Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Retirement Plans Committee
Berry Global, Inc. Defined Benefit Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Berry Global, Inc. Defined Benefit Pension Plan (Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of September 30, 2023 and 2022, the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated Plan benefits as of September 30, 2022, the related statement of changes in accumulated Plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended September 30, 2023 and 2022, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

Opinion (Continued)

- The information in the financial statements referred to on the previous page related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and; therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

Auditor's Responsibilities for the Audit of the Financial Statements (Continued)

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedules Required by ERISA

The supplemental schedules of assets (held at end of the year) and of reportable transactions as of September 30, 2023, are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

Other Matters (Continued)

Supplemental Schedules Required by ERISA (Continued)

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Emphasis of Matter – Purchase of Annuity Contract

As discussed in Note 3 to the financial statements, the Plan purchased a single premium group annuity contract to settle Plan obligations for certain participants in July 2023 and to provide future payments related to these participants commencing October 1, 2023. Our opinion has not been modified with respect to this matter.

NOTES TO FINANCIAL STATEMENTS

September 30, 2023 and 2022

Note 1 – Plan Description

The following description of the Berry Global, Inc. (Company) Defined Benefit Pension Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan covering certain employees of the Company who have completed one year of service excluding those covered under a collective bargaining agreement, unless the terms of the agreement provide for participation. Effective December 31, 2007, the Plan was frozen for all employees. Participants will not accrue any additional retirement benefits under the Plan after that date, but they will remain entitled to all benefits which have accrued under the Plan as of December 31, 2007. Participants will continue to earn service credit in order to satisfy any vesting or eligibility for early retirement requirements.

Effective December 31, 2008, the Pliant Corporation Hourly Employees' Pension Plan for the Calhoun, Georgia Plant (Calhoun Plan) merged with the Plan. The Calhoun Plan covered certain employees who were represented by a collective bargaining representative with whom the employer had a contract providing for pensions under the Plan in effect. Effective December 31, 2008, the Calhoun Plan was frozen with respect to all participants.

Effective December 31, 2011, the Company merged the Pliant Corporation Hourly Employee's Pension Plan for the Chippewa Falls Plant (Chippewa Falls Plan), the Captive Plastics, Inc. Defined Benefit Pension Plan (Captive Plan), and the Poly-Seal Retirement Plan (Poly-Seal Plan) with the Plan. All merged plans were frozen with respect to all participants on various dates prior to the merger.

Effective December 31, 2012, the Company merged the Georgia Union Pension Plan (Georgia Plan) with the Plan. The Georgia Plan was frozen effective December 31, 2011 with respect to all participants.

Effective April 5, 2016, the Plan year-end changed from December 31 to September 30.

Effective April 14, 2017, the Berry Plastics Corporation Defined Benefit Plan changed its name to Berry Global, Inc. Defined Benefit Pension Plan.

Effective September 30, 2018, the Company merged the Berry Global, Inc. Pension Plan for Brookville (PA) Union Employees, the Poly-Bond, Inc. Retirement Plan, the Fiberweb Washougal, Inc. Retirement Plan for Hourly Employees at Washougal, the Amended and Restated Fiberweb Retirement Plan, and the AEP Alabama Union Employees' Pension Plan with the Plan. All merged plans were frozen with respect to all participants on various dates prior to the merger.

The Retirement Plans Committee (Committee) is responsible for oversight of the Plan. The Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance, and reports to the Berry Global, Inc. Board of Managers.

BERRY GLOBAL, INC. DEFINED BENEFIT PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

September 30, 2023 and 2022

Note 1 – Plan Description (Continued)

General (Continued)

The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC) and similar state laws. The Plan is subject to the provisions of ERISA. The Plan has a divided interest in a trust agreement covering more than one plan.

Funding Policy

The Plan's funding policy is for the Company to contribute an amount at such times as the Committee determines which would meet or exceed the annual ERISA minimum funding requirement. The amount of the contribution to the Plan and the determination of the estimated accrued obligation for pension benefits are based on various assumptions made by an independent actuary as discussed in Note 3.

As there were no minimum funding requirements under ERISA for the years ended September 30, 2023 and 2022, the Company did not make any contributions to the Plan.

Pension Benefits

The benefits provided by the Plan include normal retirement and death benefits. The Plan provides pension benefits to participants currently receiving pension benefits and terminated employees with deferred vested status. Participants are eligible for monthly pension benefit payments at retirement age, normally 65, equal to an amount, as defined, based on the accrued benefit as of the date of the Plan freeze. Employees may elect to receive their pension benefits in various forms. Whenever the employment of a participant terminates for reasons other than early retirement, normal retirement, death, disability, or total and permanent disability, the participant is entitled to the value of his/her mandatory contribution benefits account, plus a percentage, based on years of service, of his/her accrued retirement benefits account. Participants should refer to the Plan agreement for a complete description of the benefit payment options available.

