Report on the Audits of the Financial Statements

Opinion

We have audited the accompanying financial statements of the Long-Term Growth Equity Portfolio, Long-Term Growth Fixed-Income Portfolio, and Liability Focused Fixed-Income Portfolio (collectively, the Portfolios), each a Portfolio within the Pentegra Retirement Trust (the Trust), which comprise the statements of assets and liabilities in liquidation, including the schedules of investments in liquidation as of June 30, 2023, and the related statements of operations in liquidation, statements of changes in net assets in liquidation, and financial highlights for the year then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position in liquidation of the Portfolios as of June 30, 2023, and the results of their operations for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audits of the Financial Statements* section of our report. We are required to be independent of the Portfolios and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis of Accounting

As described in Note 2 to the financial statements, Pentegra Retirement Trust's Board of Directors approved a plan of liquidation on March 16, 2023, and, accordingly, the Portfolios' financial statements are prepared on the liquidation basis of accounting. Generally accepted accounting principles require financial statements to be prepared on the liquidation basis of accounting when an entity is in liquidation or when liquidation is imminent. Our opinion is not modified with respect to that matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibilities for the Audits of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Portfolios' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control related matters that we identified during the audits.

Total return is calculated based on the change in net asset value per unit during the year and is reflected after all investment related and operating expenses. The information reflected above is calculated for all of the unitholders by class taken as a whole. An individual unitholder's results may vary based on a variety of factors, including the timing of capital transactions.

⁽²⁾The liquidation of units for Long-Term Growth Equity and Liability Focused Fixed-Income was on trade date May 19, 2023 at the final NAV/unit May 18, 2023. The liquidation of units for Long Term Growth Fixed-Income was on May 18, 2023 at the final NAV/unit of May 17, 2023.

⁽³⁾The ratios are calculated based on average net assets for the fiscal year through the date of the liquidation of units of each portfolio. Expense and net investment income ratios do not reflect the Portfolios' proportionate share of income and expenses of the underlying investment funds.

1. ORGANIZATION

The Pentegra Retirement Trust (the "Trust") is comprised of three unitized, diversified portfolios (each a "Portfolio" or "Portfolios"), created by the Board of Trustees of the Trust (the "Trustees"), and established on February 3, 2014 in connection with a private offering of units of beneficial interest in the separate Portfolios of the Trust, a New York common law trust. Each Portfolio has a distinct investment objective and strategy. Pentegra Investors, Inc. ("PII" or "Investment Adviser"), an SEC registered investment advisor, manages each of the Portfolios and selects the underlying investments, which may include mutual funds and other commingled funds or collective investment funds. The Bank of New York Mellon acts as the Trust's custodian and portfolio administrator (the "Portfolio Administrator") for the Portfolios.

Units in the Portfolios (the "Units") are offered and sold only to those investors who are eligible (the "Participating Plans") as described in the February 2014 Confidential Private Placement Memorandum ("PPM") for the Trust. The Units are not registered under the Securities Act of 1933, as amended ("Securities Act"), the securities laws of any state or the securities laws of any other jurisdiction, nor is such registration contemplated. Neither the Trust nor any Portfolio is registered as an investment company under the Investment Company Act of 1940, as amended. The Units may be redeemed through the Trust but are not transferable. No public market for the Units exists or is expected to develop in the future.

The following describes the individual Portfolios, as set forth in the PPM:

Long-Term Growth Equity Portfolio ("LTGE") – This Portfolio seeks to achieve its objectives via investment in a number of actively and passively managed equity-focused mutual funds and collective investment funds. The LTGE Portfolio holds a diversified mix of equity funds in order to gain exposure to the U.S. and non-U.S. equity markets, including the emerging markets. In aggregate, the funds in which the LTGE Portfolio invests hold stocks across the investment style and market capitalization spectrums. The LTGE Portfolio also includes an allocation to a cash equivalents fund for liquidity purposes.

Long-Term Growth Fixed-Income Portfolio ("LTGFI") – This Portfolio seeks to achieve its objectives via investment in a number of fixed-income mutual funds and collective investment funds. One or more of the underlying funds held by the LTGFI Portfolio primarily invests in domestic intermediate-term investment grade bonds, but may also invest primarily or opportunistically in high yield and non-U.S. debt, including emerging markets debt. The Investment Adviser may opportunistically add an allocation to long duration bond funds as deemed appropriate. The LTGFI Portfolio also includes an allocation to a cash equivalents fund for liquidity purposes.

