Independent Auditors' Report

To the Plan Participants and Plan Administrator
Osram Sylvania Pension Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of the Osram Sylvania Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certification from a qualified institution as of and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying 2022 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with U.S. generally accepted accounting principles.
- The information in the accompanying 2022 financial statements, related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Other Matter - Auditor's Report on the 2021 Financial Statements

Predecessor auditors performed an audit of the 2021 financial statements of the Plan. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the Plan that were certified by a qualified institution. Their report dated October 17, 2022, indicated that (a) the amounts and disclosures in the 2021 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America, and (b) the information in the 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C). Their report also indicated that the form and content of the 2021 supplemental schedule, other than the information in the 2021 supplemental schedule that agreed to or is derived from the certified investment information, was presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA; and the information in the 2021 supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determines meets the requirements of ERISA Section 103(a)(3)(C).

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. generally accepted accounting principles.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. generally accepted accounting principles.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2022, and Schedule H, line 4j - Schedule of Reportable Transactions for the year ended December 31, 2022 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all

material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

**OSRAM SYLVANIA PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021**

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the OSRAM SYLVANIA Pension Plan (the Plan) provides general information about the Plan's provisions. OSRAM SYLVANIA Inc. (the Company) is the plan sponsor. Participants should refer to the Plan document for a more complete description of the Plan's provisions, copies of which may be obtained from the Company.

General

The Plan is a defined benefit plan established through spinoffs from the Siemens Pension Plan and the Siemens Pension Plan for Union Employees (the Siemens Plans). Participants of the Siemens Plans who were employees of the Company as of September 30, 2011 automatically became participants in the Plan.

The Benefits Administrative Committee is responsible for the general administration of the Plan. The Investment Committee is responsible for selection and oversight of investments held by the Plan. State Street Bank & Trust is the Trustee of the Plan. Aon Hewitt is the actuary for the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan was last amended on July 1, 2018.

Effective in April 2021, the Plan adopted the following provisions under the Coronavirus Aid, Relief, and Economic Security Act (CARES Act): special withdrawals and a suspension of the required minimum distribution. The CARES Act allows for utilization of these provisions immediately, but requires formal adoption of the amendment no later than the last day as specified by current legislation. The Plan has not yet been formally amended to adopt these provisions.

Pension Benefits

Salaried employees who were participants in the OSRAM SYLVANIA Pension Plan for Salaried Employees on September 30, 2007, and whose age and service equaled 55 (Rule of 55) were permitted to remain in the plan or elect to freeze their pension benefits. Participants who did not meet the Rule of 55 did not have an option, and their pension benefits were frozen as of September 30, 2007. The OSRAM SYLVANIA Pension Plan for Salaried Employees merged into the Siemens Pension Plan (OSI Salaried Pension Plan Formula) on September 30, 2008. Effective December 31, 2010, pension benefits were frozen for all participants in the Siemens Pension Plan (OSI Salaried Pension Plan Formula) who elected to remain in the plan beyond September 30, 2007. Salaried participants in the Siemens Pension Plan (OSI Salaried Pension Plan Formula) had their benefits calculated based on a final average pay formula; additional service is counted for early or normal retirement eligibility. All other participants, including hourly and union hourly participants, continue to have their pension benefits calculated based on their years of credited service and final average pay.

**OSRAM SYLVANIA PENSION PLAN
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2022 AND 2021**

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Pension Benefits (continued)

The Plan generally permits early retirement at a reduced benefit, provided the participant has reached age 55 and has completed at least 15 years of credited service. In most cases, early retirement benefits are reduced by $\frac{1}{4}$ of 1% for each month by which the participant's pension commencement date precedes either his or her 60th or 58th birthday, depending on his/her years of credited service. There is no reduction in benefits for early retirement for eligible participants with at least 15 years of credited service that are age 60 and older when payments commence.

Participants vest in their accrued pension benefits upon attaining five years of employment in which they work a minimum of 1,000 hours each, after attainment of age 21. Once vested, the participant may receive his or her accrued benefits as an annuity at the time of retirement. Certain salaried employees, who were hired before January 29, 1993, can elect to receive a portion of their pension benefits as a lump sum.