Supplemental Benefit

Certain locations provide for supplemental pension benefit to assist employees in paying premiums for medical insurance. Participants should refer to the Plan agreement for a complete description of the benefit.

Death and Disability Benefits

A participant whose employment with all participating and affiliated companies is severed due to a participant's total and permanent disability prior to the earlier of when the participant attains age 65 or ceases to be disabled, shall continue to earn service credits in order to satisfy any vesting requirements and be entitled to receive retirement benefits under the Plan agreement.

Upon death of the participant, under the joint and survivor annuity and pre-retirement survivor annuity, beneficiaries will receive benefits as described in the Plan agreement.

NOTES TO FINANCIAL STATEMENTS

September 30, 2023 and 2022

Note 2 – Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared under the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated Plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Committee determines the Plan's valuation policies utilizing information provided by the advisors and Trustee. See Note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Certain expenses incurred in connection with general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, investment related expenses are included in net appreciation (depreciation) of fair value of investments.

BERRY GLOBAL, INC. DEFINED BENEFIT PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

September 30, 2023 and 2022

Note 3 – Purchase of Annuity Contract

On July 12, 2023, the Plan entered into a purchase agreement for a single premium group annuity contract from United of Omaha Life Insurance Company (United) for \$19,634,029 to provide future retirement payments to certain eligible vested participants and beneficiaries who receive a monthly benefit of less than \$300 per month, commencing October 2023. The Plan continued to pay benefits for these current retirees and beneficiary participants through September 30, 2023. The legal responsibility and risk related to the Plan's benefit obligation to these participants transferred from the Plan to United at the contract liability date on October 1, 2023. The Plan originally paid \$19,890,768 for the single premium group annuity contract and received a reimbursement of \$256,739 in September 2023 related to participants determined to be deceased and no longer eligible for Plan benefits subsequent to the July transaction date but prior to the October commencement date. This reimbursement is offset against the purchase of the annuity contract, and the net amount paid of \$19,634,029 is included in the 2023 statement of changes in net assets available for benefits as a Plan deduction.

Note 4 – Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service that employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

Benefits under the Plan are based on the accrued benefit as of the date of the Plan freeze. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated Plan benefits.

The actuarial present value of accumulated benefits, as determined by an independent actuary, CBIZ Benefits and Insurance Services, Inc., is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

BERRY GLOBAL, INC. DEFINED BENEFIT PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

September 30, 2023 and 2022

Note 4 – Actuarial Present Value of Accumulated Plan Benefits (Continued)

The significant methods and assumptions underlying the actuarial computations of accumulated benefits as of October 1, 2022 are as follows:

Life Expectancy of Participants	Pri-2012 Amount-Weighted Blue Collar Mortality Tables, and Pri-2012 Amount-Weighted Total Dataset Mortality Tables, with generational projection from 2012 using Scale MP-2021
Retirement Age Assumptions	Various rates from 55-70 assumed 100% by age 70
Assumed Asset Valuation Method	Three-year averaging of market value
Assumed Average Rates of Return	6%
Assumed Discount Rates	6.25%
Assumed Actuarial Cost Method	The present value of total accumulated benefits represents the present value of the benefits accumulated as of the valuation date. The present value is calculated by projecting future payments of the accrued benefit, adjusting for probability of receipt according to demographic assumptions, and discounting the payments back to the valuation date using the interest rate.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors may be applicable in determining the actuarial present value of accumulated Plan benefits. The computations of the actuarial present value of accumulated Plan benefits were made as of October 1, 2022. Had the valuation been completed as of September 30, there would be no material differences. Assumption changes at October 1, 2022 reflect a change in the retirement age based on actual experience from an experience study completed during 2022.

BERRY GLOBAL, INC. DEFINED BENEFIT PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

September 30, 2023 and 2022

Note 5 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Benefits attributable to employee contributions, taking into account those paid out before termination.
2. Annuity benefits for participants, or their beneficiaries, who have been receiving payments for at least three years, or were eligible to retire for that three-year period and would have received benefits if they had retired. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
3. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. Government agency) up to the applicable limitations (discussed subsequently).
4. All other vested benefits (that is, vested benefits not insured by the PBGC).
5. All nonvested benefits.

To the extent that funds are available, benefits will be paid in full in each of the previously-mentioned distribution categories. If sufficient funds are not available to pay all the benefits in a category, then benefits in that category will be paid on a pro rata basis.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

After all liabilities have been satisfied, the Company is entitled to the balance of the trust fund, if any.

The following is a summary of the Plan's financial information as of September 30, 2023 and 2022 and for the years then ended, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by Fifth Third Bank, the Trustee of the Plan, and furnished to the Plan administrator. The Plan administrator has obtained certifications from the Trustee that the following assets are complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedules related to the following assets.

