INDEPENDENT AUDITOR'S REPORT

To the Trustees and Participants
Texas Chiropractic College DC Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Texas Chiropractic College DC Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of August 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended August 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2023 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended August 31, 2023 stating that the certified investment information, as described in Note E to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section,

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying 2023 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements were available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2023 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are

considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2023 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter –Supplemental Schedules Required by ERISA

The supplemental schedule of Schedule H, line 4i – Schedule of Assets Held for Investment Purposes is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment

information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including the form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTES TO FINANCIAL STATEMENTS
TEXAS CHIROPRACTIC COLLEGE DC RETIREMENT PLAN

NOTE A – Description of Plan

The following description of the Texas Chiropractic College DC Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General. The Plan is a defined contribution plan covering all employees of the Plan Sponsor and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

2. Eligibility and Participation Requirements. Generally, employees of the Plan Sponsor are ineligible to participate in the Plan until completing 12 months of service at which time they become automatically enrolled and are required, as a condition of employment, to withhold a minimum of 2% from eligible compensation for contributing to the Plan. However, employees that come from an institution of higher education are credited for months worked at a predecessor employer and may enter the plan immediately if they have worked for 12 consecutive months at their predecessor. Employees under the age of 21 are excluded from the mandatory participation requirement.

3. Entry Date. In general, employees must enter the Plan immediately upon meeting the eligibility requirements set forth above.

4. Contributions. Upon meeting eligibility requirements, participants must contribute a minimum of 2% to the Plan and can contribute up to the maximum percent allowed by the Internal Revenue Code, as defined in the Plan. Eligible compensation defined by the Plan includes all W-2 wages excluding bonus compensation.

Catch up contributions are also permitted under the Plan for participants who attain the age of 50 during the plan year. Participants may also contribute amounts representing distributions from other qualified plans.

Under the plan provisions, the Sponsor can make discretionary matching contributions at 100% of the participant's first 6% of elective deferrals. During the year ended August 31, 2023, the Sponsor made matching contributions of \$196,846.

5. Participant Accounts. Each participant's account is credited with the participant's contribution, the Sponsor's contribution and Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

6. Vesting. Participants are immediately vested in employee elective deferrals and Plan Sponsor matching contributions plus actual earnings thereon.

NOTES TO FINANCIAL STATEMENTS - continued
TEXAS CHIROPRACTIC COLLEGE DC RETIREMENT PLAN

NOTE A – Description of Plan - continued

7. Payment of Benefits. Distributions under the Plan are made upon a participant's death, disability, retirement, or termination of employment. Benefit payments are made in the form of a lump sum cash amount or in-kind distribution. Benefits are recorded when paid. As of August 31, 2023 and 2022, there were no benefit claims that had been processed and approved for payment.

8. Investment Options. Upon enrollment in the Plan, participants may direct the investment of their contributions and the Sponsor's matching contributions into any of the investment options offered by the Plan.

9. Plan Loans. Participants may borrow from TIAA-CREF using a portion of their plan account as security for the loan. The minimum loan is \$1,000 and may be up to the lesser of \$50,000 or 50% of their vested account balance. The loans bear interest at rates that range from 4% to 9.25%, which are commensurate with local prevailing rates as determined periodically by TIAA-CREF. Principal and interest is paid ratably through payroll deductions by the participant to TIAA-CREF. The Plan Administrator has concluded that these loans are not plan assets and that such arrangements are exempt transactions. Plan loan balances as of August 31, 2023 and 2022 are \$16,576 and \$23,327, respectively. As such, Plan assets of the same amount serve as collateral to the loans. Interest paid by participants on such loans during the plan year ended August 31, 2023 and 2022 were approximately \$766 and \$1,242, respectively. In the event of default, such loans are reportable to plan participants as taxable income but remain outstanding and continue to accrue interest until repaid by the plan participant or the participant becomes eligible to receive a distribution under the terms of the plan. As of August 31, 2023 and 2022, loans in default, including principal and accrued interest, were \$9,236 and \$8,817, respectively.

10. Notes Receivable from Participants – Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of August 31, 2023. Participant loans are valued at their outstanding balances, which approximates fair value.

