Independent Auditor's Report

The Plan Administrator
Cascade Engineering, Inc. Retirement Plan
Grand Rapids, Michigan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Cascade Engineering, Inc. Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of August 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from qualified institutions as of August 31, 2023 and 2022, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by qualified institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of August 31, 2023 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by qualified institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Cascade Engineering, Inc. Retirement Plan

Notes to Financial Statements

1. Plan Description

The following description of Cascade Engineering, Inc. Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, composed of both a profit-sharing and a retirement savings portion, which covers substantially all employees of the following employers: Cascade Engineering, Inc.; CK Technologies, LLC; Decade Products, LLC; and Systex Products Corporation (collectively, the Company). Participation for Systex Products Corporation was terminated as of September 1, 2021. Participation for CK Technologies, LLC was terminated as of June 3, 2022 (see Note 6). Participation for Decade Products, LLC was terminated as of April 30, 2022. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Eligibility

Each employee of the Company is eligible to participate in the Plan through retirement savings and matching contributions immediately upon full-time employment as defined by the Plan, or the first month after the part-time employee completes one "Year of Participation Service," as defined in the Plan. Each eligible participant is eligible to receive employer discretionary contributions if: 1) they are employed on the last day of the Plan year (August 31) and have at least 1,000 hours of service during that Plan year, or 2) have a severance from employment during the Plan year as a result of retirement after reaching age 65, total disability or death.

Contributions

Participants may contribute any amount or percentage of pre-tax annual compensation, as defined in the Plan, subject to certain limitations. Participants are automatically enrolled at 6%, unless the participant opts out or changes their deferral. Participants' deferral percentage will be automatically increased each September 1 by 1% up to a maximum of 10%. Participants may also contribute amounts representing rollover distributions from other qualified defined benefit or contribution plans.

The Company has elected to make safe harbor matching contributions to the Plan. The safe harbor match contribution is 100% of salary deferral contributions up to 3% of pay, plus 50% of salary deferral contributions from 3% to 5%. The Company may also elect to contribute discretionary contributions. There were no employer discretionary contributions for 2023 or 2022.

Participant Accounts

Each participant's account is credited with the participant's contributions, allocations of Company matching contributions, and Plan earnings. Employer discretionary contributions are allocated based on the ratio of a participant's points to aggregate participants' points for the year. Participants' points are allotted based upon years of service under the Plan and annual compensation. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investment of their account balances (including employer discretionary and matching contributions) into various investment options offered by the Plan.

Cascade Engineering, Inc. Retirement Plan

Notes to Financial Statements

Vesting of Benefits

Participants are immediately vested in their contributions, as well as the Company's matching and discretionary profit-sharing contributions, plus actual earnings thereon.

Payment of Benefits

Upon termination of service due to death, disability, retirement, or separation, a participant may elect to receive benefits in a single lump-sum payment or installment distributions. Withdrawals may also be made upon attainment of age 59½ and under certain circumstances of financial hardship.

Administrative Expenses

Certain administrative expenses of the Plan are paid by the Company. In 2023 and 2022, certain administrative fees and fees resulting from participant-directed activities were paid by the Plan and allocated to participant accounts. In addition, certain Plan expenses have been offset by revenue-sharing income and, therefore, are not included on the statements of changes in net assets available for benefits.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared under the accrual method of accounting.

Subsequent Events

Subsequent events have been evaluated by management through April 24, 2024, the date these financial statements were available to be issued.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of net assets and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to

Cascade Engineering, Inc. Retirement Plan

Notes to Financial Statements

sell an asset (an exit price) in the principal or most advantageous market for the asset in an orderly transaction between market participants on the measurement date. See Note 3 for a discussion of fair value measurements.

The investment contracts are benefit-responsive and are valued at contract value for presentation in the financial statements (see Note 8).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

3. Fair Value Measurements

In accordance with Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, the Plan utilizes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The three levels of the fair value hierarchy are described as follows:

Level 1 - This level consists of inputs to the valuation methodology that are unadjusted quoted prices for identical assets in active markets.

Level 2 - This level consists of inputs to the valuation methodology that include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in inactive markets, and other inputs that are observable or can be corroborated by observable market data.

Level 3 - This level consists of inputs to the valuation methodology that are both significant to the fair value measurement and unobservable.

The following valuation methodologies were used to measure the fair value of the Plan's investments:

Mutual Funds - Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled Separate Account (PSA) - This PSA is valued based on the underlying investments (i.e., common stock, mutual funds, short-term securities, and corporate bonds). While the majority of the underlying asset values are based on quoted prices, the PSA is not publicly traded on an active market. The net unit value is reported by the fund manager as of the financial statement date based on recent transaction prices and is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the

Cascade Engineering, Inc. Retirement Plan

Notes to Financial Statements

investment for an amount different than the reported net unit value. The PSA held by the Plan provides for daily redemptions by the Plan at reported net unit value with no advance notice requirement. The Plan is permitted to redeem participation units at net unit value on the valuation date. There are no unfunded commitments relating to these investments.

