INDEPENDENT AUDITORS' REPORT

To the Participants and the Trustees
Brewery Conference/Anheuser-Busch Defined Benefit Pension Plan

Opinion

We have audited the financial statements of the Brewery Conference/Anheuser-Busch Defined Benefit Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of September 30, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Brewery Conference/Anheuser-Busch Defined Benefit Pension Plan as of September 30, 2023 and 2022, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Brewery Conference/Anheuser-Busch Defined Benefit Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Brewery Conference/Anheuser-Busch Defined Benefit Pension Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Brewery Conference/Anheuser-Busch Defined Benefit Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Brewery Conference/Anheuser-Busch Defined Benefit Pension Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of September 30, 2023 and the schedule of reportable transactions for the year ended September 30, 2023, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for reporting and Disclosure under ERISA.

Columbus, Ohio
July 15, 2024

Certain assumptions are prescribed as noted below. The other assumptions are estimates derived from historical and recent experience as well as market observations, combined with professional judgment about future expectations.

Interest:

The interest rates used for the 2022 plan year are the 24-month average corporate bond segment rates for October 2022 (no lookback) subject to interest rate stabilization. Under stabilization, the interest rates used for funding purposes are calculated in the usual manner (24-month average corporate bond rates) but are then constrained to be within a corridor around the greater of 5.00% and a 25-year average of those same bond rates. For 2022, the stabilization corridor is 5%. Under current law, it is scheduled to remain at 5% through 2030, then increase by 5% per year until it reaches 30% for the plan year beginning in 2035. The rates are as follows:

	Payments in the First 5 Years	Payments in Years 6 – 20	Payments Thereafter	Effective Interest Rate
Current Year, reflecting stabilization	4.75%	5.18%	5.92%	5.41%
Current Year, without stabilization	1.57%	3.21%	3.66%	3.32%
Prior Year, reflecting stabilization	4.75%	5.36%	6.11%	5.58%
Prior Year, without stabilization	1.01%	2.65%	3.34%	2.89%

The interest rates used to determine the PBGC variable-rate premium are:

	Payments in the First 5 Years	Payments in Years 6 – 20	Payments Thereafter
Current Year	4.48%	5.26%	5.07%
Prior Year	0.70%	2.55%	3.06%

These interest rates are based on the plan sponsor's election for the 2013 plan year and are subject to the constraints established by law.

Mortality rates for healthy participants:	RP-2006 separate employee and annuitant healthy mortality tables (sex-specific) projected generationally using scale MP-2020 (previously, MP-2019). This assumption is one of the choices allowed by the regulations.

The above assumption was adopted effective October 1, 2020, based on a March 8, 2021 review of the assumed rates compared to historical experience. In light of the plan provisions and professional judgment, these assumed rates reflect a reasonable expectation for the future.

Retirement from inactive status:				
	Group:	St. Louis	Columbus	Jacksonville
	Age	Age 65 or 55 with 15 or more years of Credited Service	Age 65 or 55 with 15 or more years of Vesting Service	Age 65 or 55 with 10 or more years of Service
	Based on a review of the assumed ages compared to historical experience, in light of the plan provisions and professional judgment, these assumed ages reflect a reasonable expectation for the future.			
Percent married:	85%.			
Spouse gender:	100% opposite sex.			
Age difference:	Male spouses are assumed to be four years older than female spouses.			
Form of payment election:	70% of participants are assumed to elect a lump sum payment. As prescribed by regulation, lump sums are valued based on the interest rate implied by the funding yield curve and the 2023 mandated mortality table for lump sum conversion. For the remaining 30%, 75% of participants are assumed to elect a 50% joint and survivor annuity; 25% of participants are assumed to elect a single life annuity. 100% of disabled participants under Normal Retirement Age are assumed to re-elect a lump sum at age 65. The above assumption was adopted effective October 1, 2020, based on a March 8, 2021 review of the assumed election percentages compared to historical experience. In light of the plan provisions and professional judgment, these assumed election percentages reflect a reasonable expectation for the future.			
Administrative expenses:	Plan-related expenses of \$2,713,000 are expected to be paid by the plan during the year.			
Weeks worked (for St. Louis employee contributions):	50 Based on a review of the assumed weeks worked compared to historical experience, in light of professional judgment, the assumed number of weeks worked reflects a reasonable expectation for the future.			
Interest crediting rate on St. Louis employee contributions:	3.94%			
Unknown data for participants:	Same as those exhibited by participants with similar known characteristics. If not specified, participants are assumed to be male.			
Maximum deductible contribution cushion benefit increases:	The average annual increase in benefits over the 6 immediately preceding plan years is as follows: St. Louis: 0.48%; Columbus: 0.40%; Jacksonville: 0.40%			