Note 7 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the Financial Accounting Standards Board ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	<p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used for the years ended September 30, 2023 and 2022.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market fund: Valued at the daily closing price as reported by the fund. Money market funds held by the Plan are open-end money market funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The money market funds held by the Plan are deemed to be actively traded.

Common stock: Valued at the closing price reported on the active market on which the individual securities are traded.

Note 8 – Related Party Transactions and Party-in-Interest Transactions

Certain Plan investments are shares of Company common stock. Fifth Third Bank is the Trustee for the Plan and; therefore, the Plan generates transactions that qualify as party-in-interest transactions. Fees paid by the Plan for the Trustee's services for the years ended September 30, 2023 and 2022 amounted to \$207,847 and \$235,941, respectively. Fees paid to the actuary and other service providers that are also considered party-in-interest transactions for the years ended September 30, 2023 and 2022, amounted to \$263,878 and \$333,750, respectively.

The Company provides certain administrative services at no cost to the Plan.

BERRY GLOBAL, INC. DEFINED BENEFIT PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

September 30, 2023 and 2022

Note 9 – Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 9, 2017, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and; therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress.

Note 10 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

Note 11 – Subsequent Events

As described in Note 3, the Plan entered into a purchase agreement for a single premium group annuity contract; effective October 1, 2023, all participants with monthly benefits of \$300 or less will receive their benefits from the United, and the Plan will no longer be liable for their benefits.

The Plan has evaluated subsequent events through July 3, 2024, the date the financial statements were available to be issued.

SUMMARY OF ASSUMPTIONS

Funding Discount Rates IRS-Prescribed Three-Segment Rates, for the month that includes the valuation date (October).

	Non-Stabilized	Limited to 25-Year Corridor
Segment 1:	1.57%	4.75%
Segment 2:	3.21%	5.18%
Segment 3:	3.66%	5.92%

The "Limited to 25 Year Corridor" rates are adjusted by the applicable maximum and applicable minimum percentages of the 25-year average segment rates, as set forth in the American Rescue Plan Act of 2021 for use in Minimum Required Contribution calculations. The IRS Maximum Deductible Limit Calculations use the rates from the "Non-Stabilized" column above.

The interest rates used to value the Target Liability for determining the minimum and maximum contributions are prescribed by law and based on elections made by the Plan Sponsor.

Effective Interest Rate The Effective Interest Rate (EIR) for the current Plan Year is 5.37%. For the prior Plan Year, the EIR was 5.54%.

The EIR is the single rate of interest which, if used to determine the Funding Target, would result in the same Funding Target determined using the Plan Sponsor's above-elected discount rates. The EIR is used to discount contributions for minimum funding requirements and to accumulate excess contributions to the end of the year.

Funding Expected Return on Assets

The Expected Return on Assets (EROA) used in the calculation of the Actuarial Value of Assets is the lesser of (a) or (b), below:

(a) The expected long-term rate of return on assets based on policy trust allocations; or

(b) The third segment rate in the IRS-prescribed three-segment rate assumption, based on the elections made by the Plan Sponsor for minimum funding purposes.

The results are as follows:

Plan Year	Assumption (a)	Seg. III (b)	EROA (smaller of (a) or (b))
2021	6.00%	6.11%	6.00%
2020	6.00%	6.27%	6.00%

The Expected Return on Assets assumption for the calculation of Actuarial Value of Assets is based on input by the Plan's investment advisors and reflects their view of the long-term rate of return on assets, based on current and target asset allocations at each valuation date.

Funding Administrative Expenses

Administrative expenses of \$2,060,000 were estimated to be paid from the trust in the current Plan Year and were included in the Normal Cost.

Expenses paid from the plan trust are estimated by reviewing historical fees paid from the trust and adjusting for PBGC premiums and other expenditures expected to be paid in this Plan Year.

Salary Scale

None. Plan benefits are frozen.

Funding Mortality

§430(h) Static Separate Annuitant/Non-Annuitant Mortality Tables for the Current Plan Year.

Disability Mortality is assumed to be the same as that used for Healthy Retirees.

The mortality assumptions used to value the Target Liability for determining the minimum and maximum contributions are prescribed by law and based on elections made by the Plan Sponsor.

**Changes in non-required
funding assumptions since
the prior valuation**

Retirement rates, withdrawal rates, spousal assumptions and form of payment assumptions were changed to better reflect actual experience based on an experience study conducted in 2022.

Legacy Berry Demographic Assumptions**Withdrawal Rates**

Withdrawal rates vary with age. Sample rates are shown below:

Age	Table T-8 Rate
25	11.70%
40	9.60%
55	2.77%

Termination rates are based on an experience study conducted in 2022 for plan years 2016 through 2020 with consideration of whether any conditions have changed that would be expected to produce different results in the future.

Disability Incidence

None assumed.

