Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **YEO & YEO, P.C.**

(2) EIN: **38-2706146**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒

Independent Auditors' Report

To the Plan Administrator, Plan Management, Board of Directors, Trustees, and Participants of
Participants of The Pension Plan for the Mott Children's Health Center
Flint, MI

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of The Pension Plan for the Mott Children's Health Center (Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the years ended December 31, 2023 and 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2023 and 2022, and for the years then ended, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplementary Schedules Required by ERISA

The supplementary Schedule of Assets (Held at End of Year) as of December 31, 2023, and Schedule of Reportable Transactions for the year ended December 31, 2023, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplementary schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplementary schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplementary schedules, we evaluated whether the supplementary schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplementary schedules, other than the information in the supplementary schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplementary schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

The Pension Plan for the Mott Children's Health Center

Notes to the Financial Statements

December 31, 2023 and 2022

Note 1 – Description of the Plan

The following description of The Pension Plan for the Mott Children's Health Center (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution benefit plan covering substantially all employees of Mott Children's Health Center (Company), except for leased employees and independent contractors. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Employees are eligible for plan participation in all contributions after completing one year of service and are at least age 21. Upon becoming eligible, employees will enter the Plan on the earlier of the first day of the plan year or the first day of the seventh month of the plan year.

Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. During 2023 and 2022, the Company made contributions of \$1,000,000 and \$0, respectively. The Company's contributions exceeded the minimum funding requirements of ERISA.

Although it has not expressed any intention to do so, the Company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions set forth in ERISA.

Vesting

Full vesting occurs upon completion of five or more years of benefit service subject to break-in-service rules outlined in the Plan agreement. In addition, a participant shall be fully vested upon attainment of normal retirement age of 65.

Participants are credited with a year of service for vesting purposes upon completion of 1,800 hours of service during the year. Hours of service less than 1,800 but more than 1,000 are prorated.

Payment of Benefits

Pension benefits are calculated under two methods, pursuant to an amendment effective January 1, 2013. Benefits for employees are computed as the sum of the Old Formula Amount and the New Formula Amount. If a participant either reaches normal retirement age or accumulates 85 points before January 1, 2018, the New Formula Date will be the first day of the month on or after the day the participant reaches his normal retirement age. If the participant does not either reach normal retirement age or accumulate 85 points prior to January 1, 2018, their New Formula Date is January 1, 2013.

Old Formula Method: This method applies to amounts earned prior to the New Formula Date, as defined above. The annual pension is equal to 1.5% of the participant's average compensation multiplied by the participant's accrual service (up to a maximum of 10 years), plus 2.0% of the participant's average compensation multiplied by the participant's accrual service in excess of 10 years.

New Formula Method: This method applies to amounts earned subsequent to the New Formula Date, as defined above. The New Formula Amount is equal to the sum of all annual accruals where each annual accrual is computed by multiplying an annualized amount of participant's compensation earned during the Plan Year by the sum of (i) 1.5% multiplied by the participant's accrual service earned during the Plan Year, and (ii) 0.5% multiplied by that portion of the participant's accrual service earned during the Plan Year that is in excess of 10 total years of accrual service earned during the participant's entire period of employment. Compensation in a partial year (participant's year of termination, for example), shall be calculated (annualized) by dividing the

The Pension Plan for the Mott Children's Health Center

Notes to the Financial Statements

December 31, 2023 and 2022

amount of the participant's compensation earned in the Plan Year by a fraction, the numerator of which is the number of full months the participant worked in the same Plan Year and the denominator of which is 12.

Early Retirement Benefit

A participant may elect to retire on an early retirement date. Early retirement age is the age on the later of the date the participant reaches age 60 or the date they have 10 years of vesting service. In the event that the participant makes such an election, such participant shall be entitled to receive an early retirement benefit equal to the participants accrued benefit payable at the participants normal retirement date.

