REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Trustees
BBCK Enterprises, Inc. 401(k) Retirement Plan

I have audited the accompanying statements of net assets available for benefits of BBCK Enterprises, Inc. 401(k) Retirement Plan (the "Plan") as of September 30, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended September 30, 2023, and the related notes to the financial statements. These financial statements are the responsibility of the Plan's management.

Management's responsibility for the financial statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility
My responsibility is to express an opinion on these financial statements based on my audits. I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion
In my opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of BBCK Enterprises, Inc. 401(k) Retirement Plan as of September 30, 2023 and 2022, and the changes in net assets available for benefits for the year ended September 30, 2023, in conformity with accounting principles generally accepted in the United States of America.

Report on supplementary information
My audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental information in the accompanying schedules of investments representing 5% or more of the Plan's net

assets as of September 30, 2023, and Fair Value Measurements of Assets (held at year end) as of September 30, 2023 and 2022, has been subjected to audit procedures performed in conjunction with the audit of BBCK Enterprises, Inc. 401(k) Retirement Plan's financial statements. The supplemental information is presented for purposes of additional analysis and is not a required part of the basic statements but includes supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental information is the responsibility of the Plan's management. My audit procedures included determining whether the supplemental information reconciles to the basic financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming my opinion on the supplemental information in the accompanying schedules, I evaluated whether the supplemental information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting Disclosure under the Employee Retirement Income Security Act of 1974. In my opinion, the supplemental information referred to above is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

1. Description of Plan

The following description of BBCK Enterprises Inc., 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General
The Plan is a contributory defined contribution plan established under the provisions of Section 401(a) of the Internal Revenue Code ("IRC"), which includes a qualified cash or deferred arrangement as described in Section 401(k) of the IRC for eligible employees of BBCK Enterprises, Inc. ("BBCK" or the "Company"). Employees are eligible to participate immediately following their date of hire and commencement of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Contributions
Under the Plan, participants may elect to reduce their compensation by a specific percentage or dollar amount and have that amount contributed to the Plan as an elective deferral. Participants may elect to defer up to the Internal Revenue Service ("IRS") limitations of $20,500 in calendar year 2022 and $22,500 in calendar year 2023. In addition, participants age 50 and over have the option to contribute up to an additional $6,500 for 2022 and $7,500 for 2023. The Plan allows the participants to make pre-tax deferrals or Roth deferrals. For the plan year ending September 30, 2022, the Company made elective contributions of $20,000. For the plan year ending September 30, 2023, the Company also made elective contributions of $20,000.

Investment Alternatives
Plan participants may direct their entire account balances in partial percentage increments to any of the various investment options offered by the Plan. The Plan offers a diversified portfolio of domestic and international mutual funds. Company contributions are also invested based upon participant allocation elections. Participants may change their investment options on a daily basis. The Plan provides that participants may elect to self-direct the assets in their accounts. As of September 30, 2023, two participants in the Plan have elected to do so.

Participant Accounts and Allocations
Participant recordkeeping is performed by Alerus Financial, N.A. ("Alerus"). For all investment programs that are mutual funds, Alerus maintains principle balances on a share method. Each participant's account is credited with the participant's contributions and Plan earnings (losses). Employer contributions are allocated to participants based on a 6-year vesting schedule. Transaction fees are charged for participant loans and distributions are allocated directly to that participant's account. Allocations of Plan earnings (losses) are based on participant account balances in relation to total fund account balances, as defined by the Plan document.

Vesting and Distributions
Participants immediately vest in all contributions made by the Plan. Participants' accounts are distributable, in full or as partial withdrawals, in the form of a lump sum payment or substantially equal installments of cash as elected by the participant upon retirement, termination of employment, death, disability, financial hardship, attainment of age 59-1/2, or if a qualified reservist is called to active military duty. Participant account balances of less than $5,000 are automatically distributed in a single lump sum. In addition, participant accounts can be rolled over into an individual retirement account ("IRA") or another qualified contribution plan. Participant's distributions may not be deferred past April 1 of the calendar year following the year in which the participant attains age 72. Forfeitures of unclaimed distributions are used to offset Company matching contributions.

Notes Receivable from Participants
Participants may borrow from their accounts in accordance with the terms provided in the Plan Loan Policy. Participants may have a maximum of one loan outstanding against their account at one time. The minimum loan amount is $1,000. In general, the maximum loan amount is the lesser of 50% of the vested account balance or $50,000, although the Plan has temporarily adopted the 100% and $100,000 limitations provided in the CARES Act. All loans must be repaid within five years. Loans are collateralized by the balance in the participant's account and bear interest at the rate of prime plus 1% fixed at the time the loan is executed. Principal and interest are paid ratably through regular payroll deductions.

2. Summary of Significant Accounting Policies

Accounting Method
The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates
The preparation of the accounting financial statements in conformity with generally accepted accounting principles ("GAAP") in the U.S. requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. Fair value is the price that would be received on the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net appreciation in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation or depreciation on those investments. Purchases and sales of investments are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest is recognized when earned.