Retirement Rates

Retirements from active status vary with age as follows:

Age	Rate
55-61	5.00%
62	20.00%
63	15.00%
64	10.00%
65-69	50.00%

55-61	2.00%
62	15.00%
63	10.00%
64	5.00%
65+	100.00%

Retirement rates are based on an experience study conducted in 2022 for plan years 2016 through 2020 with consideration of whether any conditions have changed that would be expected to produce different results in the future.

Spousal Assumptions

75% of employees are assumed to be married.
Wives are assumed to be three years younger than their husbands.

The spousal assumption is based on an experience study conducted in 2022 for plan years 2016 through 2020 with consideration of whether any conditions have changed that would be expected to produce different results in the future.

Form of Payment

Participants elect optional forms of payment at the following rates:

- 60% elect a Single Life Annuity
- 20% elect a 50% Joint & Survivor Annuity
- 20% elect a 100% Joint & Survivor Annuity

The form of payment assumption is based on an experience study conducted in 2022 for plan years 2016 through 2020 with consideration of whether any conditions have changed that would be expected to produce different results in the future.

55-60	10.0%
61	20.0%
62	40.0%
63-64	30.0%
65	100.0%

Retirements from terminated vested status are assumed to occur at age 65.

Retirement rates are based on an experience study conducted in 2022 for plan years 2016 through 2020 with consideration of whether any conditions have changed that would be expected to produce different results in the future. The study showed the prior actuary's assumption to be appropriate, and it was not changed.

Spousal Assumptions

75% of employees are assumed to be married.

Wives are assumed to be three years younger than their husbands.

The spousal assumption is based on an experience study conducted in 2022 for plan years 2016 through 2020 with consideration of whether any conditions have changed that would be expected to produce different results in the future.

Form of Payment

Participants elect optional forms of payment at the following rates:

- 45% elect a Single Life Annuity
- 25% elect a 50% Joint & Survivor Annuity
- 30% elect a 100% Joint & Survivor Annuity

The form of payment assumption is based on an experience study conducted in 2022 for plan years 2016 through 2020 with consideration of whether any conditions have changed that would be expected to produce different results in the future.

Retirement Rates Age 65.

An experience analysis with respect to retirement was not performed. As a result, the current assumption has been selected based on observations of recent retirements, the actuary's experience with plans of a similar size, plan design, workforce composition, and discussions with the Plan Sponsor.

Spousal Assumptions 75% of employees are assumed to be married.
Wives are assumed to be three years younger than their husbands.

The spousal assumption is based on an experience study conducted in 2022 for plan years 2016 through 2020 with consideration of whether any conditions have changed that would be expected to produce different results in the future.

Form of Payment Participants are assumed to elect a 3-Year Certain & Continuous Annuity, the normal form of payment.

An experience analysis with respect to form of payment was not performed. As a result, the current assumption has been selected based on observations of recent elected form of payments, the actuary's experience with plans of a similar size, plan design, workforce composition, and discussions with the Plan Sponsor.

SUMMARY OF METHODS

Actuarial Cost Method

The Pension Protection Act (PPA) requires the calculation of the Target Liability and Target Normal Cost. The Target Liability represents the present value of benefits accumulated as of the valuation date. The present value is calculated by projecting future payments of the accrued benefit, adjusting for probability of receipt according to demographic assumptions, and discounting the payments back to the valuation date using the segment interest rates. Payments expected within five years of the valuation date are discounted using the first segment rate, payments expected at least five but within 20 years of the valuation date are discounted using the second segment rate, and payments expected at least 20 years from the valuation date are discounted using the third segment rate. The calculation of the Target Normal Cost is identical, except that the future payment stream is based on the benefit expected to accrue during the plan year.

Asset Method

We used financial data submitted by the trustee as of the valuation date without further audit. We have reviewed the information for internal consistency, and we have no reason to doubt its substantial accuracy.

Funding Actuarial Value of Assets Method

The Actuarial Value of Assets is determined by averaging three market values: the market values as of the current year valuation date, and the two market values at each of the prior two years' valuation dates. The two prior year market values are adjusted for any benefit payments, expenses, contributions, and expected returns that occurred between their respective valuation dates and the current year valuation date. The Actuarial Value of Assets is adjusted to be no greater than 110% and no less than 90% of the market value of assets as of the current year valuation date.

Accrued contributions are discounted back to the valuation date at the prior year's effective interest rate.

Changes in methods since the prior valuation

None.

Fiberweb**General Information - For the Former Participants of Amended and Restated Fiberweb Retirement Plan**

Original Effective Date 4/4/1990

Eligibility All employees of the Employer age 21 or older are eligible to participate in the Plan as of January 1st or July 1st next following the completion of one Year of Service.

No new participants will enter the plan after April 2, 2004.

Years of Service For employment after participant's effective date in the plan, a Year of Service is credited for each plan year in which an employee works 1,000 hours. For employment prior to a participant's effective date in the plan, Service is credited according to the terms of the prior plan.