However, if a participant so elects, such participant may receive payment of an early retirement benefit commencing on the first day of the month coinciding with or next following the participant's early retirement date, which early retirement benefit shall be equal a percentage of his/her accrued benefit payable at his/her normal retirement date based on the following:

<u>Age When Benefit Begins</u>	<u>Percent of Normal Retirement Benefit</u>
64	97%
63	94%
62	91%
61	88%
60	85%

Death Benefits

A death benefit is paid to the participant's spouse if the participant dies before retirement benefits start, the participant is married, and the participant's vesting percentage is greater than zero. The death benefit equals the survivor's benefit under a 50% survivor form. The benefit is payable to the participant's spouse as of the earliest date the participant could have retired on or after the date of their death. This will be the participant's normal retirement date if they die before their normal retirement date and would not have reached early retirement age before that date. If the participant is still working for the Company on the date of their death, the earliest date the participant could have retired will be determined as if the participant had stopped working for the Company on the date of their death and survived to retire. This date will be the date of the participant's death if they die on or after their normal retirement date or they had reached early retirement age on the date of their death. If the value of the spouse's death benefit is \$5,000 or less, such value will be paid to the participant's spouse in a single sum in place of the monthly income.

If the requirements above have not been met on the date a participant dies, a single sum death benefit shall be payable to the participant's beneficiary. The single sum death benefit shall be equal to the present value of a deferred monthly retirement benefit payable to the participant beginning on their normal retirement date and payable under the normal form. The deferred monthly retirement benefit shall be equal to the participant's accrued benefit as of the date of their death. If the requirements above have been met on the date such participant dies and the Qualified Preretirement Survivor Annuity has not been waived, but the participant's spouse dies before the Qualified Preretirement Survivor Annuity starts, the present value of the Qualified Preretirement Survivor Annuity, determined as of the date of the spouse's death, shall be paid to the spouse's beneficiary.

Form of Benefit

Participants may elect to receive benefits in the form of a joint and survivor annuity, life annuity, or lump sum payments if certain conditions are met as defined in the plan agreement.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (US GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the Plan's investment adviser, and trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses consist of actuarial and audit fees, trustee fees, and Pension Benefit Guaranty Corporation premium. These expenses are paid directly from Plan assets, as allowed by the plan document.

Subsequent Events

Management has evaluated subsequent events through June 24, 2024, which is the date the financial statements were available to be issued.

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under US GAAP are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

The Pension Plan for the Mott Children's Health Center

Notes to the Financial Statements

December 31, 2023 and 2022

If the assets or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Classification within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Mutual funds – valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission (SEC). These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts – valued at the net asset value (NAV) of units held by the Plan at year end. The NAV, as provided by Principal Life Insurance Company, is used as a practical expedient to estimate fair value and is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. The NAV is not a publicly-quoted price in an active market.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2023 and 2022.

Fair Value Measurements at Reporting Date Using				
	Fair Value	Level 1	Level 2	Level 3

	<u>\$ 32,041,237</u>	<u>\$ 2,509,926</u>	<u>\$ -</u>	<u>\$ -</u>

* In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following tables summarize investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2023 and 2022, respectively. There are no redemption restrictions for these investments.

Note 4 – Actuarial Assumptions

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. These include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

Benefits under the plan are accumulated based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances — retirement, death, disability, and termination of employment — are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

Actuarial Assumptions and Methods

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary, Principal, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal, or retirement) between the valuation date and the expected payment date.

The significant assumptions used in the valuations as of January 1, 2023 were:

Notes to the Financial Statements
December 31, 2023 and 2022

Mortality	Based on Pri-2012 Total dataset base rate mortality table projected generationally using the Principal Mortality Improvement Scale (Principal 2022)
Interest rate used to value liabilities	5.25%
Inflation	2.40% increase per year
Asset return	5.50%
Normal retirement age	50% of active participants who have reached Rule of 85 (sum of age and vesting service) are assumed to retire immediately. The remainder of active participants are assumed to retire at age 65. Inactive participants are assumed to retire at age 65.

The interest rate and mortality rate assumptions were updated since the prior valuation as prescribed by law and to reflect best current estimates. These changes in assumptions resulted in an adjustment to the accumulated plan benefits (see Note 5).