Note Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

Risks and Uncertainties
The Plan provides for various investment options in a combination of different securities. The Plan's investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Payment of Benefits
Benefits are recorded when paid except for any excess contributions payable to participants, which are recorded as they become payable.

Administrative Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are not reflected within the financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participants' accounts and are included in administrative expenses. Investments related expenses are included in net appreciation of fair value of investments.

New Accounting Pronouncements
In May 2015, the FASB issued Accounting Standards Update ('ASU") 2015-17, Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or its equivalent) ("ASU 2015-17"). ASU 2015-17 amended Accounting Standards Calculation ("ASC") 820, Fair Value Management, to remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient as well as to remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments are to be applied retrospectively and are effective for annual periods beginning after December 15, 2015, with early application permitted. The adoption of ASU 2015-17 is not expected to have a material effect on the Plan's Statement of Net Assets Available for Benefits or Statements of Changes in Net Assets Available for Benefits.

Subsequent Events
Subsequent events have been evaluated through the date the financial statements were issued.

3. Investments

The following presents investments that represent 5% or more of the Plan's net assets as of September 30, 2023:

AB Large Cap Growth Fund Z	
14,386 shares	$ 1,191,038
AFS Europacific Growth	
19,341 shares	1,002,569
SPDR S&P 500 ETF

Vanguard 500 Index Admiral Fund	
4,338 shares	1,715,933
Vanguard Total Stock Market Index Admiral Fund	
21,371 shares	2,247,854

4. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. This framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from, or corroborated by, observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds and Money Market: Valued at the Net Asset Value ("NAV") of shares held by the Plan at year end. The NAV is a quoted price in an active market.

Common Stock: Valued at the closing price reported on the active market on which the common stock is traded.

Options: Valued at the closing price reported on the active market on which the options are traded.

Collective Funds: Valued at the closing price reported on the active market on which the funds are traded.

The following table lists the fair value of investments as of September 30, 2023:

5. Tax Status

The plan adopted the trustee's savings plan document, which received a favorable opinion letter for the Internal Revenue Service, dated March 31, 2014, stating that it is qualified under the applicable requirements of the IRC, and is, therefore, not subject to tax under present income tax laws. The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes the Plan is designed and is currently being operated in compliance, in all material respects, with the applicable IRC requirements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that would not likely be sustained upon examination by a taxing authority. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of September 30, 2023 and 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, the Plan has not been audited by any taxing authority.

6. Plan Termination

Although it has not expressed any intent in doing so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject the provisions of ERISA.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Trustees
BBCK Enterprises, Inc. 401(k) Retirement Plan

I have audited the accompanying statements of net assets available for benefits of BBCK Enterprises, Inc. 401(k) Retirement Plan (the "Plan") as of September 30, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended September 30, 2023, and the related notes to the financial statements. These financial statements are the responsibility of the Plan's management.

Management's responsibility for the financial statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility
My responsibility is to express an opinion on these financial statements based on my audits. I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion
In my opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of BBCK Enterprises, Inc. 401(k) Retirement Plan as of September 30, 2023 and 2022, and the changes in net assets available for benefits for the year ended September 30, 2023, in conformity with accounting principles generally accepted in the United States of America.

Report on supplementary information
My audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental information in the accompanying schedules of investments representing 5% or more of the Plan's net

assets as of September 30, 2023, and Fair Value Measurements of Assets (held at year end) as of September 30, 2023 and 2022, has been subjected to audit procedures performed in conjunction with the audit of BBCK Enterprises, Inc. 401(k) Retirement Plan's financial statements. The supplemental information is presented for purposes of additional analysis and is not a required part of the basic statements but includes supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental information is the responsibility of the Plan's management. My audit procedures included determining whether the supplemental information reconciles to the basic financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming my opinion on the supplemental information in the accompanying schedules, I evaluated whether the supplemental information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting Disclosure under the Employee Retirement Income Security Act of 1974. In my opinion, the supplemental information referred to above is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

1. Description of Plan

The following description of BBCK Enterprises Inc., 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General
The Plan is a contributory defined contribution plan established under the provisions of Section 401(a) of the Internal Revenue Code ("IRC"), which includes a qualified cash or deferred arrangement as described in Section 401(k) of the IRC for eligible employees of BBCK Enterprises, Inc. ("BBCK" or the "Company"). Employees are eligible to participate immediately following their date of hire and commencement of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Contributions
Under the Plan, participants may elect to reduce their compensation by a specific percentage or dollar amount and have that amount contributed to the Plan as an elective deferral. Participants may elect to defer up to the Internal Revenue Service ("IRS") limitations of $20,500 in calendar year 2022 and $22,500 in calendar year 2023. In addition, participants age 50 and over have the option to contribute up to an additional $6,500 for 2022 and $7,500 for 2023. The Plan allows the participants to make pre-tax deferrals or Roth deferrals. For the plan year ending September 30, 2022, the Company made elective contributions of $20,000. For the plan year ending September 30, 2023, the Company also made elective contributions of $20,000.

