NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2020 AND 2019 (UNAUDITED)

Note 1: Description of Plan

The following description of the Advanced Nutrients 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan of a controlled group of companies consisting of Advanced Nutrients US LLC, Advanced Labs, Inc., Applied Plan Science, Inc, Advanced Hemp Inc. and Humanity Hero’s Foundation (collectively referred to as the “Company”). The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (“IRC”) and similar state tax laws. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Plan initially became effective on October 1, 2015. The Plan Adoption Agreement was amended and restated on December 15, 2020.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security (“CARES Act”) was signed into law. Plans are permitted to immediately adopt any of the provisions provided that the Plan document is retroactively amended on or before December 31, 2022. Further discussion of the provisions adopted can be found in **Payment of Benefits** and **Notes Receivable from Participants**.

Employees will become eligible to participate in the Plan if they have completed 1 month of service and have reached the age of 18. Plan entry dates are on the first day of each month after satisfying eligibility requirements. All eligible employees are automatically enrolled in the Plan at a 3% deferral rate unless the employees elect to opt-out or defer a different amount.

Contributions

Each year participants may contribute 100% of pretax annual compensation, as defined in the Plan, up to the IRC annual maximum. Such contributions may be pre-tax Elective Deferrals (as defined). In addition, participants may make after-tax Roth Contributions (as defined). Participants may also contribute amounts representing distributions from other qualified plans (“rollovers”). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan allows for the Company to make discretionary matching contributions. During 2020 the Company matched 100% of employee deferred compensation up to the first 3% of compensation contributed by the employee, and 50% of employee deferred compensation that exceed 3% employee compensation that do not exceed 7% of the employee compensation. The Plan also allows for the Company to make a discretionary profit-sharing contribution. For the year ending December 31, 2020, the Company did not elect to make a profit-sharing contribution.

Participant Accounts

Each participant’s account is credited with the participant’s contributions and allocations of (a) the Company’s contributions, (b) Plan earnings or losses, and (c) administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

ADVANCED NUTRIENTS 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2020 AND 2019 (UNAUDITED)

Note 1: Description of Plan (Continued)

Vesting

Participants are immediately 100% vested in their contributions plus actual earnings thereon. Participants are also immediately 100% vested in all Company contributions plus actual earnings thereon.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant account. All loans shall bear an interest rate equal to the prime rate plus 1%, which shall remain fixed throughout the duration of the loan. Principal and interest is paid ratably through payroll deductions. Each participant may have one loan outstanding at a time.

In accordance with the CARES Act, the Plan adopted the following temporary provisions for qualified participants:

- For qualified individuals with outstanding loans, loan repayments during the period March 27, 2020 through December 31, 2020, may be deferred. During the period of deferment, the loans will continue to accrue interest. Accrued interest will be added to the remaining principal balance, and the loan will be re-amortized. The term of the loan can be extended up to 1 year from the date the loan was originally due to be repaid.
- Qualified individuals may borrow the lessor of \$100,000 or 100% of their vested account balance from March 27, 2020 to September 22, 2020.

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, installment payments or an annuity. Participants may also elect to rollover their account to another tax deferred account or remain in the Plan until they are legally required to begin taking distributions. All vested account balances not exceeding \$1,000 will be immediately distributed in a lump-sum payment. All vested account balances exceeding \$1,000, up to \$5,000, will be immediately rolled into another tax deferred account. With the Plan administrator's approval, participants may withdraw all or part of their aggregate contributions in the event of financial hardship. Active employees who attain age 59 ½ are permitted to withdraw at any time any part of his or her vested account.

In accordance with the Bipartisan Budget Act of 2018, the Plan adopted the following provisions with an effective date of January 1, 2020:

- Participants who obtain a hardship distribution, can continue to contribute to the plan, and are no longer subject to a six-month suspension.
- Participants are no longer required to take a loan out from the plan before they can obtain a hardship distribution.

ADVANCED NUTRIENTS 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2020 AND 2019 (UNAUDITED)

Note 1: Description of Plan (Continued)

Payment of Benefits (Continued)

- The source funds available for hardship withdrawals will now include qualified non-elective contributions, qualified matching contributions and safe harbor contributions.

