Schedule SB, Part V - Statement of Actuarial Assumptions and Methods
Strait-View Credit Union Defined Benefit Plan and Trust EIN/Plan: 91-0461936/001

1. Actuarial cost method

Using the "unit credit actuarial cost" method the employer must contribute the "normal cost" plus a "shortfall" contribution. A shortfall contribution is required if the plan is less than 100% funded. Shortfalls are recalculated each year and each year new incremental gain or loss starts a new fifteen year period.

2. Actuarial valuation method

The actuarial value of assets equals the contract value of assets held in an insurance company general account (unallocated contracts), plus the market value of assets held in pooled separate accounts, adjusted for the value of any contributions which may be receivable or prepaid as of the valuation date.

3. Funding target assumptions