The Plan's valuation methods may result in a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Although Plan management believes the valuation methods are appropriate and consistent with the market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The tables below set forth the Plan's investments by level within the fair value hierarchy:

August 31, 2023

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 40,332,028	\$ -	\$ -	\$ 40,332,028
Total investments at NAV				2,666,040
Investments, at fair value				\$ 42,998,068

August 31, 2022

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 42,406,215	\$ -	\$ -	\$ 42,406,215
Total investments at NAV				2,624,891
Investments, at fair value				\$ 45,031,106

4. Information Certified by Qualified Institutions

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Trust Company (Principal) and Massachusetts Mutual Life Insurance Company (MassMutual), qualified institutions, have certified that the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

- Investments, as shown in the accompanying statements of net assets available for benefits as of August 31, 2023 and 2022.
- Investment income (loss), as shown in the accompanying statements of changes in net assets available for benefits for the years ended August 31, 2023 and 2022.
- Investment information included in the supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of August 31, 2023, as shown on the ERISA-required supplemental schedule.

At the request of the Plan Administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such

Cascade Engineering, Inc. Retirement Plan

Notes to Financial Statements

certified investment information to the related investment information in the financial statements, including reading the disclosures related to the investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP, and in the ERISA-required supplemental schedule, including assessing whether the supplemental schedule is in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

5. Related Party Transactions

Certain Plan investments are shares of mutual funds and a PSA managed by Principal, the trustee and contract holder of the Plan. The Plan also invests in a guaranteed investment contract managed by MassMutual, a contract holder of the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for trustee and record-keeping services amounted to approximately \$99,000 and \$151,000 in 2023 and 2022, respectively. Other expenses paid by the Plan include accounting and investment advisory fees.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of partial termination, the trust is to continue under the provisions of the Plan, and accounts of affected participants will be segregated and distributed by the trustee, as directed by the administrative committee. Partial termination of the Plan occurred after the sale of CK Technologies, LLC on June 3, 2022. Participants terminated due to the sale were 100% vested in their employer contributions.

7. Tax Status

The Plan uses a pre-approved plan document sponsored by Miller Johnson. Miller Johnson received an opinion letter from the IRS, dated June 30, 2020, which states that the pre-approved plan document, as then designed, satisfies the applicable provisions of the IRC. Although the Plan has been amended since the date of the opinion letter, Plan management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there currently are no audits for any tax periods in progress.

8. Investment Contract with Insurance Company

The Plan has entered into a traditional fully benefit-responsive investment contract with MassMutual. The Separate Account Guaranteed Interest Contract (SAGIC) maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by the SAGIC. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is

Cascade Engineering, Inc. Retirement Plan

Notes to Financial Statements

contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The separate account guaranteed SAGIC contract is fully benefit-responsive; contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options, or (3) Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, if the contract holder determines that such establishment, activation, amendment, or change has an adverse effect on the contract holder's administrative procedure or other investors with investment agreements in the same class as this agreement or results in a financial loss to the contract holder. The Plan Administrator does not believe that any events, including the partial Plan termination discussed in Note 6, have limited the Plan's ability to transact at contract value with participants.

Massachusetts Mutual Life Insurance Company ("MassMutual")

**SAGIC Investment Option
Fair Value Information for 2023 Plan Year**

Contract Name: Cascade Engineering, Inc. Retirement Plan

Group Annuity Contract Number: 21078

As a general rule, annual financial statements for pension plans with 100 or more participants at the beginning of a plan year must be audited in accordance with Department of Labor regulations.

MassMutual SAGIC is a market value separate account investment option with a general investment account guarantee that provides a stated rate of return and insulates participants' accounts from daily fluctuations in the market. Under the terms of the SAGIC group annuity contract, participants may direct permitted withdrawal and/or transfer transactions of all or a portion of their balance in the SAGIC investment option at Contract Value. Contract Value represents contributions plus credited interest less participant withdrawals and fees. Contract Value is also often referred to as "Book Value".

The fair value presented below represents the liquidation value as documented within the SAGIC contract and assumes that the intrinsic value of the general investment account guarantee is immaterial. Liquidation value is the market value of the assets in the separate account. MassMutual considers the SAGIC to be fully benefit responsive notwithstanding the liquidation value events under the contract that limit the ability of the plan to transact at Contract Value.

Fair Value for Plan Year ending	\$13,423,710.28
Contract Value for Plan Year ending	\$16,339,088.87

Please note that the actual fair value amount that would be available upon termination will differ from the fair value amount determined within contract specifications (see termination provisions stated within the contract). Additionally, this figure does not take into account any annuities that may have to be purchased.

The product described above is a group annuity product. The product does not operate like a mutual fund or bank collective trust fund. Information presented above is provided as a service to our clients and is based on MassMutual's interpretation of certain requirements as applicable to group annuity products. Such information and the methodologies utilized to generate the information shown above does not constitute an endorsement by MassMutual that such methodologies are appropriate to be reported on the Plan's annual financial statement. The plan sponsor and the plan auditor must solely determine whether the information MassMutual has provided is applicable given the particular contract and their interpretation of applicable regulations. Plan sponsors should consult with their Certified Public Accountant regarding the appropriateness of the financial statement presentation.

Massachusetts Mutual Life Insurance Company ("MassMutual") hereby certifies that the foregoing fair value information for plan assets held by MassMutual is complete and accurate.