In accordance with the CARES Act, the Plan adopted the following temporary provisions for qualified participants:

- Required minimum distribution (RMD) rules were waived for 2020. Plan participants and beneficiaries could still elect to receive a distribution equal to the required RMD if they prefer.
- Qualified individuals could request a coronavirus-related distribution up to \$100,000 between January 1, 2020 and December 31, 2020. The coronavirus-related distributions were not subject to the early withdrawal penalty or to the mandatory federal withholding of 20%. Participants have the option to repay the distribution within three years.

Forfeited Accounts

Forfeitures are placed in an unallocated plan account and may be used to pay Plan expenses and /or used to reduced future employer contributions. Participants in this Plan are vested 100% in all employer contributions, as such there are no forfeitures during 2020 related to termination of participants. Forfeitures can be created when a participant's contributions for the year exceed the IRC annual maximum and the employer contributions were the source of the overfunding. In these instances, the overfunded employer contributions are forfeited back to the Plan and placed in the unallocated plan account. At December 31, 2020 and there were no unallocated forfeitures.

Note 2: Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the modified cash basis method of accounting. Under this method, income is generally recognized when received and expenses are generally recognized when paid. Contributions reflect the plan year for which the contribution was made. Investments have been recorded at their fair market values. Accordingly, these statements are not intended to purport financial position or the results of operations in conformity with accounting principles generally accepted in the United States of America.

Although the modified cash basis of accounting represents a departure from accounting principles generally accepted in the United States of America, it is an allowable method of accounting for employee benefit plans under the reporting requirements of ERISA.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

ADVANCED NUTRIENTS 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2020 AND 2019 (UNAUDITED)

Note 2: Summary of Accounting Policies (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and custodian. See note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income and dividend income are recorded on a cash basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent notes receivable that are deemed by the plan administrator to be in default are treated as distributions based on the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Deemed Distributions

Plan provisions provide that participants must repay note receivable balances upon termination from the Plan. Outstanding balances that are not repaid are treated as deemed distributions.

Plan Fees and Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Date of Management's Review

Events occurring after December 31, 2020 have been evaluated for possible adjustments to the financial statements or disclosures as of May 8, 2023, which is the date the financial statements were available to be issued.

Note 3: Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3 measurements).

ADVANCED NUTRIENTS 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2020 AND 2019 (UNAUDITED)

Note 3: Fair Value Measurements (Continued)

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open end mutual funds that are registered with the Securities and Exchange Commission ("SEC"). These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trusts ("CCTs"): Units held in common collectives are valued using the NAV practical expedient of the CCTs as reported by the CCTs managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the CCTs, minus its liabilities, and then divided by the number of units outstanding. The NAV practical expedient of a CCTs is calculated based on a compilation of primarily observable market information.

Pooled separate accounts ("PSAs"): PSAs are valued at the NAV based on units of the pooled separate accounts. The NAV is used as a practical expedient to estimate fair value and is generally based on the fair value of the underlying investments held by the pooled separate account less its liabilities. This practical expedient is not used when it is determined to be probable that the pooled separate account will sell the investment for an amount different than the reported NAV. The redemption frequency of the pooled separate accounts is daily, and there are no redemption restrictions or unfunded commitments related to the pooled separate accounts.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

ADVANCED NUTRIENTS 401(k) PLAN**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019 (UNAUDITED)****Note 3: Fair Value Measurements (Continued)**

In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in the following tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020:

INVESTMENTS	Fair Value Measurements Using Input Type			Total
	Level 1	Level 2	Level 3	
Mutual funds	\$ 68,962	\$ -	\$ -	\$ 68,962
Investments in the fair value hierarchy	<u>\$ 68,962</u>	<u>\$ -</u>	<u>\$ -</u>	68,962
Investments measured at NAV practical expedient				<u>711,418</u>
Total investments at fair value				<u>\$ 780,380</u>

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019:

INVESTMENTS	Fair Value Measurements Using Input Type			Total
	Level 1	Level 2	Level 3	
Mutual funds	\$ 27,388	\$ -	\$ -	\$ 27,388
Investments in the fair value hierarchy	<u>\$ 27,388</u>	<u>\$ -</u>	<u>\$ -</u>	27,388
Investments measured at NAV practical expedient				<u>279,788</u>
Total investments at fair value				<u>\$ 307,176</u>

In regards to the classification of investment options offered by the Plan, there were no reclassifications in or out of levels 1, 2 or 3 during the years ended December 31, 2020 and 2019. The nature, risks and investment objectives of the investments described above, including those for which fair value is estimated using NAV as a practical expedient, can be found in the Plan's enrollment literature. These investments can be redeemed immediately and without a redemption notification period. For the years ended December 31, 2020 and 2019, there were no unfunded commitments associated with any of these investments.