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

Note 5 – Actuarial Present Value of Accumulated Plan Benefits

As of January 1, 2023, the date of the most current valuation, the actuarial present values of accumulated plan benefits are as follows:

	<u>2023</u>
Vested benefits:	
Participants currently receiving payments	\$ 21,418,863
Other participants	<u>11,198,339</u>
	32,617,202
Non-vested benefits:	<u>871,413</u>
Total actuarial present value of accumulated plan benefits	<u><u>\$ 33,488,615</u></u>

The change in the actuarial present value of accumulated plan benefits for the year ended January 1, 2023, is as follows:

Actuarial present value of accumulated plan benefits at January 1, 2022	\$ 38,598,826
Increase (decrease) during the year attributable to:	
Benefit payments	(2,082,179)
Benefits accumulated and plan experience	600,529
Change in assumptions	(5,131,279)
Increase for interest due to decrease in the discount period	<u>1,502,718</u>
Actuarial present value of accumulated plan benefits at January 1, 2023	<u><u>\$ 33,488,615</u></u>

The Pension Plan for the Mott Children's Health Center
Notes to the Financial Statements
December 31, 2023 and 2022

Changes in actuarial assumptions since the prior valuation were interest rate and mortality rates, as prescribed by law. See Note 4 for additional information on the assumptions associated with the Plan.

Note 6 – Related-Party Transactions and Party-In-Interest Transactions

Certain plan investments are managed by Principal Life Insurance Company. Principal Trust Company is the trustee of the Plan. These transactions qualify as party-in-interest transactions. Actuary services were also paid to Principal Trust Company. Fees incurred by the Plan for these services totaled \$67,717 and \$64,351 for the years ended December 31, 2023 and 2022, respectively.

The Plan made payments to Yeo & Yeo, P.C., plan auditor, totaling \$10,000 and \$9,200 to cover the audit fees for the years ended December 31, 2023 and 2022, respectively.

Note 7 – Certified Investments

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplementary schedule, including investments held at December 31, 2023 and 2022, and net appreciation (depreciation) in fair value of investments, interest and dividends for the years then ended December 31, 2023 and 2022, was obtained by management and agreed to or derived from information certified as complete and accurate by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (the trustee of the Plan).

Note 8 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Payments to retirees and beneficiaries whose benefits commences at least three years before the Plan's termination.
2. Payments to individuals who would have been eligible to receive benefits at least three years before the Plan's termination.
3. Those benefits of all other participants that were vested before termination.
4. Nonvested benefits that became vested on termination of the plan.

Where a benefit falls in the priorities also depends on:

1. Plan provisions in effect five years prior to the termination date.
2. A percentage of any increase in benefits due to changes in the plan during the last five years.
3. Amounts guaranteed by the Pension Benefit Guaranty Corporation.
4. Limitations for plan participants who are classified as substantial owners.
5. Dollar maximums on pensions, all as regulation by the Pension Benefit Guarantee Corporation.

If the assets of the pension fund are not adequate to provide the full benefits in any of the above categories, the existing assets will be allocated on a pro-rata basis within the first category in which obligations are not fully satisfied. If the assets of the pension fund are adequate to meet the benefit obligations in each of the above

The Pension Plan for the Mott Children's Health Center
Notes to the Financial Statements
December 31, 2023 and 2022

categories and any other obligations that may be required by law, the Company may be entitled to a cash refund of the excess assets to the extent allowed by law.

The PBGC monthly maximum guaranteed benefit for a 65-year-old retiree was \$6,750 and \$6,205 for 2023 and 2022, respectively.

Note 9 – Tax Status

The Company adopted a volume submitter plan, which received a favorable opinion letter from the Internal Revenue Service (IRS), dated March 30, 2018, indicating that the volume submitter plan is designed in accordance with applicable sections of the IRC. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 10 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods
The Pension Plan for the Mott Children's Health Center
EIN 38-1878678 Plan No. 001

Assumptions prescribed by law

Mortality	During benefit payment period IRS Prescribed Mortality - Static Annuitant, male and female. Before benefit payment period IRS Prescribed Mortality - Static Non-annuitant, male and female.
-----------	---