NOTE B – Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan are prepared using the accrual method of accounting in accordance with generally accepted accounting principles in the United States of America.

Investment Valuation and Income Recognition – The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year. See Note H for discussion of fair value measurements.

Use of Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that may affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Expenses – Professional and administrative expenses of the Plan including legal, investment, and asset management fees are generally paid by the Plan, and if not paid by the Plan, are borne by the Sponsor.

Recently Accounting Pronouncements – Recent accounting pronouncements issued by the FASB did not or are not believed by management to have a material impact on the Plan's present or future financial statements.

NOTE C – Risks and Uncertainties

The investments offered by the Plan are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with these investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

NOTE D – Investment Contract with Insurance Company

The TIAA Traditional Annuity Contract represents an illiquid non-benefit responsive fixed-rate guaranteed annuity and is reported at fair value. Distributions from the contract are restricted in that withdrawals can only be made in 10 annual installments, except that lump-sum payments are available for 120 days following termination of employment and are subject to a 2.5% surrender charge. The guarantees and returns are backed by TIAA's claims-paying ability.

The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Each premium allocated to the fixed annuity investment contract buys a guaranteed minimum amount of lifetime income based on the rate schedule in effect at the time the premium is credited.

TIAA Traditional Annuity account balance is the aggregation of contributions, plus interest, less withdrawals, if any. Crediting rates are a combination of a guaranteed rate and an annually established discretionary rate. The discretionary rate applied to contributions received during a reporting period may vary from the discretionary rate applied to account balances at the end of the prior reporting period. Fair value is based on a discounted cash flow value calculated using an appropriate risk-adjusted market discount rate which correlates closely with the annuity's historical crediting rates.

There are no reserves against the value for credit risk of the contract issuer or otherwise. The investment contract guarantees principal and pays a guaranteed minimum interest rate during the accumulation phase – generally 3%.

Additionally, certain events limit the ability of the plan to transact at contract value with the issuer. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

NOTE E – Information Certified or Provided by TIAA-CREF

The investments presented as of August 31, 2023 and 2022 were certified as complete and accurate by Teachers Insurance and Annuity Association and College Retirement Equities Fund (TIAA-CREF). TIAA-CREF also certified to the completeness and accuracy (including gains and losses on investments bought and sold, as well as held during the year) of \$968,281 of net appreciation in the fair value of investments and \$42,198 of interest and dividends for the year ended August 31, 2023.

NOTE F – Tax Status

The Plan was initially adopted September 1, 1993 and was amended effective January 1, 2009 to be in compliance with new DOL reporting requirements. Although the Plan has not received a determination letter from the Internal Revenue Service, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Management has evaluated the Plan's tax positions as of August 31, 2023 and 2022 and for the year ended August 31, 2023 and has concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE G – Plan Termination

Although the Sponsor has not expressed any intent to do so, it has the right under the Plan to terminate the Plan, subject to provisions of ERISA. In the event of plan termination, participants would remain 100% vested in their accounts.

NOTE H – Fair Value Measurements

FASB ASC Codification 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Codification 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to valuation methodology include,

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

NOTE H – Fair Value Measurements – continued

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at August 31, 2023 and 2022.

TIAA-CREF Mutual Funds: Valued using market quotations or prices obtained from independent pricing services, except those held by the TIAA-CREF Money Market Fund, whose holdings are valued at amortized cost. Each fund determines its share price or net asset value (NAV) each day. The TIAA-CREF money market fund is managed to maintain a constant value, though not guaranteed, of \$1 per share.

TIAA Real Estate Pooled Separate Account: Valued based on the daily Net Asset Value ("NAV") per unit of the funds which is determined using quoted market prices of the underlying real estate holdings or other real estate-related investments. Real estate holdings are valued using external appraisals, which are estimates of property values based on a professional's opinion. The real estate account sometimes holds securities as well. These are generally priced daily using values obtained from independent pricing sources.

TIAA Traditional Group Annuity Contract: The contract is an illiquid non-benefit responsive fixed-rate guaranteed annuity valued using a discounted cash flow value calculated using an appropriate risk-adjusted market discount rate which correlates closely with the annuity's historical crediting rates.