The Plan provides a lump-sum option for the payment of pension benefits for salaried and non-union hourly participants who retire on or after January 1, 2018 and meet the requirements for early retirement or normal retirement.

Death and Disability Benefits

If an active participant dies with more than five years of service, a death benefit equal to a 50% survivor annuity with respect to the participant's accrued pension benefit is paid to the participant's surviving spouse.

Any participant who sustains a total and permanent disability and whose credited service is 15 years or more is entitled to a disability pension.

Active participants who become totally disabled receive annual disability benefits that are equal to the normal retirement benefit they have accumulated as of the time they became disabled.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and ERISA required supplemental schedules. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are recorded at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). See Note 8 for further discussion and disclosures related to fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan incurs administrative expenses directly related to the Plan which include, but are not limited to, Pension Benefit Guaranty Corporation (PBGC) fees, charges and disbursements of the Trustee, and fees and other expenses and charges of any actuary, legal counsel, or accountant. These expenses are reported on the statements of changes in net assets available for benefits as administrative expenses. All other administrative expenses are paid by the Company on behalf of the Plan. Expenses that are paid directly by the Company are excluded from these financial statements.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

OSRAM SYLVANIA PENSION PLAN
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2022 AND 2021

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

NOTE 3 - FUNDING POLICY

The Company contributes such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to participants and to satisfy the ERISA minimum funding requirements. The Plan has met the ERISA minimum funding requirements for 2022 and 2021.

NOTE 4 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits represent the actuarial present value of estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to: (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. For salaried participants, benefits are calculated based on employees' highest compensation over five consecutive years of credited service and, for hourly and union participants, benefits generally are calculated based on employees' highest compensation over five consecutive years out of the last ten years of credited service. The accumulated plan benefits for active employees are based on their highest compensation over five consecutive years out of the last ten years ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee services rendered to the valuation date.

The Plan's actuary estimated the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

OSRAM SYLVANIA PENSION PLAN
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2022 AND 2021

NOTE 4 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

The significant actuarial assumptions used in the December 31, 2021 valuation were:

Mortality Basis	Pri-2012 Mortality Tables for Annuitants and Non-Annuitants Generationally Projected Using Scale MP-2021 with Collar Adjustment
Discount Rate/Expected Rate of Return	4.09%
Retirement Rates	Varying retirement ages between 50 - 70

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan terminates, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuary estimated the accumulated plan benefits as of January 1, 2022. There were no significant changes to the Plan that would have changed the valuation had it been performed as of December 31, 2021.

The actuarial present value of accumulated plan benefits information as of December 31, 2021 and for the year then ended is as follows:

Vested Benefits:	
Participants and Beneficiaries Currently Receiving Benefits	\$ 54,049,963
Other Participants	176,482,439
Total Vested Benefits	<u>230,532,402</u>
Non-vested Benefits	3,462,672
Total Actuarial Present Value of Accumulated Plan Benefits	<u><u>\$ 233,995,074</u></u>
Year Ended	
<u>December 31, 2021</u>	
Actuarial Present Value of Accumulated Plan Benefits at	
Beginning of Year	\$ 266,999,906
Increase (Decrease) During the Year Attributable to:	
Interest Accumulation	8,451,212
Benefits Paid	(18,833,963)
Change in Actuarial Assumptions	(26,284,355)
Other Changes	3,662,274
Net Decrease	<u>(33,004,832)</u>
Actuarial Present Value of Accumulated Plan Benefits at End of Year	<u><u>\$ 233,995,074</u></u>

**OSRAM SYLVANIA PENSION PLAN
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2022 AND 2021**

**NOTE 4 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS
(CONTINUED)**

The benefits accumulated and other changes represent the normal operation of the Plan, and consist primarily of the increase due to ongoing benefit accruals and those items of Plan experience that are not associated with asset performance.