Definition of active participants:	Those who have contributions made on their behalf in the plan year ended immediately prior to the valuation date.
Asset method:	As selected by the plan sponsor, assets as of the measurement date are determined by averaging the market value as of the valuation date and the adjusted market values as of the preceding two years. The resulting value is limited to between 90% and 110% of the market value of assets. The adjusted market values reflect cash flow and expected earnings to the valuation date. The expected earnings are based on assumed rates of return of 5.84% and 5.59% for the plan years ended September 30, 2021 and September 30, 2022, respectively, not to exceed the applicable third segment rates of 6.27% and 6.11%, respectively.
Funding method:	<p>Funding method is unit credit actuarial cost method, as prescribed by law. The liability is measured on an accrual-to-date basis using mandated mortality tables and interest rates with no benefit projection past the end of the year.</p> <p>If all assumptions are met (including the investment earnings implicitly assumed by the interest rate), funding the plan at the minimum required contribution level is generally designed to achieve a 100% funded status within fifteen years. Once that is achieved, the required contribution will generally equal the target normal cost reduced by any overfunding.</p>

Segal valuation results are based on proprietary actuarial modeling software. The actuarial valuation models generate a comprehensive set of liability and cost calculations that are presented to meet regulatory, legislative and client requirements. Our Actuarial Technology and Systems unit, comprising both actuaries and programmers, is responsible for the initial development and maintenance of these models. The models have a modular structure that allows for a high degree of accuracy, flexibility and user control. The client team programs the assumptions and the plan provisions, validates the models, and reviews test lives and results, under the supervision of the responsible actuary.

Average retirement age for Schedule SB, line 22:	63, determined as follows: The individual weighted-average retirement age for each participant is calculated as the sum of the product of every potential retirement age times the probability of retirement at that age. The overall weighted-average retirement age is the average of the individual weighted-average retirement ages based on all active participants included in the October 1, 2022 actuarial valuation.

INDEPENDENT AUDITORS' REPORT

To the Participants and the Trustees
Brewery Conference/Anheuser-Busch Defined Benefit Pension Plan

Opinion

We have audited the financial statements of the Brewery Conference/Anheuser-Busch Defined Benefit Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of September 30, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Brewery Conference/Anheuser-Busch Defined Benefit Pension Plan as of September 30, 2023 and 2022, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Brewery Conference/Anheuser-Busch Defined Benefit Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Brewery Conference/Anheuser-Busch Defined Benefit Pension Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Brewery Conference/Anheuser-Busch Defined Benefit Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Brewery Conference/Anheuser-Busch Defined Benefit Pension Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of September 30, 2023 and the schedule of reportable transactions for the year ended September 30, 2023, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for reporting and Disclosure under ERISA.

1. PLAN DESCRIPTION:

The following description of the Brewery Conference/Anheuser-Busch Defined Benefit Pension Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan which was established pursuant to collective bargaining agreements in order to provide pension benefits for eligible employees within the bargaining units represented by participating unions.

Effective January 1, 2015, Anheuser-Busch, LLC (the Employer), International Brotherhood of Teamsters Local No. 6, as successor to the International Brotherhood of Teamsters Bottlers Local No. 1187 (Union 6), International Brotherhood of Teamsters Local No. 284 (Union 284) and International Brotherhood of Teamsters Local No. 947 (Union 947) entered into an agreement whereby the following defined benefit plans were merged: (a) International Brotherhood of Teamsters Bottlers Local No. 1187 Pension Plan, (b) Anheuser-Busch/Teamster Local Union No. 284 Pension Plan, and (c) Anheuser-Busch/Local 947 Pension Plan (collectively, the Prior Plans). This Plan, formerly the International Brotherhood of Teamsters Bottlers Local No. 1187 Pension Plan, is the surviving plan of the merger. Additionally, the name was changed to the Brewery Conference/Anheuser-Busch Defined Benefit Pension Plan.

