Independent Auditors' Report

To the Benefits Compliance Review Committee and Participants of
Aramark Hourly 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Aramark Hourly 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of September 30, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended September 30, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of September 30, 2023 and 2022, and for the year ended September 30, 2023, stating that the certified investment information, as described in Note 9 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Baker Tilly Advisory Group, LP and Baker Tilly US, LLP, trading as Baker Tilly, are members of the global network of Baker Tilly International Ltd., the members of which are separate and independent legal entities. Baker Tilly US, LLP is a licensed CPA firm that provides assurance services to its clients. Baker Tilly Advisory Group, LP and its subsidiary entities provide tax and consulting services to their clients and are not licensed CPA firms.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules, Schedule H, Line 4(a) – Schedule of Delinquent Participant Contributions and Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of and for the year ended September 30, 2023, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of the Plan

The following description of the Aramark Hourly 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan available to nonsalaried nonunion employees at substantially all locations of Aramark Services, Inc. (the Company). Each location's agreement adopting the Plan must be approved by the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan's investments are held in the Aramark Master Trust (Master Trust), which was established for the investment of assets of the Plan, the Aramark Retirement Savings Plan for Salaried Employees and the Aramark Uniform and Career Apparel Group Retirement Savings Plan. Effective September 24, 2023, the Aramark Uniform and Career Apparel Group Retirement Savings Plan is no longer within the Master Trust.

On January 1, 2023, participant account balances from the Next Level Hospitality Services 401(k) Profit Sharing Plan and Trust were transferred into the Plan in the amount of $258.

From time to time, participants become eligible to participate in one of the other Company's sponsored plans in the Master Trust, and these participants may be eligible to have their account balance transferred to the plan in which they currently participate. There were $68 in transfers out, net to other Aramark Services, Inc. qualified plans in 2023.

The Plan's Benefits Compliance Review Committee is responsible for oversight of the Plan. The Benefits Compliance Review Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Company's Board of Directors.

Contributions

Specific requirements for participation in the Plan are detailed in each location's adoption agreement. Generally, participation may begin upon completion of one year of service. Certain locations require, as a condition of participation, that contributions range from 1% to 50%. In accordance with the adoption agreement in effect for each location, the Company may provide a matching contribution, or a contribution based on a designated percentage of each participant's eligible compensation or may elect no contribution. Participants direct the investment of all contributions into various investment options offered by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Contributions are subject to certain Internal Revenue Service (IRS) limitations. The Plan provides for Company contributions to consist of cash. The Company matches a percentage of eligible employee contributions which varies by profit center, as defined in the plan document.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and the Plan's earnings, and charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, or account balances or specific participant transactions, as defined by the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their own contributions plus actual earnings thereon. Vesting percentages in the Company's contributions are 10% vested after one year of service, 20% vested after two years of service, 40% vested after three years of service, 60% vested after four years of service, 80% vested after five years of service and fully vested after six years of service, as defined by the plan document.

Notes Receivable from Participants

Participants may borrow from their investment fund accounts a minimum of $500 up to a maximum of $50,000, but not more than 50% of their vested account balance. Interest rates are based on the prime rate published in the Wall Street Journal at inception of the loan. Interest rates on outstanding notes as of September 30, 2023 ranged from 3.25% to 8.50%. Interest is charged, then credited back to the participant's account as the loan is repaid. The note must be repaid within five years, unless the note is for the purchase of a primary residence, which can be repaid over a period of 15 years. No more than one outstanding note is permitted at any given time. The notes are secured by the balance in the participant's account.

Payment of Benefits

Upon termination of service for any reason, a participant is eligible to receive their vested interest in his or her account in a lump sum payment. In addition, the Plan allows for hardship distributions if certain criteria are met. Participants may elect to receive their vested interest in his or her account in installments over a period not to exceed 20 years or partial lump sum payment no less than $250.

Forfeited Accounts

When certain distributions to terminated participants occur, the nonvested portion of the participant's account, as defined, represents a forfeiture. Forfeitures of nonvested participants' balances are used to offset the Company's contribution and/or expenses related to the administration of the Plan. No forfeitures were used to offset Company contributions for the year ended September 30, 2023. Forfeitures of approximately $211 were used to pay administrative expenses for the year ended September 30, 2023. At September 30, 2023 and 2022, available forfeited nonvested accounts totaled approximately $1,311 and $1,247, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's interest in the Master Trust is presented at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Benefit Compliance Review Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, trustee and insurance companies. In instances where quoted market prices are not available, the fair value of investments is estimated primarily by independent insurance companies. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's interest in gains and losses on investments bought and sold as well as held during the year in the Master Trust.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. Interest income is recorded on the accrual basis. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded. No allowance for credit losses has been recorded as of September 30, 2023 and 2022.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments in the Master Trust.

Payment of Benefits

Benefits paid to participants are recorded when paid.

Reclassifications

Certain prior year financial statement amounts have been reclassified to conform to the current year's presentation.

Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through July 12, 2024, the date the financial statements were available to be issued.

On January 1, 2024, participant account balances from the Union Supply Company, Inc. 401(k) Profit Sharing Plan were transferred into the Plan.

3. Divided Interest in Master Trust

The Plan's investments are held in the Master Trust, which was established for the investment of assets of the Plan and several other Company sponsored retirement plans. Each participating retirement plan has a divided interest in the Master Trust. The specific investments of each plan are held by the Master Trust which is administered by Fidelity Management Trust Company (the Trustee).