Liability Focused Fixed-Income Portfolio ("LFFI") – This is a diversified Portfolio that seeks to achieve its objectives via commingled investment funds that invest in high quality, long duration fixed-income securities. The LFFI Portfolio also includes an allocation to a cash equivalents fund for liquidity.

On March 16, 2023, The Board of Trustees approved the dissolution of the Trust effective June 30, 2023.

Notes to Financial Statements in Liquidation

June 30, 2023

For each of the three Portfolios, the underlying funds and investments, and the asset allocation among such funds and investments, may change from time to time, as determined by the Investment Adviser in its sole discretion.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Accounting

The Portfolios' financial statements have been prepared on the liquidation basis of accounting in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The Portfolios are considered investment companies under U.S. GAAP and follow the specialized accounting and reporting guidance in the Financial Accounting Standards Board Accounting Standards Codification ("FASB ASC") 946, Financial Services – Investment Companies, including liquidation-basis adjustments required by Subtopic 205-30, Liquidation Basis of Accounting.

The Board of Trustees decided to dissolve the Trust and liquidate the capital balances of the Trust and transfer the assets to qualified successor plan of the investors. On March 16, 2023, the Board of Trustees approved a plan to dissolve the Trust in an orderly manner. Thus, the liquidation became imminent, and the Trust adopted the liquidation basis of accounting, whereby assets are measured at the estimated amount of cash or other consideration and liabilities are a measurement of estimated amount of obligations due third parties and unit holders that the Trust expects to include through the end of its liquidation. These estimated amounts are undiscounted and are recorded to the extent the Trust has a reasonable basis for estimation.

Under the plan of liquidation, the Trust redeemed the remaining units to the investors and will use the remaining short-term investments to settle the Trust's remaining obligations with a final distribution occurring once all obligations are settled. The Investment Advisor anticipates that the liquidation of the Trust will be completed on or about September 30, 2023.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Portfolios' Investment Adviser to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported results of operations during the reporting year. Actual results could differ from those estimates.

Risk and Uncertainties

Investment securities are exposed to various risks, such as market volatility, stock selection, inflation risk, credit risk and interest rate risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the fair values of the investment securities will occur in the near term and that such change could materially affect the amounts reported in the financial statements.

Short-Term Investments

A portion of any Portfolio may be held in cash equivalents or in a money market fund that complies with Rule 2a-7 for government money market funds. Cash equivalents are

interest-bearing instruments or deposits maturing within three months or less in which funds are invested temporarily pending long-term investment or in which funds reinvested when necessary for liquidity reasons or when market conditions warrant a temporary defensive investment strategy.

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividend income is recorded on the ex-dividend date.

Realized gains and losses on the sales of investments are recorded as the difference between proceeds received and cost. Cost is determined on an average cost basis. Net appreciation or depreciation on investments includes realized gains and losses and the unrealized change in the fair value of securities held as of the year ended June 30, 2023.

Investment Valuation

The Portfolios record investments at fair value. Current market prices are used to value fund assets. In the absence of an ascertainable market value, assets are valued at their fair value as determined by the Portfolios' Portfolio Administrator or officers of the Trust using methods and procedures reviewed and approved by the Trustees in accordance with U.S. GAAP. Investments denominated in foreign currencies, if any, are valued in United States dollars at the prevailing rates of exchange. Because foreign markets may trade when U.S. markets are closed, the value of securities may change while purchases or redemptions are not available. A more detailed description of the individual types of securities and fair value measurement methods can be found in Note 4.

Distributions

It is the policy of each Portfolio to earn current income for reinvestment and further accumulation of assets. Generally, liquidity is available to Participating Plans through the right to make redemptions from their investment allocation to the Portfolios in accordance with the PPM. As of June 30, 2023, all remaining units are redeemed from the Trust in liquidation.

Income Allocation

Net income or loss is allocated daily to the Participating Plans for each Portfolio using the Participating Plans' pro rata capital balances in the Portfolios. As of June 30, 2023, the portfolios accrued estimated interest income based on expected interest income on holding the investments through the estimated time to complete the plan of liquidation.

Unit Valuations

The valuation of a unit is based on the fair value of investments added to the uninvested cash, receivables, and accrued income, less outstanding liabilities, divided by the total number of outstanding units on each valuation date. As of June 30, 2023, through liquidation all units have been redeemed for which there is no unit value.