Assumptions selected by actuary

Inflation	2.40% increase per year. Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.
Asset return	5.50% for the current plan year. The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.
Expected expense	The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.
Retirement	50% of active participants who have reached Rule of 85 (sum of age and vesting service) are assumed to retire immediately. The remainder of active participants are assumed to retire at age 65. Inactive participants are assumed to retire at age 65. This assumption is based on the results of recent experience analysis and anticipated future experience.
Upcoming year salary increase	The preceding year's salary is increased by 3.00% at each age. Note: not used for Plan accounting calculations. This reflects company salary increase philosophies along with more recent experience of the plan participants.
Disability	None. This plan does not offer a subsidized disability benefit therefore the disability assumption is built into the withdrawal assumption.
Marriage	75% married; husbands are 3 years older than wives. This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods
The Pension Plan for the Mott Children's Health Center

Withdrawal	2003 Society of Actuaries Small Plan Age Table, multiplied by 1.20. We rely on a publicly published table due to the limited size of the plan. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 1.20 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.
Wage base increase	3.50% per year. Our Wage Base increase assumption are based on inflation and the real wage differential forecast from Social Security Trustee Report. Based on average annual real wage growth forecast from the Social Security Trustee report and historical averages, our best estimate places this assumption to 1.10% above inflation of 2.40%.
Form of benefit	Participants are assumed to receive their benefits on the normal form at the assumed retirement age. This assumption is based on the results of recent experience analysis and anticipated future experience.

Methods prescribed by law

Liability measure	Funding target is the present value of the benefits accrued on the valuation date. Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.
-------------------	---

Methods selected by plan sponsor

Asset method	Market value
Segment rates	24-month average with no weighting to prior law basis. Use rates where December is the last month included in the average.
PBGC premium basis	Variable rate premiums are calculated using census, market value of assets and the one-month average of corporate bond rates in effect on the valuation date. You elected this Standard interest method for the 01/01/2019 plan year and the method must be used for five years before a change can be made.

Segment 1 years 0-5	Segment 2 years 5-20	Segment 3 years 20+
4.84%	5.15%	4.85%

Methods elected by actuary

Retirees	Assets and liabilities for current and future retirees are included.
Vested benefits	A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date. The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality	Based on Pri-2012 Total dataset base rate mortality table projected generationally using the using the Principal Mortality Improvement Scale (Principal 2022).
Mortality base rates	During benefit payment period Retiree amount-weighted, male and female Before benefit payment period Employee amount-weighted, male and female The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Total dataset base rate table was selected based on information provided by the plan sponsor. Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.

EIN 38-1878678 Plan No. 001

Mortality improvement

Principal 2022 MI scale is based on MIM-2021-v3 application tool issued by SOA in October 2022 with the following parameters:

Parameter	Principal 2022
Historical dataset	SSA
Whittaker-Henderson Graduation	Order 3
Interpolation Structure	Basic
Graduated MI data last year ("jumping off" point)	2017
H/D transition ultimate year by age/cohort	2028/2028
Weight placed on interpolation by cohort	50%
Initial Slope periods (constraint)	2016-2017 (0.000)
LTR	SSA LTR 2022
COVID-19 or Excess load	None ¹

¹Based on the sponsor's input, plan experience does not show a need for long-term excess death or Covid death load adjustments.

See [Mortality documentation](#) for rationale and additional information.

Interest rate used to value liabilities

5.25%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

Treatment of administrative expenses

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Line 22 - Description Of Weighted Average Retirement Age
The Pension Plan for the Mott Children's Health Center
EIN 38-1878678 Plan No. 001

The weighted average retirement age is weighted by the expected percentage of active participants retiring at each age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

(1) Age	(2) Expected Active Headcount	(3) Retirement Rate	(4) Expected Retirements (2)*(3)	(5) Weighted Age (1)*(4)

Schedule SB, Part V - Summary of Plan Provisions
The Pension Plan for the Mott Children's Health Center
EIN 38-1878678 Plan No. 001

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the plan restatement signed 12/29/2020 including the amendment signed 10/25/2021.