Non-highly compensated Participants who reach age 55 with ten Years of Vesting Service before April 2, 2004 received an extra three Years of Benefit Service, not to exceed 35 years.

Service is frozen for benefit accrual purposes as of April 2, 2004.

Average Compensation The average of the highest consecutive 60 months of compensation paid after December 31, 1988 and prior to April 2, 2004.

Normal Retirement Date Normal Retirement Date is the attainment of age 65 and five years of plan participation.

Normal Retirement Benefit The amount of annual benefit at Normal Retirement Date is:

- (1) 1.05% of Final Average Earnings, plus
- (2) 0.65% of Final Average Earnings in excess of 2003 covered compensation
- (3) times Years of Benefit Service, not to exceed 35. (Note: for all terminations of employment prior to January 1, 2000, the maximum Years of Benefit Service is 30 years.)

For former participants of the Fiberweb North American Retirement Plan for Hourly Employees at Simpsonville, the accrued benefit as of December 31, 1991 shall be added to the benefit calculated above based on service after December 31, 1991.

For prior Veratec participants, the accrued benefit as of July 31, 1998 shall be added to the benefit calculated above based on service after July 31, 1998.

For former participants of the Prior James River Plan, the accrued benefit will not be less than the accrued benefit as of April 4, 1990.

For former participants of the International Paper Company Plan (salaried or non-union hourly), the accrued benefit as of January 1, 1998 shall be added to the benefit calculated above based on employment after July 31, 1998.

For former participants of the BBA Nonwovens Retirement Plan for Union Employees of Lewisburg, Pennsylvania or the Retirement Plan for Union Employees at Athens, Georgia, accrued benefits are determined by the formula in the applicable plan.

Delayed Retirement

A participant may continue in the employment of the Employer after his Normal Retirement Date. In such event, he will receive, at actual termination of employment, the greater of the actuarial equivalent of his Normal Retirement Benefit or the benefit based on service and compensation as of actual retirement date, not to exceed the benefit as of April 2, 2004.

Early Retirement Benefit

Eligible upon completion of ten Years of Service and the attainment of age 55. Early Retirement Benefits are multiplied by the applicable factor (interpolated for partial ages) from the following table:

Age	Factor	Age	Factor
64	0.934	59	0.634
63	0.866	58	0.600
62	0.800	57	0.566
61	0.738	56	0.534
60	0.676	55	0.500

An employee whose employment with Fiberweb, Inc. is terminated as of December 30, 2011 and who becomes employed by FitesaFiberweb, Inc. on December 31, 2011 is deemed to have met the ten year service requirement for early eligibility.

Benefits accrued under prior plans will be reduced for early retirement according to the provisions of those prior plans.

Disability Benefit

An active participant who becomes totally and permanently disabled before his Normal Retirement Date will receive, upon cessation of Long Term Disability, a benefit computed in the same manner as Early Retirement Benefits, but with service added from date of disability to the date benefits commence.

Death Benefit

If a vested participant should die prior to retirement, his spouse shall be entitled to the vested accrued benefit as of the date of death, but payable as if the participant had elected payment to begin on his earliest retirement date in the form of a joint and 50% survivor benefit.

In no event shall a participant receive less than the employee contributions with interest.

Severance Benefit

Upon termination of employment after five years of Vesting Service, a participant shall have a vested interest in his accrued benefit, which will be payable at Normal Retirement Date. The percentage vested shall be:

Years of Vesting Service	Vested Percent
Fewer than five	0%
Five or more	100%

All active employees are 100% vested as of April 2, 2004.

Normal Form of Payment

The Normal Form of Benefit is an annuity paid in monthly installments for life, or if married, an actuarially equivalent Joint & 50% Survivor Annuity.

Optional Forms of Benefit

All Optional Methods of Settlement are actuarially equivalent to the Normal Form of Payment.

- (1) A reduced benefit to be paid during the participant's lifetime with 50%, 75%, or 100% of the reduced benefit to be continued to his spouse for her lifetime after his death.
- (2) A reduced benefit to be paid for 120 or 240 months certain and thereafter for life.
- (3) A lump sum benefit if the value is between \$1,000 and \$10,000.

Optional Forms of Benefit are actuarially equivalent to the Normal Form of Benefit based on the UP84 Unisex Table, set forward one year in age and a 7.00% interest rate, and for Beneficiaries UP84 Unisex Table, set back four years in age, at 7.00% interest. Lump sum actuarial equivalence is based on the Applicable Mortality Table and the Applicable Interest Rates as defined under IRS Section 417(e). The lookback month is August and the stability period is the plan year containing the annuity start date.

Cash Out of Small Pensions

Notwithstanding any other plan provision, if the actuarial equivalent value of a pension payable to a participant is less than \$1,000, the benefit will be paid out as a mandatory lump sum payment.