The change in actuarial assumptions of \$33,004,832 reflects: (1) an increase in the discount rate from 3.28% to 4.09% (2) a change in the mortality projection scale from MP-2020 to MP-2021 (3) the effect of an update to the mortality and interest rates for determining lump-sum payments under Internal Revenue Code (Code) section 417(e)(3) and, (4) a change in the Social Security National Average Wage.

NOTE 5 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination, the net assets of the Plan will be allocated for payment to the participants in an order of priority as prescribed by ERISA and its related regulations and the Plan document.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated plan benefits and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC, as well as the priority of those benefits. Some benefits may be fully or partially provided for by the then-existing net assets of the Plan and the PBGC guarantee, while other benefits may not be provided for at all.

NOTE 6 - TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service (IRS), dated March 11, 2014, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Subsequent to the receipt of the determination letter, the Plan has been amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator has indicated that it will take the necessary steps, if any, to bring the Plan's operations in compliance with the Code.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions.

OSRAM SYLVANIA PENSION PLAN
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2022 AND 2021

NOTE 7 - INVESTMENTS

Certain investment information for the Plan disclosed in the accompanying financial statements and ERISA required supplemental schedules, including investments held at December 31, 2022 and 2021, and net depreciation in fair value of investments, interest and dividends for the years ended December 31, 2022 and 2021, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by the Trustee of the Plan.

NOTE 8 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

NOTE 8 - FAIR VALUE MEASUREMENTS (CONTINUED)

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2022 and 2021.

Common/Collective Trusts: These assets are valued as reported by the issuer using net asset value (NAV).

Mutual Fund: Valued at the daily closing price as reported by the fund. The mutual fund held by the Plan is an open-end mutual fund that is registered with the Securities and Exchange Commission. This fund is required to publish its daily NAV and to transact at that price. The mutual fund held by the Plan is deemed to be actively traded.

Cash Equivalents: Investments in cash equivalents are valued based on cost, which approximates fair value in a non-inflationary economy and are protected by the FDIC.

Futures: Traded in active markets on national and international securities exchanges are valued at closing prices on the last business day of each period presented. Securities traded in markets that are not considered active are valued based on quoted market prices, broker or dealer quotations, or alternative pricing sources with reasonable levels of price transparency. Securities that trade infrequently and therefore have little or no price transparency are valued using the investment manager's best estimates.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

NOTE 9 - DERIVATIVES

In the normal course of operations, the Plan's assets and liabilities may include derivative financial instruments (swaps, forwards, futures, and options). These derivatives may involve, in varying degrees, elements of credit and market risks in excess of more traditional investment holdings, such as equity and debt instruments. The contract or notional amounts disclosed in this note and the amounts of realized and unrealized gains and losses on derivative instruments during the period presented below provide a measure of the Plan's involvement in such instruments, but are not indicative of potential loss. The intent is to use derivative financial instruments as investments to gain exposure to certain markets and as economic hedges to manage interest rate and equity price risks associated with the Plan's investments and obligations. The Plan's fiduciaries do not anticipate any material adverse effect on the Plan's financial position resulting from its involvement in these instruments.

The following tables present the effect of realized gains (losses) and changes in unrealized gains (losses) with respect to these derivative instruments, by type of derivative at December 31, 2022 and 2021:

Interest Rate Derivatives:	
Futures Contracts	<u>\$ (2,398,825)</u>
	2021

NOTE 9 – DERIVATIVES (CONTINUED)

Futures Contracts

On behalf of the Plan, investment managers enter into various futures contracts as cost-effective ways to manage the overall asset allocation of the investment portfolio and to implement and manage duration and yield curve strategy in the fixed income portfolio. These contracts, which are considered derivatives under ASC 815, *Derivatives and Hedging*, are agreements between two parties to buy or sell a security or financial interest at a set price on a future date and are standardized and exchange traded. Upon entering into such a contract on behalf of the Plan, the investment manager is required to pledge to the broker an amount of cash or securities equal to the minimum initial margin requirements of the exchange on which the contract is traded. Pursuant to the contract, the investment manager agrees to receive from or pay to the broker a variation margin related to the daily fluctuation in the value of the contract. Such receipts or payments are known as variation margin and are recorded on a daily basis as a realized gain or loss equal to the difference in the value of the contract between daily closing prices.