The adoption of the Plan as of January 1, 2015 did not change the formulas for determining the benefits of participants as they existed under the Prior Plans. The most significant change as part of the merger of the Prior Plans was the amendment to close the Plan to new employees hired after February 28, 2019.

Prior to January 1, 2015, the Plan operated under an agreement between Anheuser-Busch, LLC and the International Brotherhood of Teamsters Local No. 6.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility

Union 284 and Union 947: Each employee who is a member of these Unions becomes a participant in the Plan as of the day he or she first becomes a full-time employee if hired before February 28, 2019.

Union 6: Each employee of this Union, hired before February 28, 2019, who has met certain employment requirements and made appropriate written application to the Joint Board of Trustees (the Board) is eligible to participate in the Plan.

Funding policy

Plan contributions, which are funded by the Employer and participants, are determined as specified in the collective bargaining agreement between the Employer and the Unions.

Employer contributions are based on the respective collective bargaining agreements between the Employer and the Union and are made in amounts sufficient to meet the collective bargaining agreements and to fund the actuarial liability for minimum contributions. The Unions also make contributions for certain employees. The collective bargaining agreements do not preclude the Plan sponsor from designating a contribution to a single plan year as allowed under ERISA, so long as the contributions required under the collective bargaining agreements are met. The Plan has satisfied the minimum funding requirements established by ERISA and did not exceed the Employer's maximum deductible contribution for the year.

Vesting

Participants are 100% vested in their accrued benefit after five years of vesting service with the Employer or upon reaching age 65. A year of vesting service accrues for each calendar year in which a participant is credited with 1,000 hours of service or more.

Payments of benefits

A retiree will receive a monthly benefit equal to the product of the number of years of credited service times the unit of monthly pension in effect at the time of retirement. Effective July 1, 2019, participants may elect a lump sum equivalent of their monthly benefit. The Plan also provides early, deferred vested, death and disability retirement benefits to participants meeting certain eligibility requirements. A participant who retires before or after his or her normal retirement date is entitled to a monthly retirement benefit determined in accordance with the provisions covering his or her early or deferred retirement date. A participant's normal retirement date is the first day of the month coincident with or next following the date he or she attains age 65.

Plan administration

The Plan is administered by the Board, which consists of representatives of the Unions and the Employer.

The Plan's trustee is the Bank of New York Mellon (the Trustee). The Trustee's responsibilities are to ensure the collection and safekeeping of contributions, to secure experienced investment counsel, to invest funds, to value those investments and to act as the custodian for certain investments selected by the Board.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The following accounting principles and practices of the Plan are set forth to facilitate the understanding of data presented in the financial statements:

Basis of accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefit payments to participants are recorded upon distribution.

Administrative expenses

Administrative fees of the Plan may be paid from the assets of the Plan to the extent permitted under ERISA. Expenses not paid by the Plan are paid by the Employer and are not included in these financial statements.

Subsequent events

The Plan has evaluated subsequent events through July 15, 2024, the date the financial statements were available to be issued.

3. CONTRACT WITH INSURANCE COMPANY:

The Plan holds a group annuity contract (GAC) with John Hancock Life Insurance Company (U.S.A.) (the Insurance Company). This contract was originally effective on December 1, 1975 for purposes of providing retirement benefits in accordance with the provisions of the Plan. The GAC is comprised of separate accounts. The Insurance Company guarantees the future retirement benefits of certain amounts as listed in Appendix B to the contract.

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 inputs are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2023 and 2022.