Investment Alternatives
Plan participants may direct their entire account balances in partial percentage increments to any of the various investment options offered by the Plan. The Plan offers a diversified portfolio of domestic and international mutual funds. Company contributions are also invested based upon participant allocation elections. Participants may change their investment options on a daily basis. The Plan provides that participants may elect to self-direct the assets in their accounts. As of September 30, 2023, two participants in the Plan have elected to do so.

Participant Accounts and Allocations
Participant recordkeeping is performed by Alerus Financial, N.A. ("Alerus"). For all investment programs that are mutual funds, Alerus maintains principle balances on a share method. Each participant's account is credited with the participant's contributions and Plan earnings (losses). Employer contributions are allocated to participants based on a 6-year vesting schedule. Transaction fees are charged for participant loans and distributions are allocated directly to that participant's account. Allocations of Plan earnings (losses) are based on participant account balances in relation to total fund account balances, as defined by the Plan document.

Vesting and Distributions
Participants immediately vest in all contributions made by the Plan. Participants' accounts are distributable, in full or as partial withdrawals, in the form of a lump sum payment or substantially equal installments of cash as elected by the participant upon retirement, termination of employment, death, disability, financial hardship, attainment of age 59-1/2, or if a qualified reservist is called to active military duty. Participant account balances of less than $5,000 are automatically distributed in a single lump sum. In addition, participant accounts can be rolled over into an individual retirement account ("IRA") or another qualified contribution plan. Participant's distributions may not be deferred past April 1 of the calendar year following the year in which the participant attains age 72. Forfeitures of unclaimed distributions are used to offset Company matching contributions.

Notes Receivable from Participants
Participants may borrow from their accounts in accordance with the terms provided in the Plan Loan Policy. Participants may have a maximum of one loan outstanding against their account at one time. The minimum loan amount is $1,000. In general, the maximum loan amount is the lesser of 50% of the vested account balance or $50,000, although the Plan has temporarily adopted the 100% and $100,000 limitations provided in the CARES Act. All loans must be repaid within five years. Loans are collateralized by the balance in the participant's account and bear interest at the rate of prime plus 1% fixed at the time the loan is executed. Principal and interest are paid ratably through regular payroll deductions.

2. Summary of Significant Accounting Policies

Accounting Method
The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates
The preparation of the accounting financial statements in conformity with generally accepted accounting principles ("GAAP") in the U.S. requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. Fair value is the price that would be received on the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net appreciation in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation or depreciation on those investments. Purchases and sales of investments are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest is recognized when earned.

Note Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

Risks and Uncertainties
The Plan provides for various investment options in a combination of different securities. The Plan's investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Payment of Benefits
Benefits are recorded when paid except for any excess contributions payable to participants, which are recorded as they become payable.

Administrative Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are not reflected within the financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participants' accounts and are included in administrative expenses. Investments related expenses are included in net appreciation of fair value of investments.

New Accounting Pronouncements
In May 2015, the FASB issued Accounting Standards Update ('ASU") 2015-17, Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or its equivalent) ("ASU 2015-17"). ASU 2015-17 amended Accounting Standards Calculation ("ASC") 820, Fair Value Management, to remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient as well as to remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments are to be applied retrospectively and are effective for annual periods beginning after December 15, 2015, with early application permitted. The adoption of ASU 2015-17 is not expected to have a material effect on the Plan's Statement of Net Assets Available for Benefits or Statements of Changes in Net Assets Available for Benefits.

Subsequent Events
Subsequent events have been evaluated through the date the financial statements were issued.

3. Investments

The following presents investments that represent 5% or more of the Plan's net assets as of September 30, 2023:

4. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. This framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from, or corroborated by, observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds and Money Market: Valued at the Net Asset Value ("NAV") of shares held by the Plan at year end. The NAV is a quoted price in an active market.

Common Stock: Valued at the closing price reported on the active market on which the common stock is traded.

Options: Valued at the closing price reported on the active market on which the options are traded.

Collective Funds: Valued at the closing price reported on the active market on which the funds are traded.

The following table lists the fair value of investments as of September 30, 2023:

5. Tax Status

The plan adopted the trustee's savings plan document, which received a favorable opinion letter for the Internal Revenue Service, dated March 31, 2014, stating that it is qualified under the applicable requirements of the IRC, and is, therefore, not subject to tax under present income tax laws. The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes the Plan is designed and is currently being operated in compliance, in all material respects, with the applicable IRC requirements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that would not likely be sustained upon examination by a taxing authority. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of September 30, 2023 and 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, the Plan has not been audited by any taxing authority.

6. Plan Termination

Although it has not expressed any intent in doing so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject the provisions of ERISA.