Counterparty credit risk associated with the Plan's derivatives is the risk that a derivative counterparty will not perform in accordance with the terms of the applicable derivative contract. With futures and options on futures, there is minimal counterparty credit risk to the Plan, because those contracts are exchange traded and settled on a daily basis and the exchange's clearinghouse, as a counterparty to all exchange-traded futures, guarantees the futures against default.

The following tables present open futures contracts at December 31, 2022 and 2021. The fair values presented in these tables are only the current day's variation receivable/payable, as is reported in the statements of net assets available for benefits. The variation margin is presented in the statements of net assets available for benefits as variation margin interest receivable or derivatives securities liability, as applicable.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V—Summary of Plan Provisions

The OSRAM Salaried, Hourly and Union employees were spun off from the Siemens Pension Plan (SPP) and the Siemens Pension Plan for Union Employees (SPPU) as of October 1, 2011. The spinoff groups merged to form the OSRAM Sylvania Pension Plan. The provisions applicable to each group follow. Effective April 1, 2016, LEDVANCE LLC employees as of July 1, 2016 were spun off from this plan into a new pension plan.

OSRAM Salaried

Effective Date	Originally effective January 29, 1993. Amended and restated January 1, 2013. Most recently amended effective as of July 1, 2018 (Seventh Amendment). Effective January 1, 2011, all benefits accrued under the plan were frozen for legacy OSRAM salaried participants.
Eligibility	<p>Participation retroactive to date of hire (or beginning of plan year) upon completion of 1,000 hours of service in the 12 month period (or plan year) following date of hire before becoming eligible. Certain participants in GTE pension plans were transferred to the plan effective January 29, 1993. Certain participants in Motorola pension plan were transferred to the plan effective March 1, 2000.</p> <p>The plan was closed to new entrants January 1, 2007. For participants whose age + service was less than 55 (Rule of 55) on October 1, 2007, benefits were frozen as of October 1, 2007. Participants who met the Rule of 55 were given the choice of remaining in the current plan or freezing benefits as of October 1, 2007. Participants whose benefits were frozen receive additional defined contribution plan benefits.</p> <p>Effective July 1, 2018, participants who transfer employment directly to OSRAM CONTINENTAL USA, Inc. will continue to receive Accredited Service for eligibility purposes under the plan while they are employed with OSRAM CONTINENTAL USA, Inc.</p>
Normal Retirement Eligibility	Age 65 with five years of vesting service or fifth anniversary of participation, if earlier.

Schedule SB Attachment (Form 5500)—2022 Plan Year
OSRAM Sylvania Pension Plan
EIN: 04-3349012 PN: 001

Benefit

The annual pension is 1.15% of average annual compensation plus an additional 0.3% of such average annual compensation in excess of the average maximum earnings subject to FICA tax for a person attaining age 65 in the year the member retires, such total multiplied by years of accredited service. This benefit shall not be less than the greater of:

- (a) 1.35% of average annual compensation multiplied by years of accredited service; and
- (b) A dollar amount (from \$105 to \$3,300 based on service).

Former Motorola-LZ participants receive the greater of the accredited service pension above or their prior formula reflecting accredited service as of March 1, 2000 plus the ongoing formula above reflecting future accredited service.

Early Retirement
Eligibility

Age 55 with 15 years of accredited service. (For former GTE employees, 15 years of accredited service, provided that the sum of accredited service and age is at least 76 years.)

Benefit

The annual pension is the accrued benefit payable at age 65 but reduced 3% per year if payments commence before age 60 (the reduction starts at age 58 if the participant has 20 years of accredited service); there is no reduction if the commencement date is between ages 60 and 65.

For former Motorola-LZ participants, Motorola Pension Plan early retirement provisions will be applied to that part of the normal retirement benefit that is determined by their prior formula, if any.