Brookville**General Information - For the Former Participants of Berry Global, Inc. Pension Plan for Brookville (PA) Union Employees**

Original Effective Date 6/2/2014

Eligibility All hourly employees whose terms and conditions of employment are subject to the collective bargaining agreement of the employer and hired before August 1, 2011 are eligible to participate in the Plan.

Years of Service Service shall equal total years of service with the Employer. A Year of Service is credited for each plan year in which an employee works 1,000 hours. Fractional Years of Service shall be calculated for a full-time employee in completed years and months.

All Years of Service credited to an individual under the O-I Plan as of July 31, 2007 shall be credited as Years of Service under this Plan. All Years of Service credited to an individual under the Rexam Pension Plan as of August 1, 2007 shall be credited as Years of Benefit Service under this plan.

As of October 31, 2015, Benefit Service is frozen.

Annual Credit Factor Amount listed applicable to the participant as of the participant's retirement, or in case of termination of employment prior to retirement, as of the date when the participant is no longer accruing Years of Benefit Service:

<u>Job Class</u>	<u>On or after August 1, 2013</u>
A	\$50
B	\$51
C	\$52

Normal Retirement Date The first of the month coinciding with or next following age 65.

Normal Retirement Benefit The monthly benefit for a participant whose service is terminated on or after his Normal Retirement Date shall be equal to the Annual Credit Factor multiplied by the participant's Years of Service, less the retirement benefit or vested benefit payable to the participant under the O-I Plan in effect as of July 31, 2007 and any of its predecessor plans, determined as if the participant terminated employment under the O-I Plan as of July 31, 2007 (or as of any earlier date of termination under the O-I Plan with respect to a rehired eligible employee), and began receiving payment of benefits from the O-I Plan at the same time retirement benefits or vested benefits are paid from this Plan.

Delayed Retirement A participant may continue in the employment of the employer after Normal Retirement Date.

Early Retirement Benefit Upon the completion of ten Years of Service and the attainment of age 55 or attainment of age 60, a participant may elect to retire. He may receive an immediate benefit equal to the Normal Retirement Benefit reduced by 1/2 of 1% for each month in which the participant commences to receive benefit prior to age 60. Employees are eligible to retire with unreduced benefits after attaining age 60 or attaining age 55 with 30 Years of Service or terminated employment due to a permanent plant shut down after completion of at least 30 Years of Service. The O-I Plan benefit is reduced as it would have been in the O-I Plan had the participant terminated on July 31, 2007 and retired on the early retirement date.

Disability Benefit A participant who terminates service due to a total and permanent disability and has completed ten Years of Benefit Service before his Normal Retirement Date will receive, upon the cessation of long term disability, a benefit computed in the same manner as Early Retirement Benefits.

Death Benefit If death occurs while actively employed and having obtained age 35 with ten Years of Benefit Service, the surviving spouse is entitled to the greater of:

- A) 50% of the participant's accrued monthly Normal Retirement Benefit calculated as of the date of death with no reduction for payment prior to the participant's Normal Retirement Date or,
- B) The Qualified Pre-retirement Survivor Annuity.

Otherwise, the surviving spouse of a participant with a vested accrued benefit is entitled to a monthly annuity equal to 50% of the amount payable to the participant under the 50% joint and survivor annuity payable as if the participant had separated from service at the time of death and began receiving benefits at the later of age 55 or current age and died immediately thereafter.

In the event of death occurring after having commenced benefits and prior to receipt of at least 72 monthly payments to the participant, the remainder of the 72 payments shall be paid to the beneficiary.

Severance Benefit Upon termination of employment after five years of Vesting Service, a participant shall have a vested interest in his accrued benefit, which will be payable at Normal Retirement Date. The percentage vested shall be:

Years of Vesting Service	Vested Percent
Fewer than five	0%
Five or more	100%

Normal Form of Benefit The Normal Form of Benefit is an annuity paid in monthly installments for life, or if married, an actuarially equivalent Joint & 50% Survivor Annuity.

Optional Forms of Benefit

The options are:

- (1) A reduced benefit to be paid during the participant's lifetime with 66-2/3, 75%, or 100% of the reduced benefit to be continued to the beneficiary for life after his death.
- (2) A lump sum benefit if the value is less than \$5,000.

Optional Methods of Settlement are actuarially equivalent to the Normal Form of Payment based on the 1971 TPF&C Forecast Mortality Table Without Set Back used for both men and women and a 6% interest rate. Lump sum actuarial equivalence is based on the Applicable Mortality Table and the Applicable Interest Rates as defined under IRS Section 417(e). The lookback month is August and the stability period is the plan year containing the annuity start date.

Additional Information

The above description is a summary only; for additional details, reference should be made to the formal Plan Document.