- *Interest bearing cash*: Valued at cost, which approximates fair value.
- *Money market fund*: Valued at \$1 per share which approximates fair value.
- *Separate account*: Valued at the net asset value (NAV) which is based on the fair value of the underlying securities of the account. The NAV, as provided by the fund trustee, is used as a practical expedient to estimate fair value. The practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. The investment objective of the account is to generate a high rate of total return consistent with prudent investment risk, through investment in a diversified portfolio of debt securities. There are no unfunded commitments related to the separate account and units are redeemable at NAV.
- *Commingled trust funds*: Valued at the NAV which is based on the fair value of the underlying securities in the funds. The NAV, as provided by the fund trustee, is used as a practical expedient to estimate fair value. The practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. There are no unfunded commitments related to the funds and units are redeemable at NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2023 and 2022:

5. ACCUMULATED PLAN BENEFITS:

The actuarial present value of accumulated plan benefits as of October 1, 2022 is as follows:

Vested benefits:	
Participants and beneficiaries currently receiving payments	\$ 412,127,726
Other participants	<u>147,489,815</u>
	<u>559,617,541</u>
Nonvested benefits	<u>13,050,546</u>
	<u>\$ 572,668,087</u>

Changes in actuarial present value of accumulated plan benefits during the year ended October 1, 2022 is as follows:

Actuarial present value of accumulated plan benefits - beginning of year	\$ 636,209,423
Increase (decrease) during the year attributable to:	
Interest accumulated	32,458,460
Benefits accumulated and actuarial experience	14,470,676
Change in actuarial assumptions	(25,444,731)
Benefits paid	<u>(85,025,741)</u>
Actuarial present value of accumulated plan benefits - end of year	<u>\$ 572,668,087</u>

Accumulated plan benefits are those future periodic payments under the Plan's provisions for the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employee or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations were as follows as of October 1, 2022:

- *Mortality*—
 - Healthy lives: Pri-2012 blue collar employee, retiree, and contingent survivor amount-weighted tables, sex-distinct, projected generationally using scale MP-2021
 - Disabled participants: Pri-2012 Disabled Retiree amount-weighted table, sex distinct, projected generationally using Scale MP-2021 for disabled participants.
- *Form of benefit payment*- 70% of participants are assumed to elect a lump sum payment and of the remaining 30%, 75% are assumed to elect Joint and Survivor Annuity and 25% elect Single Life Annuity.
- *Percent married and spousal age relationship*- 85% married for male and female participants, husbands four years older than their wives.

- *Investment return rate* – 5.50%, net of assumed administrative expenses of 0.09%.
- *Retirement Age – Active* - Ages 55 to 69 based on expected retirement rates.
- *Retirement Age – Inactive* – Age 55 with 15 or more years of service (except for Union 947 which is age 55 with 10 or more years of service) (otherwise age 65).
- *Assumed single rate equivalent lump sum interest rates* – 4.75% as of October 1, 2022, 5.25% as of October 1, 2023 and thereafter (previously 2.75% as of October 1, 2021, 3.00% as of October 1, 2022, 3.25% as of October 1, 2023, 3.50% as of October 1, 2024, and 3.50% as of October 1, 2025 and thereafter)

The valuation method used is the unit credit actuarial cost method. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

6. INCOME TAX STATUS:

The Internal Revenue Service (IRS) determined and informed the Plan in a letter dated October 28, 2013, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes the Plan is qualified and the related trust is tax-exempt.

7. PLAN TERMINATION:

Although the Employer and Unions have not expressed any intention to do so, the Employer and Unions have the right under the Plan to agree to terminate the Plan, subject to the provisions set forth in the Plan document and ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated for payment in order of priority determined in accordance with ERISA, applicable regulations there under, and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

8. RISKS AND UNCERTAINTIES:

The Plan invests in various investment options. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

9. PARTY-IN-INTEREST TRANSACTIONS:

Certain Plan investments are held and managed by Bank of New York Mellon, the trustee of the Plan. Certain Plan investments are in a separate account held by John Hancock Life Insurance Company (U.S.A.), a custodian of certain Plan assets. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. Transactions involving these investments and expenses qualify as party-in-interest transactions which are exempt from the prohibited transaction rules. Fees incurred by the Plan for investment management services totaled \$112,093 and \$122,831 for the years ended September 30, 2023 and 2022, respectively.
