Independent Auditor's Report

Plan Participants and Board of Trustees
Mantline Corporation Employee Stock Ownership Plan and Trust

Opinion

We have audited the accompanying financial statements of the Mantline Corporation Employee Stock Ownership Plan and Trust (the Plan), an employee benefit plan subject to the Employee Retirement Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of September 30, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended September 30, 2023, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of September 30, 2023 and 2022, and the changes in its net assets available for benefits for the year ended September 30, 2023, in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets held at end of year as of September 30, 2023, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor (DOL)'s Rules and Regulations for Reporting and Disclosure under the ERISA. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material aspects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN

The following description of the Mantaline Corporation (the Company) Employee Stock Ownership Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Company established the Plan as a stock bonus and an employee stock ownership plan (ESOP). The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (Code), as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by an officer of the Company appointed by the Company's Board of Directors. The Board of Trustees oversees governance of the Plan.

The Plan covers all employees of the Company after one year of service, provided they work a minimum of 1,000 hours and are age nineteen or older.

Contributions

The Plan is funded solely by the Company's discretionary contributions to the Plan as determined by the Company's Board of Directors. Contributions for the year ended September 30, 2023, were \$557,336. All Company contributions are subject to the limitations imposed under Code Section 404(a)(3)(A). Employee contributions are not permitted.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company Stock into investments that are more diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution or a rollover to another qualified defined-contribution plan sponsored by the Company or an IRA. The election to diversify is made subsequent to year-end based upon the shares of Company Stock in the participant's account at year-end.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited with the Company's contributions and Plan earnings or losses as defined by the Plan agreement. Allocations of the Company's contributions are given only to participants employed at the end of the Plan year. In addition, a participant who has retired with more than 10 years of service, dies, or terminates employment due to disability during a Plan year is entitled to their share of the Company's contributions. Allocations are based on a participants' eligible compensation, as defined, relative to total eligible compensation and are subject to applicable limitations for the Plan year relating to the contributions. Plan earnings or losses are based on an annual valuation of Company Stock. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN (Continued)

Vesting

Vesting of a participant's account is based on years of continuous service with the participant vesting 20% each year after two years of service and being fully vested after six years of credited service.

Payment of Benefits

Upon qualifying for a distribution (other than for diversification), a participant or their beneficiary shall receive distributions of Company Stock as a lump-sum distribution equal to his or her vested account balance or periodic cash installments financed by the Company over a period not to exceed 10 years or the participant's remaining life expectancy at the time payments begin. Generally, the cash installment option is paid out over five years. Participants terminated for reasons other than death, disability, or retirement may receive their vested benefits upon the allocation date, as defined, after a break in service of two consecutive years. If the participant's account balance is not greater than \$1,000, the plan administrator may make a lump-sum distribution of the entire account balance.

Forfeited Accounts

Forfeited non-vested shares of terminated participants are redistributed to eligible participant accounts based on the ratio that each eligible participant's compensation bears to the total compensation paid to all eligible participants for the Plan year. The redistribution of forfeitures occurs two Plan years after the participant's termination date. There was no balance in the forfeiture account at September 30, 2023 and 2022.

Put Option

Under federal income tax regulations, Company Stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the Company Stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participants have the ability to ultimately obtain cash.

Stock Redemption Option

The Plan provides all participants separating from service due to death, disability, or termination with a stock redemption option. The stock redemption option permits the participant, on an annual basis, to sell up to 20% of their shares to the Company in exchange for 25% of the redemption price paid in cash and the remaining 75% paid in the form of a five year note with interest payable at the prime rate (8.50% at September 30, 2023, and 6.25% at September 30, 2022). The redemption price is the fair market value of the stock as determined as of the last valuation date.

NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN (Continued)

Voting Rights

With respect to matters (subject to Ohio law or the Company's Articles of Incorporation or Code of Regulations) which must be voted upon by Plan participants, each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated shares for which instructions have not been provided by a participant.

Benefit Obligations

Included in net assets available for benefits are amounts allocated to individuals who have elected to withdraw from the Plan, but who have not been paid. Plan assets allocated to these participants totaled \$31,059 at September 30, 2023. There were no such amounts at September 30, 2022.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Accounting Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amount of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

The current method of valuation of the investments considers certain assumptions related to the Company's future performance. These factors are subject to change over time and are reviewed periodically. Further, because of the inherent uncertainty of the valuation process, those estimated fair values may differ significantly from the values that would have been used had a ready market for the investments existed, and the differences could be material.