Poly-Bond**General Information - For the Former Participants of Poly-Bond, Inc. Retirement Plan**

Original Effective Date	4/1/1998
Eligibility	Each employee is eligible to participate on his date of employment. Participation in the plan was frozen effective December 31, 1999 for Salaried employees and December 31, 2003 for Hourly employees.
Vesting Service	Total years of service with the Employer. A year of Vesting Service is credited for each plan year in which an employee works 1,000 hours.
Credited Service	A full year of Credited Service is credited for each plan year in which an employee has at least 1,000 hours. A fractional year of Credited Service is credited (as hours of service divided by 1,000) for any plan year in which an employee has less than 1,000 hours if it was the employee's year of hire, year of rehire, or year of termination of employment. Credited Service is frozen for Salaried employees as of December 31, 1999 and for Hourly employees as of December 31, 2003.
Final Average Earnings	The average of the five consecutive full plan years of compensation within the 10 consecutive full calendar years immediately preceding the date on which the benefit is determined which provides the greatest average earnings.
Accrued Benefit	The Accrued Benefit is equal to the Normal Retirement Benefit using the Final Average Earnings and years of Credited Service as of the date of termination.
Normal Retirement Date	Normal Retirement Date is the first day of the month coincident with or next following the attainment of age 65 and five years of Plan Participation.
Normal Retirement Benefit	1% of Final Average Earnings times years of Credited Service plus .5% of the excess, if any, of the Final Average Earnings over the greater of \$10,000 or 1/2 of Covered Compensation for a person attaining Social Security retirement age during the year of determination times years of Credited Service up to a maximum of 35 years. Benefits for Salaried employees were frozen as of December 31, 1999 and benefits for Hourly employees were frozen as of December 31, 2003. In no event will the normal retirement benefit be less than the Accrued Benefit determined as of December 31, 1993.
Delayed Retirement	A participant may continue in the employment of the Employer after his Normal Retirement Date. In such event, he will receive, at actual retirement, the greater of the actuarial equivalent of his Normal Retirement Benefit or the benefit based on Credited Service and Final Average Earnings as of actual retirement date.

Early Retirement Benefit

Upon the completion of five years of Vesting Service and the attainment of age 55, a participant may elect to retire. He may receive an immediate benefit equal to the Normal Retirement Benefit based on Credited Service and Final Average Earnings at early retirement, reduced by 5/12% for each month by which the annuity starting date precedes his Normal Retirement Date.

For participants in the Poly-Bond Pension Plan on December 31, 1993 and credited with at least one Hour of Service on or after January 1, 1994:

- (a) A Participant who is entitled to an Early Retirement Benefit shall receive the greater of the Early Retirement Pension described above or the participant's Accrued Benefit determined as of December 31, 1993 and reduced for early retirement in accordance with Section 5.3 of the Poly-Bond Pension Plan.
- (b) If a Participant has attained age 55 and the sum of the Participant's age in whole number and Credited Service equals or exceeds 85, the Accrued Benefit is determined as of the participant's Early Retirement Date with no reduction.

Disability Benefit

A participant who terminates service due to a total and permanent disability and has completed ten Years of Benefit Service before his Normal Retirement Date will receive, upon the cessation of long term disability, a benefit computed in the same manner as Early Retirement Benefits.

Death Benefit

If death occurs while actively employed and having obtained age 35 with ten Years of Benefit Service, the surviving spouse is entitled to the greater of:

- a) 50% of the participant's accrued monthly Normal Retirement Benefit calculated as of the date of death with no reduction for payment prior to the participant's Normal Retirement Date or,
- b) The Qualified Pre-retirement Survivor Annuity.

Otherwise, the surviving spouse of a participant with a vested accrued benefit is entitled to a monthly annuity equal to 50% of the amount payable to the participant under the 50% joint and survivor annuity payable as if the participant had separated from service at the time of death and began receiving benefits at the later of age 55 or current age and died immediately thereafter.

Severance Benefit

Upon termination of employment after five years of Vesting Service, a participant shall have a vested interest in his accrued benefit, which will be payable at Normal Retirement Date. The percentage vested shall be:

Years of Vesting Service	Vested Percent
Fewer than five	0%
Five or more	100%

Normal Form of Benefit

The Normal Form of Benefit is an annuity paid in monthly installments for life, or if married, an actuarially equivalent Joint & 50% Survivor Annuity.

Optional Forms of Benefit

The options are:

- (1) A reduced benefit to be paid during the participant's lifetime with 66-2/3, 75%, or 100% of the reduced benefit to be continued to the beneficiary for life after his death.
- (2) A lump sum benefit if the value is less than \$5,000.

Optional Methods of Settlement are actuarially equivalent to the Normal Form of Payment based on the UP-84 table (male and female rates) and a 6.50% interest rate. Lump sum actuarial equivalence is based on the Applicable Mortality Table and the Applicable Interest Rates as defined under IRS Section 417(e). The lookback month is August and the stability period is the plan year containing the annuity start date.