Expenses

In accordance with the PPM, the Trust may charge the Portfolio for miscellaneous expenses incurred in the investment and administration of the Portfolios including, but not

limited to, advisory and financial statement audit fees, as the Trust deems prudent. At June 30, 2023, the Trust accrued estimated liquidation costs for investment advisory fees and professional fees to be incurred through the estimated date of liquidation. The estimated liquidation costs were based on historical information, expected future events, specified contractual obligations and the estimated time to complete the plan of liquidation.

Subscriptions and Redemptions

Subscriptions to and redemptions from the Portfolios are effective as of the end of each trade date. Written notices of intention to purchase or redeem Portfolio units received by 3:00 PM (Eastern Time) on the trade date are processed as of that day, at the prior business day's net asset value per unit. Unit holders participate in income (loss) generated by the Portfolios beginning the day following admittance to the Portfolios through the date of withdrawal from the Portfolios. As of June 30, 2023, the Trust is in liquidation and all subscriptions are suspended indefinitely. Estimated redemptions after June 30, 2023 have been accrued and are based on estimated proceeds from the sale of remaining investments subsequent to the settlement of all expenses in liquidation and will be allocated to the unit holders according to their respective interests in the Portfolios through the liquidation date.

Statement of Cash Flows

Each Portfolio has elected not to provide a statement of cash flows as permitted by FASB ASC 230, Statement of Cash Flows, as all of the following conditions have been met:

- a. During the year, substantially all of each Portfolio's investments were carried at fair value and classified as level 1 measurement in the fair value hierarchy or valued using NAV as a practical expedient and are redeemable in the near term at all times in accordance with FASB ASC 820, Fair Value Measurements and Disclosures.
- b. Each Portfolio had little or no debt during the year.
- c. Each Portfolio provides a statement of changes in net assets.

3. PURCHASE AND REDEMPTION OF UNITS

The value of Units, upon subscription to or redemption from a Portfolio, will be the prior day's ending NAV per Unit most recently determined following the receipt of instructions for a subscription or redemption. The units are not transferable or assignable. Transactions for the year ended June 30, 2023 are as follows:

4. FAIR VALUE MEASUREMENTS

ASC 820 provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the “exit price”) in an orderly transaction between market participants at the measurement date. The three levels of input are:

Level 1 - Unadjusted quoted prices for identical assets or liabilities in active markets that the Portfolios have the ability to access at the measurement date.

Level 2 - Observable inputs other than quoted prices within level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 - Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

Asset Valuation Techniques

Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets at fair value:

Mutual Funds – Valued at net asset value (“NAV”), using the daily closing price as reported by the fund. Mutual funds held by the Portfolios are open-end management investment companies registered under the Investment Securities Act of 1940, as amended (the “Act”). The funds are required to publish their daily net asset value and to

PORTFOLIOS WITHIN PENTEGRA RETIREMENT TRUST

Notes to Financial Statements in Liquidation

transact at that price and are classified within level 1. Mutual funds can be redeemed daily and with no restrictions.

Short-Term Investments – Valued at the daily closing price as reported by the funds. The funds are required to publish their daily net asset value and to transact at that price. The funds are classified within level 1 and can be redeemed daily with no restrictions.

Collective Investment Funds – Valued at NAV, using the practical expedient that is calculated by the investment manager or sponsor of each fund and is based on the fair value of the underlying net assets of each fund. The funds can be redeemed daily with 0 – 2 days' notice, with no restrictions.

Investments in other investment funds are valued as a practical expedient, utilizing the NAV provided by the underlying funds, without adjustment, when the NAV of the investments are calculated in a manner consistent with U.S. GAAP for investment companies. The Portfolios apply the practical expedient to the categories of investments listed above and consistently with the Portfolios' entire position in a particular investment, unless it is probable that the Portfolios will sell a portion of an investment at an amount different from the NAV or in other situations where the NAV is not available.

The Portfolios do not ordinarily declare and pay dividends on their investment income. Income earned on investments in a Portfolio are included in the total value of such Portfolio's investment at fair value.

The following table sets forth by level within the fair value hierarchy a summary of the Portfolios' investments measured at fair value on a recurring basis as of June 30, 2023.

