only available for Qualified Individuals by request in 2020, but the Plan will continue to accept recontributions for the three-year period after the distribution, which will be no later than December 31, 2023.

Forfeitures

Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan and are considered nonparticipant-directed investments. Forfeitures may be used to pay administrative expenses and to reduce future Participating Employer contributions. During 2020, administrative expenses and Participating Employer contributions were reduced by \$5,513 and \$53,629, respectively, from forfeited non-vested accounts. As of December 31, 2020 and 2019, forfeited non-vested accounts held in the stable value advantage option total \$96,776 and \$89,760, respectively.

2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures and changes therein. Accordingly, actual results could differ from those estimates.

ROA 401(k) Plan

Notes to Financial Statements (continued)

2. Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value except for its benefit-responsive investment contract, which is valued at contract value (Note 5). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Participating Employer's management determines the Plan's valuation policies utilizing information provided by the investment advisers and custodians. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed as incurred. No allowance for credit losses has been recorded as of December 31, 2020 or 2019. If a participant ceases to make scheduled repayments and the Plan administrator deems the note receivable to be in default, the note receivable balance is reduced and a benefit payment recorded.

Benefits Paid to Participants

Benefits are recorded when paid.

Excess Contributions Payable

Amounts payable to participants totaling \$30,794 and \$69,736 as of December 31, 2020 and 2019, respectively, for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the excess contributions to the applicable participants during 2022, 2021 and 2020.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Participating Employers. Expenses paid by the Participating Employers are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Notes to Financial Statements (continued)

2. Significant Accounting Policies (continued)

Subsequent Events

The Plan has evaluated subsequent events through May 6, 2024, the date the financials were available to be issued. Subsequent to December 31, 2020, approximately 40 new Participating Employers joined the Plan. Effective December 31, 2023, the Plan was amended and terminated. Participating Employers became single employer plans effective January 1, 2024.

3. Certified Information

Certain information related to investments disclosed in the accompanying financial statements, including investments and notes receivable from participants held as of December 31, 2020 and 2019, and net appreciation in fair value of investments, interest income from stable value advantage option, interest income on notes receivable from participants and transfer in from other qualified plans for the year ended December 31, 2020, was obtained by management and agreed to or derived from information certified as complete and accurate by Transamerica and TRLIC.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets the Plan can access.
- Level 2 Inputs to the methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level of assets and liabilities within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

ROA 401(k) Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2020 and 2019.

Pooled separate accounts (Transamerica): Valued at the net asset value (NAV) which equals the number of shares of the respective underlying fund, multiplied by the closing NAV per share quoted by that fund. The NAV is used as a practical expedient to estimate fair value.

Pooled separate accounts (TRLIC): Valued daily at the unit value calculated based on the observable net asset value of the underlying investment.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

	Level 1	Level 2	Level 3	Total
2020:				
Pooled separate accounts (Transamerica)*	\$ —	\$ —	\$ —	\$56,366,151
2019:				
Pooled separate accounts (TRLIC)	\$ —	\$696,093	\$ —	\$ 696,093
Pooled separate accounts (Transamerica)*	—	—	—	43,148,878
Total investments at fair value	\$ —	\$696,093	\$ —	\$43,844,971

* - In accordance with Subtopic 820-10, the Plan's interest in the pooled separate accounts is measured at fair value using the net asset value (NAV) per share (or its equivalent) practical expedient and has not been classified in the fair value hierarchy. The NAV is determined by Transamerica and is based on the fair value of the underlying assets held by the funds. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Fair value of Investments that use NAV

The following table summarizes investments measuring at fair value based on NAV per share as of December 31:

Investment Type	Fair Value 2021	Fair Value 2020	Unfunded Commitments	Redemption Frequency	Redemption Notice for Period
Pooled separate accounts (Transamerica)	\$56,366,151	\$43,148,878	None	Daily	Daily

ROA 401(k) Plan

Notes to Financial Statements (continued)

5. Group Annuity Contract

The Plan invests in a fully benefit-responsive investment contract with Transamerica totaling \$2,003,357 and \$1,314,867 as of December 31, 2020 and 2019, respectively. Transamerica maintains the contributions in a general unallocated account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The effective rate of interest is established every January 1 and July 1 and is based on the daily balance, at a rate that is the daily equivalent of the effective annual rate of interest applicable for the six-month period. There is no guaranteed minimum or maximum interest rate under this contract, no unfunded commitments, and redemption frequency and notice period can occur daily.

The contract meets the fully benefit-responsive investment criteria and therefore is reported at contract value. Contract value is the relevant measurement for fully benefit-responsive investment contracts, because it is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Transamerica, represents contributions made under the contract, plus earnings, less participant withdrawals and expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include amendments to the Plan documents (including complete or partial plan termination or merger with another plan), changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, bankruptcy of the Participating Employer or other Participating Employer events that cause a significant withdrawal from the Plan, the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA or premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include an uncured violation of the Plan's investment guidelines, a breach of material obligation under the contract, a material misrepresentation or a material amendment to the agreement without consent of the issuer.

6. Related Party Transactions and Party-in-Interest Transactions

Plan investments are in accounts of Transamerica and previously TRLIC and therefore, these transactions qualify as party-in-interest transactions. Notes receivable from participants and participant contributions are also considered to be party-in-interest transactions. Participating Employer contributions are considered to be both party-in-interest and related party transactions.

ROA 401(k) Plan

Notes to Financial Statements (continued)

7. Income Tax Status

The Plan adopted a volume submitter plan which had received an advisory letter dated March 31, 2014, from the IRS which stated the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). Although the plan has been amended since receiving the advisory letter, the Plan administrator and the Plan's tax counsel believe the Plan is designed and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe the Plan is qualified, and the related trust is tax-exempt.

8. Risks and Uncertainties

The Plan invests in various investment securities, which are exposed to various risks such as interest rate, market and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and amounts reported in the statements of net assets available for benefits.

9. Delinquent Employee Deferral Transmittals

During 2020, 2019, 2018, 2017 and 2016, several Participating Employers failed to remit certain participant contributions and loan repayments totaling \$417,131 within the period prescribed by the DOL regulations. Delays in remitting contributions to the custodians were due to administrative errors, and the Participating Employers have made or will make contributions to the affected participants' accounts to compensate those participants for potential lost income due to the delays.
