Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Plan Administrator and Plan Participants
Emerson Electric Co. Retirement Plan

We have performed audits of the financial statements of Emerson Electric Co. Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of September 30, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of September 30, 2023 and 2022, and for the years then ended, stating, stating that the certified investment information, as described in Note I to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of management for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's responsibilities for the audit of the financial statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

NOTES TO FINANCIAL STATEMENTS

September 30, 2023 and 2022

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Emerson Electric Co. Retirement Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined benefit plan sponsored by Emerson Electric Co. (the “Company”) covering substantially all U.S. employees of the Company, except those included in collective bargaining units for which employee benefit plans have been established or have been excluded through the collective bargaining process and those employees in any division or subsidiary of the Company for which a separate retirement plan is maintained. Certain limited plan appendices contain provisions permitting employee contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). The Plan’s investments are held by The Northern Trust Company (the “Trustee”). The Management Retirement Committee of Emerson (“MRC”) is the Plan fiduciary and the committee charged with governance.

Effective January 1, 2016, certain locations were frozen to employees hired after January 1, 2016.

Pension Benefits

In general, under terms of the Plan, participants are eligible for monthly benefit payments upon reaching the normal retirement age of 65. A participant whose employment with the Company is terminated is eligible for early retirement after attaining age 55 with 10 years of pension-credited service. Benefit payments, subject to minimum amounts, are determined by application of a benefit formula to the participant’s years of pension-credited service. The Plan also contains provisions for death, disability, postponed retirement and automatic survivor benefits.

Vesting

The Plan provides for participant vesting with five years of pension-credited service. The Company has honored the terms of the original Plan agreements for certain locations that have been acquired subsequent to the Emerson Retirement Plan document provisions. Vesting for these acquired locations could result in a vested schedule that is different than five years. Participants are 100% vested in all voluntary contributions.

Death and Disability Benefits

If an employee dies after becoming vested, the participant’s surviving spouse shall be paid a survivor annuity for the life of the surviving spouse, equal to the annuity that would be payable to the surviving spouse under an automatic survivor benefit commencing at the date the employee would have become eligible for an early retirement benefit had the employee lived. Active employees who become totally disabled after attainment of age 55 and completion of 10 years of credited service receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled.

Contributions and Funding

Employee contributions are made by certain limited eligible employees. The amounts contributed are based on the participants’ salaries according to provisions specified in the Plan appendix. Accumulated participant contributions at September 30, 2023 and 2022, were approximately \$5.0 million and \$5.7 million, respectively, including interest credited using an interest rate of 5.33% and 3.94%, respectively, compounded annually.

Contributions from the Company are subject to Internal Revenue Service ("IRS") limitations and are based upon actuarial calculations of normal cost. The Company satisfied the minimum funding requirements of ERISA.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, disclosure of contingent assets and liabilities, the actuarial present value of accumulated plan benefits at the date of the financial statements, and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation

The Plan's investments in the Emerson Electric Co. Master Trust ("Master Trust") are stated at fair value as determined based on the fair value of the underlying investments of the Master Trust. See Note D for discussion on fair value measurement.

The Plan's interest in the Master Trust is based on an allocation of the Plan's assets compared to total assets in the Master Trust. Purchases and sales of investments are recorded on a trade-date basis. Investment income is recorded as earned. Dividends are recorded at ex-dividend date.

Expenses

Investment management and certain administrative expenses are paid by the Plan. Expenses include Pension Benefit Guaranty Corporation ("PBGC") premiums and professional fees. The Pension Department of Emerson ("Pension Department") provides certain recordkeeping and administrative support services for the Plan. Effective July 1, 2021, the Company and the MRC entered into a services agreement and that a portion of the Pension Department's annual salary and benefits are allocated and paid by the Plan. The Plan paid \$300,500 and \$436,300 in salary expenses for the year ended September 30, 2023 and 2022, respectively.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

NOTE C - INTEREST IN MASTER TRUST

The Plan's investments are in the Master Trust that was established for the investment of assets of the Plan and several other company-sponsored retirement plans. Each plan in the Master Trust has an undivided interest in the Master Trust. At September 30, 2023 and 2022, the Plan's interest in the net assets of the Master Trust was approximately 87.5% and 86.2%, respectively. Investment income (loss) and investment expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan. The Master Trust's net assets and the Plan's interest in the Master Trust's assets at September 30, 2023 and 2022 are summarized as follows (in thousands).

NOTE D - FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board has issued guidance regarding the disclosure of fair value measurements. The guidance establishes a formal hierarchy and framework for measuring fair value and provides guidance on the disclosure of fair value measurements and the reliability of valuation inputs. Under the guidance, measurement assumes the transaction to sell an asset or transfer a liability occurs in the principal or at least the most advantageous market for that asset or liability. Within the hierarchy, Level 1 instruments use observable market prices for the identical item in active markets and have the most reliable

valuations. Level 2 instruments are valued through broker/dealer quotations or through market-observable inputs for similar items in active markets, including forward and spot prices, interest rates and volatilities. Level 3 instruments are valued using inputs that are not observable in an active market, such as company developed future cash flow estimates, and are considered the least reliable.

