Independent Auditor's Report

Plan Participants and Administrative Committee
Stevens Engineers Employee Stock Ownership Plan

Opinion

We have audited the accompanying financial statements of the Stevens Engineers Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of August 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended August 31, 2023, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of August 31, 2023 and 2022, and the changes in its net assets available for benefits for the year ended August 31, 2023, in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets held at end of year as of August 31, 2023, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor (DOL)'s Rules and Regulations for Reporting and Disclosure under the ERISA. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material aspects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the Stevens Engineers Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

Stevens Engineers and Constructors, Inc. and Subsidiaries (the Company) established the Plan effective as of May 1, 2001. The Plan was adopted so that all members of the Stevens Engineers and Constructors, Inc. controlled group of corporations could participate in the Plan. The Plan is designed to operate as an employee stock ownership plan, and to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (Code), as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Eligibility

The Plan covers substantially all non-union employees of the Company who are at least age 21 and have attained one year of service, as of September 1st or March 1st in the Plan year following meeting the age and service requirements (the Plan entry dates). Employees will remain active participants in any subsequent Plan year in which the employee has worked at least 1,000 hours of service, as defined by the Plan. Certain employees of the Company who are hired as project personnel waive participation in the Plan.

Contributions

The Plan is funded by the Company's discretionary contributions to the Plan as determined by the Company's Board of Directors. No contributions were authorized by the Board of Directors for the year ended August 31, 2023. All Company contributions are subject to the limitations imposed under Code Section 404(a)(3)(A). Employee contributions are not permitted.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company Stock into investments that are more diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution. The election to diversify is made subsequent to year-end based upon the shares of Company Stock in the participant's account at year-end.

Effective September 1, 2017, the Plan was amended to allow for an extended diversification period past the sixth year, allowing participants eligible for diversifications to diversify 50% of their share balance less previously diversified shares.

NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN (Continued)

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of any Company Stock contributed by the Company to the Plan and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participants' eligible compensation, relative to total eligible compensation. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's account, as defined. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance to all participants' account balances.

Vesting

Effective September 1, 2022, the Plan was amended and all participants became 100% vested in their account balances.

Payment of Benefits

Upon termination of service for reason of death, disability, retirement, or any other reason, the participant will receive his or her account balance as a lump-sum distribution or in annual installments. The method of distribution is cash and is determined by the value of the participant's account at the date of distribution. If the participant's account balance is less than \$5,000, the Plan makes an automatic lump-sum distribution to the participant equal to the participant's interest in his or her account. If the participant's account balance is between \$5,000 and \$20,000, the distribution is paid in equal annual installments ranging from two to four years on a graded schedule. Balances between \$20,000 and \$1,105,000 are paid in equal annual installments over a period of five years. For participant balances in excess of \$1,105,000, distributions are paid over five years plus an additional year for each \$220,000 in excess of \$1,105,000, not to exceed five additional years. Effective September 1, 2023, if the participant's account balance is less than \$25,000, the Plan makes an automatic lump-sum distribution to the participant equal to the participant's interest in his or her account and balances above this amount are paid in the manner previously described.

At August 31, 2023, total shares for terminated participants that requested distributions that will be paid in subsequent year installments were approximately 3,479.

Voting Rights

The Trustee votes the Company Stock on behalf of the Plan and is required to vote on behalf of the collective best interest of the Company Stock Plan participants and beneficiaries. Plan participants may vote directly on issues related to the sale or liquidation of the Company.

NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN (Continued)

Put Option

Under federal income tax regulations, Company Stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the Company Stock. The put option permits the participant to sell Company Stock to the Company at any time during two option periods at the then fair market value as of the last valuation date, as specified in the Plan document. The Company can pay for the purchase in lump-sum or with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amount of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

The current method of valuation of investments considers certain assumptions related to the Company's future performance. These factors are subject to change over time and are reviewed periodically. Further, because of the inherent uncertainty of the valuation process, those estimated fair values may differ significantly from the values that would have been used had a ready market for the investments existed, and the differences could be material.