ADVANCED NUTRIENTS 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2020 AND 2019 (UNAUDITED)

Note 4: Guaranteed Interest Contract with Principal Life Insurance Company

The Plan entered into a traditional fully benefit-responsive guaranteed interest contract with Principal Life Insurance Company (Principal) totaling \$3,385 for 2020 and \$11,069 for 2019. Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1%. The crediting rate is reviewed on a quarterly basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without the consent of the issuer.

Note 5: Information Certified by the Plan's Trustee

The Plan administrator elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as reflected on the accompanying statements of net assets available for benefits as of December 31, 2020 and 2019, respectively.

ADVANCED NUTRIENTS 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2020 AND 2019 (UNAUDITED)

Note 5: Information Certified by the Plan's Trustee (Continued)

- Investment income and interest income on notes receivable from participants as reflected in the statement of changes in net assets available for plan benefits for the year ended December 31, 2020.

Note 6: Party-In-Interest Transactions

The Plan allows for transactions with certain parties who may perform investment or recordkeeping services for the Plan. The Plan also issues loans to participants, which are secured by the balances in the participants' accounts. These transactions qualify as party-in-interest transactions for which a statutory exemption exists.

Note 7: Plan Termination

Although it has not expressed any intent to do so, the sponsoring Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in any employer contributions.

Note 8: Tax Status

The IRS has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

On March 11, 2020, the World Health Organization declared the current coronavirus, or COVID-19, outbreak to be a global pandemic. Both prior to and in response to this declaration and the rapid spread of COVID-19 around the world and within the United States, international, federal, state, and local government or other authorities have instituted certain preventative measures. These restrictions are disrupting economic activity worldwide, resulting in volatility in the global capital markets. The complete impact of COVID-19 on companies, the Plan's financial position, results of operations and changes in equity remains dependent on future developments, including the duration of the pandemic and the related length of its impact on the global economy, which cannot be predicted at this time.

ADVANCED NUTRIENTS 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2020 AND 2019 (UNAUDITED)

Note 10: Delinquent Participant Contributions

During the 2020 audit, it was determined that the Company had failed to remit employee deferrals in the time described in 29 CFR 2510.3-102. As a result of these late remittances, the Plan is considered to have engaged in a prohibited transaction. The plan administrator has identified the procedural errors that allowed the late deferrals to occur and has taken steps to ensure that this does not happen again in the future. The Company is in the process of self-correcting the late remittances and will remit lost warnings to the Plan. These earnings are expected to be immaterial to the financial statements.

Note 11: Operational Errors

Census Information

During 2020, it was determined that the census information contained information related to employer contributions that was incorrect due to employer match not calculated in payroll and also due to some overrides into the payroll system. The Plan sponsor has identified the procedural errors and has taken steps to ensure that this does not happen again in the future.

Remittance Errors for Several Participants

During the 2020 audit, it was determined that there were several procedural mistakes that resulted in remittance errors for several participants. The Plan administrator has identified the procedural mistakes that allowed the errors to occur and has taken steps to ensure that this does not happen again in the future. The Plan administrator is in the process of self-correcting these errors and does not expect the corrections to be material to the financial statements.

Calculation of Participants deferrals and Employer Contributions

During the 2020 audit, it was determined that the Company had various operational errors related to employee deferrals and employer matching contributions calculations for multiple employees. The Plan administrator has identified the procedural errors that allowed the miscalculations to occur and has taken steps to ensure that this does not happen again in the future. The Plan is in the process of self-correcting the errors and remitting to the Plan and does not expect the corrections to be material to the financial statements.

Despite the operational errors identified, the Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Department of Labor.

Note 12: Subsequent Events

The Plan was amended and restated effective January 1, 2021, to bring the Plan into compliance with the legislative and regulatory changes set forth in IRS Notice 2017-37.