The following leveling tables present the fair value measurements of the Master Trust (in thousands):

The primary objective for the investment of plan assets is to secure participant retirement benefits while earning a reasonable rate of return. Plan assets are invested consistent with the provisions of the prudence and diversification rules of ERISA and with a long-term investment horizon. The Company continuously monitors the value of assets by class and routinely rebalances to remain within target allocations. The strategy for equity assets is to minimize concentrations of risk by investing primarily in companies in a diversified mix of industries worldwide, while targeting neutrality in exposure to market capitalization levels, growth versus value profile, global versus regional markets, fund types and fund managers. The approach for bonds emphasizes investment-grade corporate and government debt with maturities matching a portion of the longer-duration pension liabilities. The bonds strategy also includes a high-yield element, which is generally shorter in duration. A small portion of the U.S. plan assets is allocated to private equity partnerships and real assets fund investments for diversification, providing opportunities for above-market returns.

To manage risk, certain investment managers may use various financial instruments, particularly forward foreign currency contracts, options and futures, commonly referred to as derivatives. No investments are engaged in market making or other speculative activities. Leveraging techniques are not used and the use of derivatives in any fund is limited to exchange-traded futures contracts and is inconsequential. Established practices require that derivative financial instruments relate to specific asset, liability or equity transactions, or to currency exposure.

Emerson Electric Co. Retirement Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

September 30, 2023 and 2022

U.S. equities reflect companies domiciled in the U.S., including multi-national companies. International equities are comprised of companies domiciled in developed nations outside the U.S. Emerging market equities are comprised of companies domiciled in portions of Asia, Africa, Eastern Europe and Latin America.

Government bonds include investment-grade instruments issued by federal, state and local governments, primarily in the U.S. Corporate bonds represent investment-grade debt of issuers primarily from the U.S. High-yield bonds include non-investment-grade debt from a diverse group of developed market issuers.

Other assets include cash, interests in mixed asset funds investing in commodities, natural resources, agriculture and exchange-traded real estate funds, life insurance contracts (U.S.), and shares in certain general investment funds of financial institutions or insure arrangements (non-U.S.) that typically ensure no market losses or provide for small minimum return guarantee.

Valuations of Level 1 assets for all classes shown above are based on quoted closing market prices from the principal exchanges where the individual securities are traded. Cash is valued at cost, which approximates fair value.

Equity securities assets are primarily non-exchange-traded commingled or collective funds in which the underlying securities have observable prices available from active markets. Valuation is based on the NAV of fund units held as derived from the fair value of the underlying assets. Funds based on NAV are valued daily and have no redemption restrictions. The NAV is used as a practical expedient to estimate fair value.

Debt securities categorized as Level 2 assets are generally valued based on independent broker/dealer bids or by comparison to other debt securities having similar durations, yields and credit ratings. Other Level 2 assets are valued based on a NAV of fund units held, which is derived from either broker/dealer quotations or market-observed pricing for the underlying assets. Funds based on NAV are valued daily and have no redemption restrictions. The NAV is used as a practical expedient to estimate fair value.

Limited partnerships are valued based on NAV and are included in the fair value hierarchy as equity security assets. The NAV is used as a practical expedient to estimate fair value. The fair value of the underlying assets are determined by the investment managers. Total unfunded commitments for the limited partnership funds were approximately \$114,200 (in thousands) and 173,300 (in thousands) at September 30, 2023 and 2022, respectively. These investments cannot be redeemed, but instead the funds will make distributions through liquidation of the underlying assets.

Insurance contracts are valued by the applicable insurance company and are categorized as Level 3 investments.

NOTE E - PLAN TERMINATION AND PBGC MATTERS

The Company has not expressed any intention to terminate the Plan. However, in the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document.

Should the Plan be terminated at some future time, all participants become 100% vested in benefits earned as of the termination date.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Emerson Electric Co. Retirement Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

September 30, 2023 and 2022

Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

NOTE F - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees of their beneficiaries.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of September 30, 2022 and 2021, are as follows:

Discount rate	5.64% in 2022; 2.93% in 2021
Mortality	Pri-2012 projected back to 2012, using Scale MP-2021 in 2022; Pri-2012 projected back to 2012, using Scale MP-2016 in 2021
Retirement age	Varies by age between 55 and 69 with 100% retired by age 70 in 2022 and 2021

The foregoing assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of September 30, 2022, is as follows (in thousands):

Actuarial present value of accumulated plan benefits	
Vested benefits	
Participants and/or beneficiaries currently receiving benefits	\$ 1,561,589
Other vested benefits	832,616
Total vested benefits	2,394,205
Non-vested benefits	24,904

NOTE G - INCOME TAX STATUS

The IRS has determined and informed the Company by a letter dated June 1, 2017, that the Plan and related Master Trust were designed in accordance with the applicable regulations of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter; however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and that the Plan and related Master Trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE H - RISKS AND UNCERTAINTIES

The Plan's investment in the Master Trust is exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and may impact the funded position of the Plan. As a result, the Plan may require additional funding in subsequent years.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTES TO FINANCIAL STATEMENTS - CONTINUED

September 30, 2023 and 2022

NOTE I - INFORMATION CERTIFIED BY THE TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements is complete and accurate:

- Plan interest in Emerson Electric Co. Master Trust, as shown in the statements of net assets available for benefits as of September 30, 2023 and 2022.
- Plan interest in Emerson Electric Co. Master Trust net investment income (loss), as shown in the statements of changes in net assets available for benefits for the years ended September 30, 2023 and 2022.
- Master Trust net assets and net investment income (loss) as of and for the years ended September 30, 2023 and 2022, as shown in Note C.