The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's specific investments in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Total investment income (including net appreciation of the fair value of investments) and administrative expenses of the Master Trust are allocated to the individual plans based upon the market value of each plan's investments. Although the investments of the various plans are commingled in the Master Trust, the Trustee maintains separate supporting records for the purpose of tracking the individual activity of each plan.

The following table presents the investments and other assets and liabilities of the Master Trust and the Plan's divided interest as of September 30, 2023:

	Master Trust Balances	Plan's Interest in Master Trust Balances
Mutual funds	$ 175,732	$ 13,547

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Master Trust assets.

4. Fair Value Measurement

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2023 and 2022.

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Commingled funds are valued at the daily closing price as reported by the fund. These funds are required to publish their daily NAV and to transact at that price. The commingled funds held by the Plan are deemed to be actively traded.

The collective trust funds are valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the funds less its liabilities. This practical expedient is not used when it is determined to be probable that the funds will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trusts, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The brokerage link consists of Level 1 investments, primarily of cash and cash equivalents, a money market fund, mutual funds and exchange-traded funds, which are valued at quoted market prices in an active market.

Investments Measured Using NAV Per Share Practical Expedient

The following table summarizes investments for which fair value is measured using NAV per share practical expedient as of September 30, 2023 and 2022. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

	September 30, 2023			
	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Collective trust fund	$ 39,380	N/A	Daily	30 days
Target date collective trusts	587,318	N/A	Daily	None

	September 30, 2022			
	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Collective trust fund	$ 47,414	N/A	Daily	30 days
Target date collective trusts	721,431	N/A	Daily	None

5. Fully Benefit-Responsive Investment Contract

The Master Trust holds the Interest Income Fund (the IIF). The IIF is a synthetic contract managed by the Trustee. The IIF meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions, plus earnings, less participant withdrawals and administrative expenses. The key difference between a synthetic contract and a traditional investment contract is that the Plan owns the underlying assets of the synthetic investment contract. A synthetic investment contract includes a wrapper contract, which is an agreement for the wrap issuer, such as a bank or insurance company, to make payments to the Plan in certain circumstances. The IIF invests in securities and investment contracts offered by major insurance companies and other approved financial institutions, and short-term instruments to provide liquidity needs. The securities are wrapped by an insurance company or other financial institutions. The wrap contracts are designed to allow the fund to maintain a constant net asset value and to protect the fund in extreme circumstances. In a typical wrap contract, the wrap issuer agrees to pay the fund the difference between the contract value and the market value of the covered assets once the market value has been totally exhausted. Though relatively unlikely, this could happen if the fund experiences significant redemptions during a time when the market value of the fund's covered assets is below their contract value, and market value is ultimately reduced to zero. If that occurs, the wrap issuer agrees to pay the fund an amount sufficient to cover shareholder redemptions, provided all the terms of the wrap contract have been met.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. Wrap contracts accrue interest using a crediting rate formula, which is the discount rate that equates the estimated future market value with the fund's current contract value. The average yield of the investment portfolio earned by the Plan for 2023 and 2022 was 2.04% and 1.47%, respectively. The crediting interest rates are reset periodically and generally cannot be less than 0%. The crediting rate, and hence the fund's return, may be affected by many factors, including purchases and redemptions.

As described in Note 2, the Statements of Net Assets Available for Benefits presents the contract value of the fully benefit-responsive investment contracts. Interest on the investments of the IIF is allocated to the participating plans on a pro rata basis.

As of September 30, 2023 and 2022, the Plan's pro rata share of the assets in the IIF was 21% and 13.9%, respectively. The IIF is credited with earnings of the underlying investments and charged for plan withdrawals and administrative expenses. The contract values included in the fund were approximately $98,274 and $160,806 at September 30, 2023 and 2022, respectively.

A wrap issuer may terminate a wrap contract at any time. In the event that the market value of the fund's covered assets is below their contract value at the time of such termination, the Trustee may elect to keep the wrap contract in place until such time as the market value of the fund's covered assets is equal to their contract value.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. issuer. Such events include (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA (5) premature termination of the contract.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without the consent of the issuer.

6. Related-Party and Party in Interest Transactions

Certain of the Plan's investments in the Master Trust are managed by the Trustee, and therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment manager services are included in net appreciation in the fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. Additionally, the Plan issues loans to participants, which are secured by the participant's account balances. These transactions qualify as party in interest transactions.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their Company contributions.

8. Tax Status

The IRS has determined and informed the Company by a letter dated May 1, 2017, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore, believes that the Plan is qualified and the related trust is tax exempt.

U.S. GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Information Certified by Trustee

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2023 and 2022. Accordingly, the Trustee of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of September 30, 2023 and 2022, the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of September 30, 2023, and the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits for the year ended September 30, 2023.

10. Risks and Uncertainties

The Plan invests in a Master Trust, which holds various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Market risks include global events which could impact the value of the investment security such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

As of September 30, 2023 and 2022, the Master Trust had investments of $298,297 and $377,376, respectively, that were concentrated in one fund.

11. Delinquent Participant Contribution

For the year ended September 30, 2023, the Company did not remit certain participant contributions to the Plan on a timely basis as defined by the Department of Labor’s Rules and Regulations for Reporting and Delinquent Participant Contributions Disclosure under ERISA. Untimely remittances identified on the Schedule H, Line 4(a) – Schedule of Delinquent Participant Contributions, which totaled $95, will be self-corrected in 2024. Additionally, the Company will compensate participants for lost earnings resulting from the delay in contributions.