	Quoted Prices in Active Markets for Identical Assets (Level 1)	2023 Total
Long-Term Growth Equity Portfolio		
Short-Term Investment	\$ 25,383	\$ 25,383
Total Investments in the fair value hierarchy	\$ 25,383	25,383
Investments, at fair value		\$ 25,383
Long-Term Growth Fixed-Income Portfolio		
Short-Term Investment	\$ 20,339	\$ 20,339
Total Investments in the fair value hierarchy	\$ 20,339	20,339
Investments, at fair value		\$ 20,339

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. For the year ended June 30, 2023, there were no transfers between levels.

5. FEDERAL INCOME TAX STATUS

The Trust provides certain qualified trusts, the Participating Plans, as further described in Internal Revenue Service ("IRS") Revenue Ruling 81-100, with a means to pool their funds for investment. The Trust is exempt from federal income taxes under Section 501(a) of the Internal Revenue Code ("IRC"). The Trust limits participation to pension or profit-sharing plans that are qualified under Section 401(a) of the IRC that are tax-exempt under Section 501(a) of the IRC, and to state or local government plans. Accordingly, no provision has been made in the accompanying financial statements for federal and state income taxes.

In accordance with U.S. GAAP, the Portfolios recognize the tax benefits of certain tax positions only when the position is "more likely than not" to be sustained assuming examination by federal tax authorities. The tax benefit recognized is the largest amount of benefit that is greater than 50 percent likely of being realized upon ultimate settlement.

The Investment Adviser believes that the Portfolios are currently operating in compliance with the requirements. Pursuant to the subject IRS Revenue Ruling, the Portfolios will file and pay income tax on any Unrelated Business Taxable Income ("UBTI"). As part of a group trust, the Portfolios are not required to file income tax returns unless they incur UBTI.

The Trust has received a favorable determination letter from the IRS on its tax status.

6. MANAGEMENT FEES, OTHER EXPENSES AND RELATED PARTIES

Each Portfolio incurs expenses for the investment advisory fees charged by the external managers of funds in which the Portfolio is invested and professional fees. Those expenses are operating expenses of each Portfolio, reducing the net asset value of Units held. The amounts expensed during the year and any related unpaid liability are shown as investment advisory fees in each respective Portfolio's statement of operations in liquidation and statement of assets and liabilities in liquidation.

The Trust charges each Participating Plan a trust fee as compensation for management, administration and recordkeeping services of the Trust (the "Trust Fee"). The Trust Fee is charged to each Participating Plan depending on the level of administrative, recordkeeping and actuarial services provided to the Participating Plans at an annual rate of 0.20% to 0.80% as a percentage of assets under management.

The Board of Trustees of the Trust includes executive officers of Participating Plans invested in the Portfolios. The Trust has a servicing and recordkeeping contract with Pentegra

Services, Inc. ("PSI"). PII, a subsidiary of PSI, is the investment adviser of the Portfolios and the Trust. PSI and PII are compensated for their services outside of the Portfolios. PSI and PII were each compensated for their services outside of the Portfolios in the amount of \$452,476 for the fiscal year ended June 30, 2023.

The Investment Adviser may have discretion to allocate a Participating Plan's investments amongst the Portfolios.

7. INDEMNIFICATIONS

Liability of Investors

Participating Plans may be subject to liability for obligations of the Trust under the laws of some jurisdictions. Therefore, the Trust Agreement contains a disclaimer of liability of Participating Plans and requires notice of such disclaimer be given in each obligation entered into or executed by the Trustees. It also provides for an indemnification out of Trust property for any Participating Plan held liable for the obligations of the Trust.

Indemnification of the Trustees and Officers

The Trust indemnifies and holds harmless the Trustee and officers of the Trust from and against any expenses, costs or damages incurred in connection with any action, suit or proceeding as long as such person has not acted with willful misfeasance, bad faith, gross negligence or reckless disregard of the duties involved in the conduct of his office. The Trust may advance to the Trustees and officers' reasonable attorneys' fees and other costs and expenses incurred in connection with the defense of any action or proceeding which arises out of conduct that is the subject of indemnification. Trustees and officers shall be indemnified only as permitted under the applicable provisions of Title I of ERISA. The Portfolios' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Portfolios that have not yet occurred. Based on experience the Portfolios expect the risk of loss to be remote.

8. SUBSEQUENT EVENTS

The Investment Adviser of the Portfolios has evaluated events or transactions that have occurred since June 30, 2023 through September 18, 2023, the date the financial statements in liquidation were available for issuance and has determined that there are no material events that would require disclosure in the Portfolios' financial statements.