For former GTE employees, for a benefit that commences prior to age 55, that part of the benefit payable at age 65 with pre-January 29, 1993 service is reduced by 3% per year for each year before age 55. For former GTE employees who are age 55 with 15 years of accredited service, that part of the benefit payable at age 65 with pre-January 1993 service shall be reduced by Table 2—Early Commencement Factors.

OSRAM Sylvania Pension Plan
EIN: 04-3349012 PN: 001

Disability	
Eligibility	Fifteen years of accredited service.
Benefit	The accrued benefit is payable upon 90 days notice without reduction for early commencement (using Table II(b)—Disability Joint and Survivor Factors).
Termination	
Eligibility	Five years of vesting service.
Benefit	The annual pension is accrued benefit payable at age 65 or reduced actuarially (using Table 2—Early Commencement Factors) if payments commence after age 55 but before age 65.
Death Benefits	
Before Retirement	If the member dies after he has a vested right, the spouse receives a pension for life equal to $\frac{1}{2}$ of the joint and 50% survivor benefit that would have been payable at member's normal retirement date if the member had terminated employment on the date of his death. The spouse's pension is payable at the member's normal retirement date or in an actuarially reduced (using Table 2—Early Commencement Factors) amount any time after member's eligibility for early retirement. There is no reduction for early commencement of spouse's pension if the member died in the service of the company with five years of vesting service.
After Retirement	The normal form of payment is a life annuity. If the member has a spouse, this normal form is automatically converted to a joint and 50% survivor option unless such conversion is waived.

Early Retirement
Eligibility

Age 55 with 15 years of accredited service.

Benefit

The annual pension is the accrued benefit payable at age 65 but reduced 3% per year if payments commence before age 60 (the reduction starts at age 58 if the participant has 20 years of accredited service); there is no reduction if the commencement date is between ages 60 and 65 or age 55 with 30 years of service.

Supplemental Benefits
Eligibility

Payable to members who retire with 15 years of accredited service and have attained age 60 (but less than age 62), 20 years of accredited service and have attained age 58 (but less than age 60), termination due to layoff with 25 years of accredited service and have attained age 55, or 30 years of accredited service and have attained age 55.

Benefit

The annual benefit is \$240 times years of accredited service to a maximum of 25 years. This supplemental payment commences at age 60 with 15 years of service at retirement, or at age 58 with 20 years of service at retirement, or at age 55 with 30 years of service at retirement, and ceases at the earlier of age 62, Social Security benefit eligibility, or death.

Disability Benefits
Eligibility

Ten years of accredited service.

Benefit

The accrued benefit is payable upon 90 days notice without reduction for early commencement. The pension benefit is reduced by other disability income (except for statutory Worker's Compensation benefits) paid for by the company's premiums or taxes.

Schedule SB Attachment (Form 5500)—2022 Plan Year
OSRAM Sylvania Pension Plan
EIN: 04-3349012 PN: 001

Termination
Eligibility

Five years of vesting service, or attained normal retirement age; or layoff.

Benefit

The annual pension is accrued benefit payable at age 65 or reduced actuarially (using Table 1—Early Commencement Factors) if payments commence after age 55 but before age 65.

Death Benefits
Before Retirement

If the member dies after he has a vested right, the spouse receives a pension for life equal to $\frac{1}{2}$ of the joint and 50% survivor benefit that would have been payable at member's normal retirement date if the member had terminated employment on the date of his death. The benefit is payable in an unreduced amount commencing at the member's death if the member died while employed or if the member was eligible for early or disability retirement. Otherwise, the spouse's pension is actuarially reduced (using Table 1—Early Commencement Factors) for early commencement. The reduction is to an actuarially equivalent benefit.

After Retirement

The normal form of payment is a life annuity. If the member has a spouse, this normal form is automatically converted to a joint and 50% survivor option unless such conversion is waived.

For Ontario, Warren, Winchester, and St. Mary's employees, there is no reduction at age 55 with 30 years of service.

For Wellsboro and Central Falls employees, there is no reduction with 30 or more years of service.

For employees of Sylvania Lighting Services Corporation, the annual pension is reduced by the appropriate factor in Table I—Early Commencement Factors for commencement prior to age 65.