Washougal**General Information - For the Former Participants of Fiberweb Washougal, Inc. Retirement Plan for Hourly Employees at Washougal**

Original Effective Date 4/4/1990

Eligibility All employees of the Employer age 21 or older are eligible to participate in the Plan after completion of one year of service. Employees are eligible to enter on January 1 or July 1 following the completion of the above. In no event shall an employee have to wait more than five years to enter the Plan.

As of January 31, 2010, the Plan is closed to new entrants.

Service Service shall equal total years, months, and days of service with the Employer. A year of Service is credited for each Plan Year in which an employee works 1,000 hours.

Service is frozen for benefit accrual purposes as of January 31, 2010.

Normal Retirement Date Attainment of age 65.

Accrued Benefit Schedule of benefit rates per year of Service payable at age 65 for life as shown in Schedule of Benefits below.

Normal Retirement Benefit Schedule of benefit rates per year of service payable at age 65 on a lifetime only basis. See attached Schedule of Benefits.

Severance Benefit Upon termination of employment after five years of Vesting Service, a participant shall have a vested interest in his accrued benefit, which will be payable at Normal Retirement Date. The percentage vested shall be:

Years of Vesting Service	Vested Percent
Fewer than five	0%
Five or more	100%

Delayed Retirement A participant may continue in the employment of the Employer after his Normal Retirement Date. In such event, he will receive, at actual retirement, the benefit based on Service and compensation as of actual retirement date.

Early Retirement Benefit

A participant's optional early retirement date shall be upon the attainment of age 55 and service as indicated below:

<u>Age</u>	<u>Service</u>
55-57	15
58	14
59	10
60	5

If the payment date precedes the Normal Retirement Date, the benefit will be reduced by 3% for each year early. However, if payments begin after a participant attains age 62 with 15 years of service, there will be no reduction for early payment.

Effective December 10, 2011 active employees of FitesaFiberweb Washougal, Inc. are deemed to have met the service requirement for early retirement eligibility.

Death Benefit

If a vested active participant should die prior to retirement, his spouse shall be entitled to the vested accrued benefit as of the date of death, but payable as if the participant had elected payment to begin on his earliest retirement date in the form of a Joint and 100% Survivor benefit. In no event shall a participant receive less than the employee contributions with interest.

If a participant dies after retirement and at the time of retirement they were an eligible employee, the beneficiary will receive \$1,000.

Normal Form of Benefit

The Normal Form of Payment is an annuity paid in monthly installments for life, or if married, an actuarially equivalent Joint & 50% Survivor Annuity.

Optional Forms of Benefit

All Optional Methods of Settlement are actuarially equivalent to the Normal Form of Payment. If a married participant does not elect the Normal Form of Payment or does not elect one of the Optional Methods of Settlement described below, then the participant's retirement benefit shall automatically be paid as a Qualified Joint and Survivor Annuity. The options are:

- (1) A reduced benefit to be paid during the participant's lifetime with 50%, 75% or 100% of the reduced benefit to be continued to his spouse for her lifetime after his death.
- (2) A reduced benefit to be paid for 120 months certain and thereafter for life.
- (3) An increased benefit is paid to the participant prior to age 62, with such benefit being reduced at age 62 to reflect the Social Security income for the life of the participant, or for the life of the participant with 50% after death for the subsequent lifetime of the surviving spouse.

Optional Methods of Settlement are actuarially equivalent to the Normal Form of Payment based on the 1951 GAM Table weighted at 80% male and 20% female and a 4.25% interest rate, compounded annually. Lump sum actuarial equivalence is based on the Applicable Mortality Table and the Applicable Interest Rates as defined under IRS Section 417(e). The lookback month is August and the stability period is the plan year containing the annuity start date.

The benefit may commence as early as age 55, reduced by 0.50% per month by which commencement of payments precedes Normal Retirement Date.

Normal Form of Benefit The Normal Form of Payment is an annuity paid in monthly installments for life with 36 payments guaranteed, or if married, an actuarially equivalent Joint & 50% Survivor Annuity.

Optional Forms of Benefit

All Optional Methods of Settlement are actuarially equivalent to the Normal Form of Payment. If a married participant does not elect the Normal Form of Payment or does not elect one of the Optional Methods of Settlement described below, then the participant's retirement benefit shall automatically be paid as a Qualified Joint and Survivor Annuity. The options are:

- (1) A reduced benefit to be paid during the participant's lifetime with 50% or 75% of the reduced benefit to be continued to his spouse for her lifetime after his death.
- (2) A reduced benefit to be paid for 120 months certain and thereafter for life.
- (3) A single life annuity payable for the lifetime of the participant.
- (4) A single lump sum payment.

Optional Methods of Settlement are actuarially equivalent to the Normal Form of Payment based on 1971 GAM (two-year setback) and a 6.00% interest rate. Lump sum actuarial equivalence is based on the Applicable Mortality Table and the Applicable Interest Rates as defined under IRS Section 417(e). The lookback month is August and the stability period is the plan year containing the annuity start date.