Plan eligibility

Age	Attained age 21.
Service	One year of service in which at least 1,000 hours worked.
Class	All non-leased employees, including employees of affiliated employers

Normal retirement benefit

Age	Age 65.
Service	5 years of Vesting Service.
Form	Monthly annuity payable for life (optional forms may be elected in advance of retirement).
Amount (accrued benefit)	The normal retirement benefit is the sum of the Old Formula and New Formula amounts. Old Formula: applies to service earned prior to the Applicable New Formula Date. The benefit is the sum of (a) and (b) below: (a) 1.5% of Average Compensation multiplied by Years of Credited Service (up to 10 years) (b) 2% of Average Compensation multiplied by Years of Credited Service (in excess of 10 years) New Formula: applies to service earned after the Applicable New Formula Date. The benefit is the sum of all annual accruals where each annual accrual is the sum of (a) and (b) below: (a) 1.5% of Compensation multiplied by Credited Service earned during the plan year (b) 0.5% of Compensation multiplied by Credited Service earned during the plan year that is in excess of 10 years of total Credited Service

Schedule SB, Part V - Summary of Plan Provisions
The Pension Plan for the Mott Children's Health Center
EIN 38-1878678 Plan No. 001

Early retirement benefit

Age	Attained age 60.
Service	Completed 10 years of Vesting Service.
Form	Same as normal retirement benefit.
Amount	Accrued benefit on early retirement date. For participants or former participants who have met the age and service requirement, the accrued benefit is reduced as shown in the table below:

Age	Early Retirement Factor	
	Non-Union Employees	Union Employees
60	85%	66.67%
61	88%	73.33%
62	91%	80.00%
63	94%	86.67%
64	97%	93.33%

Additionally, effective January 1, 1988, if a participant or former participant who has attained age 60 and has at least 30 years of Vesting Service, the accrued benefit is unreduced for early retirement.

Special early retirement provision for active participants who retire on an early retirement date: If the Participant has accumulated at least 85 points, the accrued benefit is unreduced for early retirement. Points are determined based on the sum of the participant's age on his last birthday plus years of Vesting Service.

Late retirement benefit

Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	Greater of accrued benefit on late retirement date or accrued benefit on normal retirement date actuarially increased to late retirement date. retirement age.

Termination benefit

Vesting percentage	100% after five years of Vesting Service.
Form	Same as normal retirement benefit with income deferred until normal retirement date. A terminated participant may commence benefits at his early retirement date if he has met the eligibility requirements.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

Survivor annuity death benefit (a vested benefit)

Eligibility	Qualified married participant fully vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
Amount	If death occurs, the amount paid to the surviving spouse or beneficiary is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day.

Lump sum death benefit (a nonvested benefit)

Amount	If death occurs, the amount paid to the surviving spouse or beneficiary is equal to the actuarial equivalent of the participant's vested accrued benefit.
--------	---

Definitions

Applicable New Formula Date	For any participant who either (i) attains his normal retirement age, or (ii) whose sum of age plus service is at least 85 points on or before January 1, 2018 – the first date of the month on or after the day the participant attains normal retirement age. For all other Participants – January 1, 2013.
Average Compensation (applies to Old Formula Amount)	Compensation of a participant averaged over the 60 consecutive months, including periods prior to the effective date of the plan, which produce the highest monthly average within the last 120 completed months of employment.
Compensation (applies to New Formula Amount)	Wages earned during the plan year
Credited Service	A plan year during which an employee is credited with at least 1,800 hours of service. Hours of service less than 1,800 but more than 1,000 are prorated.
Vesting Service	A plan year during which an employee is credited with at least 1,000 hours of service.

Optional forms of
benefit payments

The optional forms of benefit payments are:

- Monthly annuity payable for life, or 5, 10, 15 years certain and life.
- Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 75, or 100.
- Single sum payment if the present value of the Normal Retirement Benefit does not exceed \$15,000.

The optional form conversion basis is 7.5% interest and the 1984 Unisex Pension Table for payments other than lump sums.

Lump sum provisions

Small amount force out (SAFO) – allowed up to \$5,000.

Lump sums in excess of SAFO - are allowed (if the present value does not exceed \$15,000) at retirement.

The conversion basis uses the applicable interest rate and applicable mortality table as set forth in Code Section 417 for lump sum payments. The applicable interest rate uses the second calendar month preceding the first day of the stability period which is the plan year.

Changes in Principal Eligibility or Benefit Provisions

There have been no changes in principal eligibility or benefit provisions since the last valuation.

Significant Event

The enrolled actuary has not been made aware that any significant events have occurred during the year.