Supplemental Benefits
Eligibility

Payable to members who retire with 15 years of accredited service and age 60 (but less than age 62) or 20 years of accredited service and age 58 (but less than age 60).

Benefit

The annual benefit is \$216 times years of accredited service to a maximum of 25 years. This supplemental payment commences at age 60 with 15 years of service, or at age 58 with 20 years of service. The supplement ceases at age 62 (or, if earlier, member's eligibility for Social Security benefits or death).

For Winchester, Warren, St. Mary's, Ontario, and Bethlehem employees, the annual benefit is \$240 times years of accredited service to a maximum of 25 years. This supplemental payment commences at age 60 (but less than age 62) with 15 years of service, or at age 58 (but less than age 60) with 20 years of service, or at age 55 with 30 years of service. The supplement ceases at age 62 (or, if earlier, member's eligibility for Social Security benefits or death).

Disability

Eligibility Ten years of accredited service (employees of Sylvania Lighting Services Corporation are not eligible for disability retirement in its entirety).

Benefit The accrued retirement benefit is payable upon 90 days notice without reduction for early commencement. The pension benefit is reduced by other disability income (except for statutory Worker's Compensation benefits) paid for by the company's premiums or taxes.

Termination
Eligibility

Five years of service or age 65.

Benefit The annual pension is accrued benefit payable at age 65 or reduced actuarially (using Table 1—Early Commencement Factors) if payments commence after age 55 but before age 65. A separate table of early commencement factors specified in the plan applies to St. Mary's, Central Falls, and Wellsboro.

Death Benefits
Before Retirement

If the member dies after he has a vested right, the spouse receives a pension for life equal to $\frac{1}{2}$ of the joint and 50% survivor benefit that would have been payable at the member's normal retirement date if the member had terminated employment on the date of his death. The benefit is payable in an unreduced amount commencing at the member's death if the member died while employed and was eligible for early retirement or was eligible for disability retirement. Otherwise, the benefit shall be reduced by the appropriate factor in Table I—Early Commencement Factors.

For Wellsboro and Central Falls employees, if the member was eligible for early retirement or had more than 10 years of accredited service, the spouse receives a pension for life equal to $\frac{1}{2}$ of the single life annuity that would have been payable at the member's normal retirement date if the member had terminated employment on the date of his death. This benefit is reduced by one-fifth of 1% for each month that the spouse is more than 60 months less than the age of the deceased member. If the spouse elects to have this pension commence immediately, the benefit shall be reduced by $\frac{1}{2}$ of 1% for each month that the member's death precedes his sixtieth birthday.

Schedule SB Attachment (Form 5500)—2022 Plan Year
OSRAM Sylvania Pension Plan
EIN: 04-3349012 PN: 001

For Wellsboro and Central Falls, if the member was not eligible for early retirement benefit, the spouse receives a pension for life equal to $\frac{1}{2}$ of the joint and survivor as described above. If the spouse elects to have this pension commence immediately, it will be reduced by $\frac{1}{180}$ th for the first 60 months and $\frac{1}{360}$ th for each additional month that the member's death precedes his sixty-fifth birthday.

Unreduced benefits are also payable to spouses of Wellsboro and Central Falls employees any time after the employee's death if the employee had completed at least 30 years of service, or at the employee's age 60 if the employee had completed at least five years of service. Otherwise, the spouse's pension is actuarially reduced for early commencement. The reduction is to an actuarially equivalent benefit.

For employees of Sylvania Lighting Services Corporation, the spouse's pension cannot commence prior to the employee's sixtieth birthday, or earliest retirement date.

After Retirement

The normal form of payment is a life annuity. If the member has a spouse, this normal form is automatically converted to a joint and 50% survivor option unless such conversion is waived.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- A change in the Social Security National Average Wage from 2.50% inflation plus merit increases to 2.00% inflation plus merit increases.

This change was made to better reflect the anticipated plan experience. This change did not reduce the funding shortfall more than the thresholds stated in Internal Revenue Code Section 430(h)(5), so approval of the Commissioner is not required.