Income Taxes

In accordance with GAAP, the plan administrator is required to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service (IRS). As of August 31, 2023 and 2022, and for the year ended August 31, 2023, the Plan did not have a liability for unrecognized tax benefits. The Plan is subject to routine audits by tax jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTES TO THE FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Administrative Expenses

The Plan's administrative expenses are paid either by the Plan or the Company as provided by the Plan agreement. Expenses that are paid by the Company are excluded from these financial statements.

Investment Valuation and Income Recognition

The shares of Company Stock are valued at estimated fair value. See Note 5 for discussion of fair value measurement.

Dividend income is recorded on the ex-dividend date.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

Plan management has evaluated subsequent events through June 13, 2024, the date the financial statements were available to be issued.

3. INVESTMENTS

At August 31, 2023 and 2022, the investments in Company Stock are as follows:

	<u>2023</u>	<u>2022</u>
Stevens Engineers and Constructors, Inc., common stock, approximately 18,583 and 21,786 shares, respectively, at estimated fair value	\$ <u>6,216,024</u>	\$ <u>5,119,684</u>

The fair value of the Company Stock is determined annually, as of April 30, by an independent third-party appraiser. The Company Stock held as a Plan asset is valued using the most recent valuation approved by the Company's Board of Directors prior to the issuance of the audit report.

NOTES TO THE FINANCIAL STATEMENTS

3. INVESTMENTS (Continued)

The Plan's investment in Stevens Engineers and Constructors, Inc. and Subsidiaries constitutes approximately 98% of the Plan's total assets and the activity is illustrated in the statement of changes in net assets available for benefits. At August 31, 2023, the Plan owns approximately 23% of the outstanding stock of the Company.

All accounts are non-participant directed.

4. ADMINISTRATION OF PLAN ASSETS

The Plan's assets, which consist principally of Company Stock, are held by the Trustee, a designated individual at the Plan sponsor.

Company contributions are held and managed by the Trustee, who invests cash received, interest, and dividend income and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses of the Plan are comprised of annual administration fees which are paid either by the Plan or by the Company. Expenses that are paid by the Company are excluded from these financial statements.

5. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

- | | |
|---------|--|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

NOTES TO THE FINANCIAL STATEMENTS

5. FAIR VALUE MEASUREMENTS (Continued)

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There have been no significant changes in the valuation methodology used at August 31, 2023 and 2022.

Sponsor company common stock: Valued at fair value based upon an annual independent appraisal. This appraisal was based on a combination of the capitalized cash flow method, discounted cash flow method, and guideline public company method at August 31, 2023, and a combination of the capitalized cash flow method and guideline public company method at August 31, 2022. The appraiser took into account historical and projected cash flow, and net income, return on assets, return on equity, market comparables, the weighted average cost of capital, and revenue and EBITDA multiples. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

Plan management accumulates the data for the appraiser from the audited and projected financial statements of the Company. The appraiser prepares a preliminary report which Plan management, along with the Company's Board of Directors, reviews in detail, discusses, and approves. The appraiser's report, upon approval, is used to estimate per share value that a participant will receive upon distribution.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets measured at fair value are comprised of Level 3 Company Stock at August 31, 2023 and 2022, totaling \$6,216,024 and \$5,119,684, respectively.

Following is a reconciliation of activity for the year ended August 31, 2023, of assets measured at fair value based on significant unobservable (non-market) inputs (Level 3):

Balance - Beginning of year	\$	5,119,684
Unrealized gains		1,849,012

NOTES TO THE FINANCIAL STATEMENTS

7. TAX STATUS

The IRS has determined and informed the Company by a letter dated September 25, 2015, that the Plan and related trust are designed in accordance with applicable sections of the Code. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right, under the Plan, to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, each participant's account will be distributed at such time as described by the Plan. Also, upon termination, all liabilities and expenses of the Plan will be paid.

9. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in common stock of Stevens Engineers and Constructors, Inc., which is the Plan sponsor. These investment activities are related party and party-in-interest transactions. As described in Notes 2 and 4, the Company pays substantially all the expenses of the Plan. These party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

10. RISKS AND UNCERTAINTIES

The Plan investments consist primarily of Company Stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the Company Stock and to uncertainties inherent in the estimates and assumptions process, it is at least reasonably possible that changes in the value of the Company Stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