Investment Valuation and Income Recognition

The shares of Company Stock are reported at estimated fair value. See Note 5 for a discussion of the fair value measurements.

Dividend income is accrued on the ex-dividend date.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

NOTES TO THE FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Plan Expenses

All expenses of maintaining the Plan are paid by the Company. Expenses that are paid by the Company are excluded from these financial statements.

Income Taxes

In accordance with GAAP, the plan administrator is required to evaluate tax positions taken by the Plan and recognize a tax liability for any significant uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service (IRS). As of September 30, 2023 and 2022, and for the year ended September 30, 2023, the Plan did not have a liability for unrecognized tax benefits. The Plan is subject to routine audits by tax jurisdictions; however, there are currently no audits for any tax periods in progress.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

Plan management has evaluated subsequent events through June 28, 2024, the date the financial statements were available to be issued.

3. INVESTMENTS

The Plan's investments as of September 30, 2023 and 2022, are as follows:

	<u>2023</u>	<u>2022</u>
Mantaine Corporation common stock, 69,881 shares at estimated fair value	<u>\$ 12,438,818</u>	<u>\$ 7,337,504</u>

The fair value of the Company Stock is determined annually, as of September 30, by an independent third-party appraiser. The Company Stock held as a Plan asset is valued using the most recent valuation approved by the Plan's Board of Trustees. The Plan's investment in Mantaine Corporation constitutes approximately 100% of the Plan's total assets and the activity is illustrated in the statement of changes in net assets available for benefits. The Plan owns 100% of the outstanding stock of Mantaine Corporation.

All participant accounts are non-participant directed.

NOTES TO THE FINANCIAL STATEMENTS

4. ADMINISTRATION OF PLAN ASSETS

The Plan's assets, which consist principally of Company Stock, are held by the Trustee, a designated individual at the Company.

Company contributions are held and managed by the Trustee, who invests cash received, interest, and dividend income and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses of the Plan are comprised of annual administration fees which are paid directly by the Company.

5. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There has been no change in the methodology used at September 30, 2023 and 2022.

Sponsor company common stock: Valued at fair value based upon an annual independent appraisal. This appraisal was based on a combination of the market and income valuation methods consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of Company assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

NOTES TO THE FINANCIAL STATEMENTS

5. FAIR VALUE MEASUREMENTS (Continued)

Sponsor company common stock (continued): Plan management accumulates the data for the Plan's appraiser from the reviewed and projected financial statements of the Company. The Plan's appraiser prepares a preliminary report which Plan management, along with the Board of Trustees, reviews in detail, discusses, and approves. The results of this process are documented in the minutes of the Plan. The Plan appraiser's report, upon approval, is used to estimate per share value that a participant will receive upon distribution.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets measured at fair value are comprised of Level 3 Company Stock at September 30, 2023 and 2022, totaling \$12,438,818 and \$7,337,504, respectively.

During 2023, there were no sales, purchases, or transfers in or out of Level 3 investments.

6. TAX STATUS

The IRS has determined and informed the Company by a letter dated May 24, 2017, that the Plan and related trust are designed in accordance with applicable sections of the Code. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

7. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in common stock of Mantaline Corporation, which is the Plan sponsor. These investment activities are related party and party-in-interest transactions. As described in Notes 2 and 4, the Company pays the expenses of the Plan. These party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

8. RISKS AND UNCERTAINTIES

The Plan investments consist primarily of Company Stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the Company Stock and due to uncertainties inherent in the estimates and assumptions process, it is at least reasonably possible that changes in the value of the Company Stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTES TO THE FINANCIAL STATEMENTS

9. SUBSEQUENT EVENT

On February 29, 2024, the Company was sold and under provisions of the IRC, the Plan was no longer an employee stock ownership plan. Company Stock was converted to cash, and the Plan transitioned to a frozen profit sharing plan under a new trustee.

In an amendment to the Plan effective February 29, 2024, the benefit accruals for all participants were frozen and no additional benefits were able to be accrued. Participants also became 100% vested in their accounts as of February 29, 2024. Benefits to participants shall be paid as soon as administratively feasible, as defined, following the termination date for 95% of their account balance and the remaining balance to be paid following certain other provisions and payments as defined in the amendment.
