Independent Auditors' Report

Members of the Board of Trustees and Participants
International Marine Products Retirement Plan
Los Angeles, California

We have audited the accompanying financial statements of the International Marine Products Retirement Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, the related statement of changes in net assets available for benefits for the year then ended December 31, 2018 and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America. This includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

Our audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2018 and 2017, and the changes in net assets available for benefits for the year ended December 31, 2018 in accordance with accounting principles generally accepted in the United States of America.

Independent Auditors' Report (continued)

Other Matter – Supplemental Schedule

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2018 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

International Marine Products Retirement Plan

Notes to Financial Statements

December 31, 2018

Note 1 – Description of Plan

The following description of the International Marine Products Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan became effective on January 1, 2010 and is a defined contribution plan covering substantially all employees of EIWA International, Inc. (the "Company") who are age 21 or older. Employees are eligible to participate in the Plan after completion of one year of employment and a minimum of 1,000 service hours. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

In 2018, the Plan changed its name from EIWA International, Inc. Retirement Plan to International Marine Products Retirement Plan.

Contributions

The Plan permits employees to make pre-tax (regular and catch-up) contributions up to the maximum dollar amount allowed under the Plan subject to Internal Revenue code limitations. Participants may also make rollover contributions from other qualified Plans. The Company has adopted a safe harbor provision to eliminate the need for certain nondiscrimination tests required by the Internal Revenue Service. The Company contributions under the safe harbor provision are equal to 3% of compensation. To be eligible for the Company's safe harbor contributions, an employee must be age 21 or older, and have completed one year of employment with a minimum of 1,000 service hours. The Company may also elect each plan year to make discretionary profit-sharing contributions to the Plan. To be eligible for the discretionary profit-sharing contributions, an employee must have completed 1 year of service, have attained a minimum of 1,000 service hours during the Plan year and be employed on the last day of the Plan year. In September 2019, the Company made a discretionary profit-sharing contribution for the 2018 Plan year in the amount of \$50,405. This amount is included in the 2018 employer contributions receivable in the accompanying statement of net assets available for benefits.

Participant Accounts

Each participant's account is credited with the participant's contributions, allocations of the Company's contributions and allocations of the Plan's earnings, and charged with the participant's withdrawals and allocations of the Plan's losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

International Marine Products Retirement Plan

Notes to Financial Statements

December 31, 2018

Note 1 – Description of Plan (continued)

Vesting

Participants are immediately 100% vested in their voluntary contributions and Company safe harbor contributions. Vesting in the Company's discretionary profit-sharing contributions is based on years of continuous service. Participants are 20% vested after two years of service and vest an additional 20% per year of service until they are 100% vested after six years of service.

Investment Options

Participants direct both employee deferrals and employer contributions to be invested in various investment options as made available and determined by the plan administrator, which are more fully described in the Plan literature.

Benefit Payments

Participants may withdraw the vested interest in their account only in the event of termination of employment, retirement, death, disability, financial hardship or when they reach an age of 59 1/2. On termination of employment, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or a portion of the total vested balance at the participant's discretion. If a participant makes no distribution election upon termination of employment, and the value of their account is less than \$1,000, the vested balance of their account may be automatically paid in a single lump-sum amount.

Forfeited Accounts

At December 31, 2018 and 2017, forfeited non-vested accounts included in Plan investments were \$7,453 and \$7,247, respectively. Forfeited balances of terminated participants' non-vested accounts are used to reduce future Company contributions or to pay administrative expenses of the Plan. During 2018, none of the forfeited balances were used.

Subsequent Events

The Plan has considered subsequent events through December 1, 2020, the date the financial statements were available to be issued, in preparing the financial statements and notes thereto.

Note 2 – Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

International Marine Products Retirement Plan

Notes to Financial Statements

December 31, 2018

Note 2 – Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan utilizes various investment instruments, including mutual funds. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

The Plan is subject to review by certain regulatory authorities. Management does not believe that the effect of such reviews, if any, will have a significant impact on the Plan.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net decrease in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

Administrative expenses of the Plan may be paid by the Plan as provided in the Plan document. However, the Company may also pay the Plan expenses directly. Transaction charges for benefit payment transactions, if any, are paid by the Plan by reducing the balances of those participants initiating the transaction.

Payment of Benefits

Benefit payments to participants are recorded when paid.

International Marine Products Retirement Plan

Notes to Financial Statements

December 31, 2018

Note 3 – Related Party Transactions

The Plan's investments are managed by American Funds from Capital Group (“American Funds”). American Funds is the Plan's investment advisor and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid to American Funds for the year ended December 31, 2018 were nominal and were paid directly by the Company. Pensys, Inc. provides recordkeeping and other administrative services to the Plan. Fees paid to Pensys, Inc. for the year ended December 31, 2018 were \$1,075.

Note 4 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Note 5 – Income Tax Status

The Internal Revenue Service has determined and informed the sponsor of the prototype plan adopted by the Company, by a letter dated March 31, 2014, that the Plan and the related trust are designed in accordance with applicable sections of the Internal Revenue Code. Per Revenue Procedure 2005-16, a Company adopting such a plan may rely on the prototype plan's letter if the terms of the Plan are followed in operation. Accordingly, this reliance on the favorable opinion letter is equivalent to a favorable determination letter issued to the Company. The Plan has been amended since receiving the prototype plan's letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is being operated in compliance with the applicable requirements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018 and 2017, there were no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing and other jurisdictions. However, there are currently no audits in progress for any prior tax periods.

Note 6 – Fair Value Measurements

FASB Accounting Standards Codification (“ASC”) Topic 820, *Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described below:

Level 1: These inputs into the valuation methodology consist of unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

International Marine Products Retirement Plan
Notes to Financial Statements
December 31, 2018

Note 6 – Fair Value Measurements (continued)

Level 2: Examples of these inputs into the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liabilities;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: These inputs into the valuation methodology are unobservable and significant to the fair value measurement.

The assets' or liabilities' fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

- *Mutual Funds*: Valued at the net asset value (“NAV”) of shares held at year end. The NAV is a quoted price in an active market.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at December 31, 2018 and 2017.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2018 and 2017:

<u>December 31, 2018</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Investments:				
Mutual funds	<u>\$ 2,230,222</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 2,230,222</u>
<u>December 31, 2017</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Investments:				
Mutual funds	<u>\$ 2,060,663</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 2,060,663</u>

Changes in economic conditions or valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2018 and 2017, there were no transfers in or out of levels 1, 2 or 3.