NOTE J - RELATED PARTIES AND PARTIES-IN-INTEREST

The Plan's investments are held in the Master Trust at the Trustee. The Trustee charges fees for the management of the account. Fees charged to the Master Trust are ordinary and customary. These fees qualify as permitted party-in-interest transactions under ERISA.

Certain Plan investments are managed by the Trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

The salary expenses paid by the plan (Note B) are permitted under the provisions of the Plan and as governed by the services agreement. These transactions qualify as party-in-interest transactions.

Third party expenses associated with the administration of the Plan, including fees associated with actuarial services are paid by the Employer which qualify as party-in-interest transactions.

NOTE K - SUBSEQUENT EVENTS

Plan management evaluated events subsequent to September 30, 2023 and through May 22, 2024, the date on which the financial statements were available to be issued. Plan management is not aware of any subsequent events that would require recognition or disclosure in the accompanying financial statements.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Disability

Rates at which participants become disabled varying by age and gender, per 1,000 participants as follows:

Percentage becoming disabled during the year		
Age	Males	Females
39 or less	0.68	0.82
40-44	1.41	2.38
45-49	2.70	3.29
50-54	5.11	4.72
55-59	9.28	7.18
60-64	12.42	8.14

Retirement

Rates varying by age, per 1,000 participants as follows:

Percentage retiring during the year	
Age	Rate
55-58	100
59-60	120
61	150
62-64	200
65	300
66-69	350
70	1,000

Benefit commencement date:

- Preretirement death benefit The later of the death of the active participant or the date the participant would have attained age 55.
- Deferred vested benefit Age 65 except for those eligible for unreduced retirement in appendices 34, 81, and 82 of the plan. Those eligible are assumed to retire at age 62.
- Disability benefit Upon disablement
- Retirement benefit Upon termination of employment

Form of payment

Single: Normal form of payment as described in plan provisions

Married: 90% of married participants are assumed to elect 50% Joint Survivor Annuity and the remaining 10% are assumed to elect the normal form of payment as described in plan provisions.

Percent married	80%
Spouse age	Wife three years younger than husband
Covered pay	In general, reported 2021 W-2 pay, this pay is projected by the Salary Increase Rate assumption to approximate pay for the October 1, 2022 plan year
Plan related expenses:	7,155,000
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets for determining minimum required contributions	<p>Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable.</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued

WTW used asset data supplied by the trustee. Emerson furnished participant data as of October 1, 2022. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Plan-related expenses Assumed plan related expenses are set based on a combination of recent plan experiences and expectations for the current year.

Rates of increase in:

- Compensation Assumed compensation increases are based on a combination of assumed future (i) inflation, (ii) merit increases and (iii) promotional increases. As part of a review of assumptions in 2021, WTW reviewed Emerson's historical compensation increase experience, considered future expectations of inflation, as well as merit and promotional processes, and changing demographics of the U.S. plans.

Compensation rates differ by age because of observed differences in compensation increases by age.

We relied on the plan sponsor for the rate of compensation increase assumption, as the plan sponsor has access to pertinent information related to their business and is in a better position to set this assumption. However, we believe that the assumption chosen does not significantly conflict with what would be reasonable based on historical salary increase experience.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality Assumptions used for funding purposes are as prescribed by IRC §430(h).

We believe the assumptions do not significantly conflict with what would be reasonable because they reflect recent experience, and

SCHEDULE SB ATTACHMENTS

are adjusted to reflect the plan sponsor's expectations regarding future mortality improvement.

Termination

Termination rates were based on actual plan experience through Fiscal 2021, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Assumed termination rates differ by age and service because of observed differences in termination rates by service.

For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Retirement

Retirement rates were based on actual plan experience through Fiscal 2021, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Retirement rates differ by age because of observed differences in retirement rates by age.

For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Commencement Dates

Commencement dates were based on an annual high-level review of experience, including considerations of whether any conditions have changed that would be expected to produce different results in the future.

For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Prescribed Methods

Funding methods

The methods used for funding purposes as described in Part V –Statement of Actuarial Assumptions/Methods, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice. These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation

The segment interest rates used to calculate the funding target and normal cost were updated from an applicable month of June 2021 to June 2022.

The required mortality improvement scale used to calculate the funding target and target normal cost was updated to reflect the MP-2020 mortality improvement scale.

A new experience study was performed, and as a result assumed rates of retirement, rates of termination, salary increase, and form of payment assumptions were changed to better reflect anticipated future experience.

The assumed plan-related expenses added to the target normal cost were updated to reflect the amount expected to be paid during the plan year beginning October 1, 2022.
